THE Board of Inspectors of Check Lists give notice that they will be in session at the City building, Wednesday, October 27th, Tuesday, October 26th, and, Saturday, October 30th, 1880, from 9 o'clock A. M., to 12 M., and from 2 to 4 o'clock P. M., on each of said days for the purpose of revising and correcting the list of voters.

They will also be in session at the same place from 4 to 10 A. M., and from 1 to 2 o'clock P. M., on the day of election for the purpose of furnishing certificates to any person whose name may have been omitted and whom the Board are satisfied has resided in the ward one year next preceeding said election.

Per order of the Board of Inspectors of Check Lists. J. H. GARDINER, *Clerk.*

AROUND HOME.

The democratic campaign clubs of this city hsd a torchlight procession Thursday evening.

Portsmouth, Great Falls & Conway railroad bonds sold at the brokers' board in Boston, Oct. 27th, at eighty-six.

The schooner Maud E. Wetherell, Hontyet master, was loading with apples at Tredick's wharf on Thursday of this week, bound to Prince Edward's island.

A foot ball match at Exeter, Oct. 27th, between the Phillips academy eleven and the Harvard freshmen eleven, was won by the home team by one goal and one touchdown to nothing.

It is announced that Rev. E. Owen of this city, late pastor of the Free Baptist church, has accepted a call to the pastorate of the Free Baptist church at Lyndon Center, Vt., and is to begin his labors there on the first Sunday in November.

The *Times* is busily engaged in attempting to bulldoze the board of inspectors of checklists by covert threats of what terrible things will occur if the democrats cannot have their own way. We have not heard that it has established a panic as yet.

"Fun on the Bristol," at Music hall on Wednesday evening of this week, occasioned a good deal of mirth; there is plenty of "fun" in the piece, though some of the humor is not of the most refined character. The audience was nothing more than a fair one in point of numbers.

At the annual meeting of the Exeter Manufacturing company, on Wednesday of this week, Ebenezer Dale of Boston, Hervey Kent of Exeter, Nathaniel W. Farewell of Lewiston, Thomas Appleton of Marblehead, and Wm. J. Dale, Jr., of Andover, were chosen directors; Ebenezer Dale, president; and Hervey Kent, treasurer.

On Thursday afternoon, Oct. 21st, a gentleman named Richards, between sixty and seventy years of age, a resident of Chelsea, Mass., met with a severe and it is feared fatal accident in Newmarket, very near the place where Rev. Mr. Ruland was injured some years ago. He was driving in a top-buggy, canvassing for the Boston *Cultivator*, when his horse took fright at a train of cars and plunged down a bank, smashing the buggy, and injuring the driver's head and cracking one of his shoulder blades. The horse was not seriously hurt.

Active operations for the removal of Gangway rock commenced this week. On Tuesday a heavy trussed platform about twenty-five feet square was bolted together across the deck of the sloop C. T. Denny. At high tide the sloop was taken over the rock, and stout iron bars were put down through each corner of the platform until they struck the solid bottom, when the platform was securely pinned to them, and as the tide fell the sloop was freed from the platform and hauled out from under it, leaving it in place for the workmen to stand upon while drilling.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, special meeting, Wednesday evening, Oct. 27th:

Supervisors of elections to serve in the several wards of the city were appointed, as follows:

Ward one, John W. Shannon and James F. Jenness;

Ward two, Wallace Hackett and Benjamin M. Parker;

Ward three, Charles W. Taylor and William Alton;

Ward four, John O. Ayers and John F. Marden.

Charles H. Menduni was granted permission to encumber Islington road for building purposes.

A potitioner was granted a relay of sidewalk on Daniel street.

Adjourned.

SUPREME COURT--CLARK, J.

THURSDAY, Oct. 28th.

Priscilla A. Lewis vs. Eastern Railroad Co. The trial of this case was continued. Late on Wednesday afternoon the defendants' counsel made a brief opening of their side, and several witnesses were examined. The defendants' theory was that the plaintiff's horse was frightened by a band which it encountered near the corner of Vaughan and Deer streets, and that the subsequent tipping of the carriage and spilling of the plaintiff was the consequence of that fright, and not on account of any noise which proceeded from the locomotive. In support of that idea evidence was offered to show that the locomotive did not blow off, any steam as alleged, that its steam guage indicated at that time a point far below that at which the steam blows off. and that the locomotive was not standing in the highway crossing in prominent view, but was back by the depot. The case was argued by Mr. Hatch for the railroad, and General Marston for the plaintiff, and was given to the jury about four o'clock in the afternoon on Thursday. The jury were out about an hour, and returned a verdict for Mrs. Lewis, assessing the damages at $1000.

This is the last case to be tried until after election, the court adjourning till Thursday, when the case of Samuel H. Goodall vs. Sewell B. Fowler will be tried.

Judge Clark will be here on Saturday for the purpose of disposing of a few cases of naturalization.

YORK COUNTY ITEMS.

The house and outbuildings of Octavus Ward of Wells were burned on the night of Oct. 26th. Insured $600.

The schooner Margie came off the Kittery railway last Thursday morning, and was towed across the river to load with apples for Baltimore.

The low water in the Saco river has caused a partial suspension of work on the Pepperell and Laconia corporations in Biddeford for several weeks past.

The schooner Bessie E. Dickenson, Capt. Miles Standish, arrived at the navy yard on the morning of the 28th inst., with 550 tons of coal for the department of equipment and recruiting.

The house of Mr. John Dudley, situated not far from Rogers' greenhouses in Kittery, took fire between twelve and one o'clock on the night of Oct. 27th, and was totally destroyed, with most of its contents. Loss on house, $800; insurance $600. There was also a small insurance on the furniture. One of the navy yard fire engines went to the place, but there being no water within reach could do no good.

Disastrous Fire.

The Ansonia Clock Company's extensive manufacturing establishment in Brooklyn, N. Y., was burned to the ground on the morning of Oct. 27th. Loss on building and stock, $750,000; insured $250,000. Five dwellings were damaged to the amount of $10,000. About 1,000 hands are thrown out of employment. The main building covered about fifty city lots. A number of private houses, occupied chiefly by employes of the factory, were badly damaged. Fifteen engines worked on the flames, but the fire was not stayed until everything upon which it could feed was destroyed. The fire was caused by an explosion of leaking gas, and spread quickly through the whole building. It appears that the company manufactured its own gas. The supply gave out, and the workmen neglected to turn off the stop-cocks; meanwhile the gas generator was kept going, and as soon as the supply was sufficient, the flow began again through the open jets, filling the building. The watchman entered the building with a lighted lantern, when a loud explosion occurred, and the flames immediately leaped out of the windows. Owing to the lack of engines the flames soon had full sway, and the immense building with its valuable machinery and stock was completely destroyed. Four dwellings adjacent were also burned. The factory had some of the finest improved machinery in the country, and had been in operation only about a year. Phelps, Dodge & Co. are reported heavily interested in the company. The company had 35,000 clocks ready to ship, which were all burned. The workmen owned valuable tools worth from $100 to $1,000 per set, and the loss falls heavily upon them.

Political Notes.

The democratic papers have had a good deal to say about Gen. Garfield being an honorary member of the Cobden club of England, the great free-trade-advocating organization. So he is; but he was made a member not because he was a free-trader, which he is not and never has been, but because of his speeches in favor of honest money at the time the democratic Congress was endeavoring to prevent the resumption of specie payments, and to flood the country with paper. And he has good company, for Samuel J. Tilden, Charles Francis Adams, S. S. Cox, David D. Field, William Dorsheimer, L. Q. C. Lamar, Manton Marble, Henry Watterson, David A. Wells, many other democratic magnates, are all honorary members of the Cobden club.

Kenward Philp, editor of *Truth*, the New York paper in which the forged "Chinese letter" was first made public, has been arrested on a charge of criminal libel against James A. Garfield. It is believed that Philp and "H. L. Morey" are one and the same person.

The Washington *Post* of Oct. 27th claimed Hancock's election by 185 electoral votes to 184 for Garfield. In this estimate it abandoned Indiana and Connecticut to the republicans, claiming New York, New Jersey, Nevada and the "solid south."

The Springfield *Republican*, one of those "independent" papers which are almost always able to detect a mote in the republican eye while utterly unable to detect the stick of timber in the democratic optics, says in a recent issue: "The democratic party is guttering out in the closing days of the campaign like a spent candle. To be defeated could be borne; parties have been defeated before and lost nothing but the election, but to go down slimed with forgeries, overladen with scandals, the honest and sober sense of the people against it, a great chance thrown away, the weakness and the stains of the republican record profiting nothing to opponents still worse off themselves—this is pitiable. There is and was work for a great party, true to democratic principle, but not by the democratic party as it stands."

The Fall River *Herald*, democratic, rebukes Father Sheridan, a Catholic priest in Connecticut, because he told the people of his flock that it is their privilege to vote as they please. The average democratic editor opposes both political liberty and political quality.—*Boston Traveller.*

New Hampshire Items.

The Manchester & Lawrence and the Concord (Concord & Nashua) railroads pay dividends of five per cent, Nov. 1st. The Nashua & Lowell road pays a dividend of three and a half per cent on the same date.

The governor and council were in session Wednesday, Oct. 27th. Oliver Pillsbury was appointed trustee of the state reform school. Most of the session was occupied with matters connected with the transfer of the new prison to the state by the commissioners.

Only Two.

A sad-nosed, red-eyed man stuck his head into the *Petroleum World* office and said:—

"There are only two public characters in this country that are not afraid of their records."

"Hancock and English, I suppose?" suggested a reporter.

"Naw, sir."

"Garfield and Arthur?"

"Naw, sir."

"Weaver and Chambers?"

"Naw, sir."

The reporter knew from the appearance of the stranger that it would be useless to suggest the prohibition candidates, and so gave it up, remarking that if there were two public characters in this country who were not ashamed of their records he would be glad to know it.

The stranger packed over the threshold, pulled the door almost to, and remarked in a stage whisper:

"Maud S. and St. Julien!"

KIDNEY-WORT

PERMANENTLY CURES

KIDNEY DISEASES,
LIVER COMPLAINTS,
Constipation and Piles.

DR. E. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGADON, of Portsdale, Ohio, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

"May God Bless and Reward You."

The physicians hear such a benediction sometimes, and it is very sweet even to a professional ear. Mrs. S. A. McIlwain, of Fergusonville, N. Y., wrote thus to Dr. David Kennedy, of Rondout, N. Y., after his "Favorite Remedy" had rescued her from the borders of death. In her spasms and sinking spells her friends often thought she was already dead. Women are often afflicted in this way. The trouble is commonly in the blood. Lose no precious time, dear women, but get the "Favorite Remedy" of your druggist, or enclose one dollar to the doctor at the above address.

Robert Lowe of West Albany, Minn., shot and instantly killed his wife and infant child and afterward blew his own brains out, Oct. 27th. Cause, domestic trouble.

WHEN MEN DESPAIR. There are diseases which, when they once get fairly "seated," cause the stoutest hearts to quail and give up to despair. Such a malady as Bright's Disease of the Kidneys is enough to take the heart out of the most hopeful of us all. Fortunately, for this terror a cure has been found. It is demonstrated that Hunt's Remedy, the Great Kidney and Liver Medicine, will cure Bright's Disease, and all kidney, bladder, liver and urinary diseases; and it is the only medicine that does.

Sold by all druggists. Trial size, 75 cts.

Three mills at Mechanicsville, N. J., which stopped a week ago in consequence of a scarcity of water, have resumed work.

Why suffer with dyspepsia, or many ailes caused by it, when D. R. V. G. is guaranteed by your own druggist to give satisfaction, or money refunded.

Ella Salinde, eight years of age, was left by her parents in charge of the house and two younger children, at Delphos, Ohio, on the evening of Oct. 26th. In attempting to put fuel on the fire she fell into it, and was found dead on the return of her parents.

Vitalizing, nourishing and stimulating, without intoxicating, are Malt Bitters.

A Railroad Dropping Out of Sight.

A curious phenomenon has occurred in the dropping out of sight of a piece of road near Ravenna, Ohio. About ten years ago there was settling in the road, but no great change occurred until last June, when, in a single night, that whole portion (eight rods) cracked squarely across the road and disappeared from sight, leaving the banks perpendicular and as smooth as though severed with a knife. While the strange submerging was taking place the south side of the road was forced up from beneath by some power to the height of nearly ten feet. Then, like a grand panoramic scene, it was slowly carried across to the north fence, then disappeared, its place being taken by more earth, which underwent a similar journey—seemingly attached to an unseen axle, and slowly revolving.

The next day a pond of water marked the place of those eight rods of roadbed, the depth of which was not nor has since been ascertained. The water came in in a stream the size of a barrel, but whence it came was a conundrum. The most astonishing feature was, however, the presence of a large number of fish—shiners, sun fish and rock bass, nearly all white in color, and had the appearance of coming from some sunless habitation, being sluggish in their actions. As these fish can only live in pure, healthy water, the basin where they now are must be furnished from such a source. As soon as the remarkable contortions ceased, the work of rebuilding was commenced. In all about 4,000 loads of gravel were thrown in. For the first few days load after load melted away like sugar, but at last it began to build, and gradually, foot by foot, the bed was established, and those engaged in the work began to think that the appetite of the "monster" had become appeased. A careful watch was kept until a recent Saturday, when the contractor, upon visiting the work, noticed a terrible commotion among the fish, turtles, snakes and frogs. The fish were leaping out of the water, turtles running hither and thither in alarm, snakes twisting and crawling about, angrily darting out their tongues. In an hour or so he noticed a "sinking spell" coming on, and almost immediately the whole rebuilt portion broke loose and seemed to dive forward and disappear.

Does the World Miss Any One?

Not long. The best and most useful of us will soon be forgotten. Those who today are filling a large place in the world's regard will pass away from the remembrance of men in a few months, or at the farthest, in a few years after the grave has closed upon their remains. We are shedding tears over a loved one made grave and wildly crying out in our grief that our loss is irreparable, yet in a short time the tendrils of love have twined around other supports, and we no longer miss the one that is gone. So passes the world. But there are those to whom a loss is beyond repair. There are men from whose memories no woman's smile can chase recollections of the sweet face that has given up all its beauty at death's icy touch. There are women whose plighted faith extends beyond the grave, and drives away as profane those who would entice them from a worship of their buried loves. Such loyalty, however, is hidden away from public gaze. The world sweeps on beside and around them, and cares not to look in upon this unobtruding grief. It carves a line and rears a stone over the dead, and hastens away to offer homage to the living.

—It is old-fashioned garden flowers which are still in demand at the florists except for weddings, when choicer blossoms are used. The bell has gone almost out of use as a decoration, and if somebody will invent something to supersede the horseshoe he will have the thanks of the decorators, to say nothing of the brides.

—A young man residing near Cleveland, says the *Voice*, has a pet dog, that is much in the habit of accompanying his owner in his travels. The man, until quite lately, has been a regular caller each Sunday afternoon at the residence of a young lady. For a few weeks past he has been absent, and consequently these visits have not been made, but it is said that "Sam," for that is the dog's name, makes the usual Sunday evening call just as regular as ever.

DAY'S Kidney PAD

A DISCOVERY BY ACCIDENT,

applying a want which men of eminent ability have devoted years of study and experiment to fill—a **specific for diseases of the Kidneys, Bladder, Urinary Organs and Nervous System**—and from the time of its discovery has rapidly increased in favor, gaining the approval and confidence of learned men and those who have used it. It has become a favorite with all classes and where ever introduced has superseded all other treatments. In short, such is its intrinsic merits and superiority, that it is the only recognized reliable remedy.

DISEASES OF THE KIDNEYS

are the most prevalent, dangerous and fatal affections that afflict mankind, and so varied and insidious in their character, that persons often suffer for a long time before knowing what ails them. The most characteristic symptoms are gradually wasting away of the whole body; pain in the back, side or loins, a weak, feeble, exhausted feeling, loss of appetite and dread of exercise; scanty and painful discharge of variously colored urine; inability to retain or expel the urine; minute shreds or casts in the urine; and, when the disease is of long duration, there is much emaciation and general nervous prostration.

THE ONLY CURE.

We say positively, and without fear of contradiction, that **DAY'S KIDNEY PAD** is the first and only infallible cure for every form of Kidney disease. It is the best remedy yet discovered for this complaint, and more effectual in its operation than any other treatment. By using faithfully and persistently no case will be found so inveterate as not to yield to its powerful remedial virtues.

STRONGLY ENDORSED.

We have the most unequivocal testimony to its curative powers from many persons of high character, intelligence and responsibility. Our book, "How a Life was Saved," giving the history of this new discovery, and a large record of most remarkable cures, will be sent free for the asking.

DAY'S KIDNEY PADS are sold by druggists, or will be sent by mail (free of postage) on receipt of their price: Regular size, $1.00. Special, for obstinate cases of long standing, $2.00; Children's, $1.50. Address,

DAY KIDNEY PAD CO., TOLEDO, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it due the afflicted to warn them. Ask for **DAY'S KIDNEY PAD,** take no other and you will not be deceived.

KNOW THYSELF.

The unbidden miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

HARPER'S YOUNG PEOPLE.

An Illustrated Weekly—

16 PAGES.

SUITED TO BOYS AND GIRLS OF FROM SIX TO SIXTEEN YEARS OF AGE.

Volume II. commences November 2, 1880.

NOW IS THE TIME TO SUBSCRIBE.

Within a year of its first appearance, Harper's Young People has secured a leading place among the periodicals designed for juvenile readers. The object of those who have the management in charge is to provide for boys and girls from the age of six to sixteen a weekly treat in the way of entertaining stories, poems, historical sketches, and other attractive reading matter, with profuse and beautiful illustrations, and at the same time to make its spirit and influence harmonize with the moral atmosphere which pervades every cultivated Christian household. This important design they endeavor to carry out by combining the best literary and artistic talent, so that fiction shall appear in bright and innocent colors, sober facts assume such a holiday dress as to be no longer dry or dull, and mental exercise, in the solution of puzzles, problems, and other devices, become a delight.

TERMS.

HARPER'S YOUNG PEOPLE Per Year, Postage Prepaid, $1.00.

Single numbers five cents each.

The bound volume for 1880, containing the first fifty-two numbers, will be ready early in November. Price, $5.00; postage prepaid. Cover for Young People for 1880, 35 cents; postage, 18 cents additional.

Remittances should be made by Post-Office Money-Order or Draft, to avoid chance of loss.

The Departmental Reports.

Our Washington correspondent writes us as follows:

All the departments of the government will send to the President this fall highly satisfactory reports. That of Secretary Sherman will of course attract most attention. It will be a remarkable paper—one the like of which was never issued in the history of the world. It will show such a reduction of the public debt and of the interest charge as will, when studied over, startle even those business men who keep watch of the financial affairs. Politicians will, of course, attribute the gratifying result to Providence or to the secretary's financial skill, or to the general quietness which some believe is a result of President Hayes' policy; but all will rejoice at the facts to be given.

The state department will report us "at peace with all the world and the rest of mankind," and will, it is hoped, be able to say that the proffered mediation of this government in the affairs of Chili and Peru has brought about peace between those belligerent nations.

The post-office department will tell us truly that it has given the country better postal service than ever before, and that the adverse balance, as to expenses, is less than in any recent year.

Secretary Schurz may have an Indian war to account for, but at this writing it is believed peace will be maintained with the Utes, and that the treaty which assures the permanent pacification of the tribe will be fully executed by the time the secretary puts the finishing touch on his annual report.

The war and navy departments have been economically conducted, and the official reports will be of a kind to please every citizen.

Attorney General Devens, it is understood, will make important suggestions as to the legislation necessary to protect the ballot-box, and his is the only official paper of the lot which is expected to provoke partisan attack in Congress.

GEORGIA, VT., Sept. 16.

I am glad to say a word that will encourage any person that may be suffering as I did for twelve years from piles, to give Kidney-Wort a trial. After suffering, as none but those who have been thus afflicted can realize, and trying various remedies prescribed by regular physicians, I was persuaded to buy four packages of Kidney-Wort. This was about eighteen months ago; and after using only one and a half packages I was cured. I have not since felt the need of more, but for fear I shall, I would not part with the balance of it on any account, if I supposed there would be any uncertainty of getting more.

James B. Doyle, recently arrested by government officials at Chicago with $204,000 in counterfeit United States bonds in his possession, waived examination, and was held for trial in $20,000 bail.

MESSRS. F. W. KINSMAN & Co., Gents.: I have sold your Adamson's Botanic Cough Balsam over my counter for nine years, and I must say that during an experience of twenty-six years in the retail drug business I have never sold anything for coughs, colds, etc., that has given such universal satisfaction as your Adamson's Botanic Balsam. I recommend it above all others.

Yours truly, S. CHICHESTER, 357 Myrtle Ave., Brooklyn, N. Y.

Advices from Ireland are to the effect that the disturbed condition of the country continues, and the excitement is increasing. A serious outbreak, or at least a series of assassinations, is anticipated at any moment.

Not a Beverage.

"They are not a beverage, but a medicine, with curative properties of the highest degree, containing no poor whiskey or poisonous drugs. They do not tear down an already debilitated system, but build it up. One bottle contains more hops, that is, more real hop strength, than a barrel of ordinary beer. Every druggist in Rochester sells them, and the physicians prescribe them."—*Evening Express* on Hop Bitters.

The loss by the great fire in Lynn is now put at $125,000.

Charles Hartman, Toledo, Ohio, says: I know it cured me, and I hope others similarly troubled with pain in the chest may be helped by the "Only Lung Pad" as I have. See Adv.

A train on the Memphis & Charleston railroad was stopped by a man who gave a danger signal with a flag. Then he took deliberate aim with a gun at the engineer, and killed him. He subsequently explained that he was hunting locomotives. He proved to be a lunatic.

D. R. V. G. is guaranteed by all druggists, to cure dyspepsia, or money refunded.

The Boston & Albany railroad pays a dividend of $1 a share Nov. 15th.

The careworn and overworked find comfort and strength in Malt Bitters.

Ezra H. Winchester.

At the head of the Garfield and Arthur electoral ticket in New Hampshire, is the name of a quiet, unassuming citizen of Portsmouth, who is not in any sense a political office-seeker, but to whom the nomination for this position came with spontaneous unanimity from one of the most intelligent and and patriotic bodies of men ever assembled under like circumstances in the Granite State.

In the contest of Tuesday it is not a question of men, but of principles; and yet voters look at the men placed in nomination, as representing ideas of government and foreshadowing proposed plans of legislation. On our ticket we have representative men who well sustain the republican idea of politics.

Mr. Winchester is a native of Massachusetts. In the early history of the gold discoveries of California, he went to that region, making the long voyage around Cape Horn under sail in an uncomfortable manner, and after reaching San Francisco, then in its infancy as a town, he formed copartnership with Mr. Charles Main, a native of Rochester; and both of these men, practical mechanics, have worked together "in harness" uninterruptedly ever since. They began of course in a small way, living in their shop and working early and late throughout the long days. Gradually they built up a business founded upon square dealing, prompt fulfillment of engagements, and faithfulness in their productions. The name of the firm "Main and Winchester" became familiar all up and down the Pacific coast, and throughout the rapidly developing state of California. Their commodities took and maintained the lead in the market. Their credit in the eastern states was as good as that of the Barings in London, and business increased, sustained by indomitable energy, shrewd tact and practical sagacity. The firm invested in real estate in the growing city of San Francisco, and become thoroughly identified with the property of the region then reached through the Golden Gate. Their history is but a series of business successes and prosperity, not resulting from speculations or accidental causes, but from the employment of uniform sound business principles.

Mr. Winchester married a neice of Mrs. Main, and that circumstance perhaps more than any other occasioned the purchase of his farm on Lafayette road in this city. A few years ago, from his excessively devoted attention to business, he found need of relaxation, and came to Portsmouth to enjoy his place, which by the enriching of its soil and proper drainage has become one of the finest farms in the state, for production of heavy crops. But it is not our purpose to write a sketch of Mr. Winchester, his rise and progress, his large business connections, or even his estate on Lafayette road, with its magnificent new mansion.

We call the attention of the voters of the state to the fact that like Aretas Blood, Mr. Winchester is a practical business man, who has achieved success unaided save by his own liberal brains and talents. Is it safe to vote, for President, as such men as Winchester, Blood, Eastman, Spalding and Tilton vote and think. They all represent the vigorous, progressive, industrial element in our country. They have each been successful in a legitimate and honorable business, and in the communities in which they dwell are respected and appreciated as men who in all the walks of life have proved faithful to sound morals, correct principles and progressive ideas. The political views of such men are safe for young men to adopt. These men are not of the class that are found seeking nominations for office, but they are those whom office seeks; and it is to the credit of the republican party that such men are in nomination, and the state will honor itself by their choice as the gentlemen who shall cast the electoral vote of New Hampshire in December. for

GARFIELD AND ARTHUR.

"Jack and Jill; a village story," by Louisa M. Alcott, author of "Little women," "An old-fashioned girl," etc., Boston; Roberts Brothers. Miss Alcott became famous from her early books, and every one has had great expectations in regard to this volume. The scenes depicted are understood to have occurred in the writer's imagination in Concord, Mass., where Miss Alcott resides. Her father is a friend of Emerson's, and for three years lived next door to Hawthorne; and if the daughter is inclined to be a writer of books, we don't see how she could help it. The book is illustrated with a view of Concord river and the school house of that town. Miss Alcott's piquant style is seen throughout the work, and her book will be welcomed by the young readers, who, sitting by the radiator, "welcome peaceful evening in" as the season advances, and the trumoil of politics is followed by a quiet rest. Price $1.50. For sale Myers' and at Goodrich's book-stores.

The "International Review" for November spreads before its readers a tempting display of good things. The number opens with an article entitled "West Point and the colored cadets," in which Professor George L. Andrews, of West Point, reviews the case of Cadet Whittaker, which has been so amply commented upon by the newspaper press; he also gives information relative to the colored cadets who have at different times been at West Point, not immediately connected with the Whittaker case, but throwing much light upon it. This is followed by an article from the accomplished Dr. E. de Pressense, upon "The French Republic and the Jesuits," which will be read with all the interest the dealings of our sister republic across seas with the question of perfectly free religion must naturally evoke in this country. T. C. Felton writes of the drama at Munich, under the caption of "The Muster Vorstellungen at Munich;" and one of the editors, Mr. John T. Morse, Jr., gives a delightfully reminiscent article upon "Boston lawyers in the old days," from which we shall publish an extract relating to Jeremiah Mason, concerning whose memoir the writer of the article, justly remarks, that Mr. Hillard has not been happy either in the plan or the execution of his biography of this distinguished lawyer —a fact that has been patent to New Hampshire people ever since the memoir appeared. Mr. Charles S. Baker writes upon "The states and the railroads."—an article which will be read with great interest both by railroad men and all persons interested in them. Mr. Robert P. Porter, who is at the head of the department of the public debts in the census bureau, contributes an article of great value on "State debts and repudiation."

We are indebted to the Entomological society of Ontario for a copy of the *Canadian Entomologist*, containing the annual address of Prof. William Saunders, the president of the society, from which we infer that our neighbors over the border are afflicted with the same insect pests that give our own farmers and fruit growers so much trouble every year. Our market gardeners will be glad to know that the professor predicts that soon a small fly, *Pieromalus Puparum*, an insignificant looking creature, a parasite on the larva of the cabbage butterfly, will render the ravages of that destroyer of boiled dinners comparatively harmless. As the operations of the cabbage-butterfly extend from Canada to the gulf of Mexico, the advent of its tiny destroyer will be hailed with satisfaction by thousands of agriculturists. The address is exceedingly interesting, both from scientific and practical standpoints.

"Marco Polo: his travels and adventures;" by George M. Towle. Boston; Lee & Shepard; price $1.25. This is the fourth volume of "The Heroes of History," of which "Vasco Da Gama," "Pizarro," and "Magellan" have already secured a warm welcome from the young folks for whose especial benefit they were written. They are as attractive and entertaining as the most exciting story books, and are reliable histories of the characters and times of which they treat. In this volume the story is told of the famous Venetian, Marco Polo. Brought up amid luxury and wealth, of a bold and curious mind, he went forth from his home in the beautiful Queen City of the Adriatic, and for many years lived among a far-off Asiatic people, and at a court of barbaric yet splendid pomp. He made many dangerous journeys into wild, distant lands, and among the fierce tribes of Cathay, Thibet, India and Abyssinia. His life was passed in almost incessant successions of hair-breadth escapes. Nor did his career of valor and stirring action cease with his return, laden with riches, to his native Venice. He engaged in the bitter warfare between the two republics of the sea, Venice and Genoa; became a prisoner of the latter state, and while in prison dictated the wondrous narrative of his adventures, which still survives, a precious legacy left by the great traveller. He was in all things manly, brave, persistent, intelligent and chivalrous, and the scenes and incidents in which he was the leading actor were in the highest degree thrilling and dramatic.

John Chinaman came pretty near figuring very prominently in the recent Hawaiian crisis. The king and the minister of the interior were to receive a large sum of money for conferring the franchise on the 10,000 Chinamen on the islands. This would have given the Chinese control of the islands, as there are only 3,000 Kanaka and European voters. The Kanakas were exceedingly indignant, and threatened to take up arms and expel the Mongolians. The opportune arrival of Claus Spreckels, who seems to have a powerful influence at the throne, stopped the king and his minister in their career, and the islands were saved from Chinese domination. The San Francisco papers are much interested in the situation at Honolulu. The *Post* advises Secretary Evarts that the policy of China in Hawaii should not be without its influence on the revision of the Burlingame treaty.

AROUND HOME.

Chief Justice Doe is to preside at the trial of Chapman for murder before the supreme court next week.

The remains of Charles L. Frost were brought to this city and interred in his lot in the south cemetery, on Friday.

The democrats had a rally at Music hall, Friday evening, and were addressed by Hon. John K. Tarbox of Massachusetts.

The reform club meeting at Bow mission hall, Sunday evening, will be addressed by Messrs. Eaton of this city, and Clark of Kittery.

The portraits of Messrs. Jones and Marcy, on the democratic campaign flag which was raised Thursday evening, look very solemn, perhaps in anticipation of prospective defeat.

Schooner A. T. Haynes, of Mt. Desert, Me., was loading with apples at one of the wharves near the Spring market, Friday. Another schooner, belonging in Chatham, Mass., was lying near the same wharf on Friday, with a load of apples on board.

J. L. O. Coleman, dealer in stoves, ranges, wooden ware, kitchen furnishings, etc., invites the attention of persons in want of a first-class range to the "Standish," a brief account of the merits of which will be found in our advertising columns.

The big well near the Eastern depot having "bottomed" on a rock, work upon it has been suspended for several weeks until Thursday last, when operations were resumed. A hole seven inches in diameter is to be drilled downward by steam power until a sufficient supply of water is reached, or it is demonstrated that such a supply cannot be struck there.

On the occasion of the democratic torchlight parade, Thursday evening last, a very handsome flag, twenty-five feet by thirty-six, bearing the portraits of Hancock, English, Hon. Frank Jones and Hon. Daniel Marcy, was displayed on a rope run from the top of National block to a staff on the top of Mechanics' block. It is said to be the largest campaign flag in the state, and was contributed by Col. Sinclair. The portraits of Messrs. Jones and Marcy are very good indeed.

Miss Annie Pixley appears at Music hall on Thursday evening as "M'liss, the child of the Sierras." An exchange says: "M'liss seems to have been made for her, or she for M'liss, so perfectly does she throw herself into the character, becoming for the time the fascinating waif, whose pranks are the delight of all. One interesting and exciting scene follows another till the falling of the curtain, and everything moves along as if by clockwork, so superb is the support, every character being rendered to the life."

The *Journal* of this week shows, by quoting the law, that the *Times* didn't know what it was talking about when it quoted what it thought was the law governing the action of the board of inspectors of checklists, but which really has no reference to the board. Our staid contemporary also gives the *Times* the lie direct as to the charges of fraud made by that paper against the board of inspectors; and worse than that, goes to work and proves that it *did* lie. The palpable attempt of the *Times* to spur the roughs of the democratic party on to the commission of acts of violence, seems to have roused the antagonism of our usually placid neighbor.

The Louisville *Courier-Journal* recently published a list of "Union generals who have declared for Hancock," the list including about one hundred and twenty names, a somewhat imposing array—"imposing" in more senses than one. In it there are some well known names, such as Daniel E. Sickles and Benjamin F. Butler; but many of the others are so little known to fame that they do not appear on any official record. Two of these "Union generals" are credited to New Hampshire, one being Gen. T. B. Crowley, which shows that Mr. Crowley's promotion in the closing days of the war must have been very rapid, as he was only a captain in May, 1864. The other "Union general" of New Hampshire who has declared for Hancock is Gen. Frank Jones!

The case of Craig against Gerrish, for damages incurred as was claimed from the bite of a dog, and which was before the supreme court upon a review, has we are informed been settled by the parties.

Mr. Charles Odiorne of Rye, whose farm is not far from the bridge between Rye and Newcastle, near the hotel Wentworth, discovered on Thursday last that two calves in his pasture had been killed by dogs. Mr. Odiorne calls upon the selectmen of Rye to compensate him for the loss. One of the calves was quite valuable.

The democrats around town, liquor dealers, beer saloon keepers and all, are highly delighted with the *Portsmouth Weekly* just now. They say that in its last two issues it has done more toward increasing the vote of Hon. Frank Jones, the great brewer, for governor of New Hampshire, than all the professed organs of the Jones party have been able to accomplished throughout the entire campaign. By the way, it is within memory that the *Weekly* referred to this paper as the "beery CHRONICLE" some time ago, because we published as a matter of news a very well written description of the extensive improvements Mr. Jones had then recently made in his brewery.

REPUBLICAN NOMINATIONS.

The republican caucuses in ward one, two and three were held Friday evening, and nominations made as follows:

WARD ONE.

Representatives to General Court, Edward S. Ryder, Samuel A. Hawkes, Alfred C. Hoyt;

Inspectors of checklists, Richard H. Waldron, James A. Waterhouse;

Moderator, Robert E. Rich;

Selectmen, William H. Lovell, Ira W. Brock, Walter S. Gray;

Clerk, James A. N. Rugg.

WARD TWO.

Representatives, Washington Freeman, John Laighton, Robert C. Peirce;

Inspectors, William H. Deverson, William R. Foster;

Moderator, Plumer D. Norton;

Selectmen, Benjamin F. Winn, John W. Prior, Thomas Kennedy, Jr.;

Clerk, Samuel H. Kingsbury.

WARD THREE.

Representative, Charles H. Hayes;

Inspector, John Hallun;

Moderator, Horace D. Whidden;

Selectmen, George Webber, Robert M. Ham, William C. Hidden;

Clerk, George B. Foss.

TROTTING MATCHES.

There were three trotting matches at the Rockingham trotting park, Friday afternoon, when some excellent sport was afforded the lovers of fast-moving horseflesh. The first race, for horses that never beat three minutes, mile heats, best three in five, resulted as follows:

Sorrel Tom,	1	1	1
Shoo Fly,	2	2	2
Yankee Looke,	3	3	3
Pet,	4	4	4

Time 3:01, 3:02, 3:01.

The second race was for 2:50 horses, mile heats, best three in five, and the following was the result:

Gen. Hancock,	1	1	1
Rainbow,	2	2	2
Charles T.,	3	3	3

Time 3:00, 3:00, 3:00.

A free-for-all race, half-mile dash, best two in three, called out two horses, with the following result:

Black Harry Clay,	1	1
Little Harry,	2	2

Time 1:17, 1:16.

Little Harry, owned by Mr. R. H. Beacham of this city, gives promise of being a very fast animal, finishing his second half-mile close on Black Harry Clay's wheel, in the fast time of 1:16. Considering the heavy condition of the track, it was an excellent showing for a "green one."

WINCHESTER CADETS

Will meet at their hall this evening at 7 o'clock sharp, for drill.

By order Maj. Com'd'g.
Clinton Sides, Adjutant.

GARFIELD & ARTHUR BATTALION.

An adjourned meeting of the Battalion will be held at headquarters this evening at eight o'clock, for *business*.

Per Order Maj. Com'd'g.
WM. A. PAYSON, Adjutant.

THE CLOSING RALLY.

The republican organizations of this city held large and enthusiastic meetings Friday evening, and voted to have a torchlight procession and parade Monday evening.

The Garfield & Arthur Battalion appointed a committee to procure suitable music for the occasion.

The Boys in Blue mustered with full ranks, as usual, and voted to parade, and extended invitations to the Eliot and Kittery Battalions to march with them.

The "tall hat" brigade will also join the procession under the leadership of the efficient marshal who marched at their head through Dover.

Citizens living along the line of march will be invited to illuminate their houses, and display their bunting.

Contributions of sandwiches, and other suitable articles of food, in (individual) paper bags, will be solicited, for the entertainment of the visiting organizations of marching men.

There is but short time for preparation, and it is confidently expected that every one called upon for aid will cheerfully lend their assistance.

Mr. Franklin, agent of the Boston Northern Telephone Co., was in this city on Friday making arrangements for introducing the company's system here. The Newburyport *Herald*, and papers in Haverhill, Lawrence, Lowell, and other cities in Massachusetts and central New Hampshire, now get a large part of their despatches by telephone, and as other papers come into the arrangement the system will increase in value. The office of the company in this city will be at the Telephone Exchange. Mr. Franklin proposes to have everything in readiness to report election news on Tuesday.

YORK COUNTY ITEMS.

Biddeford officers seized two ten-gallon jugs of whiskey on Wednesday evening of this week, at the shop of one Jack Walsh, and on Thursday two deputy sheriff captured a barrel of ale, just put on tap, in the shed of a Mrs. Hines.

Hon. Ferguson Haines of Biddeford disposed of part of his cabinet of coins in New York recently. The catalogue covered ninety-five closely-printed pages, and described upward of five thousand coins. Mr. Haines had previously sold five catalogues, and will dispose of one or two more the coming season. The recent sale contained his choicest pieces, and attracted the attention of collectors far and near. The bidding was spirited, and the sale realized over four thousand dollars. Mr. Haines' collection of American copper cents comprised 220 pieces, and contained many uncirculated cents, as well as many scarce varieties. This collection of cents brought $658.40. The highest prices received were $60 for a cent of 1793, $32.50 for a cent of 1799 and $22 for a cent of 1797. His collection of half cents, comprising sixty-one pieces, brought $260.05. A half dime of 1802 was bid off for $240, the highest price received for any single piece. From this limit prices ranged all the way down to $1.50.

New Hampshire Items.

The new state prison at Concord was dedicated Oct. 28th, in presence of 1000 people.

The house, barn and store of Daniel W. Coles in Westmoreland was burned on the night of Oct. 27th, by an incendiary fire. The family barely escaped.

J. K. Carr's house at Oxford was entered by four burglars on Wednesday night, Oct. 27th. Carr and his wife heard the thieves at work, but did not think it prudent to attack so many. Finally one of the thieves entered the room beneath Carr's, when Carr shot at him through the register. The burglars hastily fled, carrying off some clothing, etc., Carr firing several shots at them as they went.

The new state prison, "dedicated" on Thursday last, it is said cost $232,000. Can this be so?

Political Notes.

Charles Francis Adams, Jr., of Massachusetts, who four years ago was an earnest supporter of Tilden, on the evening of Oct. 28th spoke in Cooper Institute, New York, to a meeting of independent republicans, announcing himself for Garfield, and giving convincing reasons therefor.

The returns of the congressoinal vote in Maine show a republican plurality of 804, and a republican majority of 369 over all. Not much show for fusion in that state.

Joe Pulitzer, of St. Louis, the smartest democrat in Missouri, now in New York, says the democrats are overmatched this year by wealth, newspapers, stump speakers, political organizers, and the stiffening prejudice of the north. He had never known the republican party so imperious, so versatile, while the democrats were a brave line of battle led by donkeys.

Important Railroad Lease.

The Nashua & Lowell railroad has been leased to the Boston & Lowell road, subject to the action of the stockholders in both roads, for one hundred years, at an annual rental of $60,000, which is equivalent to 7 1-2 per cent upon the capital stock of the leased road.

SCIENCE WINS!

A Splendid Surgical Operation--Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weakness peculiar to females. This wonderful medicine is now for sale by all our druggists at $1.00 a bottle.

President Hayes.

The validity of Mr. Hayes' title may always be questioned, and his administration criticised, but the payment of one dollar gives a valid title to one bottle of Dr. Pierce's Golden Medical Discovery, and its administration can never be criticised in cases of coughs, colds, incipient consumption, and general debility, for leading physicians of all schools endorse the Discovery and prescribe it in their practice. Sold by druggists.

The war department has information that there is much truth in the report that Sitting Bull is making propositions looking to a surrender. The authorities are disposed to leave this question to the discretion of Gen. Terry, who is in command of the department, and is better advised of the situation than the government can be.

Liebig Co's Coca Beef Tonic.

"My patients derive markedl and decided benefit from it," says Prof. J. M. Carnochan, M.D., Prof. Surgery, New York Medical College.

For bad taste in the mouth, bad breath, heartburn, pains in the stomach and bowels, indigestion, constipation, flatulency, it is endorsed by leading physicians.

For biliousness, malaria, dyspepsia and debility it is highly endorsed by the most eminent physicians.

At South Shields, Eng., during a great storm on Oct. 28th, a schooner foundered while trying to enter the harbor, and all but two of her crew were drowned; two steam trawlers were capsized in the harbor, and twelve men drowned. Five vessels were stranded at Plymouth, the crews being saved. Much damage was done by the storm in Ireland.

Profitable Patients.

The most wonderful and marvelous success in cases where persons are sick or wasting away from a condition of miserableness, that no one knows what ails them, (profitable patients for doctors,) is obtained by the use of Hop Bitters. They begin to cure from the first dose and keep it up until perfect health and strength is restored. Whoever is afflicted in this way need not suffer, when they can get Hop Bitters.—*Cincinnati Star.*

The war department has received detailed despatches confirming the capture of Victoria and of a large portion of his band. An international question, it appears from the correspondence, is likely to arise relative to the disposition of the captives. The Mexican government claims that the Indians belong in the United States, and that the latter government should take care of them. Naturally our authorities do not desire to assume any such responsibility.

We can recommend our readers to use Dr. Bull's Cough Syrup in all cases of coughs, colds, etc. It costs only 25 cents a bottle, and is warranted to cure.

On June 30th, the end of the fiscal year, the postal service was in operation on 1,118 rail routes, aggregating 85,320 miles in length, at an annual cost of transportation alone of $10,498,986. The cost of transportation on 9,663 "star service" routes, aggregating 235,248 miles, for the year, was $7,321,449. This was $919,619 in excess of the expenditure for the same branch of service in the preceding year, and also $1,421,449 greater than the estimate submitted by the department to Congress in December, 1878.

H. Richardson, Sac and Fox Agency, Indian Territory, says: The "Only Lung Pad" has restored me to health, and I shall be glad to recommend it to any one. —*See Adv.*

During the fiscal year ending June 30th the bureau of engraving and printing completed and delivered 7,148,241 sheets of notes and securities of the face value of $789,240,950; 15,252,506 sheets of internal revenue and customs stamps containing 330,822,266 stamps, and 765,251 sheets of checks, drafts, etc., for the treasurer of the United States and disbursing officers of the several departments, besides a large amount of miscellaneous work.

Why suffer with dyspepsia, or many ailes caused by it, when D. R. V. G. is guaranteed by your own druggist to give satisfaction, or money refunded.

The rotary bleach and boiler in G. & G. A. Robertson's paper mill at Hinsdale, burst Friday morning. One man was killed, and several injured. The mill was completely ruined. Loss about $20,000; no insurance.

"Stories and Romances," by H. E. Scudder. Boston; Houghton, Mifflin & Co. This book contains a series of eight stories by the author of "The dweller in Five-sisters court," and other books. The stories are well told, and interest us throughout. The genial humor and excellent descriptive powers of the author engage us, as we read his several stories, and we find ourselves in excellent humor at the author's bidding. The reader will at once recognize the familiar sketch "Nobody's business," a word-portaiture well executed and admirably entertaining. It is just the book for the satchel or the spare moments when we can enjoy a good thing, and it fully maintains the literary repute of the genial writer. For sale by W. G. Myers, Congress street; price $1.25.

KIDNEY WORT

PERMANENTLY CURES

KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. E. H. CLARK, South Hero, Vt., says: "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to act as a cathartic."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Constipation I completely cured me."

C. S. ROBANDS, of Freeblers, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney troubles, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

TRY IT NOW!

It is at the Druggists. Price, $1.00.

FOR SALE BY ALL DRUGGISTS.

A DISCOVERY BY ACCIDENT,

supplying a want which men of eminent ability have sought years for in vain, and unfortunately is a specific for diseases of the Kidneys, Bladder, Urinary Organs and Nervous System—and from the time of its discovery has rapidly increased in favor, gaining the approval and confidence of medical men and those who have used it; it has become a favorite with all classes and where ever introduced has superseded all other treatments. In short, each its intrinsic merits and superiority, that it is now the only recognized reliable remedy.

DISEASES OF THE KIDNEYS

are the most prevalent, dangerous and fatal affections that afflict humanity, and so varied and insidious in their character, that persons often suffer for a long time before knowing what ails them. The most characteristic symptoms are general wasting away of the whole body; pain in the back, side or loins, a weak, feeble, exhausted feeling; loss of appetite and dread of exercise; scanty and painful discharge of variously colored urine; inability to retain or expel the urine; minute shreds or casts in the urine; and, when the disease is of long duration, there is much emaciation and general nervous prostration.

THE ONLY CURE.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the first and only infallible cure for every form of Kidney disease. It is the best remedy yet discovered for this complaint, and more effective in its operation than any other treatment. By using faithfully and persistently one pack will be found so invigorate as not to yield to its powerful remedial virtues.

STRONGLY ENDORSED.

We have the most unequivocal testimony to its curative powers from many persons of high character, intelligence and responsibility. Our book, "How a Life was Saved," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it.

DAY'S KIDNEY PADS are sold by druggists, or will be sent by mail (free of postage) on receipt of their price, $1.00 per pack, or five packs for $5, or in extreme cases of long standing, $5.00. Children's, $1.50.

Address,

DAY KIDNEY PAD CO., TOLEDO, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it due the afflicted to warn them.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION! Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains valuable and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to perilous habits or inherited. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Daily Chronicle.

The Fate of Donaldson, the Balloonist.

The following story was sent from Chicago on Friday last: "Among a lot of old bottles which were being cleaned in a liquor storehouse to-day one was found which contained a card, water-soaked and yellow, on which was penciled the following message:

The hurricane is upon us. Our sand is all exhausted. A few moments and the balloon will be in the water. Tell Barnum to give the balance of my salary to Mollie. Good-by. Grimwood behaves nobly. DONALDSON.

The writing is dim, but legible. The signature was carefully compared with that of a letter which Donaldson had written, and was found to agree, almost the only difference being that the signature on the card was hastily scrawled. Persons familiar with Donaldson's handwriting pronounced the card genuine, among others D. S. Thomas, who was Donaldson's press agent when he made his last ascension. He believes the note to be genuine, and explains that the 'Mollie' referred to was Barnum's highest-salaried hurdle rider, to whom Donaldson was engaged. Her name was Maggie Taylor, but Donaldson gave her the pet name of Mollie. The lot of old bottles among which this note was found had been purchased of a junk dealer, who says they were gathered about the city in the year 1875. On August 15th, 1875, Donaldson and Grimwood made their fatal voyage.

—It is said that Levi P. Morton, the New York banker, used to be a tailor in Hanover, N. H., and is willing to forget it. He became aware a few months ago of the existence of an old sign at Hanover bearing the legend "Levi P. Morton, Tailor," and at once took measures to get possession of it. But some smart and evil minded person, learning of his purpose, stepped in ahead of him, bought the sign and held it for a rise. Its value has now reached a fabulous sum, and it is said to be still advancing.

"May God Bless and Reward You."

The physicians hear such a benediction sometimes, and it is very sweet even to a professional ear. Mrs. S. A. McIlwain, of Fergusonville, N. Y., wrote thus to Dr. David Kennedy, of Rondout, N. Y., after his "Favorite Remedy" had rescued her from the borders of death. In her spasms and sinking spells her friends often thought she was already dead. Women are often afflicted in this way. The trouble is commonly in the blood. Lose no precious time, dear women, but get the "Favorite Remedy" of your druggist, or enclose one dollar to the doctor at the above address.

MESSRS. F. W. KINSMAN & CO., Gents.: I have sold your Adamson's Botanic Cough Balsam over my counter for nine years, and I must say that during an experience of twenty-six years in the retail drug business I have never sold anything for coughs, colds, etc., that has given such universal satisfaction as your Adamson's Botanic Balsam. I recommend it above all others.

Yours truly, S. CHICHESTER, 357 Myrtle Ave., Brooklyn, N. Y.

—The waits between the acts in a Chinese theatre are long enough for a young man to go out and chew cloves, play six game of billiards, take a nap of six hours, go twenty miles into the country to see his aunt Hi-Hi, attend a base-ball match, eat his supper, get shaved, and fight a duel. Then he can get back in the theatre before the curtain rises on the second act.

WHEN MEN DESPAIR. There are diseases which, when they once get fairly "seated," cause the stoutest hearts to quail and give up to despair. Such a malady as Bright's Disease of the Kidneys is enough to take the heart out of the most hopeful of us all. Fortunately, for this terror a cure has been found. It is demonstrated that Hunt's Remedy, the Great Kidney and Liver Medicine, will cure Bright's Disease, and all kidney, bladder, liver and urinary diseases; and it is the only medicine that does.

Sold by all druggists. Trial size, 75 cts.

Suicide is not more sinful than neglecting a cough. For only 25 cents you can buy a bottle of Dr. Bull's Cough Syrup and be saved from death.

—The Detroit *Free Press* suggests that a lecturer will soon recover from the surprise of an egg, but hit him with a turnip, and he stays there.

The Forged "Chinese" Letter.

The desperate attempts of the democratic national committee to bolster up the forged Chinese letter until after the election were continued last week, but were ludicrously abortive. On Friday chairman Barnum telegraphed to all the democratic papers that

The Garfield letter is not a forgery. Mr. Joseph Hart, publisher of *Truth*, was honorably discharged this morning by the republican chief justice of the general term of the supreme court of New York, Hon. Noah Davis.

The intent of this dispatch evidently was to mislead the public into believing that the prosecution of the forger of the letter was at an end; the truth being that Josh Hart, the variety actor, and owner of the obscure and disreputable New York paper, *Truth*, in which the forged letter first appeared, was simply held for contempt of court in refusing to produce a document demanded, and was discharged on purging himself of contempt.

On Saturday the democratic papers contained statements that "H. L. Morey's" wife and mother had been found in Lynn, and that Dr. Ahearne of Lynn attended his family and distinctly remembered him; also that a Lynn hotel register shows H. L. Morey's name registered in three places, and that the landlord remembered the man well.

All these statements on investigation proved to be wholly false, except as to the hotel register, which some of Barnum's agents obtained possession of under false pretences and carried off; and the landlord says that if the name of H. L. Morey appears in it, it was written there by some of Barnum's forgers after the book was stolen by them.

Post-office officials, at the trial in New York Friday, conclusively proved from post-marks and the postal regulations that the forged envelope never passed through New York from Washington, and was never received at Lynn, the defence not cross-examining any of these witnesses.

[Special to Chronicle, by Western Union Line.]

Forgery Confessed!

NEW YORK, Oct. 31st.

Judge H. J. Dittenhoefer, a prominent lawyer in this city, the attorney of the "*Truth*" newspaper since its establishment, publishes to-day in the New York newspapers a letter in which he states that on two occasions the proprietors of that paper *have admitted to him that the Morey letter* WAS A FORGERY, and sought his advice as to the wisdom of the *Truth* coming out and admitting that it had been imposed upon, and making such reparation as they could. Judge Dittenhoefer advised them to do so, and the owner, Mr. Hart, promised to publish editorially on Wednesday the following: "Since the publication of Gen. Garfield's explicit denial, we are in doubt as to the authenticity of the Morey letter." This was to be followed up by a full and complete retraction of the libel.

Naval Gazette.

A court of inquiry convened at the marine barracks, Brooklyn, Oct. 26th, to investigate complaints made by Capt. Robt. L. Meade against Col. T. Y. Field, both of the marine corps. The following officers composed the court: Lieut.-Cols. John L. Broome and C. D. Hebb, and Major G. W. Collier; Capt. H. B. Cochrane, judge-advocate.

The ropewalk at the Boston navy yard is once more in working order, much improved since the fire. It started up again on Tuesday of last week.

A board consisting of Commander Arthur R. Yates, Lieuts. Lyons and Wilson are conducting a competitive examination on the Constitution of apprentices in seamanship, gunnery, and broad-sword exercise. The prizes are silver medals provided by the bureau of equipment and recruiting.

A Fort Monroe despatch of Oct. 28th says: "While the crews of the fleet were engaged in competitive drill, shifting sail, yesterday, an ordinary seaman, named Daniel Clairy, on the Alliance, missed his footing and fell to the deck, striking upon his head and fracturing his skull, from the effects of which he died this morning."

News and Notes.

Professional etiquette is carried to an absurd extent among the physicians of Toronto, it would seem. A merchant in that city was seriously ill; a certain doctor prescribed for him, and after his departure a second physician was summoned. The first came again, learned of the visit of the second, refused to do anything more in the case, and went away. The second doctor, then called, was told of the first employment of the other, refused to act, and went away too. The unfortunate merchant accordingly died. The newspaper which publishes this story heads it, "Etiquette run into the ground," but the patient seems to have been the one who was run into the ground.

An Albany man was attacked by robbers last Thursday night on the Waterford road in Norway, Me., and a $150 watch and revolver taken from him. It was probably done by the same scamps who robbed French two weeks since.

A Pennsylvania manufacturing company has received a large order for machinery to be used in the development of an extensive salt mine at New Iberia, La. The salt deposit is said to be 300 feet thick, and extends under an area of 114 acres, buried at a depth of one hundred feet from the surface, and it is proposed to mine it much after the manner of anthracite coal. It is said to be the greatest salt bed in the world. The farm of Joseph Jefferson adjoins the territory under which it extends.

A plan to divide the state of Pennsylvania into two commonwealths is being agitated, chiefly in the western part of the state. As far as can be learned, however, public opinion is at present decidedly opposed to the scheme. The advocates of the project propose to cut off twenty-eight of the counties lying west of a line running north and south through nearly the centre of the state, which would give a territory occupied by 1,454,196 persons, or about one-third the entire population of Pennsylvania.

Ship James Bailey, 1531 tons register, built in Bath, Me., in 1878, and owned by J. S. Winslow & Co. of Portland, has been totally lost on an island off the coast of China. Crew saved.

A remarkable instance of devotion to science comes from Pernambuco, where a young English physician, Dr. Arthur Stranding, caused himself to be bitten by a rattlesnake with a view to discover a remedy against its bite. Luckily he recovered to give the benefit of his experience to his fellow-men.

The remains of a large animal, probably a mastodon, were discovered in a swamp near Hopestown, Ill., September 18th. The tusks are nine feet long and twenty-six inches in circumference at the base, and weigh 175 pounds each. The lower jaw, with teeth, is well preserved. The teeth are perfect, though somewhat worn. One weighs eight pounds, and is twenty-one inches in circumference. Several of the leg bones are in good condition. The thigh bone is two and a half feet long, and the tibia three feet. The ribs and backbone are in bad condition, as the back of the animal was only three feet below the surface of the ground.

Herbert Leighton was waylaid and robbed in Northwood, Friday night, by three men, who secured but a few dollars by the crime.

The Deadly Riding Habit.

Fashion, in riding habits, goes more and more in the line of safety. They are not made now, as formerly, so long as almost to touch the ground, giving the horse a chance to get his hoof caught in the skirt hem, and stumble, by reason of this. They are not made so full, either, to flow out over the saddle, and catching on fence rails or passing wheels, thereby dragging the riders from their saddles. On the contrary they are short, barely covering the foot, and scant, with one side sloped away to fit over the pommel knee. It is only a week since, however, that a young lady was killed by being thrown from her horse and dragged some little distance. Possibly it was the habit that was to blame, although side-saddles are excellently devised, by their arrangements for firm seating, to keep the thrown rider, or the rider whose horse has fallen upon her, securely pinned to them in some way. Most of the modern devices for secure side-saddles increase the difficulty of getting free altogether in the case of accident. It is a good deal easier to slip the foot out of the slipper of a side-saddle, to be sure, than from the ordinary stirrup of a man's saddle. But there is always the danger that the skirt will catch on the pommel or on some buckle. It would be a good device if our riding schools would teach hasty and safe dismounting, which, in one way, might protect a girl from the danger of being suddenly thrown. The usual security is to teach her to stick fast to the saddle, but this will not always avail, so it is best that she should also learn how to leave it safely and quickly. Safety, and not "looks," is the first consideration for women riders. Comfort is the next, but properly to balance on the one-sided edifice that is provided for them requires a good deal of training, and is better to come by training than by the construction of the saddle itself. The device of a rubber ring for the right foot is very welcome to timid riders, but makes one more contrivance to be got rid of when thrown. There are so many girls who ride, now-a-days, and so many more who ought to, that whatever improvements in the way of either habits or riding methods can be suggested ought to be welcome.—*Philadelphia Ledger.*

—The Germans are an eminently philosophic race, and better than that, they sometimes practice what they preach. A soldier was being flogged for some grave offence, and at every blow he broke out into fresh peals of laughter. On being asked the reason he replied: "Why, my friends, I laugh because you are whipping the wrong man; that is all."

FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as is that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have known cases where a single dose has been effectual.

S. JACOB, M. D., St. John, N. B., writes:

"I had occasion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expedition and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

SCIENCE WINS!

A Splendid Surgical Operation--Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 35th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weakness peculiar to females. This wonderful medicine is now for sale by all our druggists at $1.00 a bottle.

AROUND HOME.

The dining rooms at the Rockingham have been supplied with new black-walnut chairs.

Three vessels were loading with apples at Marshall's wharf, York, paying twenty cents a bushel for nice number one apples, in bulk.

A well known democrat, residing on Middle street, on Sunday called upon a colored republican and offered him a month's pay to vote the democratic ticket.

At a republican caucus in Malden, Mass., last week, Hon. Ezra A. Stevens, formerly of this city, was nominated as a candidate for representative in the Massachusetts legislature.

Miss Annie B. Torrey has resigned the position of operator for the American Union Telegraph Co. in this city, and will accept a similar position under the Western Union Co. at Hotel Vendome, Boston.

In the list of passengers sailing from Boston for Liverpool in the Cunard steamship Samaria on Oct. 30th, we notice the name, of Lieut. Lyman G. Spalding, U. S. N., Mrs. L. D. Spalding and Miss E. T. Spalding.

Mr. J. Howard Dodge is to occupy the store in Mechanics' block, Congress street, formerly in the occupation of Fred P. Wilson, where doubtless the antique and modern in Mr. Dodge's specialties will be found in great abundance.

The "hundred days' veteran," after a hundred days' service in the democratic party, takes quite a prominent position, having been nominated as selectman in ward four. Our democratic brethren will have to nominate him for governor next year, or at least for mayor, else there'll be a split in the party right away.

The democratic campaign clubs of this city were advertised to go to Great Falls and Rochester, Saturday evening, to take part in democratic rallies there, but the weather prevented the carrying out of the programme. No matter; the generous rain of Saturday night did more good than two democratic torchlight processions would have done, or republican ones either.

The Boston *Sunday Herald* of Oct. 31st says: "Miss Norah Bartlett, the young lady who made so successful a debut as Julia in 'The Hunchback' at the Boston theatre about a year ago, has been engaged as a member of the Museum company for a term of years. She is highly educated and accomplished, and promises to be a valuable addition to our local stage."

The Exeter *News-Letter* of last week, commenting on the republican county ticket, paid the following deserved compliment to Sheriff Kent: "The nomination of J. Horace Kent, whose experience in the office of sheriff and former work in the secret service of the United States render him peculiarly fit for the position, gives general satisfaction, even to our opponents, and his election is assured."

The Rockingham Bicycle club of this city had a thirty-seven miles run on Friday through Rye, Hampton, Exeter, Stratham and Greenland. The run home from Exeter was made in one hour and thirty-five minutes. The Exeter Bicycle club, which numbers twenty-two members, escorted the Rockingham club about the town, and an unsuccessful search was made for the house in Exeter which the recent republican procession failed to pass. It is expected the Exeter club will soon return the visit.

The bandstand (that is what the fishermen called it) which was set up over Gangway rock early last week by the contractors for the rock's removal, was carried away by the tide on Friday evening. After the platform was in position the workmen sought to secure it by laying out anchors from each corner so as to stay the supporting posts, but the rocky bottom afforded no hold for the anchors. Large blocks of granite were then put down in place of the anchors, but their weight proved insufficient, for on Friday evening, as stated, the staging was carried away, being turned upside down as it fell; it was towed ashore at Kittery on Saturday by the tug Clara Bateman. Application has been made to the proper authorities for the loan of the huge mushroom-anchors, weighing twelve tons each, formerly used to hold in place the large compass-station buoys in the lower harbor; when those huge junks of iron are put in position—for there can be no reason for refusing the use of them to the contractors—the workmen will be able to stay their staging so that it will stay there, unless some vessel gets foul of it.

REPUBLICAN NOMINATIONS.

The ward four caucus was held Saturday evening, when the following nominations were made:

Representative, Joshua Stackpole;
Inspector, William A. Vaughan, Jr.;
Moderator, Charles W. Gardner;
Selectmen, John E. Colcord, Allen A. Rand, John A. Yeaton;
Clerk, Thornton Betton.

DEMOCRATIC NOMINATIONS.

WARD ONE—Moderator, Nathan Whalley; inspectors of check-lists, Ozro J. Hobbs, Charles W. Stimson; representatives, James F. Jenness, William Ward, Samuel J. Gerrish; selectmen, Ira C. Seymour, Dennis J. Lynch, Isaac Furber; ward clerk, Charles W. Roberts, 2d.

WARD TWO—Representatives, John Christie, Benjamin Russell, John Conlon; inspectors of check-lists, George B. French, James McClure; moderator, Calvin Page; selectmen, Samuel R. Gardner, Thomas E. Call, Jr., Benjamin F. Russell; ward clerk, Daniel J. Hurley.

WARD THREE—Representative, Edward D. Coffin; moderator, William Alton; selectmen, James G. Locke, Harry J. Freeman, William Hughes; inspector of checklists, Daniel J. Ayers; ward clerk, William T. Rand.

WARD FOUR—Representative, Shirley B. Cunningham; moderator, Charles W. Norton; selectmen, Joseph R. Holmes, David Urch, Horace Mudge; ward clerk, William S. Hazel; inspecter of check-lists, George S. Leach.

THE CLOSING RALLIES.

When two or more parties are engaged in a political contest, it is quite likely that only one party will feel like cheering over the result, after the election takes place; but all parties can shout and march in procession and burn fireworks before the voting comes off. So the leading men of the republican and democratic parties in this city last week determined to close the campaign with torchlight processions of the several clubs and companies, both parades to take place this (Monday) evening.

The following is the republican programme for the evening exercises:

COMPOSITION AND FORMATION OF LINE.

First Battalion Boys in Blue, Winchester Cadets and Garfield Cadets, will form on Pleasant street, right resting on Rockingham bank.

Visiting organizations, (Kittery, Kittery Point and Eliot,) will form on State street, east of Pleasant street, right resting on Pleasant street.

Garfield and Arthur Battalion will form on State street, west of Pleasant street, right resting on *Journal* office.

Citizen's clubs will form on State street, to the left of the Garfield and Arthur Battalion.

ROUTE OF PROCESSION.

Down Daniel street, across head of wharf to State street, through State, Pleasant, Market, Hanover, Marlborough, Macdonough, Cabot, Islington, Union, State, Cabot, Middle and Union streets to Lincoln avenue, through Lincoln and Miller avenues and Rockland street to Richards avenue, through Austin, Summer, Middle, Court, Washington, Pleasant, State, Summer, Islington and Congress streets to Franklin hall, where coffee will be served and parade dismissed.

Residents on the line of march are requested to illuminate.

Marching men bring dippers.

BY ORDER REPUBLICAN JOINT COM.

Contributions of rations may be left at headquarters in Franklin Building at and after three o'clock, where Daniel L. Randall will receive them.

The programme for the democratic procession is as follows:

Line will form on Congress street, right resting on Pleasant street, moving at eight o'clock over the following route: Countermarch to Vaughan street; through Vaughan, Deer, Bridge, Islington, Creek and Woodbury streets to Creek road, back through Creek road and Creek street to Islington street, up Islington street to residence of Edward D. Coffin, countermarch to Cass street, and thence through Cass, State and Pleasant streets to Market square, where the parade will be closed with a display of fireworks.

BOYS IN BLUE

Will assemble at the armory this (Monday) evening at seven o'clock, for parade. Comrades unable to appear are requested to send in their uniforms.

By order Maj. Com'd'g.
WM. O. SIDES, Adjutant.

GARFIELD AND ARTHUR CADETS

Will meet at their armory at 6:15 o'clock sharp, in full uniform, ready to parade. Bring dippers. PER ORDER.

GARFIELD & ARTHUR BATTALION.

The Battalion will muster at their headquarters at seven o'clock this (Monday) evening, in full uniform and equipped for a march by torchlight through the city streets.

Per Order Maj. Com'd'g.
WM. A. PAYSON, Adjutant.

WINCHESTER CADETS

Will muster at 6:30 o'clock, equipped for torchlight parade. Dippers.

By order Maj. Com'd'g.
Clinton Sides, Adjutant.

YORK COUNTY ITEMS.

Seth L. Pinkham of Cape Porpoise recently shipped thirty-three barrels of dried fish sounds to D. W. Babson of Rockport, Mass. The sounds are worth about $75 per barrel.

The house of Mr. John Hobbs at North Berwick was entered by burglars on Monday night of last week, but how much plunder they got is not known, as Mr. Hobbs and his wife are absent on a trip to the west.

A York correspondent of the Biddeford *Journal* says that Alvin D. Tuttle of that town swore he was of age in September last, and voted the democratic ticket. His mother, who thinks she remembers as much about his birth as he does, says he is not yet of voting age.

One forenoon last week the workmen in T. B. Hussey's plough manufactory at North Berwick were surprised to find that the water wheel would not turn, although a full head of water was supplied. Investigation showed that the wheel was actually clogged with eels. Some nearly three feet in length were removed.

Dan Donovan, alias "Cobbler," of Biddeford, who some time ago stole at Salem two valuable trunks in transit from the Isles of Shoals to Chelsea, Mass., was recently convicted of that crime, and also of breaking into and robbing Thomas Dobson's clothing store in Lawrence, and was sentenced to hard labor in the Massachusetts state prison for four years.

"Rev." W. A. Boyd recently advertised in Kennebunk a lecture on temperance, during the course of which he would demonstrate that spiritualism is a fraud, and "spiritual manifestations" nothing but sleight-of-hand. He engaged Mousam hall, took a number of dollars at the door, and then skipped, leaving behind as mourners the audience, hall man, printer, bill-distributor and boarding-house keeper, all of whom suspect there is some "out" about the "reverend" gentleman.

New Hampshire Executions.

Dec. 27th, 1739, Penelope Kenney, (a foreigner) and Sarah Simpson were executed for the murder of an infant child. The court which tried them was composed of Henry Sherburn, chief justice; Nicholas Gilman, Joseph Sherburn and Ellis Huske, associates. Thomas Packer, sheriff, executed the sentences. These were the first executions in New Hampshire. May 8th, 1755, Eliphas Dow of Hampton Falls was executed for the murder of Heter Clough of the same town. Dow struck Clough a blow on the side of the head with a hoe, which killed him instantly. By a warrant from the court the sheriff was commanded to hang him March 20th, but the governor reprieved him until May 8th. Dec. 30th, 1768, Ruth Blay of South Hampton was hung. She was convicted at the August term. Wiseman Claggett was the king's attorney; Theodore Atkinson, chief justice; Thomas Wallingford, Meshach Weare and Leverett Hubbard, associates; Thomas Packer, sheriff. A vast concourse of people attended the execution. Sheriff Packer died June 22d, 1771, universally esteemed; an honest, upright man. He served as sheriff for more than thirty years. All the above were hanged in Portsmouth.—*Cor. Newmarket Advertiser.*

To Be Given Away!

ABOUT 200 LOADS of LOAM can be had by applying to; H. M. CLARK, No. 25 Congress street.

One great deed is Enough.

Watts invented the steam engine; Morse the electric telegraph; Whitney the cotton gin; and Dr. David Kennedy, of Rondout, N. Y., discovered and prepared the "Favorite Remedy," which is worth more than all of them, because it saves life and cures disease. It purifies the blood, drives bile from the system, cures those delicate diseases peculiar to women, and is in short a sheet-anchor in every household. No other medicine equals it or can take its place. Don't spend your money in paying doctors, when for one dollar a bottle you can have the "Favorite Remedy" always on your shelf.

—A guest at one of the fashionable hotels in New York took his seat at the dinner table, one day last week, but no one appearing to wait upon him he remarked: "Have they any waiters in this hotel?" "Yes," responded a wag on the opposite side of the table, "the boarders are the waiters."

WOMEN AGENTS WANTED. For particulars enclose stamp to Lydia E. Pinkham, Lynn, Mass.

—A sportsman at Dahlonega, Ga., failing in his attempt to shoot a wild turkey, threw down his gun and overtook the bird after a chase of two hundred yards.

Why suffer with dyspepsia, or many ailes caused by it, when D. R. V. G. is guaranteed by your own druggist to give satisfaction, or money refunded.

—"The children of Captain Grant,' dramatized from Jules Verne's novel, has been brought out at the Boston theatre with an immense expense for scenery, a great company, a ballet, and the "flying fairy."

One feature of the Day Kidney Pad is commendable—that nothing is claimed for it except what it will absolutely effect.

—A New York music publisher has sent King Alfonso a copy of "Baby Mine." If the hand organs in Madrid would only learn to play it, the Spanish outrages on American ships would be fully avenged.

Nutritious, restorative, quieting, strengthening and purifying are Malt Bitters.

Is a Corpse Real Estate, or a Trust?

A singular case is now before the circuit court at Chicago, in which the rights and regulations of Catholic cemeteries are involved in an unusual, though, we believe, not wholly unprecedented way. A Bohemian tailor named Kovarik lost a child last year, and had it buried in the Catholic cemetery of St. Bonifacius. He was then a Catholic, but has since become a freethinker. He had bought a lot in the Bohemian National cemetery, which is under freethinking control, and having lost a second child, was anxious that both children should be buried together. Having obtained a permit from the health department, he sought to have the first child disinterred, but the officials of St. Bonifacius refused permission, and are backed up by the clergy. They would allow the corpse to be transferred to another Catholic ground, but not to unconsecrated soil. Two cases are said to have occurred in this country, one in Rhode Island and one in New York, similar to the present one, and in both the clergy have been beaten. The English theory is on their side, being to the effect that a corpse becomes part of the soil, and hence is the property of the owners of the cemetery, while American law regards the cemetery corporation as only trustees for the time being of the bodies buried in their ground. The Chicago *Times* says that there is a skeptical organization among the Bohemians, largely made up of ex-Catholics, and that if Kovarik succeeds, more than a hundred corpses will be transferred to the National cemetery. The clergy will, however, contest the case to the last.

BRIGHTON CATTLE MARKET.

For week ending Wednesday, Oct. 27.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 2145; sheep and lambs 4100; swine, 17,400; number western cattle 1930; eastern cattle 141; milch cows and northern cattle 225; veals 55.

Prices of beef cattle per 100 lbs. live weight—Extra quality $5 75 and $6 12; first quality $5 12½ and $5 62½; second quality $4 75 and $5 00; third quality $4 25 and $4 62½; poorest grades of coarse oxen, steers, etc., $3 25 and $4 00.

Brighton Hides 8½c per lb.

Brighton Tallow 4½ and 5c per lb.

Country Hides 7½ and 8c per lb.

Country Tallow 4 and 4½c per lb.

Calf skins 10 and 11c per lb, or from $1 25 and $1 75 per skin.

Lamb skins 75c and $1.30 each.

Sheared sheep skins 50c each.

Trade for extra beef cattle has not been so active this week as it has been of late, and the best grades of heavy sold at 5c per ¶ lower than last quotations. There has been a moderate demand for butchers' cattle at prices ranging from 4½ @ 5½c per ¶ live weight. A few very extra ones were bought at $6 @ $ 50 per 100 ¶s live weight. Although the supply of cattle from the west was lighter than has been for several weeks past there was enough for the demand. From Maine the supply consisted largely of Working Oxen and Store cattle. Trade for the latter was rather slow and drovers had to submit to low prices in most instances.

Working Oxen—There has been a fair supply in market; good, nice matched pairs sold well, but common grades were in no good demand. We quote sales of 1 pr, girth 7 ft 6 in, live weight, 3320 ¶s, $146; 1 pr, 7 ft 6 in, live weight, 3150 ¶s, $145; 1 pr, 7 ft, live weight, 3000 ¶s, $135; 1 pr, 6 ft 10 in, live weight, 3000 ¶s, $132 50; 4 pairs, girth 6 ft 10 in, live weight, 3000 ¶s, $135; 1 pr, girth 6 ft 7 in, live weight, 2800 ¶s, $125; 1 pr, girth 6 ft 7 in, live weight, 2900 ¶s, $115; 1 pr, girth 7 ft, live weight, 3000 ¶s, $125; 1 pr, girth 9 ft 3 in, live weight, 2700 ¶s, $120.

Store Cattle—There was a fair supply in from Maine, but the trade for them opened dull. We note sales of 4 two year old heifers for $108; 4 yearlings at $16 each; 2 yearlings at $12 50 each; 4 two year olds at $22 each; 2 two year old heifers at $20 each; 4 one year old steers at $17 each.

Milch Cows—Most of those in market were of a common grade. We quote sales of 5 springers for $165; 1 new milch cow at $53; 2 springers at $50 each; 5 milch cows for $190; 2 springers at $66; 2 milch cows for $115; 2 cows and calves at $64, and at $93; 1 new milch cow at $55.

Sheep and Lambs—Those from the west cost 4½ to 5½c per ¶ landed at the Abattoir. Eastern sheep were taken by butchers to slaughter and at a commission.

Swine—Fat hogs—Prices 1c lower than last quotations, costing 5½ to 5¾c per ¶ live weight.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

E. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1849, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION; Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains 5 hundred and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of twenty years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail postpaid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to perpicious habits or inheritance. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Anti-Chinese Riot in Denver.

The Boston *Post's* despatches say that about a week ago it was discovered that at least 8,000 names were illegally registered in Denver, Colorado, and immediately afterward the streets were filled with strangers, evidently the worst characters from the slums of large cities. Ever since the publication of the "Morey letter" violent partisans have striven to make an issue of the Chinese question, and the democratic press has been filled with articles asserting that as soon as Garfield was elected the state would be flooded with Chinese and all white labor driven out. Saturday night the democrats had a procession carrying transparencies with inscriptions and cartoons tending to excite animosity against the Chinese. A considerable portion of the processionists became intoxicated, and remained out all night. Sunday noon they attacked the houses in the Chinese quarter, tearing them down, and driving out and murderously assaulting the unresisting Chinamen, several of whom had their skulls crushed in with boots and bricks, their ears cut off, and other injuries done which resulted in a number of deaths. Several colored men were assaulted and beaten. The despatch says: "Citizens irrespective of party are intensely indignant. The transparencies carried in the democratic procession Saturday night were devoted altogether to the Chinese, and this, with constant repetitions of the Garfield forgery, are the causes of the mob. There is a dangerous night ahead. The Chinese population here cannot exceed 150. All told, and from the beginning of this disgraceful riot not a single instance is reported of any one of them having resisted the onslaught." The roughs engaged in these outrages are supposed to be men sent to Colorado to help carry that state for Hancock and a pure ballot.

Murder in Pembroke.

Pembroke, the town in which the brute LaPage lived, and where he murdered Josie Langmaid, has been the scene of another murder, the victim being James F. Langmaid, Josie Langmaid's father. The facts are reported as follows: Mr. Langmaid, having sold his farm in Pembroke and purchased one in Minnesota, on the 15th of October sold his household goods and farming implements at auction. Among other things sold were a pair of cart-wheels, which were bid off by Robert McConnell of Chichester. That evening McConnell came after the wheels. There was an unsettled account between the two men, and on looking it over the balance was found against McConnell, and under the circumstances he was told he could not take the wheels away. There was some angry talk. McConnell's son had in the meantime hitched the wheels on behind his father's wagon, and started off. Mr. Langmaid came out and directed the boy to return, and leave the wheels where he found them. McConnell told the boy not to do so, whereupon Mr. Langmaid stepped forward to detach them. Just then McConnell advanced behind him, and, without uttering another word, felled him to the ground with heavy blows upon his head and face with a rock which he had in his hand, and, after he was down, brutally kicked him in his face, stomach, chest and back. Then he sprang into his wagon and drove off, the heavy wheels passing over Langmaid's prostrate body. Mr. Langmaid's wife was a witness to the whole assault, and with the help of a neighbor carried him to the house in an unconscious state. Pneumonia supervened, with great inflammation from his injuries, and on Saturday night he died.

McConnell was arrested immediately after the assault, and released on $600 bail. On Sunday he was re-arrested, and lodged in jail. It is said he has a hard reputation, and has been arrested before for assault.

Mr. Langmaid was one of the foremost citizens of Pembroke, had held all the town offices and been county commissioner, and the assault was wholly unprovoked. His family has had a sad fate. Besides the murder of his daughter, his son Walter died of grief at her death, and his own life has now been violently taken.

Charles Hartman, Toledo, Ohio, says: I know it cured me, and I hope others similarly troubled with pain in the chest may be helped by the "Only Lung Pad" as I have. See Adv.

A Twenty-five Dollar Witness.

The prosecution in the Heathen Chinee forgery case having introduced as witnesses four of the leading "experts" of the country in handwriting, who were all positive that Gen. Garfield did not write the Morey letter, and were almost equally positive that it was written by Philp, the defence on Saturday introduced several witnesses employed on the Brooklyn *Eagle*, a democratic paper, who testified that they thought the Morey letter was not in Philp's writing, and also an "expert" who in his direct examination said the same thing. But on being cross-examined, this democratic expert admitted that he examined the *fac simile* when it first appeared, and pronounced it a forgery, but that thereafter, having been to the office of the *Truth* and received twenty-five dollars, he made affidavit that in his opinion the Morey letter was written by Garfield, though he had never seen writing that he knew to be Garfield's, and had only seen three signatures written upon cards which he was told were written by Garfield. He also admitted that in his affidavit he had made many misstatements, and that after getting his twenty-five dollars and making his affidavit he went to a person to whom he had previously said the Morey letter was a forgery, and begged him to say nothing about it. He also confessed that he left a Boston bank "short" in his account. This swift witness, who charges twenty-five dollars for a sworn opinion on either side of a question, is a fit associate for the rest of the democratic agents engaged in this disreputable affair, including Chairman Barnum.

News and Notes.

Elmer Clark, a quiet, studious young man, and a machinist by trade, was captured at Augusta, Me., early Sunday morning, while in a boot store which he had broken into. In his trunk at his boarding house a number of stolen articles were found, among them a dozen watches, fifty chains and about a quart of rings, and he confessed to the commission of numerous burglaries during the past three months.

A decision has been rendered by the treasury department at Washington, according to which Mlle. Sarah Bernhardt's new dresses and other unused articles of wear are liable to duty. The valuation fixed upon was 50,000 francs, or about $8,000, on which the duty will be about sixty per cent, or $4,800 altogether. Mlle. Bernhardt's agent says this amount will come out of the artist's own pocket.

A remarkably heavy rain storm in some portions of Italy caused a flood in two villages near Reggio di Calabria, on Thursday last, by which seventeen persons were drowned.

Two passenger trains collided on the Pan Handle road, Friday, near Burgettstown, Pa., killing James Anderson, fireman, as he was trying to jump from the engine, and Thomas and Frank Cunningham and Michael Lanagan, young fellows who were stealing a ride to a political meeting, between the engine and express car.

In the Episcopal convention at New York, the committee on the state of the church, after referring to the importance of mission work among the Indians of the western states and territories, ask: "Why is it that the southern dioceses, depressed and impoverished, receive no more of church benefactions, and are left to carry on their mission work with little more assistance than can be secured within their own limits; why is it that these four million of the colored race, eligible to all places of trust, to our legislatures, to seats in Congress, and acting in many instances as teachers of the young, should awaken far less enthusiasm and call forth not a moiety of the liberality that the Indian does?" The committee, in concluding, invoke the attention of the whole church to this inconsistency and inequality in the interest, sympathy and charity of the church.

A Chicago despatch says that during the great storm of October 16th on the lakes upwards of $500,000 of damage was done to vessels and cargoes, and ninety-three persons perished. There were seventeen total wrecks, involving a loss of $153,900; and in all, sixty-six vessels were damaged to a greater or less extent.

Rev. George Newbold ran a bakery while pastor of the Methodist church at Bartonville, Canada, and further diversified his pursuits by forging checks. While serving a term of imprisonment for his crimes, at Belleville, he made love to the warden's wife, and on his release eloped with her. On his wedding tour he visited Mansfield, Ohio, and accidentally meeting Rev. Mr. Gilroy, who had once denounced him, gave that gentleman a sound whipping. He is now to be prosecuted for bigamy, because he has three wives.

A Maine paper says: "The Beet Sugar company of Portland have started up for the season, and are working night and day, with a crew of 125 men, and an outlay of twenty-five tons of coal per day. About 150 tons of beets are worked daily, and 10,000 tons will be used this season. There are 6000 tons on hand. About 800 tons arive daily by cars and fifty by farmers' carts, from Maine, New Hampshire and Canada, and the beets are as good as last year's, though the yield will be one-third less owing to the drought. With a full supply of beets the factory could turn out 20,000 tons per season, or 2000 tons of sugar and molasses. The waste is now bought by one person for $1 per ton, and sold for manure. Already 2000 tons of beet pulp have been contracted for, for feed."

The liquor dealers of Washington city are so incensed at the efforts of the prohibition people to prevent the issuing of licenses that they are contemplating the plan of combining and deciding to pay no licenses, leaving the courts to prosecute. Their point is that the criminal court would not have the opportunity, as at present constituted, to make more than a hundred convictions a year, which under the maximum of the law would yield in fines only $10,500, while the amount annually paid by the same parties now in licenses is $650,000. They agree that in the attitude of the temperance people it would be an economy to the liquor men to violate the law and to pay the penalties.

Travelling in a stage coach in Nevada is enlivened frequently by incidents. For example, Freid and Moody sat in the same seat of a crowded coach on the Bodie line. Moody surlily said that Freid was taking more than a fair share of the space, and when Freid replied that he couldn't move any further, coolly shot him. "I never take any nonsense," he remarked, as Freid fell dead from the seat. The driver got down from the box and told the murderer to get out. A defiant refusal and a flourish of the weapon were the answer. The driver jumped on the wheel, seized Moody by the collar, dragged him out through a window, and threw him to the ground so forcibly that his arm was broken. The passengers helped to tie him with a rope, and he was stowed away with the trunks behind, along with the body of Freid, after which the journey was continued.

One hundred vessels were destroyed during the recent gale in Sweden.

A republican meeting at St. Louis, Mo., was attacked by democratic roughs Saturday night, and a fight ensued in which one negro was killed and another fatally hurt by policemen, and many others wounded. Several white men were hurt.

New Hampshire Items.

There were twenty naturalizations at Haverhill on Saturday.

The old state prison was erected in 1811-12, upon two acres of land, purchased of Joshua Abbott, Jr., for $100. The first convict admitted was John Drew, of Barnstead, who was convicted Sept. 12th for stealing a horse, and was committed Nov. 23d, 1812. He was pardoned May 15th, 1816. Since then 2,000 convicts, for the great catalogue of crimes, have been sentenced in our small state within the past sixty-eight years. The cost of the old prison was about $37,000, but subsequent enlargements probably increased its cost to $75,000. The north wing was built in 1833, with 120 cells.

The seventh New Hampshire Sunday school convention will be held at the First Congregational church in Manchester, Nov. 9th, 10th and 11th. A most excellent programme has been arranged, and many gentlemen prominently connected with Sunday school work will be present, and contribute to the success of the affair.

Charles D. Wedgewood of Farmington was found dead in a vacant room over a saloon, one day last week. He had been drinking heavily for some time.

The Wentworth hotel in Walpole, and a livery stable, were burned on Saturday night, with one colt and seven hogs. A shoe store and the post-office were badly damaged. A very large conflagration was prevented only by the heavy rain. Estimated total loss, $15,000.

The Pirate Fisherman.

The fish market of Havana is said to be the finest structure of the kind in the world. It also interests the traveller by its romantic association with the story of Marti, a reformed pirate and smuggler, who built it and the Tacon theatre. During the administration of Tacon, from 1834 to 1838, smuggling and piracy had grown so bold in and about Cuba as to defy the Spanish navy sent to suppress the outlaws. The leader of the smugglers and pirates was a man named Marti, and for his person, dead or alive, the governor-general had offered a large reward. One dark night a man was watching the sentinels pacing in front of the governor's palace in Havana. As they turned their backs and separated for a moment the man sprang unobserved through the entrance. He passed up the broad stairs, saluted in an imperious style the guard there stationed, and passed into the governor-general's room. The governor, who was engaged in writing, looked up as the man coolly cast aside his cloak, exclaiming:

"Who enters unannounced?"

"One who has information of the pirates?"

"What of them?" said Tacon earnestly.

"One moment. I must not sacrifice myself."

"You have not to fear. Even if you be one of them, you will be pardoned."

"Will you pardon and reward me if I reveal the lurking places of the pirates, and put Marti into your hands?"

"I pledge you my word of honor," said Tacon.

"Your excellency, I am Marti."

The cool scoundrel then entered into an arrangement with the governor for the betrayal of all the smugglers and pirates. Under his guidance the Spanish vessels sailed to the out-laws' hiding places and captured those who were not slain.

When Marti returned to Havana he was offered the pardon, which he accepted, and money, which he declined. In lieu of the reward, he asked the monopoly of selling fish in Havana. It was granted, and he erected a magnificent stone market. When he became master of enormous wealth he built a theatre, and named it after the governor-general who had pardoned the scoundrel.

—Newspaper editors, as a class, are obliged to keep cool under all circumstances, and to provide against contingencies, every well regulated establishment has a composing room, where they can retire when under great mental excitement.

Profitable Patients.

The most wonderful and marvelous success in cases where persons are sick or wasting away from a condition of miserableness, that no one knows what ails them, (profitable patients for doctors,) is obtained by the use of Hop Bitters. They begin to cure from the first dose and keep it up until perfect health and strength is restored. Whoever is afflicted in this way need not suffer, when they can get Hop Bitters.—*Cincinnati Star.*

KELLOWS' Compound Syrup of HYPO-PHOS-PHITES

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it unfoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have known cases where a single dose has been effectual.

S. JACOB, M. D., St. John, N. B., writes:

"I had occassion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expedition and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

ELECTION DAY.

Republicans, vote early.

A vote for the Hancock and English electors to-day is a vote to approve of tissue ballots and shot-gun campaigns in the south, and slander, forgery and perjury in the north, as legitimate political agencies.

The republicans of Portsmouth have nothing to do to-day with New York or Indiana or Maine, nor even with New Hampshire as a state; their duty is to take care of their own city, and see to it that the last republican vote is polled.

The polls in this city close at six o'clock this evening, under the law. At *five* o'clock this afternoon the bell of the North church will be rung, as a warning to all voters who have not deposited their ballots that the polls will close in one hour.

A vote for the democratic free-trade ticket is a vote to lower the wages of the American laborer—just such a vote as the British "ruling classes" would have you throw. A vote for the republican ticket is a vote to protect American labor from ruinous competition with the pauper-paid labor of Europe.

The democrats have succeeded in securing perfect *fac similes* of the republican tickets as sent out by the state committee, but with Frank Jones' name in place of Charles H. Bell's, and have arranged to flood the state with them to-day. They are not likely to be shown in this city, being intended for other places more particularly; but it will be well for every republican voter to scrutinize his ticket closely before voting it. It would have looked more as though Mr. Jones were working "for the party" instead of for himself solely, had the name of Capt. Marcy or some other of the Hancock electors been also put on the split ticket.

AROUND HOME.

Glad it's most over.

A sacred concert is to be given in Music hall on Sunday evening next, by the Obrey Anglo-Indian Concert company.

Workmen engaged in digging a well at Newmarket recently came upon a deposit of petrified mussels and coral at a depth of about twenty feet.

Mr. Ed. H. Madigan, advance agent of Duprez & Benedict's minstrels, was in this city on Monday to make arrangements for the appearance of the company here on the 23d inst.

Messrs. Morse & Ilsley sold at auction on Monday the house No. 21 Pickering street for $630, and house No. 9 Hunking street for $400, Wm. H. Rollins, Esq., being the purchaser of both.

It is said that the contractors for the removal of Gangway rock have decided to postpone operations until spring, having evidently found more opposition from the Piscataqua river than they anticipated

Considerable excitement was occasioned at the head of Market street, Monday afternoon, by a big smoke in the drug store of Mr. George Hill, caused by the bursting of a bottle of acid. No damage worth particularizing was done.

The schooner Virginia, Burgess master, bound to this port from Elizabethport with a cargo of coal, was within six miles of Whalesback light on the 31st ult. when she took a heavy northwest blow, had her mainsail carried away and other damage done, and was obliged to make for Boston for repairs, where she arrived on Monday.

Capt. Amee of Kittery Point, master of the fishing schooner "Norma," positively denies the story published during the first week in October to the effect that a Kittery man, one of the schooner's crew, was bundled ashore, bag and baggage, for no other reason than that he was a republican. Capt. Amee says that nobody on the schooner had any knowledge as to how the man voted until they saw it stated in the papers that he was a republican; that the only reason his clothing and gear were taken ashore was because he was not a profitable member of the crew, and that at the time his effects were landed he had not been on board the schooner for ten days.

A BACK SOMERSAULT.

The Portsmouth *Weekly* dated Nov. 6th was issued on the 1st, to enable the editor to get in some good work in aid of the election of Hon. Frank Jones as governor of New Hampshire. How he reconciles his ultra-prohibition creed with such an undisguised attempt to assist in the election of a leading brewer to high position, we cannot say; nor how his "ramrod" friends who have hitherto sworn by the *Weekly* as being the only true thick-and-thin prohibition organ in the state, will like its terrific somersault. We do not know, either, what the temperance men and republicans about town say; possibly their feelings are too deep for utterance, for we have not heard any of them speak of the matter. But we do know what many of the democrats say, and that is, that the influence of the *Weekly* must have been bought—rather an ungenerous reflection for them to make, under the circumstances, but still one which they have have made. Those who know the editor of the *Weekly* best will take no stock in the theory that he has been purchased; to us the imputation appears as absurd as unjust, for we know that ten or fifteen years ago he was as ardent a "Frank Jones man" as he is to-day, and at that time wrote a "local" which we (then a compositor in this office, and acting foreman,) refused to put in type, to give out to any other compositor, or to put in the paper after it was set up and corrected, so fulsome did we consider its flattery of Mr. Jones. And we did not touch it from first to last, though it went into the paper all the same; and six or seven years later, when it was copied into the *Times* and credited to the CHRONICLE, at the time Mr. Jones was running for Congress, we were of course highly gratified at learning that the authorship of it was attributed to us! The *Weekly* editor's somersault is more apparent than real.

POLICE COURT.

MONDAY, Nov. 1; *Batchelder, J.*

Joseph Darvill and David Flynn were before the court, charged with mutual assault; fine $5, costs $8.04, in each case. Paid.

MONDAY NIGHT'S RALLIES.

The two processions started on time, the democrats moving first and the republicans starting as soon as the way was clear, and marched over the routes as previously announced. Both made fine shows, the delegations from across the river largely swelling the numbers of the republican procession. The illuminations were general, and some of them very fine.

The cheering along the routes was almost incessant by both processions, and was much too loud for the *Times* standard. After the march was over there was a brilliant display of fireworks on Market square, during which an unfortunate accident occurred; by the explosion of a bomb James Swasey had a hand badly injured, and Samuel Allyn and William Welch were seriously hurt about the legs. The republican marching men had a collation at Franklin buildings; the Marcy Guards had supper at Marden's dining hall, and the Jones Cadets at the Gibson house; and it was not till after midnight that quiet prevailed.

ANNIE PIXLEY AS "M'LISS."

The announcement that the talented actress, Miss Annie Pixley, is to appear at Music hall on Thursday evening, has created a good deal of interest, and there is good indication of her being greeted by a large audience. The play in which she appears is one of unusual interest, depicting as it does the exciting events in mining life among the mountains of California; and her assumption of the title role is said to be a wonderful piece of acting, in itself sufficient to stamp her as a great dramatic artiste. The audience follow with eager interest the joys and sorrows of the mountain waif to the happy ending, when right triumphs and the guilty suffer. She has been greeted everywhere with immense audiences, playing to 22,000 people in fourteen nights at the Boston theatre, and to overflowing houses in Providence. She is not only a remarkable actress but a fine singer, a gift which is called into requisition during the play. The St. Louis *Globe-Democrat* says that "never since the days of the divine Nillson have such strains been heard here." Miss Pixley is supported by a company of artists who render the various parts with truthfulness of conception and force of action, and the play is richly mounted. DEMOCRATIC MARE'S NEST.

The *Times* of Monday evening overflowed with indignation and a big headline, "Intimidation coming from an unexpected source," followed by a statement that "H. Gates Wentworth and H. Dickerson—who for some weeks past have been at work for Ezra H. Winchester on his farm—were dismissed this morning without a moment's notice, it having been ascertained that they were both going to vote the straight democratic ticket."

The story is simply a democratic campaign earnard; in other words, a lie. And we have good reason to believe that the facts in the case were in possession of the editor of the *Times* before the flaming item appeared. The truth of the matter is that Mr. Winchester, who in October had sixteen persons in his employ, on Monday morning directed his foreman to reduce the number by five, the further services of the whole number not being required; and the foreman did as directed, discharging (as it happened) two democrats, two republicans, and a minor who of course has no vote.

Further, we are informed that Mr. Dickerson himself declares that Mr. Winchester never mentioned politics to him in his life—for the verification of which we refer to Mr. Charles W. Norton, a representative democrat, a brother-in-law of Mr. Dickerson's, and a man whose word is as good as that of any citizen.

In this connection we may remark that Hon. Frank Jones is not likely to be charged with discharging republicans on account of their politics, as we have never heard of his employing anybody who doesn't "vote right." But a recently discharged employe of his brewery, who is a democrat, says he was summarily sent adrift for declining to turn out in the democratic procession last week.

After the foregoing was in type we received the following;

PORTSMOUTH, Nov. 1st.

My attention has been called to an article in the *Times* of this evening relative to my discharging men. If the public have any interest in my private business, I will say that for the lack of work I discharged seven of my farm help to-day; on enquiry I learn that two of the number only were democrats. Neither their political veiws nor mine had anything to do with the discharge.

Books, Magazines, Etc.

"The Anthem Harp," for chorus and quartette choirs, is a collection of modern anthems, convenient for church choirs. For sale by Ditson & Co., Boston.

The leading paper in *Appletons' Journal* for November is an important article on "The rights of married women," by Mr. Francis King Carey, of Baltimore, in which there is a rapid glance at the history of marital relations, and a discussion of the present status of married women in the principal states of the Union. Following this is the second and concluding part of Andre Theuriet's novelette "All alone." As this story turns on the divorce question in France, its position, in connection with Mr. Carey's article, is a notable coincidence. The papers that follow are very varied in character, consisting of a striking paper on "The growth of sculpture," by Grant Allen; a vivid "Colorado sketch," by the Earl of Dunraven; an exceedingly dramatic and interesting biographical sketch of the great composer Berlioz, under the title of "The life and passion of Hector Berlioz," which is from the pen of Edward King. Then there is a paper on "Guizot's private life," derived from the recent volume under the same title by Guizot's daughter; one on the "Influence of art in daily life;" and on "Literary success a hundred years ago," reviewing Hannah More. There is an essay entitled "The new renaissance; or, the gospel of intensity," in which the affectations of the new æsthetic Burne-Jones and Rossetti school are brilliantly satirized; a group of novels reviewed; and the "editor's table." Appletons' Journal is published monthly, at twenty-five cents per number, or $3.00 per annum, by D. Appleton & Co., New York, and is one of the best publications for the price to be obtained in the country.

—An aged miser, feeling unwell but grudging to pay a doctor's fee, sees with pleasure a medical man with whom he is acquainted, advancing towards him on the sidewalk. "How are you?" exclaims the doctor, meeting him. "Well, I don't feel very well, doctor," says the miser; "I fact I am quite out of sorts. I have no appetite, my tongue is coated, I have pains in the back and in the head," and so on. "Hum," says the man of science; "that's pretty bad!" "What would you advise me to do, doctor?" says the avaricious one, artfully. "To consult a doctor, by all means," says the doctor, walking away.

SCIENCE WINS!

A Splendid Surgical Operation--Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weaknesses peculiar to females. This wonderful medicine is now for sale by all our druggists at $1,00 a bottle.

I am glad to say a word that will encourage any person that may be suffering as I did for twelve years from piles. I give Kidney-Wort a trial. After suffering, as none but those who have been thus afflicted can realize, and trying various remedies prescribed by regular physicians, I was persuaded to buy four packages of Kidney-Wort. This was about eighteen months ago; and after using only one and a half packages, I was cured. I have not since felt the need of more, but for fear I shall, I would not part with the balance of it on any account, if I supposed there would be any uncertainty of getting more.

A Horse on a Railroad Trestle.

James Streden, while drunk lately, attempted to drive across the Kennickinick river on the railroad bridge. The bridge has for a bottom only ties placed about twenty-two inches apart, and the task of walking across on a dark night is quite a ticklish one even for a sober man. For a horse, and especially for a horse controlled by a drunken driver, the task is well nigh impossible. Streden, however, was not sober enough to take in a greater fact than that a bridge lay before him and must be crossed. Therefore, when his horse hesitated for a moment he applied the whip, and the noble animal commenced his perilous trip across on the bridge ties. Cautiously and very slowly the horse felt his way step by step till he had nearly completed one-half of the distance across, when the drunken man became impatient and struck the animal with the whip. A false step, a stagger, and a final plunge told the story of the horse's drop of fifteen feet into the water below. The wrench and snapping of the harness and shills threw Streden out, and he, happily, followed the horse into the chill waters of the muddy river. Officer Weisner and Mr. Davidson heard the double splash, and ran to the river in time to see the horse swim out and clamber up an incline to the dock, while Streden, now nearly sober, was making efforts to keep his head above the water. To draw the man to the shore was but the work of a moment, when it was found that he had suffered some scratches and bruises; but with the inexplicable luck of drunken men, he had no bones broken, and had suffered no internal injury. The buggy, which remained lodged between the ties on the bridge, was the most used-up member of the trio, and was removed before the next train was due.—*Milwaukee Wisconsin.*

"The Merry Cat-o'-Nine-Tails."

It may not be generally known that the cat-o'-nine tails, or cat-tails, or catkins, or whatsoever they may be rightly called, are of some importance and magnitude. Whosoever discovered and made known the fact that the proper place for the swamp-nurtured catkin was the parlor and drawing-room has not left his name behind, but certain it is that in the year 1879 and more particularly in the year 1880, catkins began to be included in the fours furnishings of ornamental things. At the present time the demand is large and increasing, and a useless weed has become an article of commerce. The catkins are used with pampas grass, sea oats and nature grasses to make up the contents of vases which ornament mantels and room corners. This has become the rage, as it is called, and many a room is undergoing the process of catkin and grass adornment. For the reception of these grasses large and small vases are used for the same purpose as well as for umbrella stands. The catkins with the beautiful pampas grass add a great deal to the attractiveness of any room, and particularly of that one so complimentary surroundings. The time was when the beauties of natural grasses were concealed under a coating of alum, or some other glistening substance. From this tinsel we are gradually turning to a more correct taste, even in such small matters as catkins. One firm in Providence has laid in a stock of about 3000 catkins.—*Portland Press.*

—A romantic relic of Cowpens battle was shown at the centennial celebration of the battle of King's Mountain the other day. This was a plain 22-carat gold ring, which was found on the Cowpens battlefield in 1821. The inscription reads: "This and ye giver is yours forever, 1772." It was presented to a British officer by his sweetheart before his departure with Lord Cornwallis for America. The officer, who was killed at the Cowpens, also wore buttons of twenty carat gold on his uniform, and some of the buttons are still owned in the Carolinas. One was presented to General Lafayette in 1826, and others were sent to England, the coat-of-arms on them revealing the family to whom they belonged.

ABSORPTION.

all diseases of the Kidneys, Bladder, Urinary Organs and Nervous System. Sure relief in one day. It is comfortable to the patient, positive in its effects, and free from fear for those painful and much dreaded affections.

Diabetes and Bright's Disease, with its concomitants, Dropsy, Coma, Catarrh of the Bladder, Bricklust Deposits, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of manhood, vitality impaired by the errors of youth or to close application to business or work, may be restored to perfect manhood again.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment well tried and very inefficient, though some time effecting apparent cures of one complaint, they sow the seeds of some more dangerous and fatal disorders. The price of our Pad brings it within the reach of all, and it will generally save many times its cost in doctors bills, medicines and plasters, which do not relieve or benefit. It can be used without fear or harm, and with certainty of a speedy cure. For sale by druggists generally, or sent by mail (free of postage) on receipt of the price. Regular Pad, $2.00; Child's Pad (for incontinence of urine in children), $1.50. Special cases, size, $3.00. Our book, "How a Life was Saved," giving a history of this new discovery and a large number of well vouched cures sent free. Write for it. Address

DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it necessary to caution the public to warn them, Ask for DAY'S KIDNEY PAD, and take no other.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration of the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1849, my first patent. Since then you have acted for me and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

THE New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the old home by the sea, it is the best means of keeping informed of what transpires in this city.

— THE — NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a week 7 invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, and which our merchants should not fail to bear in mind.

KNOW THYSELF.

The untold miseries resulting from indiscretions in early life may be alleviated and cured. Three hundred thousand have testified to the wonderful curative powers of the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled ERRORS IN THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

The one hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains 125 national and very expensive engravings, three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the results of many years of profound and successful practice, either one of which is worth ten times the price for the book. Bound in French cloth; price only $1, sent by mail postpaid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, which are due to pernicious habits or inherited. He is a Nerve specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M.D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. HEAL THYSELF

Daily Chronicle.

A New Secret Order.

The other day, after a strapping young man had sold a load of corn and potatoes in the market, and had taken his team to a hotel barn to "feed," it became known to the men around the barn that he was very desirious of joining some secret society in town. When questioned he admitted that such was the case, and the boys at once offered to initiate him into a new order, called the "Cavaliers of Coveo." He was told that it was twice as secret as Freemasonry, and much nicer that Odd Fellowship, and the cost was only two dollars. In case he had the toothache he could draw $5 per week from the relief fund, and he was entitled to receive $10 for every headache and $25 for a sore throat. The young man thought he had struck a big thing, and after eating a hearty dinner he was taken into a store-room above the barn to be initiated. The boys poured cold water down his back, put flour on his hair, swore him to kill his mother if commanded, and rushed him around for an hour, without a single complaint from his lips. When they had finished he inquired: "Now I'm one of the Cavaliers of Coveo, am I?" "You are," they answered. "Nothing more to learn, is there?" "Nothing." "Well, then I'm going to lick the whole crowd!" continued the candidate, and he went at it, on the word, and before he got through he had his two dollars initiation fee back, and three more to boot, and had knocked everybody down two or three times apiece. He didn't seem greatly disturbed in mind as he drove out of the barn. On the contrary, his hat was slanted over, he had a fresh five-cent cigar in his teeth, and he mildly said to one of the barn boys: "Say, boy, if you hear of any cavaliers asking for a Coveo about my size, tell 'em I'll be in on the full moon to take the Royal Skyfugle degrees."

A RADICAL CHANGE. Ten years ago, any physician, when consulted, would tell his patients that Bright's Disease of the Kidneys was incurable. To-day, the theory is all changed. What has changed it? We answer, the success of Hunt's Remedy, the Great Kidney and Liver Medicine. In all parts of the country, the best physicians now prescribe Hunt's Remedy when everything else fails. Such a medicine is truly valuable. Hunt's Remedy cures Bright's Disease, and it controls all kidney, bladder, liver and urinary complaints.

Sold by all druggists. Trial size, 75 cts.

—A California justice, in a moment of anger, said that the lawyers in a case on trial before him were no better than horse thieves. Then he apologized and fined himself $10 for contempt of court.

The name Jenner means a drawn lancet putting to flight a loathsome disease; and the name Harvey signifies the circulation of the blood. And the time is coming when the name of Dr. David Kennedy will be indissolubly connected in the public mind with the the purification of the blood; a deed only less important than the discovery of its motion through the human body. This Dr. Kennedy accomplishes by means of his new medicine called "Favorite Remedy"—the pleasant and popular title of a preparation which cleanses and sweetens the river of life within our veins, as an influx of oxygen does vitiated air. All druggists, $1.00 a bottle.

—The Pawtucket *Gazette* is responsible for this item: "On the occasion of a recent political parade, (whether republican or democratic the reader must decide, because our reporter neglected to inform us,) the captain of one of the companies wishing to 'open order' to clear the car track, was at a loss for the necessary words of command. Vexed and well nigh discouraged he finally shouted, 'Shplit there an' let the horse cars run through yez.' There was a 'shplit' yez wunst."

CHRONICLE EXTRA.

THE ELECTION.

Barnum's Exit

THE GRAND RESULT !

From present returns it seems that Garfield & Arthur have secured 222 electoral votes, in the following states:

Maine	7
New Hampshire	5
Vermont	5
Massachusetts	13
Rhode Island	4
Connecticut	6
New York	35
Pennsylvania	29
Ohio	22
Indiana	15
Illinois	21
Michigan	11
Kansas	5
Minnesota	5
Wisconsin	10
Iowa	11
Nebraska	3
Colorado	3
Nevada	3
California	6
Oregon	3
Total	222

Whole number of electoral votes 369
Necessary for choice 185

One or two southern states are in doubt, and may yet be added to the list.

NEW YORK, Nov. 2d.

Brooklyn complete gives Garfield 49,672: Hancock, 57,777. Hancock's majority, 8305. This is a reduction of the Democratic majority of the last presidential election of over 10,000.

NORTH HAMPTON.—Garfield 106, Hancock 135—showing a republican gain of eleven votes over 1878. The highest vote ever before cast by the republicans of that town was 96 for Lincoln. Bravo for the sturdy republicans of North Hampton!

SEABROOK.—Garfield 169, Hancock 246.

EPPING, fifty republican majority—never went republican before. B. W. Hoyt, republican, elected to legislature.

GREENLAND.—John Hatch, dem., elected representative by nine majority.

HAMPTON.—Garfield 223, Hancock 143; Bell 219, Jones 143.

EXETER.—Garfield 612, Hancock 195, scat. 64. Bell 618, Jones 191, scat. 8—a republican gain of 160 over 1878.

The Boston *Post* (democratic) of Nov. 3d prefaces its election reports with the following in "display type:"

"All wrong. Ten millions of men went to the ballot-box,—And more than half of them voted the wrong ticket. Hence, James A. Garfield is elected President, and Chester A. Arthur is elected Vice President. All of the northern states give a republican majority,—and one or two southern states are in doubt. The next Congress will undoubtedly be republican. Another four years of republican rule is assured. The republicans gain several congressmen in New England. Republican gains all over the north. Scarcely a crumb of comfort for Democrats."

CONCORD, N. H., Nov. 3d, 10 A. M.

State has gone republican by 2500 majority, and the republicans have elected all three congressmen. E. H. ROLLINS.

Latest Returns and Good Enough!

HALL RE-ELECTED.

In this congressional district Hon. Joshua G. Hall is re-elected by about 400 majority over John W. Sanborn.

PERSONAL POPULARITY AT HOME.

The democrats of Portsmouth boast, and not without some reason, of the vote given their gubernatorial candidate in this city. But he is not the most popular candidate ever presented by Portsmouth for suffrage, for when Levi Woodbury was elected governor of the state he "went out of the town" with almost a solid vote, only thirty-four ballots being recorded against him.

THE WARD ONE VOTE.

The check-list in ward one was about as marked-up a piece of paper as ever was seen, when the polls closed on Tuesday evening. The list had on it 835 names, and but 39 remained to be voted on; and of these 39 voters five are at sea, two dangerously ill, and eleven in states so far distant that it was impossible for them to get home.

The vote for governor—2398—was the largest ever cast in Portsmouth for any office. The total vote for President in 1876 was 2322, for governor in 1877 was 2267, and for governor in November, 1878, was 2112.

Col. J. Horace Kent, the republican candidate for sheriff of Rockingham county, ran ahead of his ticket in this city, and in nearly every town in the county; he is elected by probably about 1000 majority. Newton Johnston, Esq., county commissioner, also ran ahead of his ticket in this county. The compliment is deserved by both the gentlemen named.

We congratulate the republicans of Portsmouth on the election of Garfield and Arthur by a vote so decisive as to be beyond cavil or fraud. A SOLID South has indeed produced an almost SOLID North.

OUR VICTORIOUS BIRD !

The republicans gain one congressman in Virginia.

Pennsylvania's republican majority is 30,000.

The Boston *Post* says the election in the fourth congressional district of Massachusetts has probably resulted in favor of Leopold Morse, though from the discrepancies reported in the figures a careful re-examination may be necessary to determine the question.

John Kelley said at Cincinnati that the democrats could elect "any man but Tilden." He has altered his mind.

"I will see you later, gentlemen," said Mr. Arthur in New York Tuesday night.

Garfield has played his cards again and scooped the stakes.—*Boston Post.*

Senator Blaine of Maine sent the following despatch from Augusta to Gen. Garfield at eleven o'clock Tuesday night: "The vote in Maine to-day is probably the largest ever cast in the state. It may probably reach 150,000, and this from a total population of 650,000. Your plurality will be more than 5,000, and your majority over all will probably exceed 4,000. These are the deduction from returns received from 200 towns. Accept my sincerest congratulations upon your triumphant and deserved election."

A Democratic Review.

The Boston *Post*, democratic, in its issue of Tuesday morning, makes the following comments on the result of the election:

The great battle has been fought, and won by the republican party. It is no time now to moralize, or bring forward reasons for this Waterloo that has overtaken the democratic party. It has fought a good fight against great odds, and has lost. At this hour it looks as if Garfield and carried every state north of Mason dad Dixon's line. His majorities, to split the difference between radical and conservative estimates, are about as follows: Maine 2,000, Vermont 25,000, Massachusetts 40,000, Rhode Island 6,000, Connecticut 2,000, New York 40,000, Pennsylvania 30,000; Illinois. Michigan, Iowa, Minnesota, Wisconsin, Kansas, Indiana and Nebraska by majorities ranging from 5,000 to 50,000. As to the south, it is not unlikely that the republicans have made inroads and elected their electoral tickets in Florida and Virginia. There are, however, no positive indications of this, but it should not surprise anybody should it turn out to be a fact. To say that the democrats are greatly surprised at the result in general, would only be stating the truth, and though for some weeks past the republicans have been claiming every northern state, the mass of them are as greatly surprised as the democrats. Mr. Garfield of Ohio, who will in all probability succeed the present de-facto President, will doubtless have a Congress of his own political faith to back him.

THE VERY LATEST!

BOSTON, Nov. 3d.

Returns up to noon do not show any change in result of election for President.

New York's majority for Garfield variously estimated from 35,000 to 40,000; it will probably be between 15,000 and 25,000.

New Hampshire is republican by 2,500; Jones runs considerably ahead of his ticket.

Maine is republican by probably 4000.

Indiana republican by 4000 or 5000.

New Jersey claimed democratic by 7,500.

In New York city Hancock has 42,000 majority, and Grace, democrat, elected mayor by small majority.

POOR HANCOCK!

PROVIDENCE, R. I., Nov. 2d.

Rhode Island complete gives Garfield 18,188, Hancock 10,784, scat. 141; rep. majority 7,263, a republican gain of 2,291 over the majority for Hayes.

HARTFORD, 2:00 A. M., 3d.

Returns from 120 towns in Connecticut give Garfield 43,099, Hancock 39,415; republican majority, 3684. Same towns in 1876 gave Hayes 38,098, Tilden 38,960; democratic majority 863. Rep. gain 4,546.

NEW HAMPSHIRE.

CONCORD, 11:45 P. M.

One hundred and fifty towns give Garfield 15,783, Hancock, 14,723; Bell, for governor, 15,685, Jones 14,595, scattering 282. Same towns in 1876 gave Hayes 14,947, Tilden 14,822.

CONCORD, 1:30 A. M.

Returns from 106 towns give Garfield 29,088, Hancock 26,500, scat 258; net rep. gain 2407. Three congressmen probably elected. Bell 27,412, Jones 24,965, scattering 473.

MAINE.

PORTLAND, midnight.

Careful estimates at this time indicate a majority for Garfield of 4500 in the state. The *Argus* concedes a majority of 4000, and a plurality of 5000 over the Hancock ticket.

It is probable that York county, which gave 150 rep. majority in September, has given Garfield 1200.

MASSACHUSETTS.

BOSTON, 10:00 P. M.

One hundred and fifty-two towns and wards in this state give Garfield 82,664, Hancock 38,859; same towns in 1876 gave Hayes 75,114, Tilden 42,269.

CONNECTICUT.

HARTFORD, 12 o'clock.

Streets full of people. Big fires on State House square. Republicans think it sure for them. New Haven gives 200 maj. for Hancock; *Times* office closed up—sure sign the dem. "bar'l" is busted. Legislature largely republican.

VERMONT.

WHITE RIVER JUNCTION.

One hundred and eleven towns in Vermont give Garfield 30,346, Hancock 12,518, Weaver 871, scattering 15; Garfield's majority 16,942. Same towns gave Hayes 28,830, Tilden 13,832, scat. 24; Hayes' maj. 14,974. Republican gain 1978.

OHIO.

COLUMBUS, 1:00 A. M.

Five hundred and twenty-nine voting places show a republican gain of 8451.

COLUMBUS, 11:00 P. M.

Six hundred precincts, wards and townships, one-third of the state, give net republican gain of 9400, indicating majority in state of 40,000 for Garfield.

WISCONSIN.

MILWAUKEE, 11:00 P. M.

One hundred and thirty-seven towns show net republican gain of 5263, not including Milwaukee; with Milwaukee, rep. gain 9569.

NEW YORK.

NEW YORK, 11:00 P. M.

Tribune claims Garfield has 50,000 majority in New York state, and that Dowd is elected Mayor. *Sun* gives up state; *Herald* concedes Garfield 25,000 majority. Hancock's majority in city about 40,000.

NEW YORK, midnight.

New Jersey has gone for Garfield by 5000 majority.

A riot is in progress in Broad street in Philadelphia.

ROCHESTER, 1:00 A. M.

Republicans are parading streets, cheering and singing; prominent men making congratulatory speeches.

NEW YORK, 1:30 A. M.

Four hundred and twenty election districts out of 679 give Grace, dem., about 6000 majority for mayor.

NEW YORK, 2:30 A. M.

Total city vote, with 28 districts to hear from: Garfield 78,858, Hancock 117,669. Hancock's majority will be about 48,000.

Approximate returns are received from all states but South Carolina, Delaware, North Carolina, Alabama and region of Nevada. Indications are, all southern states for Hancock, and democrats retain majority in Congress; New Jersey gives Hancock majority. Other states give Garfield majority, all northern states showing large republican gains. Garfield and Arthur are undoubtedly elected.

CHICAGO, ILL., 7 P. M.,

When polls closed, Mayor Harrison caused new judges to be elected and new boxes to be provided under direction of police, and proceeded to take ballots from them.

It will be seen that Mr. Jones carried the city of his residence by a large majority on a very heavy vote, but at the time we write (two o'clock Wednesday morning) there seems to be no chance for his success in the state, which has given its electoral vote for Bell for governor. There was a good deal of excitement during the day, and considerable drunkenness, particularly in wards one and four, but no serious disturbance occurred. Some enthusiastic republicans paraded the streets for several hours after midnight with a band composed mainly of drums, horns and dinner bells, cheering lustily as they moved about.

The vote of Portsmouth for President in 1876 was as follows:

AROUND HOME.

The Federal Fire Society will dine at the Rockingham house on Thursday.

A new spire has been built upon the Congregational church at Greenland.

Ladies, read notice of public opening of George B. French's magnificent new dry-goods store to-day.

L. V. Newell has commenced to make his celebrated Clinton home-made sausages. Try them; they are excellent.

The schooner Henry M. Clark, 173 tons register, formerly a fishing schooner in Mr. Doane's fleet, but latterly hailing from Boston, has been sold to a New York purchaser for $5000.

We tender our thanks to Messrs. James A. N. Rugg, Samuel Kingsbury, William T. Rand and William S. Hazel, for their courtesy in furnishing us the election returns of their respective wards.

There is to be a trotting match at the Rockingham trotting park on Thursday afternoon, the 4th inst., at two o'clock, between the horses Rainbow, Gen. Hancock and Charles T., for a purse of $300, the race to be mile heats, best three in five, to harness.

The large flag displayed from the residence of Mrs. Reese on Lincoln avenue, while the republican parade was passing, Monday evening, was the first flag flung to the breeze in Portsmouth for Abraham Lincoln, in 1860. It is the property of Mr. James Miller.

It was the democratic campaign company commanded by Capt. John Treat which had supper at Marden's dining hall after the parade on Monday evening, and not the Marcy Guards of ward four, as first stated. The latter organization, with the Hancock High School Cadets, had supper in the south ward room.

Two of the young fellows belonging to one of the drum corps had a political discussion a few evenings ago, which ended in the following agreement: In case of Garfield's election, the democrat to propel the republican in a hand-cart from Market square to the Creek and back, each boy wearing a campaign uniform; in case of Hancock's election, the republican to treat the democrat to a similar ride, the drum corps to furnish music for the trip in either case.

The election is over, and people can now turn their attention to recreation for a few hours in an evening, occasionally. An opportunity for an evening's enjoyment at Music hall is offered for Thursday next, when Miss Annie Pixley will appear as "M'liss," supported by a picked company. Of this play the Chicago *Inter-Ocean* says: "It was the most enjoyable entertainment we have ever seen at this beautiful home of comedy. Annie Pixley as M'liss was very fine. Her singing was truly wonderful. Her support was excellent throughout." The Philadelphia *Bulletin* says Miss Pixley's acting "shows her to be possessed of great histrionic abilities, while her singing was without exaggeration simply superb." Tickets now on sale at Preston's.

JONATHAN DEARBORN.

Hon. Jonathan Dearborn died suddenly as he was about to start for the polls on Tuesday.

For many years he had been in poor health, and had sought relief at Poland Springs, Me., during several past summers. He was a native of North Hampton, and was a hatter for many years, employed in the store of the late Daniel Knight on Market street; subsequently he entered into copartnership with Mr. Knight, and after the decease of his co-partner established himself in business upon his own account. This he relinquished to his son, when failing health compelled him to give up active pursuits.

He was many years ago one of the police officers of Portsmouth, and was one of the best city marshals Portsmouth ever had. He had represented the city in the legislature, and in Nov. 1862 was chosen mayor, and re-elected in November 1863. He was naval officer of this port (a position since abolished) for five years under the administration of President Lincoln. He served for many years as a warden of the North Parish. He was long engaged in the business of selling hats and furs, and was noted for his devotion to his business, his fair dealing and his upright character. In all public positions he was faithful to the last degree.

His wife died many years ago. He leaves a son, Mr. Frank E. Dearborn, and two daughters, one the wife of James Day Akerman of Portland, the other the wife of Judge C. E. Batchelder. Mr. Dearborn's age was seventy-one years.

WELL-BEHAVED PARTISANS.

We are gratified at being able to say that throughout the warm political campaign just ended, no instance of any assault upon or molestation of the processions of either party in this city, or of improper interference with the property of either side, has been reported to us; and we are all the more pleased at being able to say this, on account of the fact that reports of ruffianism in other places have been by no means infrequent. The two processions, Monday night, met on the street, and courteous salutes were exchanged,—an incident trifling in itself, but still we think worthy of mention as being alike creditable to the officers and the men in the ranks, when it is considered how easy it would have been for two or three hot-headed partisans to have disgraced themselves and the party to which they belong by an exhibition of boorish intolerance. That the leading men in both parties would behave like gentlemen was to have been anticipated; but it is not the leading men who sometimes throw bricks and dead cats from back yards at their political opponents, or tear down their campaign flags, and that nothing of the kind has been done by anybody in this city during the late campaign we regard as fair ground for boasting a little; we do boast of it, anyway, as being highly creditable to our city.

HE ILLUMINATED.

A young man belonging in this city, a good democrat and a printer, who works on a morning paper in Lawrence, Mass., on Monday night took charge of a lot of "red fire," which had been procured to burn on a shovel projecting from the office window when a democratic procession came along, both parties parading that night. At a late hour a band was heard, the illuminator stood by his shovel, and as the head of the procession neared the office the "red fire" sent forth a brilliant glare. The procession cheered and waved torches, and the enthusiasm was immense. "Chuck her on, Bill, chuck her on!" said the excited foreman, and Bill "*did* chuck her on" till the whole street seemed like the place to which most of the democratic party are liable to go at some future day. Just as the last dab of "red fire" was put on the shovel, and the rear end of the procession passed along, the foreman threw up his hands in horror, exclaiming, "Thunder! That's the republican procession!" Thus it was that when the democratic procession did finally get along, there was no illumination at that office, the stores being all closed so that no more "red fire" could be got. We are grieved to add that after all this our young fellow-craftsman came home and voted for Hancock and Jones, instead of for Garfield and Bell as he should have done.

NO BACK-SOMERSAULT.

PORTSMOUTH, Nov. 2d.

Editor of Chronicle: Please allow me to say from a sick bed, in reply to the rather swift witness in your paper to-day, that the *Weekly* has taken no back somersault on the temperance question, nor has it changed at all in regard to the brewing business; neither was it issued in advance to aid in Mr. Jones' election, but on the contrary, to circulate certain prohibition documents in season. We have in no way advocated Mr. Jones' election, and while always admiring his business talents and enterprise, and great liberality, we have never hesitated to condemn and regret his business, nor ever shall.

Yours truly, as ever for temperance,
FRANK W. MILLER.

YORK COUNTY ITEMS.

A barn in Eliot owned by Albert Dickson was burned Monday night, with two horses, several tons of hay and a quantity of produce. Loss about $1000; insurance $500.

The halliards of a republican campaign flag at the house of Mr. John J. Lambert, of Spruce Creek, Kittery, were cut by some contemptible sneak on Monday night, letting the flag down into the mud.

The Berwick and Kittery bands, after returning to Kittery with that town's delegation to the republican procession in this city, Monday night, gave an open-air concert to the citizens of the town, between the hours of twelve and one o'clock.

DIED.

DEARBORN. In this city, Nov. 2d, Hon. Jonathan Dearborn, aged 71 years.

☞ Funeral on Friday afternoon at two o'clock from the North church.

The Fortunes of the Crescent City.

The prosperity of New Orleans for the next century seems to be gradually but surely on the increase, with railroads running in from every direction, and steamers and ships from all parts of the world, with the only port in the United States that the Great Eastern can enter. The Charity Hospital there has been maintained during the darkest days of turbulent civil war, pestilence devastating the population, financial depression, and all other troubles possibly incident to a community. The celebrated Louisiana State Lottery Company has maintained the world renowned Charity Hospital at expenditure of many hundred thousand dollars. The Grand Monthly Distribution takes place on the second Tuesday of every month. For further information apply to M. A. Dauphin, No. 319 ⅓ ro dway, New York City, or same person at New Orleans, La.

Idle Experiments.

When a man is well and sound he can afford to be indifferent to the character of all the medicine in the world. But when disease is fairly eating him up, he must do something at once and do it intelligently. Therefore do not dose yourself with a hundred things in the hope that some of them may hit the mark, but try Dr. David Kennedy's "Favorite Remedy" which hits it every time. For kidney and liver troubles, piles and constipation, it is just what you want. Druggists have it, or mail one dollar to the doctor at Rondout, N. Y.

—A man at Binghamton, N. Y., wanted to have some fun with an old lady by playing ghost. The only mistake he made was in not finding out beforehand that she kept a shotgun in the house.

I had no faith in your mode of treating diseases of the Kidneys until I tried it, and cured myself of a complaint that the doctors pronounced incurable. These are the words of thousands who have used the Day Kidney Pad.

—There is nothing keeps longer than a middling fortune, and nothing melts away sooner than a great one. Poverty treads upon the heels of great and unexpected riches.—*Bruyere.*

The only stomach remedy in the world, guaranteed by your own druggist, is D. R. V. G. Dyspepsia Remedy.

—When Henry J. Raymond had published in the New York *Times* one of his brilliant editorials bearing plainly on the southern policy and affairs, he received a note from a southerner alluding to the article, and offering this as a reply:—"If you will come down south we will tar and feather you." Mr. Raymond replied: "Dear sir, your inducements are not sufficient. I will wait."

True as sunshine melts the frost, Adamson's Botanic Balsam cures coughs, cold, and all difficulty of breathing. Price 10, 35, and 75 cts.

—The hammock hats, so popular with men last summer, are now worn by ladies. They are of soft cloth, crushed on top, and require no trimming.

The purest invigorant and stimulant (not an intoxicant) is Malt Bitters.

Voyagers in Southern Seas.

The great spectacular drama of the "Voyagers in southern seas; or the Children of Capt. Grant," is delighting the patrons of the Boston theatre. This play is founded upon the main incidents contained in Jules Verne's novel of the same title, and is by A. D'Ennery, author of "The Two Orphans" and "A Celebrated Case." It is the property of Messrs. Tompkins & Hill. It has been for many months in preparation, and has been put on the stage in a style of magnificence and with a wealth of appliances hitherto unknown in American stage annals. It was purchased in Paris in the spring of 1879 by Mr. Eugene Tompkins, who saw it performed at the Porte St. Martin theatre, and was so well pleased with it as to offer Mr. D'Ennery a large sum for it, which, after much negotiation, was accepted. The English version is brought out under the supervision of the above-named gentleman. Mr. Tompkins went to Europe last summer for the sole purpose of procuring a new ballet troupe for this play, selecting materials for costumes, etc. This is one of the most successful plays ever known in the history of the European stage, and has been produced, during the past eighteen months, at no less than six principal cities of that continent, viz.: Paris, Berlin, Vienna, Munich, Madrid and Brussels. It is not distinctively a spectacular piece; indeed, spectacle attends its presentation only as an incident (though a very important one, as will be found,) but it is really a great play, into which one ballet act has been introduced to lighten the performance and enhance the effects. The whole is presented with that liberal degree of outlay which is characteristic of the leading theatre of America. For example, upwards of $10,000 has been expended for the costumes, which were designed expressly for this production by Jules Marre and Grevin, of Paris, and made by the theatre's costumer, Miss Annie Endress. Without exception this is, it is said, the most richly dressed ballet ever seen upon any stage. The head pieces and ornaments, as well as the jewels, were imported from Europe, and many articles of fringe, etc., had to be manufactured expressly for these costumes from the designs, as all were entirely original. The jewels (one dress contains upwards of one thousand diamonds,) were made by Touchard, in Paris, from models designed expressly for this act. Our readers visiting Boston should not miss witnessing this great production.

"Eminent English Liberals, in and out of Parliament; by J. Morrison Davidson, of the Middle Temple, London." Messrs. James R. Osgood & Co., of Boston, have just published this work, which contains brief sketches of eminent English radicals. These sketches were originally contributed to the London *Weekly Despatch.* They attracted upon their first appearance no little attention in England, and give us interesting accounts of such public characters as Gladstone, Bright, Sir Charles Wentworth Dilke, Charles Bradlaugh, Moncure Daniel Conway, John Morley, and in all, of twenty-four men in public life in England. The eminent barrister author has the faculty of stating his case admirably; indeed, he gives us in his three hundred pages a vast amount of information concerning the rise and progress of these English statesmen. The book will be read by every one who desires to be at all conversant with English politics, as well as by all who seek to keep abreast of the times in knowledge of the men who figure in shaping the destiny of the great English nation. For sale by Goodrich; price $1.25.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION; Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

GAZING GROUPS.

You cannot wonder that they stop and stare. 'Tis what I cannot help doing, and you would do the same. In the window of a leading Broadway house are displayed a succession of rich evening fabrics, and they well deserve the attention they receive. Satins covered with immense bouquets of brilliant flowers (twelve inches long and proportionately wide) are placed beside others bestrewn with dots as large as a trade dollar. Other satins are illuminated by irridescent beads disposed in large floral patterns or entwined in serpentine braidings, while more delicately beautiful materials are white or light-tinted satins on which pale flowers in natural colors are wrought with beads. At times we see drooping petals simulated by beaded pendants hanging loosely. Velvets are similarly decorated by beads wrought in gorgeous weavings, and when I go on to say that often the boldest contrasts, such as yellow flowers on a crimson surface, are noticeable, you can perhaps form an idea of the results when the glistening folds of piece after piece are displayed by expert hands to the best possible advantage. Manifestly it would be absurd to make up such goods in any but plain falling designs, and in consequence, close, clinging princess drapery has awakened to new life. The large brocades usually compose front breadths, while the sweeping train is of velvet, although this order of things is sometimes reversed. High basque corsages are now frequently closed at the throat and opened below in triangular shape, and with elbow sleeves. Another stylish evening corsage fits as close as a corset and is laced at the back, while a soft finish is given to the low neck by a bertha. In reality there are no sleeves, but let us courteously give that name to narrow straps which pass under the arm. Pointed waists are also quite fashionable for evening wear.

HOLIDAY GOODS.

It is easy to see that Christmas is coming by the increasing display of toys, cunning household knick-knacks, presentation books and the like. Wholesale dealers in holiday goods are working night and day to meet the expected demand, while the novelties promised are greater than ever before. In truth the great trouble of parents and present givers-in general this year, will be to select from among the innumerable pretty things offered to their choice. Our old friends, the Ehrichs of Eighth avenue, have foreseen this, and are ready with the Christmas number of their *Fashion Quarterly*. Taking in the whole range, they have assorted and classified the various articles suitable for presents so that any one taking up the book can see at a glance just what is to be had in every department; just how it looks and just what it will cost. Children's toys, silver ware, glass and China, Christmas stationery, etc., have each a separate division, through ninety-six large quarto pages. The book is really readable and interesting for everybody, the hundreds of illustrations capitally executed, the descriptions accurate, and the price of each article quoted. How the Ehrichs can afford to get up such a book and sell it for fifteen cents is incomprehensible, but they promise to send it for that price to any address by mail. Your readers might do worse than to accept their offer.

SHORT COSTUMES.

Wiseacres predicted that this would be a winter of velvet, and the prophecy has come true. Velvet is the first choice for a combination with those plaided woolens that are every day making their appearance. Oftentimes the underskirt is entirely of velvet, while the woolen goods are made up as a polonaise, but quite frequently the two are united throughout. Plush is also in great favor for parts of costumes; sometimes being seen in such proportion as to constitute almost the entire outfit. The drapery here hangs close and straight, often in princess style; and as loopings, etc., are almost impossible, the favorite trimmings are very heavy cords and tassels, or the passementeries of irridescent beads for which there is such a rage. For general wear, costumes are now also largely composed of damasse materials. A stylish design for this class of fabrics is the Titania basque, of which a distinguishing feature is a shirred skirt attached to it under the pointed back. The front is ornamented with a square collar, shirred drapery and belt, rendering it exceedingly becoming to slender persons. The Dianora skirt completes the costume. Another handsome model for a house and carriage dress is the Rietta basque and Imperia train, but as the latter is adjustable it can upon occasion be taken off, and thus the outfit is rendered suitable for street wear. The Russian paletot is a new out-door garment

especially adapted to cloth, though it can be made of heavy silk. For the latter material, however, the Richelieu pelisse is the most striking model which has for a long time been introduced. The middle of the front and back is shirred at the neck, and falls below in heavy plaits, the sleeves somewhat resembling the "pagoda" style, and trimmed with a shirring and ruffle around the hand, the pendant portion shirred to a point and finished with a tassel.

SUBSTITUTES FOR BONNETS.

A stranger might not unnaturally suppose that half the ladies of the city were walking on bareheaded. Certainly it seems so to the casual observer. But on nearer inspection you see a little ornamented cap, perfectly flat to the head and set very far back on the low coils of hair. A pair of strings are tied under the chin, and these are what transforms the little cap into a bonnet. An opposite extreme is reached by tremendous hats, flaring every way and facing all points of the compass. Between the two, we have every gradation as to size and shape.

LUCY CARTER.

Almost young Again.

My mother was afflicted a long time with neuralgia and a dull, heavy inactive condition of the whole system; headache, nervous prostration, and was almost helpless. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems and feels young again, although over 70 years old. We think here is no other medicine fit to use in the family.—A lady in Providence, R. I. —*Journal.*

—The consumption of mule and horse flesh is steadily increasing in France. The weight has risen from 171,300 pounds in 1866 to 1,982,620 pounds in 1879. In the principal cities of the provinces the consumption of horse flesh may be considered to have taken root. The average price of horse meat is from twenty-five to thirty-five cents per pound. Each horse furnishes about four hundred weight of meat, which is capable of being prepared in many ways, such as *pot-au-feu*, boiled, roast, hashed, haricot, jugged, etc.

Stop! see regular advertisement of D. R. V. G. in another column.

—At dessert the guests are telling anecdotes freely in the presence of the host's daughter, a blushing, timid girl of seventeen. "There was rather a good thing I heard the other day," says one, "but it was a little low in the neck, as it were, and in the young lady's presence——" "Oh, never mind me," says the young lady graciously; "I'll shut my eyes. Go on!"

Always keep it on hand, as delay increases suffering. If you have a cough or cold use Dr. Bull's Cough Syrup. It will cure you. Price 25 cents.

—M. Scheurer-Kestner has discovered the remarkable fact that the fermentation of bread causes the complete digestion of meat. He found that beefsteak cut into small pieces and mixed with flour and yeast, disappeared entirely under the process of panification, its nutritive principles becoming incorporated with the bread. The meat would also appear capable of preservation for an indefinite period in its new state, for loaves of meat bread made in 1875 were submitted to the French Academy of science, when not a trace of worms or mouldiness was observable.

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

The Election.

NEW YORK, Nov. 2d.

Brooklyn complete gives Garfield 49,472: Hancock, 57,777. Hancock's majority, 8305. This is a reduction of the democratic majority of the last presidential election of over 10,000.

CONCORD, N. H., Nov. 3d, 10 A. M.

State has gone republican by 2500 majority, and the republicans have elected all three congressmen. E. H. ROLLINS.

PROVIDENCE, R. I., Nov. 2d.

Rhode Island complete gives Garfield 18,188, Hancock 10,784, scat. 141; rep. majority 7,263, a republican gain of 2,291 over the majority for Hayes.

HARTFORD, 2:00 A. M., 3d.

Returns from 120 towns in Connecticut give Garfield 43,099, Hancock 39,415; republican majority, 3684. Same towns in 1876 gave Hayes 38,098, Tilden 38,960; democratic majority 863. Rep. gain 4,546.

BOSTON, Nov. 3d.

Returns up to noon do not show any change in result of election for President.

New York's majority for Garfield variously estimated from 35,000 to 40,000; it will probably be between 15,000 and 25,000.

New Hampshire is republican by 2,500; Jones runs considerably ahead of his ticket.

Maine is republican by probably 4000.

Indiana republican by 4000 or 5000.

New Jersey claimed democratic by 7,500.

In New York city Hancock has 42,000 majority, and Grace, democrat, elected mayor by small majority.

Returns still very meagre from western, southern and Pacific states.

Returns from about one half of Indiana show a net republican gain of 695 which indicates a plurality for Garfield in the state of 8345.

SAN FRANCISCO, CAL., Nov. 3d.

Returns from interior, 327 precincts, some incomplete, give Hancock 24,104, Garfield 24,229, Weaver 9092. The returns to come in are likely to increase Hancock's majority. Page, rep., probably elected to Congress in second district; Pacheco, rep., in 4th district.

Despatches just received indicate that state of Nevada has gone democratic; the majority will probably not exceed 500.

The additional returns as reported Wednesday evening, the 3d inst., give the following results:

The Garfield column of states foots up 207 electoral votes, without either California, Colorado, Nevada, Oregon or New Jersey, and allowing the democrats the "solid south."

New York is republican by nearly 50,000 majority.

Michigan gives a republican majority of 28,000; the republicans probably lose one congressman.

In Pennsylvania the republican majority is well up to 40,000, with a probable gain of one congressman.

The republicans have probably elected the governor in Tennessee, and have gained three representatives in Congress. Legislature close, but claimed by democrats.

The returns thus far received by the republican national committee indicate that the republicans have gained two congressmen in Alabama, two in Iowa, one in Kentucky, one in Minnesota, two in Missouri, one in New Jersey, one in Pennsylvania, three in Tennessee and one in Wisconsin—total fourteen. The republicans claim an additional member in Illinois and Tennessee. It now looks as if the republicans had lost one member in New York and possibly one in California, though there are no positive returns to show it.

The Boston *Post* says the election in the fourth congressional district of Massachusetts has probably resulted in favor of Leopold Morse, though from the discrepancies reported in the figures a careful re-examination may be necessary to determine the question.

John Kelley said at Cincinnati that the democrats could elect "any man but Tilden." He has altered his mind.

"I will see you later, gentlemen," said Mr. Arthur in New York Tuesday night.

The Boston *Post* (democratic) of Nov. 3d prefaces its election reports with the following in "display type:"

"All wrong. Ten millions of men went to the ballot-box.—And more than half of them voted the wrong ticket. Hence, James A. Garfield is elected President, and Chester A. Arthur is elected Vice President. All of the northern states give a republican majority,—and one or two southern states are in doubt. The next Congress will undoubtedly be republican. Another four years of republican rule is assured. The republicans gain several congressmen in New England. Republican gains all over the north. Scarcely a crumb of comfort for democrats."

Senator Blaine of Maine sent the following despatch from Augusta to Gen. Garfield at eleven o'clock Tuesday night: "The vote in Maine to-day is probably the largest ever cast in the state. It may probably reach 150,000, and this from a total population of 650,000. Your plurality will be more than 5,000, and your majority over all will probably exceed 4,000. These are the deduction from returns received from 200 towns. Accept my sincerest congratulations upon your triumphant and deserved election."

Garfield has played his cards again and scooped the stakes.—*Boston Post.*

The State Election.

The following is the result of the state election, as reported up to the evening of the 3d inst.:

It seems certain that Hon. Charles H. Bell of Exeter has been elected governor by the people by a majority of from 2000 to 2,500, carrying also the choice of the republican candidates for electors and railroad commissioners, with about the same figures. The electors are Aretas Blood of Manchester, Ezra H. Winchester of Portsmouth, Albert L. Eastman of Hampstead, John A. Spaulding of Nashua and Henry L. Tilton of Littleton; and the railroad commissioners are James E. French of Moultonboro', Charles A. Smith of Manchester and Edward J. Tenney of Claremont.

Of the five councillors, Thomas G. Jameson of Somersworth, Lyman D. Stevens of Concord, John W. Wheeler of Salem and George H. Stowell of Claremont are republicans, while Arthur L. Messerve of Bartlett is a democrat.

Of the twenty-four senators the republicans have without doubt elected James F. Seavey of Dover, Amos C. Chase of Kingston, Silas F. Leonard of Chester, D. B. Varney of Manchester, V. C. Gilman of Nashua, Timothy Kaley of Milford, George W. Cummings of Francistown, John M. Parker of Fitzwilliam, Edward Gustine of Keene, C. W. Talpey of Farmington, John Kimball of Concord, G. H. Fairbanks of Newport and Alfred A. Cox of Enfield—thirteen; and the democrats have elected Sherburne S. Merrill of Colebrook, Edward F. Mann of Benton, Cornelius Coolidge of Hillsboro', Richard Gove of Lancaster, and John S. Trask of Portsmouth, five; with the Newmarket, Manchester, Pittsfield, Merrimack, Winnepesaogee and Plymouth districts in doubt. Several of these doubtful districts will probably whirl into the republican line.

A Democratic Review.

The Boston *Post*, democratic, in its issue of Tuesday morning, makes the following comments on the result of the election:

The great battle has been fought, and won by the republican party. It is no time now to moralize, or bring forward reasons for this Waterloo that has overtaken the democratic party. It has fought a good fight against great odds, and has lost. At this hour it looks as if Garfield and carried every state north of Mason and Dixon's line. His majorities, to split the difference between radical and conservative estimates, are about as follows: Maine 2,000, Vermont 25,000, Massachusetts 40,000, Rhode Island 6,000, Connecticut 2,000, New York 40,000, Pennsylvania 30,000; Illinois, Michigan, Iowa, Minnesota, Wisconsin, Kansas, Indiana and Nebraska by majorities ranging from 5,000 to 50,000. As to the south, it is not unlikely that the republicans have made inroads and elected their electoral tickets in Florida and Virginia. There are, however, no positive indications of this, but it should not surprise anybody should it turn out to be a fact. To say that the democrats are greatly surprised at the result in general, would only be stating the truth, and though for some weeks past the republicans have been claiming every northern state, the mass of them are as greatly surprised as the democrats. Mr. Garfield of Ohio, who will in all probability succeed the present de-facto President, will doubtless have a Congress of his own political faith to back him.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. ELECTION DAY.

Mr. M. J. Leary receives three editions of the Boston *Herald* daily- at ten o'clock in the forenoon, and 5:30 and 7:30 P. M.

The Portsmouth Shoe Co. have removed to the new shoe factory built for their use near the Creek, on Islington street.

We are requested to say that Mr. Edwin Lowd voted the straight republican ticket on the 2d inst.; and as he *did* so vote, we have no objection whatever to saying so.

The North church bell rang long enough to create some excitement and to turn out the engine companies, Wednesday evening of this week, but it was a false alarm.

Geo. Dudley Dodge, the temperance candidate for governor, threw the only temperance vote in Hamplon Falls. It is needless to remark that he courageously voted for himself!

The drum crops attached to the campaign company commanded by Capt. John S. Treat gave him a serenade on Wednesdey evening of this week, in honor of his election as state senator from the 24th (Portsmouth) district.

The republicans in their line of march are going from Daniel to State street across the head of the wharf. If they will only wait until after election some of the leaders may feel like walking off into the dock.—*Times, Nov. 1st.*

It is "after election" now, but we have not heard of any of the republican leaders feeling very badly.

Mr. W. H. Jones, formerly operator at Haverhill, Mass., for the Western Union Telegraph Co., assumed charge of the office of the American Union Telegraph Co. in the city building in this city on the 1st inst. Mr. Jones is a gentlemanly and obliging operator, and will be a good representative of the American Union telegraph in Portsmouth.

The republican general committee on arrangements for a grand torchlight procession and parade, have postponed the demonstration from Friday to Monday evening, on account of the time required to make the extensive preparations which are necessary for the proper entertainment of the numerous out of town organizations which have been invited. The route and several arrangements will be published in Friday's issue.

If it is not an impertinence, we would like to suggest to the gas company that it is not at all pleasing to a printer, particularly on election nights when he has a column or two of election returns to correct, to have the gas fizzle out at three o'clock in the morning, as has occurred several times lately, compelling him to rake up a kerosene lamp with which to find the gas-burners so as to shut them off. A light which looks just the same as skim-milk tastes is not satisfactory at all for a newspaper man of any kind to work by, after midnight.

Steamers Clara Bateman and James Sampson made trips to the Isles of Shoals for the purpose of bringing in voters on Tuesday, Nov. 2d. The James Sampson made the run to White island in fifty minutes, and returned in sixty. Five of the democratic voters of this city, who were patriotic and were bound to overcome any obstacle to deposit their votes for the defeated candidates, started from Smuttynose island at 8:30 o'clock A. M., and pulled the whole distance in, arriving here at one o'clock in the afternoon, wet and tired, but in ample time to vote.

THIS EVENING.

Miss Annie Pixley appears at Music hall this evening in her remarkable creation of "Miliss,"—a creation which has elicited marked praise from the critics. She possesses great natural talent, a fine voice and a pleasing face, which combined with close application to her art, have added much to her remarkable success. Last season and this crowded houses have greeted her night after night, and her travels have been one constant ovation. She has played to immense business in Boston and other large cities, and received the most favorable notice from the press. The play is one of great interest, and her support a superior one. See advertisement.

FRENCH'S NEW STORE.

Next to the excitement concerning the election was the impatience of many dry goods buyers to have Geo. B. French open his new dry goods store.

The delays have been owing to the failure of some of the persons furnishing gas fixtures and other necessary appliances to have their contracts filled at the times specified. On Wednesday the store was thrown open, and those who before had only seen the exterior, were gratified at a sight of the new establishment in order for the reception of customers. The building, which is substantially new, affords besides a basement three stories for sales rooms and storage of goods. The main or lower story gives a space eighty-three feet deep by thirty-six feet wide, with counters on either side and a large centre counter with cashier's office in the middle; above is a carpet sales room thirty-six by forty-five feet, with front and rear lights.

A large number of customers were present on Wednesday, and the seventeen sales people and clerks employed in the establishment seemed quite busy in serving customers. We are glad to note the improved style of the store in which is point of light and conveniences for doing business second to none in the state. Our space does not permit us to describe the establishment in detail. It is for buyers to read Mr. French's advertisement and to repair to Market street, where it would seem that a home establishment could provide very much that some of our people think it necessary to go to Boston to purchase; with such an attractive store and with goods offered at low prices, Mr. French will have a large trade.

THE WARD ONE VOTE.

The check-list in ward one was about as marked-up a piece of paper as ever was seen, when the polls closed on Tuesday evening. The list had on it 835 names, and but 39 remained to be voted on; and of these 39 voters five are at sea, two dangerously ill, and eleven in states so far distant that it was impossible for them to get home.

The vote for governor—2398—was the largest ever cast in Portsmouth for any office. The total vote for President in 1876 was 2322, for governor in 1877 was 2267, and for governor in November, 1878, was 2113.

Col. J. Horace Kent, the republican candidate for sheriff of Rockingham county, ran ahead of his ticket in this city, and in nearly every town in the county; he is elected by probably about 1000 majority. Newton Johnston, Esq., county commissioner, also ran ahead of his ticket in this county. The compliment is deserved by both the gentlemen named.

We congratulate the republicans of Portsmouth on the election of Garfield and Arthur by a vote so decisive as to be beyond cavil or fraud. A SOLID South has indeed produced an almost SOLID North.

HALL RE-ELECTED.

In this congressional district Hon. Joshua G. Hall is re-elected by about 400 majority over John W. Sanborn.

PERSONAL POPULARITY AT HOME.

The democrats of Portsmouth boast, and not without some reason, of the vote given their gubernatorial candidate in this city. But he is not the most popular candidate ever presented by Portsmouth for suffrage, for when Levi Woodbury was elected governor of the state he "went out of the town" with almost a solid vote, only thirty-four ballots being recorded against him.

NEIGHBORING TOWNS.

NORTH HAMPTON.—Garfield 106, Hancock 135—showing a republican gain of eleven votes over 1878. The highest vote ever before cast by the republicans of that town was 96 for Lincoln. Bravo for the sturdy republicans of North Hampton!

SEABROOK.—Garfield 169, Hancock 246.

EPPING, fifty republican majority—never went republican before. B. W. Hoyt, republican, elected to legislature.

GREENLAND.—John Hatch, dem., elected representative by nine majority.

HAMPTON.—Garfield 223, Hancock 143; Bell 219, Jones 143.

News and Notes.

The residences of Oakes A. Ames and Mrs. Oliver Ames at North Easton, Mass., were entered recently by burglars, who stole four gold watches and chains and considerable other valuable property.

Lewis Cardell of Warren, Mass., was struck at a railroad crossing near Roxbury recently, thrown from his wagon on to the cow-catcher of the engine, and remained there until the train stopped. He was not much hurt, but his team was badly used up.

Mr. N. D. Shea of Lebanon, who has been engaged for three years at Portland, Me., in the manufacture and sale of a patent boiler, was killed Nov. 2d by falling under a horse-car at Woodford's, near Portland. His age was fifty years.

J. P. Brown, editor of the Gallatin *Examiner*, and a friend with him, were attacked by eight tramps in a tunnel near Gallatin, Tenn., on the 2d inst. Brown defended himself with a pistol, killing one of the tramps and wounding another. The rest of the tramps then fell upon Brown and beat him almost to death, and robbed him of money and valuables of over $1200 in value. The second tramp wounded by Brown is in a critical condition.

Vermont is said to produce more wheat to the acre than Minnesota.

The Lawrence *Journal* says of the sacred concert which is to take place in Music hall Sunday evening, Nov. 7th: "The public expectation, though very high, was fully met, at the Obrey concert. It was a good house, and a splendid entertainment. The most critical musicians declared themselves delighted and surprised. It was altogether a rare and strange entertainment, full of instruction and brilliancy. It was a treat to enjoy it. Hundreds stopped after the concert was over to examine the strange-looking things that produced such harmonies."

—When a man says "I hear a noise," it probably never occurs to him that there is nothing in this world that anybody can hear but a noise.

SCIENCE WINS!

A Splendid Surgical Operation--Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weaknes peculiar to females. This wonderful medicine is now for sale by all our druggists at $1.00 a bottle.

Get out Doors.

The close confinement of all factory work gives the operatives pallid faces, poor appetite, languid, miserable feelings, poor blood, inactive liver, kidneys and urinary troubles, and all the physicians and medicine in the world cannot help them unless they get out of doors or use Hop Bitters, the purest and best remedy, especially for such cases, having abundance of health, sunshine and rosy cheeks in them. They cost but a trifle. See another column.—*Christian Recorder.*

—Mrs. Schneider was a cruel San Francisco stepmother. Her two little stepdaughters fled from her one morning, and took refuge in a neighbor's house, where they showed the marks of merciless whippings to all who called during the day. Among the visitors were a large number of the girls' school companions, who were greatly moved by the sight. In the evening, when Mrs. Schneider started for a grocery near by, she was set upon by a fierce mob of children. They hooted at her, pelted her with sticks and stones, threw her down, and had begun to drag her toward the bay when some policemen rescued her.

Diabetes Cured.—Another Life Saved.

It is not claimed that Kidney-Wort will cure all diseases, and diabetes is generally regarded as incurable; but it appears from the following that there is hope for such sufferers:

NEW BEDFORD, MASS., Aug. 8th, 1872.

Gentlemen:—Grateful for the benefit I have derived from Kidney-Wort, recommended to me last winter by a lady friend, I wish to say a word for the encouragement of those who may be suffering as I have been.

I was troubled for about two years with a kidney complaint which assumed the form of diabetes, and although I consulted the best medical advice and tried several largely advertised remedies I found nothing to give me relief until I made use of your Kidney-Wort. I took two boxes before perceiving much benefit, and have taken in all eight boxes. In short, I can say that I am confident if I had not taken it I should not now be alive. I have recommended it to others, and they have taken it with like results.

Respectfully yours, BENJ. RYDER, Conductor New Bedford & Taunton Railroad.

—Two young ladies at the organ recital yesterday were talking under cover of a classical selection which Mr. Preston was playing with vigor. Said the younger, who was a type of our liberally-cultivated girl of to-day; "Well, I think it is a shame for girls who do not believe in church, and never go to church at any time, to go there just to get married. It's so dreadfully inconsistent. As for me, I have absolutely no religious prejudices."

Mrs. J. B. Wilson, Tiffin, Ohio, says: I have worn an Improved Excelsior Kidney Pad, and received more relief than from all remedies I have ever tried. I cheerfully recommend it to sufferers.—See Adv.

—A set of dress buttons worth $620 was recently exhibited in New York.

The only stomach remedy in the world, guaranteed by your own druggist, is D. R. V. G. Dyspepsia Remedy.

—An Indian thief was turned over to the chief of his tribe, at San Diego, Cal., and by him sentenced to receive a hundred lashes. The culprit was a big, powerful fellow; but he submitted quietly to being tied to the side of a high wagon, with his legs and arms extended, and his back bared. A stalwart Indian struck the blows with all his might, using a leather lariat, and making the blood flow at every stroke. The victim endured the dreadful torture in grim silence for a while, and then broke out into agonized screams. If he had remained silent to the end, the chief would have restored him to the tribe; but as he howled like a coward baby," he was afterward driven out of the neighborhood.

Consumptives gain in flesh, strength and spirits under a daily use of Malt Bitters.

—An amusing incident occurred during the course of a recent procession at New London. A well-known citizen made elaborate preparations to illuminate his house, draped the front rooms, placed candles in the windows, and as the procession began to pass the house, lighted everything up and waited for cheers, but they didn't come. He discovered to his chagrin, after everything was over, that he had forgotten to open the blinds, and that the house on the outside appeared as dark as a tomb.

The Age of Miracles

is past, and Dr. Pierce's Golden Medical Discovery will not raise the dead, will not cure you if your lungs are half wasted by consumption, or your system sinking under cancerous disease. It is, however, unsurpassed both as a pectoral and alterative, and will cure obstinate and severe disease of the lungs, coughs, and bronchial affections. By virtue of its wonderful alterative properties it cleanses and enriches the blood, thus curing pimples, blotches, and eruptions, and causing even great eating ulcers to heal. Sold by druggists.

—The door-plates of three houses standing side by side in Boston read as follows: Goodman, Knee-land, Pray.

Liebig Co's Coca Beef Tonic

"Is far superior to the fashionable and illusive preparations of beef, wine and iron," says Professor F. W. Hunt, M.D., Honorary Member Imperial Medical Society of St. Petersburg, Russia, etc., etc. Sold by all druggists.

It will reconstruct the most shattered and enfeebled, reinvigorate the aged and infirm, and make sickly children blooming and healthy.

It is invaluable in all female complaints, removing irregularity, pains and exhaustion.

And it quiets restless children and infants.

—Shell pink is a fashionable color. The husband of the lady who wears the pink usually does the shelling.

VAN STONE & CLOSSY, Wholesale and Retail Druggists, Toledo, Ohio, say: We have sold large quantities of the Excelsior Kidney Pad, and have been surprised at the unvarying satisfaction given by them.—See Adv.

KIDNEY-WORT

The Only Remedy THAT ACTS AT THE SAME TIME ON THE LIVER, THE BOWELS, and the KIDNEYS.

This combined action gives it wonderful power to cure all diseases.

Why Are We Sick?

Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.

KIDNEY-WORT WILL CURE

BILIOUSNESS, PILES, CONSTIPATION, KIDNEY COMPLAINTS, URINARY DISEASES, FEMALE WEAKNESSES, AND NERVOUS DISORDERS,

by causing free action of these organs and restoring their power to throw off disease.

Why Suffer Billious pains and aches? Why tormented with Piles, Constipation? Why frightened over disordered Kidneys? Why be nervous or sick headached? Why have sleepless nights?

Use KIDNEY-WORT *and rejoice in health. It is a dry vegetable compound and* One package will make six quarts of Medicine. *A trial of your Druggist's is asking for your Trade, $1.00.*

ASK YOUR DRUGGIST & CO., Proprietors, (Will send post paid.) Burlington, Vt.

A discovery which cures by the natural process.

ABSORPTION.

all diseases of the Kidneys, Bladder, Urinary Organs and Nervous System, when taking else can. It is comfortable to the patient, positive in its effects, and the most easy cure for painful and much dreaded affections.

Diabetes and Bright's Disease,

while its cures of Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth or to close application to business or work, may be restored and manhood regained.

Avoid stimulants and medicines which are taken into the system by way of the stomach; it is an old treatment well tried and proven ineffective, though sometimes offering apparent cures of one complaint, but leaving the seeds of more troublesome and permanent disorders. The price of our Pad brings it within the reach of all, and it will annually save many times its cost in doctors' bills, nauseous dose and plasters, which at best give but temporary relief. It can be used without fear or exposure, and with certainty of a permanent cure. For sale by druggists generally, or sent by mail (free of postage) on receipt of the money. Regular Pad, $1.00; Child's Pad (for incontinence of urine in children), $1.00; Extra size, $2.00. Our book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures sent free. Write for it. Address DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale, and the great reputation, we are induced to caution the public to warn them. Ask for DAY'S KIDNEY PAD, and take no other.

SECURES PATENTS in the United States; also in Canada, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir,* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

THE

New Hampshire Gazette!

Established 1756

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities where is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION, Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundred and fifth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, which are due to pernicious habits or inherited. He is a Nerve specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. HEAL THYSELF

FELLOWS' Compound Syrup of HYPO-PHOS-PHITES

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it surely lessens the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have known cases where a single dose has been effectual.

S. JACOB, M. D., St. John, N. B., writes:

"I had occasion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all thou you claimed for it, having acted with expedition and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

CANTERBURY SHAKERS

LIFE-INVIGORATING

SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (being in a given amount of Syrup twice the amount of Vegetation Extract than any other compound,) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. T. R. CROSBY, M. D., W. D. BUCK, M. D., S. BUNTON, M. D., J. S. ELLIOT, M. D., JAMES BABB, M. D., Z. COLBURN, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. GALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefitted by other Sarsaparillas should not fail to make a single trial of the Blood Purifying and Life Invigorating Compound of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Black Cohosh, Garget, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by Thos. Corbett, its inventor. Sold everywhere. Inquire for Corbett's Shakers' Sarsaparilla.

Daily Chronicle.

Chronicle Correspondence.

WASHINGTON, D. C., Nov. 1st.

Now that the President has selected a time for Thanksgiving, all the state executives should unite in a recommendation of the same time. There is more reason to be thankful now for general material prosperity than ever before in the history of the country. The 25th is the day named by the President.

If woman suffrage were to-day the law of the land and woman was called upon to exercise the "precious boon," the executive departments of the government would be closed during the week preceding the day of the presidential election. Just now the gentle sex are holding the fort, while the men are off to exercise a "freeman's right." But little public business is being transacted. The departments have themselves a funereal look, and affairs of state seem to be running on their own axis.

After the election Washington will get ready for its winter influx. There are manifold reasons why the coming winter promises to be be a notable one. The inauguration of a new President will bring crowds here, first of that class who come merely to see the sight, and the larger class who come to bag the spoils. All of the hotels anticipate a good season, while the boarding-house keepers are already placing their rooms on the ascending scale.

There is an interesting little circumstance connected with the campaign, which I shall take the liberty of giving to your readers. At the commencement of the campaign, it was found upon inquiry, that Gen. Garfield's private purse would not allow him to entertain as freely as was desired, at his home in Mentor, Ohio, and a sum of money was raised and sent to him for the purpose of entertaining. He was not asked to subscribe to the campaign fund, because of the necessarily largely increased cost of his living. President Hayes was asked more than once to contribute to the campaign fund, but it appears he has not contributed a dollar. This is a source of complaint, and Geo. C. Gorham, who ought to subscriptions dunned him in vain.

An official report just published shows that this city has a larger area of paved streets to the population, and more smooth streets, *i. e.*, asphalt and the like, than any other city in the world. The streets, squares, etc., are under the control of a regular army officer, and the work now being done is of a high degree of excellence. Under the same energetic official, the largest sewer in the country is now being completed. The impetus given to public improvements in 1871, and which temporarily ceased in 1875 because of the enormous cost of work as then done, is now felt again, and promises to make of Washington the best-paved, best-sewered, handsomest and healthiest city anywhere to be found.

KNOX.

A correspondent of the *Snow Flake*, a paper printed in Dunbarton, in a recent letter says, in speaking of a previous account of a funeral, "the printer made it read he was *borne* from the Universalist church with *torches* and impressive services,' while it was written '*buried* from the Universalist church with *touching* and impressive services.'"

—It was his first appearance in church, and in order that he might sit perfectly still and keep his little chatter between his teeth he was told that a big dog would bite him if he didn't keep quiet. The little fellow cast several glances up and down the aisle, and at last, just in the most interesting part of the minister's prayer, startled the congregation by piping up: "Mamma, where is the dog?"

The name Jenner means a drawn lancet putting to flight a loathsome disease; and the name Harvey signifies the circulation of the blood. And the time is coming when the name of Dr. David Kennedy will be indissolubly connected in the public mind with the the purification of the blood; a deed only less important than the discovery of its motion through the human body. This Dr. Kennedy accomplishes by means of his new medicine called "Favorite Remedy"—the pleasant and popular title of a preparation which cleanses and sweetens the river of life within our veins, as an influx of oxygen does vitiated air. All druggists, $1.00 a bottle.

Ex-King Amadeus is now on a tour in England, buying up horses for the royal stables of Italy.

The only stomach remedy in the world, guaranteed by your own druggist, is Dr. R. V. G. Dyspepsia Remedy.

It transpired in a Keokuk lawsuit that the defendant had sent his wife to the poorhouse, and married his father's divorced wife.

Consumptives gain in flesh, strength and spirits under a daily use of Malt Bitters.

Colorado	3
California	6
Connecticut	6
Illinois	21
Indiana	15
Iowa	11
Kansas	5
Maine	7
Massachusetts	13
Michigan	11
Minnesota	5
Nebraska	3
New Hampshire	5
New York	35
Oregon	3
Ohio	22
Pennsylvania	29
Rhode Island	4
Vermont	5
Wisconsin	10
Total	219

The following states have chosen democratic electors, who will cast their votes of their respective states for Winfield Scott Hancock for President:

STATES.	VOTE.
Alabama	10
Arkansas	6
Delaware	3
Florida	4
Georgia	11
Kentucky	12
Louisiana	8
Maryland	8
Mississippi	8
Missouri	15
New Jersey	9
North Carolina	10

South Carolina	7
Tennessee	12
Texas	8
Virginia	11
West Virginia	5
Total	159

Some changes may yet have to be made in the foregoing table, but not not enough to affect the result.

Whole number of votes in the Electoral College, 369: necessary to a choice, 185.

The Election.

The election news continued to come in satisfactorily on Thursday.

Despatches received by Secretary Dorsey of the national republican committee, from California, placed the republican majority in that state at from 500 to 1000, and in Oregon at 500.

Mr. Dorsey stated that the legislature of every northern state, excepting possibly Nevada, is republican. This guarantees a republican gain of several United States senators, and probably republican control of the senate.

The next house of representatives will be republicon, the figures on Thursday evening being 156 republicans to 137 democrats, Kelley of Pennsylvania and Forsythe of Illinois, classed as greenbackers in the new house.

Waite sas on the Canvass.

Henry Watterson of the democratic *Courier-Journal*, of Louisville, Ky., in an editorial on the causes which led to the defeat says the democratic canvass was "ill planned and ill-managed" and "begun upon a low tone;" and that the "foolish work of endeavoring to smirch the character of Gen. Garfield" to which "the early days of the canvass were devoted," "fell stale and flat and unprofitable on the country." He says: "With the break-up of the south, which can no longer be held solid, will come in time the break-up of the solid north." Of Gen. Garfield he says:

Of the man who has been elected President of the United States, we declared early in the canvass what we here take leave to repeat, that he is a person of commanding intellect, voluminous experience in public affairs, incapable alike of personal venality or malignity.

New Hampshire Congressional Vote.

The returns of the votes of the several congressional districts of New Hampshire, up to Thursday noon, shew the following result:

The first district, the governor vote in fifteen towns and wards being taken, gives Joshua G. Hall a plurality of over 600.

The second district (governor vote taken in two towns) gives James F. Briggs over 1600 plurality.

The third district (governor vote taken in eighteen towns) gives Evarts W. Farr over 800 plurality.

All republicans.

Democratic Predictions.

The democracy are always on the eve of a triumph *before* the election. Even Mr. Jones pretended that he was to be chosen governor. The New York *World* published on the morning of election day statements from the chairmen of the democratic state committees of the Union, showing "largely increased democratic vote, and universal confidence that Hancock will be elected." The following is the prediction from New Hampshire:

CONCORD, N. H., November 1.—We expect to elect two members of Congress, and Jones governor, and give the electoral vote of New Hampshire to Hancock and English. G. F. PUTNAM, Chairman Democratic State Committee.

This is almost as good as the time-honored annual joke of the Boston *Post* relative to the democracy carrying New Hampshire, which is so familiar to us all.

Resignation.

The following despatch was sent from New York on the 3d inst.:

Gen. Hancock, in response to an inquiry, this morning, merely said: "I said before the election that I was willing to abide by the will of the people, and I feel the same way, now; that is all, sir."

This reminds us of the story of the old German, who was condoled with by a friend on the loss of his wife. Said the friend at the end, "Was she resigned?" "Resigned!" replied the honest Teuton; "she *had* to be."

Fraud.

Stilson Hutchins on the evening of the 3d inst., telegraphed from Boston to his paper, the Manchester *Union*, that "there is a belief among knowing ones that a great fraud has either been attempted or has been committed" in regard to the vote of New York city. There is no doubt that great frauds were attempted in that city by the democrats, as usual, but "Johnny" Davenport and the republican managers were too smart to allow them to succeed. Hutchins is no doubt good authority as to any fraud which the desperate democratic leaders may propose yet to attempt, but it will be of no use for them to try anything of the kind on in New York just now. Circumstances have changed since Samuel J. Tilden and Boss Tweed stole that state, and gave it to Hoffman and Seymour.

Whiskey, Beer, and the Tariff.

The question of the reduction of the tariff upon foreign ale and beer is to come before Congress early at its next session. The whiskey men say that the brewers have too much protection, and that they make immense profits, but at the same time the liquor trade is injured by leading brewers claiming that their beverage is a temperance drink, becoming interested in "temperance" journals and manipulating prohibition parties, while at the same time they have sought when running for office the support of the liquor element. The fact is, the current of sentiment which flows from the whiskey element is not like its own fluid, smooth, but the competitive feeling is intense, and the western manufacturers have prepared circulars to their customers asking them to remove ale and beer from their saloons, and to sign petitions to Congress to have the duty on foreign ale reduced, that domestic production may be crippled. Perhaps a change in the complexion of Congress may have the effect to modify their purposes, but that an intense feeling exists between the fermenters and distillers is unmistakable. It was this which in New York state sent such crowds of brewers at a late hour into the Garfield and Arthur column, not only with music and banners. Brewers, like other manufacturers, sometimes find out that democracy is well enough in the abstract for certain purposes, but in its practical results disastrous to all industrial, financial or manufacturing enterprise.

At a recent public bathing exhibition in New York, one of the most expert of the pupil-exhibitors was Mrs. Minnie Woodruff. She was one of the "Seawanhaka" passengers at the time of the accident. She had no knowledge of swimming, but being compelled by the flames to jump from the boat, she had the presence of mind to spread her arms upon the water, and keep her arms horizontal with her body. She managed to keep afloat until rescued. On recovering from an illness of two weeks she began taking lessons at the swimming school, and now she is one of the most daring pupils.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with constantly increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes*. To,Th,&F,26

The Utica observer says: "The most successful musical entertainment ever given under the auspices of the Young Men's Christian Association, Mr. Madison Obrey is a traveller. He is sunbrowned, hearty, and tough. He has returned to the states, bringing with him musical accomplishments boasted by few men living. His knowledge of Hindostani music ought to net him ten thousand dollars per annum. His accomplishments (if we enumerate them) require a more extended reference than we can now give. Positively his concertina music was the sweetest ever sounded in our city. Such manipulation of those little keys we had never before considered possible. Such pathos, such power, and withal, such variety, astonish while they delight."

"Our Little Ones" is a new monthly magazine for the youngest children, edited by William T. Adams, "Oliver Optic," the well known popular writer for the young. AROUND HOME.

Pope night.

Where will the "hundred-days veteran" go next?

Over two thousand men have already responded to invitations for Monday night's parade.

Col. B. W. Hoyt made a gallant fight, and captured Epping, reversing the democratic majority, and was chosen representative. "There's nothing like leather."

Mr. Lemuel B. Caswell has cured at Smuttynose island, Isles of Shoals, since he commenced operations there this fall, nine hundred quintals of fish—cod, pollock and cusk.

Rev. Edward A. Rand has received a call to the Episcopal church at Hyde Park, Mass., but declines to accept. Mr. Rand's book, "The schooner on the beach," has been republished in England.

The democratic managers in this city are far-seeing and judicious men. They ran out the campaign flag from the party headquarters "Union down," and kept it so until election day—and afterward.

For sale at a very trifling advance on the original cost, a large and select assortment of democratic campaign uniforms, for which the owners have no further use. Address H. L. Morey, Esq., Portsmouth post-office.

How is the *Times* going to manage about fulfilling its ante-election promise to navy yard workmen, that they should have four years more of steady work on the yard if they would vote for Hancock? Some of them did so vote.

The Portsmouth Hancock Veterans borrowed from neighboring towns and the marine barracks at the navy yard for campaign purposes, have all been returned, there being no further demand for their services to "fill uniforms."

The schooner Lizzie Guptill, Smith master, of Rockland, Me., was capsized off Monhegan in a squall on the night of the 1st inst. She was from this port with a load of apples, bound to a port in eastern Maine. The crew were saved.

As Dr. D. W. Colcord of Seabrook was driving out on Sunday, the 31st ult., with his wife and her sister, a collision took place near the Methodist church between his team and one from Newburyport containing Mr. William Ricker and a lady. The doctor's carriage was capsized and its occupants thrown out, the ladies escaping unhurt, though the doctor was badly bruised by being caught under the overturned vehicle, which was considerably wrecked. No permanent injury will occur to the doctor from the accident.

The ingenuous pubisher of the *Times* on Wednesday evening, the 3d inst., printed what purported to be a dispatch from Chairman Barnum as late as four o'clock Wednesday morning, that in New York state a democratic victory was assured, etc. It is not to be wondered at that an ex-senator in Congress who would publish what he must have known at the time to have been a campaign falsehood and a forgery, as to Gen. Garfield, and persistently stick to it after its character was indisputably made out, would be willing to telegraph lie after lie to democratic papers. But how such an astute and sagacious politician as the editor of the *Times* has been sold such a vast number of times, and in turn sold his readers, during the past campaign, is beyond comprehension, for it cannot be that such a good man could knowingly publish an untruth.

We missed the name of Henry F. Wendell, Esq., as a representative in the legislature from the lower ward, on making up our returns, and were told by one of the ward officers that Mr. Wendell was not nominated as representative because his friends insisted that he should take a prominent official position under Hancock's administration after March next. To this cause may be attributed the selection of Capt. Cunningham as representative. There would have been a little friction among the democrats as to the distribution of patronage, which would have taxed Mr. Jones' political sagacity and tested his amiability. Between the conflicting claims of prominent rivals for the post-office billet, a breeze had already arisen, allayed fortunately by the removal of all cause for disappointment as far as preference is concerned, by the reflection that in relation to the post office "no democrat need apply."

The republicans of Seabrook celebrated the glorious republican victory in the state and nation by a procession on the night of the 3d inst. Their cheers were displeasing to some of the democrats of the town, and the procession was attacked, quite a lively fight resulting. Several arrests were made, the culprits being released next day by a justice of the peace on promising better behavior in the future. On the same night a Hancock and English flag disappeared from in front of the house of Burt Manser, the gentleman who was entrusted with the disbursement of the democratic persuasion-fund in Seabrook on election day, and the democrats claim that some republican stole it—the flag, not the fund.

Among the prominent republicans of the state who are elected as representatives to the general court are Hon. William E. Chandler, ex-speaker of the house of representatives, Gen. Walter Harriman, ex-governor of the state, Gen. Stevens of Nashua and Gen. Marston of Exeter. Others of both parties, known in legislative circles, are Col. B. W. Hoyt of Epping, Hon. Albert L. Eastman of Hampstead, John Hatch of Greenland, A. H. Quint of Dover, Geo. Cochrane of Farmington, E. B. S. Sanborn of Franklin, Waterman Smith, Arthur Ecastlake and Benj. F. Clark of Manchester, Ira Colby of Claremont, Jos. D. Weeks of Canaan, Harry Bingham of Littleton, and C. B. Jordan of Lancaster.

POLICE COURT.

THURSDAY, Nov. 4; *Batchelder, J.*

Patrick Shnehan, for assault, was fined $15, costs $10.32.

George Marden and George Reed, for drunkenness, were assessed $9.90 each, fine and costs.

Frederick Merryman, charged with drunkenness, was allowed to depart on his promise to leave the city.

SUPREME COURT--CLARK, J.

THURSDAY, Nov. 4th.

Petit jurors reported as follows: Chas. W. Young, Nicholas Rollins, Exeter; Henry B. Buzzell, John H. Yeaton, James M. Locke, (excused,) William Alton, William W. Rand, Portsmouth; John W. Fogg, Samuel Walton, (excused,) Seabrook; Otis W. Towle, South Hampton; H. Jenness Paul, Samuel B. Badger, South Newmarket; James W. Rollins, Charles M. Piper, Stratham; Joseph F. Webster, Ambrose Richardson, Windham; Alanson M. Sawyer, Atkinson; Fletcher Brown, Nathan A. F. Tuck, Brentwood; James M. Young, Candia; Moses Webster, Chester; Moses Spofford, Danville; Nath. Pulsifer, Deerfield; Joseph F. Kimball, East Kingston; Charles E. Folsom, Epping; Benjamin P. Webster, Fremont; Joseph W. Chapman, Greenland; Clarence H. Wood, Hampstead.

John H. Elkins was arraigned for murder in the first degree, the indictment alleging that on the second day of October, at Kingston, he, the said John H. Elkins, struck with a club and afterwards shot with a revolver one Andrew J. Dearborn, thereby killing him, the said Dearborn. The prisoner pleaded not guilty, and the court assigned Messrs. Frink and Hoyt to defend him. The trial will commence on the 15th inst.

The next case on the civil docket was Samuel H. Goodall vs. Sewell B. Fowler, an action brought by Mr. Goodall to recover possession of some land situated in the town of South Hampton and being part of the premises on or near the beach the title of which was disputed in the celebrated case of Fowler vs. South Hampton, which was recently decided for the plaintiff after having been before the court for years. In opening his case Mr. Goodall said that in order to understand this controversy it would be necessary to go back into history two or three hundred years. He then discussed at some length the early settlement of the town of South Hampton on the beach where the land in question is situated, giving a history of the transfers of the title of the real estate down to a very late period, when the plaintiff himself came into possession. He now claims that his title covers that portion occupied by the defendant, which is the question at issue. Goodall and Frink for plff.; Copeland, and Marston & Eastman, for deft.

RAILROAD ACCIDENT.

The train from Portland which passed through this city for Boston at eleven o'clock in the forenoon on the 4th inst., met with a serious accident at Lynn, running into the rear of the Saugus branch train, which was just starting out from the depot. The rear car of the Saugus train was turned bottom up, and the engine, mail car and baggage car of the Portland train left the track and ran against a bank wall of stone, the forward wheels of one Pullman car also leaving the rails. The engine and mail car are reported badly wrecked, the damage amounting to many thousands of dollars. A man, reported to be E. N. Winters, a shoemaker of Lynn, was killed, and a boy dangerously hurt. The engineer and fireman of the Portland train escaped with slight bruises. The cause of the accident is not clearly stated.

RESPECT TO EX-MAYOR DEARBORN.

In Board of Mayor and Aldermen, Thursday evening, Nov. 4th, the following preamble and resolutions were passed:

Whereas Divine Providence has seen best to remove our former chief magistrate, Hon. Jonathan Dearborn, from among us—

Resolved, That we deplore our loss, but recognize in the record he has left us a worthy example for the imitation of every true man and good citizen.

Resolved, That as a last tribute of respect this board well attend his funeral in a body.

It was voted that a copy of the resolutions be furnished to the family of the deceased, and to the press for publication.

REPUBLICAN PARADE.

HEADQUARTERS REPUBLICAN COM., PORTSMOUTH, Nov. 4th 1880.

Having been appointed Chief Marshal, I hereby assume command of the Grand Parade of the campaign of 1880, ordered on Monday evening, Nov. 8th.

Announcement of Staff, Marshals of Divisions, and Aides de Camp, will be made immediately.

The detail and composition of the line will be announced upon receipt of replies to invitations.

The following route is published for the information of the public:

Line will form on Parade, right resting on North church. The procession will move up High, Deer, Vaughan, Elm, North and Dennett streets to Myrtle, countermarch on Dennett street, through North and Elm streets, Railroad avenue, Vaughan, Congress, Islington and Cabot streets, up Middle street to C. H. Mendum's residence, countermarch, through Middle, State, Pleasant and Daniel streets, across head of wharf to State street, up State to Union, through Union to Lincoln avenue, through Rockland street, Richards avenue, Middle, Court, Pleasant and South streets to Langdon Park and Yeaton's fields, where tent will be pitched, collation served, fireworks displayed and parade dismissed.

Citizens living along the line of march are respectfully requested to illuminate.

YORK COUNTY AFFAIRS.

The schooner Bessie E. Dickenson, of Bath, Me., has just discharged a large cargo of coal at the navy yard.

The second boiler of the United States ship Lancaster has been taken on board. An additional number of calkers will be put at work on this ship at once.

Charles A. Horne, a freight brakeman on the Boston & Maine railroad, fell from the cars at Haverhill, Mass., on the night of the 3d inst., and was cut to pieces by the train. He belonged in Berwick, was thirty-one years old, and leaves a wife and child.

The checklist of Kittery, Nov. 2d, bore 868 names, and 787 voters went to the polls and deposited their ballots, 482 voting for Garfield and 304 for Hancock, a republican gain of thirty-seven and a democratic gain of thirty-three. There was one vote for the greenback candidate.

HUNT'S REMEDY

THE GREAT

Kidney and Liver Medicine,

CURES all Diseases of the Kidneys, Liver, Bladder, and Urinary Organs; Dropsy, Gravel, Diabetes, Bright's Disease, Pains in the Back, Loins, or Side; Retention or Nonretention of Urine, Nervous Diseases, Female Weaknesses, Excesses, Jaundice, Biliousness, Headache, Sour Stomach, Dyspepsia, Constipation & Piles.

HUNT'S REMEDY

CURES WHEN ALL OTHER MEDICINES FAIL, as it acts directly and at once on the Kidneys, Liver, and Bowels, restoring them to a healthy action. HUNT'S REMEDY is a safe, sure and speedy cure, and hundreds have been cured by it when physicians and friends had given them up to die. Do not delay, try at once HUNT'S REMEDY.

Send for pamphlet to

WM. E. CLARKE, Providence, R. I.

Price, 75 cents and $1.25. Large size the cheapest. Ask your druggist for HUNT'S REMEDY. Take no other.

Idle Experiments.

When a man is well and sound he can afford to be indifferent to the character of all the medicine in the world. But when disease is fairly eating him up, he must do something at once and do it intelligently. Therefore do not dose yourself with a hundred things in the hope that some of them may hit the mark, but try Dr. David Kennedy's "Favorite Remedy" which hits it every time. For kidney and liver troubles, piles and constipation, it is just what you want. Druggists have it, or mail one dollar to the doctor at Rondout, N. Y.

Fred Glidden of Ossipee, a boy, accidentally shot himself in the head at Salem, Mass., Nov. 3d, but will recover.

WESTERN MEDICAL INSTITUTE, CLEVELAND, O.

MR. JAMES I. FELLOWS, Dear Sir: We were induced to prescribe your Syrup of Hypophosphites by Dr. McMaster; and its use has been attended with such satisfactory results as to warrant our employing it largely from this time forward.
A. SLEE, M. D.

Henry Hickey and Charles Stafford were killed at Attleboro', Mass., Nov. 3d, by the caving-in of a bank beneath which they were working.

A RADICAL CHANGE. Ten years ago, any physician, when consulted, would tell his patients that Bright's Disease of the Kidneys was incurable. To-day, the theory is all changed. What has changed it? We answer, the success of Hunt's Remedy, the Great Kidney and Liver Medicine. In all parts of the country, the best physicians now prescribe Hunt's Remedy when everything else fails. Such a medicine is truly valuable. Hunt's Remedy cures Bright's Disease, and it controls all kidney, bladder, liver and urinary complaints.
Sold by all druggists. Trial size, 75cts.

Steamer Mildred, from New York for Marseilles, is supposed to have been lost at sea with all hands, twenty in number. She is nearly three weeks overdue.

If you doubt the merits of Day's Kidney Pad, try one, or ask your neighbor who has used one, and it will be all the evidence you will need.

The public debt statement for October shows the decrease of the public debt during the past month to have been $7,103,754.68; cash in treasury, Nov. 1st, $203,545,486.75; gold certificates, $7,454,500; silver certificates, $27,114,960; certificates of deposit outstanding, $8,765,000; refunding certificates, $979,200; legal tenders outstanding, $346,681,016; fractional currency outstanding, $7,181,861.37.

Leon Belmont, a handsome young person, went to Minneapolis two years ago, claiming to be a nephew of August Belmont and the heir expectant to a large estate. This was fraudulent, of course; but worse humbuggery has been exposed. Leon made love to the daughter of the hotel keeper, and engaged to marry her, thus avoiding the payment of board. The swindler turns out to be a woman in trousers.

Agnes Robertson (Mrs. Boucicault) says of Irving, the London actor: "He has taken Shakespeare off the pedestal, and makes him comprehended. He doesn't act Shakespeare on stilts. He has ignored the old Kemble school, and gives us colloquial readings of the lines of the master mind. Irving has mannerisms, but I think him the greatest of all tragedians."

A society of Mormon girls, having for its object the securing of monogamic husbands, has been discovered and broken up at Salt Lake. The members took a vow to marry no man who would not pledge himself to be content with one wife. Five granddaughters of Brigham Young had joined it.

Tom Betts, on being arrested for killing Judge Moore, in Georgia, declared himself innocent of that crime, but confessed the commission of a murder several years before.

An engine on the Fall River railroad exploded its boiler near North Westport, Mass., on the afternoon of the 3d inst., instantly killing the engineer, and badly cutting and scalding the fireman.

It is impossible for a woman after a faithful course of treatment with Lydia E. Pinkham's Vegetable Compound, to continue to suffer with a weakness of the uterus. Enclose a stamp to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for her pamphlets.

When the steamer Forest City arrived at Portland from Boston, Nov. 3d, a passenger who registered as Johnson was found dead in his stateroom. He was about forty years old.

Stop! see regular advertisement of D. R. V. G. in another column.

Dom Pedro, emperor of Brazil, wished to test a certain railroad brake. He had one adjusted to a car, and strated off for a trial trip. The engineer soon saw what seemed to be a big rock on the track ahead, and applied the brake, stopping the train within a few feet of the obstacle, which proved to be of pasteboard.

The purest invigorant and stimulant (not an intoxicant) is Malt Bitters.

The sale of "gold" bricks, made principally of brass, is brisk in the west. One corner is pure gold, and from that is clipped the sample to be assayed.

Nobody should go to church, or public meeting, hacking away and disturbing the preacher or orator with their cough. Use Dr. Bull's Cough Syrup at once; it costs only 25 cents a bottle.

KIDNEY WORT
The Only Remedy
THAT ACTS AT THE SAME TIME
THE LIVER, THE BOWELS, and the KIDNEYS.
This combined action gives it wonderful power to cure all diseases.
Why Are We Sick?
Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.
KIDNEY WORT WILL CURE
BILIOUSNESS, PILES, CONSTIPATION, KIDNEY COMPLAINTS, URINARY DISEASES, FEMALE WEAKNESSES, NERVOUS DISORDERS,
by causing free action of these organs and restoring their power to throw off disease.
Why Suffer Billous pains and aches?
Why tormented with Piles, Constipation?
Why Pain, Gravel or Disordered Kidneys?
Why so nervous or sick headached?
Why have sleepless nights?
Use KIDNEY WORT and rejoice in health. It is a dry, vegetable compound and one package will make six qts of Medicine. Get it of your Druggist, he will order it for you. Price, $1.00.

DAY'S Kidney PAD
A discovery which cures by the natural process.
ABSORPTION.
all diseases of the Kidneys, Bladder, Urinary Organs and Nervous System, when nothing else can. It is comfortable to the patient, positive in its effects, and the first cure for those painful and much dreaded affections.
Diabetes and Bright's Disease,
while its cures of Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposits, Painful Urinating, High-Colored Urine, Nervous Weakness in Pelvic Region, Back etc. more like miracles than cases of natural healing.
DELICATE FEMALES
or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.
PAIN IN THE BACK.
We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.
YOUNG MEN
suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth or to close application to business or work, may be restored and manhood regained.
Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment well tried and proven ineffectual, long drawn out, effecting apparent cures of one complaint, they now the cause of more troublesome and dangerous disorders. The price of our Pad brings it within the reach of all, and it will annually save many times its cost in doctors bills, medicines and plasters, which at best give but temporary relief. It can be used without fear or harm, and with certainty of a permanent cure. For sale by druggists generally, or sent by mail (free of postage) on receipt of the price. Regular Pad, $1.00. Child's Pad (for incontinence of urine in children), $1.50. Special instructions with our book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures sent free. Write for it. Address
DAY KIDNEY PAD CO., Toledo, O.
CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we find it our duty to caution the public against them. Ask for DAY'S KIDNEY PAD, and take no other.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 15, 1870.

R. H. EDDY, Esq.—*Dear Sir;* You procured for me, in 1849, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

THE
New Hampshire Gazette!
Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—
NEW HAMPSHIRE GAZETTE
Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS
THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

KNOW THYSELF.
The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work, published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.
Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains 300 fine and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the cream of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.
The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."
The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to permicious habits or inherited. He is a Nerve specialist, and therefore knows whereof he writes with such power and ability."
An illustrated sample sent to all on receipt of 6 cents for postage.
The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Daily Chronicle.

Chronicle Correspondence.

WASHINGTON, D. C., Nov. 3d.

The people of Washington are disfranchised—at home—but probably many of them did good service yesterday for both parties in the neighboring states of Maryland and Virginia. Dr. Watts never said a truer thing than that the devil finds mischief for idle hands. There are over 3000 men in the District of Columbia who cannot vote at home, but who would be entitled to a vote anywhere else in the country. It was too much to expect that they would stay at home yesterday, with two states and half a dozen doubtful congressional districts within easy reach. Hundreds of them, white and black, democrats and republicans, undoubtedly voted where they had no right at all to vote. It is probably useless to ask Congress to give the people of this district suffrage, but it ought to devise some means of keeping them at home on the presidential elections.

Among democrats here this morning there is quite a general feeling of hostility towards Barnum, chairman of the national committee. There is no uniformity in the charges, some alleging one thing and some another, but the disgust at his management is universal. There is complaint against Jewell, too, among republicans, but swallowed up in rejoicing over the result. Future campaigns will be run with less national committee, and more state and local committee, if one may judge by current opinion here.

What surprised me most to-day, in conversation with republicans and democrats, was the unanimity with which they expressed their disapprobation of the bitter personalities and reckless slander of the late canvass, and their entire confidence in both candidates. I have heard higher praise of Hancock to-day, from republicans, than I should have thought possible a week ago. I believe from my own knowledge of the general that hardly too much can be said in his praise. When the trash of the campaign is brushed away, he will be thoroughly and very highly regarded by every one.

It is proposed by those who originated the "Towpath Club," in this city, to continue their organization and to aid in the forming of clubs throughout the country. The club first organized here, and which, I suppose, has the credit of originating the idea of a club based on an incident in General Garfield's early life, was one of the most efficient agencies in the late campaign. Its members were sent to all states where they could do most good, and its funds were sent all over the country. The idea was a happy one, and those republicans who perpetuate it as now proposed will perhaps serve their party. KNOX.

Get out Doors.

The close confinement of all factory work gives the operatives pallid faces, poor appetite, languid, miserable feelings, poor blood, inactive liver, kidneys and urinary troubles, and all the physicians and medicine in the world cannot help them unless they get out of doors or use Hop Bitters, the purest and best remedy, especially for such cases, having abundance of health, sunshine and rosy cheeks in them. They cost but a trifle. See another column.—*Christian Recorder.*

During a republican rejoicing at Frankfort, Ky., on the night of the 3d inst., a fellow named Jerry Lee made a disturbance, and fatally shot a police officer who attempted to take a pistol from him. A young man named Frank Egbert a few minutes later shot a negro boy named Whittaker, because the latter hurrahed for Garfield; the boy will die.

"If I had to walk from here to Baltimore for it, I would not be without Dr. Bull's Cough Syrup in my family," is what we heard a lady say yesterday. Price only 25 cents a bottle.

Albert Walker of Rochester, a married man, was fatally injured in that town on the evening of the 4th inst., by the premature discharge of a cannon.

The only stomach remedy in the world, guaranteed by your own druggist, is D. R. V. G. Dyspepsia Remedy.

The name of "H. L. Morey," at the Kirtland house, Lynn, is said by the democrats to have been signed once on February 29th, 1879. February had but twenty-eight days in that year.

VAN STONE & CROSBY, Wholesale and Retail Druggists, Toledo, Ohio, say: We have sold large quantities of the Excelsior Kidney Pad, and have been surprised at the unvarying satisfaction given by them.—See Adv.

The English Earl of Malmesbury has recently married a bride fifty years older than himself; probably, in selling herself for a coronet, she gets the best of the bargain.

Teachers, authors and others of sedentary habits highly prize Malt Bitters.

SATURDAY, NOVEMBER 6, 1880.

The Election.

The returns of Friday morning threw no shadow over the republican victory.

The republicans have a majority of 58 on joint ballot in the New York legislature, securing the election of a republican to succeed Kernan as United States senator.

The legislature of Connecticut is republican in both branches, the majority on joint ballot being 95, insuring a republican to succeed Eaton in the United States senate. Gen. Hawley is probably the coming man.

The democrats concede the election of Hawkins, republican, as governor of Tennessee, by a large plurality. The democrats claim a majority of six in the legislature,—a republican gain of twenty.

New Jersey elects four republican and three democratic members of the national house of representatives. Hon. Geo. M. Robeson is re-elected as member from the first district by 3,700 majority. The legislature is republican, insuring a republican United States senator to succeed Randolph, democrat.

News and Notes.

Old Betz, a Sioux squaw, died recently in Minnesota, at the reported age of a hundred years; she had been successively the wife of an army officer, of an Indian chief, of a border highwayman and of a Methodist missionery.

Mrs. Baird, a native of Scotland, died recently in Iowa at the age of of one hundred and eight years, having never had a day of illness, or had her eyesight affected by old age. She was about the house on the day of her death. A sister died a few years ago at the age of one hundred and five.

The schooner Rebecca W. Huddell, while on the passage from Philadelphia to Gloucester, Mass., recently, was run into by schooner R. S. Graham of Philadelphia, a large hole made in her side, the house damaged, and spars broken. The crew went on board the Graham, the Huddell being apparently in a sinking condition, and during their absence the latter was run into by the schooner John Stroup, the latter losing mainboom, mainsail, boat and davits. The crew of the schooner Huddell returned to her in the morning, and took her into Gloucester.

Police Officer O'Nell of New York, better known as "Nan, the Newsboy," and celebrated for the number of persons he has saved from drowning, while attempting to disperse a crowd of roughs in New York on the night of the 2d inst., was badly beaten. Two ribs were broken, and when found he was delirious from concussion of the brain. He was taken to Bellevue hospital in a critical condition. His assailants escaped.

Robert Low, of West Albany, Minn., called upon his wife, who had left him on account of ill treatment, and endeavored to get her to live with him again. She refused, whereupon he shot her and her son dead, and then killed herself.

Gov. Colquitt of Georgia has received a silver watch, accompanied by a letter, professedly from one of a gang of pickpockets which infested Atlanta during the recent fair. The letter said that they had met with the greatest success, capturing so many watches that they had no use for the one accompanying the letter, and had decided to present it to the governor as a memento of the police arrangements of the Gate City which enabled them to ply their avocation without fear of arrest.

The late Lord Clifford of England, a Roman Catholic peer, provided in his will that should his younger sons, to whom he left $150,000 each, take holy orders, their portions are to be reduced to $25,000. In like manner the portions of his daughters are to be reduced from $60,000 to $12,500 should they become nuns. Another Roman Catholic gentleman of high position made a similar provision a year or two ago.

The Boston *Globe* of Nov. 5th says: "Wonderful rumors were floating about the city yesterday, and scores of sanguine men were almost persuaded a half a dozen times that Hancock had carried New York and was elected, only to be dissuaded as often. A despatch from Hon. John Kelly, stating positively that the republicans had carried New York by about 20,000, which was received and bulletined by the *Globe* early in the evening, put a wet blanket on the rumors for a time, but others were started in the evening. Stock jobbers were probably at the bottom of the performance."

Adulteration of Food.

The Massachusetts board of health have been looking into some alleged adulterations of groceries, taking some samples of sugar, flour, baking powders, and cream of tartar from forty different cities and towns. The flour was found wholly free from mixtures, and the sugar also, except one or two instances. The saleratus and cooking soda were all pure, but a few samples had not been properly prepared. The baking powders were adulterated by an excess of flour or starch in nine out of thirty-three instances, and alum was also found in these. The article most adulterated was cream of tartar, for out of fifty samples sixteen were more than half terra alba.

The Social Science Association that met at Saratoga recently had rather a hot discussion on the question whether there was or was not a large sale, in American markets, of poisonous and dangerously adulterated articles. That is a point, of course, to be determined only by experiment; and the more experiment and exposure the better for the public.

The Washington Monument.

One hundred and seventy-five men at work make the vicinity of Washington monument a very busy scene, says a letter from the national capital. The Baltimore & Potomac railroad has finished the switch from Long bridge via Fourteenth street to the best of the shaft, and cargoes of unhewn blocks of marble and granite arrive every day. At present the marble is coming from Maryland. Seventy-five men are at work dressing up the blocks as they arrive. Superintendent McLaughlin intends to increase the force as soon as possible to one hundred and twenty, which is the full capacity of the cutting sheds. Two entire courses have been laid, and, with good fortune, by this time next year one hundred feet will be added to the height of the shaft. The outer wall of marble is laid in lime of Tiel, while the inner wall of granite is held by hydraulic Portland cement. About forty-five memorial stones are already in place on the inner wall, and a number of others, which now rest in the museum shed, will be set in as the architect and monumental secretary think advisable. At present, masons are not at work upon the top, but the first of next week work will be begun again and continued until the eighteenth of December, when it is expected the weather will interfere. A full corps of stone-cutters will be employed all winter, so that by spring enough stone will be ready to supply the masons until frost compels them to stop.

The *Scientific American* of this week contains two full page illustrations of Captain Eads' proposed railway for transporting ships with their cargo across continents. Captain Eads claims by his plan to be able to take loaded ships of the largest tonnage from one ocean to the other across the isthmus of Panama, as readily as can be done by a canal after the Lesseps plan, and at a much less cost for engineering construction. The project is certainly bold and ingenious, and the projector anticipates no serious difficulties in carrying forward his enterprise. The engravings referred to in the *Scientific American* show the proposed construction of not only the railroad, but the appliances for transferring the ships from the water to the rail. In addition to the large number of engravings, illustrative of engineering works, inventions and new discoveries which appear weekly, the *Scientific American* has, during the past year, devoted considerable space to illustrating and describing leading establishments devoted to different manufacturing industries. This feature has added very much to the attractiveness and usefulness of the paper. More than fifty of the most important industrial establishments of our country have been illustrated, and the processes of the different manufactures described in its columns. The *Scientific American* has been published for more than thirty-four years by Munn & Co., No. 37 Park Row, N. Y., and has attained a larger weekly circulation than all similar papers published in the country. The publishers assure the public that they have not printed less than 50,000 copies a week for several months.

REPUBLICAN HEADQUARTERS
OFFICE CHIEF MARSHAL,
PORTSMOUTH, Nov. 5th.

The experience of the present campaign has shown that for substantial refreshment for the weary political pilgrim, nothing is so welcome or convenient as a sandwich with one or two doughnuts, kindly assisted by a dipper of good, hot coffee.

The committee of arrangements will provide coffee and sandwiches on Monday evening's parade. They rely, however, upon the generous assistance of the public. Contributions, especially of doughnuts, are requested. They may be delivered at Republican Headquarters on Monday next, at any time before two o'clock.

E. G. PIERCE, JR., Chief Marshal.

HEADQUARTERS REPUBLICAN COM.,

E. G. PIERCE, *Chief Marshal.*
WM. O. SIDES, *Chief of Staff.*

Responses to invitations have been received from Dover, 1000 men; Biddeford, 300; Saco, 200; Portland, (numbers not determined;) Rochester, 100; Exeter, 300; Kittery and Eliot, 300; Salmon Falls, 100; Chelsea, Salem, Lynn, Concord, Manchester and other cities are yet to hear from.

Governor-elect Charles H. Bell has accepted an invitation to be present Monday evening.

The supply of fireworks in Boston is utterly exhausted. They can be obtained only by special order in advance a large lot having been manufactured for the Republican Committee, parties desiring them will please leave their orders with John H. Slater, Esq., before 10:30 this day (Saturday.)

SUPREME COURT--CLARK, J.

FRIDAY, Nov. 5th.

In case of Goodall vs. Fowler, after a day's trial it appeared that the defendant did not make claim to but one-fourth of the land in question, and the parties attempted an adjustment, as a verdict in this case would not sufficiently establish the title to the premises. The case was ordered to stand open before the jury for one week. The trial stopped, to be possibly resumed next week.

Town of Hampton vs. Edson Hill was next in order. This is one of the suits brought by the town to determine the title to that part of Hampton beach occupied by what are termed "Squatters," or summer cottage residents, the town claiming the fee in the land. The case not being ready, the jury were excused until afternoon.

In the afternoon it was announced that the case, which is one in which perhaps only legal questions will arise, would be tried at some time by the court, and not by the jury. The question of title will first be tried by Judge Clark as referee.

An application of the town of Newcastle to have the county tax apportioned to the town abated, was heard. The town was represented by W. H. Rollins, Esq. The county commissioners appeared to object to the granting of the petition.

The court adjourned to Monday, when Newell vs. Concord railroad will be in order for trial.

The new docket is to be called on Monday afternoon.

One hundred and thirty-four new actions have been entered at this term, among them a suit against the assessors for making an alleged illegal tax.

MUNICIPAL AFFAIRS.

But little business was done at the regular meeting of the Board of Mayor and Aldermen last Thursday evening.

Petitions of Chas. E. Walker, Robert Anderson and A. H. Ladd for relay of sidewalks, were granted.

City marshal's quarterly report was presented.

Israel Marden was granted leave to withdraw his petition for permission to keep his dining saloon open on Sundays.

AN OLD ACQUAINTANCE.

Rev. Canon Walsh, D. D., who is well remembered among us as the energetic builder of the substantial Catholic church in our city, is stopping for awhile here, though not permanently located, as has been reported. His health is impaired, and it is feared that he has too nearly finished his work among the people of his faith, though we may hope to the contrary. Of his arduous labors, the *Halifax Herald* of a recent date says:

The Rev. Canon Walsh, in former years parish priest of Windsor, N. S., but who left this diocese and went to the states some eighteen years since, nine years of which he was pastor of the church in Portsmouth, N. H., where he built up a splendid brick church, in the erection of which he spent a large sum of his own money, is now on a visit to Halifax, where he has been the guest of his old friend, Archbishop Hannan. The reverend gentleman is well known to many of our older citizens, as well as to those of Windsor and other parts of the province. These will be pleased to know of his visit, and to have an opportunity of again seeing him. One thing in connection with his visit amongus will cause it to be long remembered, especially by the inhabitants of Shelburne and Wolfville; at both these places, with that charity for which he is far-famed, he is erecting Catholic chapels at his own expense.

AROUND HOME.

Rev. E. Owen left this city on Friday for Lynden Centre, Vermont, where he has accepted the pastorate of a church.

Rice's Evangeline, with the original music, properties and cast, will appear at Music hall on Tuesday evening next.

The next monthly meeting of the Rockingham county temperance association will be held in the Elm street chapel at Exeter on Thursday, Nov. 11th. Free collation at 9:30 o'clock.

The horse-race at the Rockingham trotting park, on Thursday last, was won by the horse "Gen. Hancock," entered by E. D. Coffin, the first, second and fourth heats being taken by him. "Charles T.," entered by F. H. Newman, took the third hart and was awarded second place, John S. Sides' "Rainbow" third. Time, 2:56, 2:55 1-2, 2:57 1-2, 2:57.

The funeral of Hon. Jonathan Dearborn took place on Friday. Services were held in the North church, and were attended by the city government and many prominent citizens, the flag on the city building being set at half-mast, and the business houses generally being closed. The flag at Liberty bridge was hoisted at half-mast throughout the day.

The schooner Ethel, of St. Stephens, N. B., was loading apples at Rollins' wharf on Friday.

"M'liss, the child of the sierras," had a good audience at Music hall last Thursday evening, and gave good satisfaction.

A course of five entertainments to include a concert, the opera "Martha," and a lecture by Gen. Butler, is advertised to open Nov. 16th, admission tickets being placed at one dollar for the course; course tickets with reserved seats, $1.50.

"Minnie Palmer's Boarding-School" will hold a session in Music hall on Monday evening. It is a jolly, rollicking bit of fun, and the parts are all well sustained; and were it not that the grand republican celebration comes off that evening, we should predict a large audience. See advertisement.

The despatches from Concord to the Boston *Post* and other papers announce the vote in Portsmouth senatorial district to be a tie, in which case of course Mr. T. Salter Tredick would be elected by the senate. As returned to us the vote was 1037 for Mr. Tredick and 1046 for Mr. John S. Treat, with four scattering votes, which gives Treat a plurality of nine, and a clear majority (a majority is required to elect) of five.

The Boston *Journal* says of the concert company which appears at Music hall, Nov. 7th: The seventh of this series of entertainments was given at Music hall last evening with splendid success, the audience being one of the largest yet assembled. Mr. Obrey, who has been an extensive traveller, gave illustrations of the music of various nations, playing upon an Australian lithophone, a Sardinian tibia, a Hindostani suringee, etc. He also played a solo on the concertina, and in other performances introduced a number of features which were much enjoyed. He was called upon to repeat most of his numbers.

Mr. Editor: It is not a matter of much importance, to be sure, but the statement that the democrats of Rye made a gain of sixteen over the presidential vote of 1876 is an error, as the following statement will show: In 1876 Tilden had 197 votes, and Hayes 102; democratic majority, 95. In 1880—Hancock 198, Garfield 92, Weaver one; democratic majority, 105. Which shows a net gain of *ten*, and no more; and considering the size of the democratic campaign "bar'l," and the untiring efforts of the unterrified to get out every voter, (which they did,) coupled with the firm confidence in the success of their whole ticket, this was not so much to brag of after all. The democrats of Rye can draw some consolation for the crushing defeat of their party in the state and nation, from the fact that they *did* elect their able and esteemed candidate for representative in the legislature by fifty-seven majority. B.

SUNDAY SERVICES.

Elder G. W. Sederquest will preach in the Advent church on Sunday.

Rev. Watson W. Smith, pastor of the Methodist church, will on Sunday evening give the first of a series of monthly lectures (to be preceded by a praise service) on "True words spoken by heathen and infidels," the first from Plato's saying, "Beautiful things are difficult."

Rev. Julius H. Ward is unfortunately prevented from keeping his appointment at St. John's church next Sunday; he will preach and deliver his lecture on Sunday, the 21st of November.

YORK COUNTY AFFAIRS.

Frank L. Chauncey, assistant keeper of Whalesback light, and a voter in Kittery, resigned his position, and voted for Hancock. Spinney undoubtedly promised him the principal keeper's position. The question now is, how much Chauncey has made out of the operation.—*Journal.*

And now it is denied that Ichabod Cole was induced to withdraw his forces in the democratic congressional convention which nominated Gen. Anderson last summer for a chance on the navy yard, at the instance of E. C. Spinney. Col. is a patriot who supports the democracy from principle, and if his party has nothing to give, of course he expects nothing. Like many others he professed to believe that Hancock would be chosen, though of course he was too shrewd a politician to really believe anything of the kind.

HOSTETTER'S CELEBRATED STOMACH BITTERS

The accumulated evidences of nearly thirty years show that the Bitters is a certain remedy for malarial disease, as well as its surest preventive; that it eradicates dyspepsia, constipation, liver complaint and nervousness, counteracts a tendency to gout, rheumatism, urinary and uterine disorders, that it imparts vigor to the feeble, and cheers the mind while it invigorates the body.

For sale by all Druggists and Dealers generally.

SCIENCE WINS!

A Splendid Surgical Operation--Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weakness peculiar to females. This wonderful medicine is now for sale by all our druggists at $1,00 a bottle.

Almost young Again.

My mother was afflicted a long time with neuralgia and a dull, heavy inactive condition of the whole system; headache, nervous prostration, and was almost helpless. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems and feels young again, although over 70 years old. We think here is no other medicine fit to use in the family.—A lady in Providence, R. I. —*Journal.*

—"My case is just here," said a citizen to a lawyer the other day; "the plaintiff will swear that I hit him. I will swear that I did not. Now, what can you lawyers make out of that if we go to trial?" "Five dollars apiece," was the prompt reply.

The Age of Miracles

is past, and Dr. Pierce's Golden Medical Discovery will not raise the dead, will not cure you if your lungs are half wasted by consumption, or your system sinking under cancerous disease. It is, however, unsurpassed both as a pectoral and alterative, and will cure obstinate and severe disease of the lungs, coughs, and bronchial affections. By virtue of its wonderful alterative properties it cleanses and enriches the blood, thus curing pimples, blotches, and eruptions, and causing even great eating ulcers to heal. Sold by druggists.

—Speaking of Mr. Forbes' lecture on "Kings I have met," a western newspaper says that some day he will come across three kings and a pair of sevens, and then he will learn something about the really great resources of this country.

Diabetes Cured.--Another Life Saved.

It is not claimed that Kidney-Wort will cure all diseases, and diabetes is generally regarded as incurable; but it appears from the following that there is hope for such sufferers:

NEW BEDFORD, MASS., Aug. 8th, 1872.

Gentlemen:—Grateful for the benefit I have derived from Kidney-Wort, recommended to me last winter by a lady friend, I wish to say a word for the encouragement of those who may be suffering as I have been.

I was troubled for about two years with a kidney complaint which assumed the form of diabetes, and although I consulted the best medical advice and tried several largely advertised remedies I found nothing to give me relief until I made use of your Kidney-Wort. I took two boxes before perceiving much benefit, and have taken in all eight boxes. In short, I can say that I am confident if I had not taken it I should not now be alive. I have recommended it to others, and they have taken it with like results.

Respectfully yours, BENJ. RYDER, Conductor New Bedford & Taunton Railroad.

—The man with new tight shoes and ingrowing nails seems to be the one who is always selected by fate to be compelled to run for a train.

Liebig Co's Coca Beef Tonic

"Is far superior to the fashionable and illusive preparations of beef, wine and iron," says Professor F. W. Hunt, M.D., Honorary Member Imperial Medical Society of St. Petersburg, Russia, etc., etc. Sold by all druggists.

It will reconstruct the most shattered and enfeebled, reinvigorate the aged and infirm, and make sickly children blooming and healthy.

It is invaluable in all female complaints, removing irregularity, pains and exhaustion.

And it quiets restless children and infants.

The Cry of a Distressed Writer.

I have had a pamphlet sent to me entitled "The Legal Prevention of Illiteracy." I dare say it is a very able pamphlet, but I have not read it; it is not illiteracy I want to prevent, but literacy! I long for some patent method of convincing every man, woman and child, who is poor, unhappy or wants pin-money, that they can't rush into literature pell-mell, and make money at will. Above all, I should like a legal penalty imposed on every one who sends a "first effort" to me. It is an equal "effort" and by no means my "first" for me to read their poetry, and for them to write it. I say invariably, and I say it again here, that if the Angel Gabriel were to write a book, and ask me for my candid opinion of its merits, I would not give it to him. I am fast becoming a misanthrope from the amount of trash, garnished with neither sense, grammar, rhyme, nor metre, that my fellow creatures perpetrate with a view to fame and fortune. Will anything ever convince this crowd of imbeciles that to write even decently demands previous cultivation, information, and some common sense; or that real genius is like any other diamond, and needs careful cutting and polishing? I suppose not!—*November Atlantic.*

A Practical Young Woman.

An engagement was rather unromantically ended some time ago in the village of Sullivan, county of Grey, Ontario. A young couple had formed an acquaintance, which, by-and-bye, ripened into tender passion. For a while all went well, but at last the fair one thought she discovered some signs of fickleness in her beloved. She was sad, but not heart-broken, or inconsolable, as the event proved. Seeing that his affections were irreparably lost to her, she thought it would be well to have some compensation at any rate from her deceiver. Accordingly she made a proposal that, seeing he had betrayed her hopes and caused her sorrow and disappointment, he ought to pay her a pecuniary equivalent for the love which he had transferred to another. She very practically fixed the sum herself at $50, but this the gay but fickle cavalier regarded as too much, or beyond his means. He therefore offered her $15, which sum was accepted, the lady giving in return a document releasing him from all promises, expressed or understood. Alien as such a course may be from traditional proceedings in the Court of Love, it is certainly more sensible than to seek damages, at the risk of having all one's life made public in a court of law.

True as sunshine melts the frost, Adamson's Botanic Balsam cures coughs, cold, and all difficulty of breathing. Price 10, 35, and 75 cts.

—A pessimistic contemporary predicts that the coming winter is going to be a very hard one for the poor. And this in the face of the fact that a good seal-skin sacque can be purchased in New York for $2000, and a bonnet for $8000.

Mrs. J. B. Wilson, Tiffin, Ohio, says: I have worn an Improved Excelsior Kidney Pad, and received more relief than from all remedies I have ever tried. I cheerfully recommend it to sufferers.—See Adv.

—The widow of a French chemist, famous for his researches in toxicology, was on trial for poisoning her husband. It was proved that arsenic was the medium employed. "Why did you use that poison?" asked the presiding magistrate. "Because," sobbed the fair culprit, "it was the one he liked best."

Stop! see regular advertisement of D. R. V. G. in another column.

—Chicago girls are wonderfully full of resources. Their new device for hurrying up bashful suitors is to secretly procure the marriage license themselves, and the publication of the fact in the papers nerves the timid youths up to the required pitch of desperation.

Disease prevented and medical bills lessened by a timely use of Malt Bitters.

Rev. R. F. CLUSS, Galena, Ill., writes—"For over ten years I have been a great sufferer from Kidney disease of the back and region of the Kidneys, which was specially excruciating at times and I was finally advised to go abroad and seek the climate of my youth. In Germany and Switzerland the eminent physicians, after close examination, declared my sufferings to arise from disease of the Kidneys, of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No relief had I been back and resumed my pastoral work, when the old trouble grew again so intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and look again the very picture of health. I write this perfectly gratuitous, indeed, I consider the Day Kidney Pad Co., God's agent, and great benefactor of my kind. May all the suffering be helped as I have been to my earnest prayer."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have now used DAY'S KIDNEY PAD thirty days, and it has done me more good than any remedy I have ever tried."

LARIMORE & DEAN, Druggists, Niles, Mich.—"So years in business. DAY'S KIDNEY PAD is having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from Kidney complaint, and always wearing your Pad 25 days I feel better than I have in 15 years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is a great good, here. It sells every day and gives universal satisfaction."

KIDNEY-WORT

The Only Remedy

THAT ACTS AT THE SAME TIME ON THE LIVER, THE BOWELS, and the KIDNEYS.

This combined action gives it wonderful power to cure all diseases.

Why Are We Sick?

Because we allow these great organs to become clogged or torpid, and poisonous humours are therefore forced into the blood that should be expelled naturally.

KIDNEY-WORT WILL CURE

BILIOUSNESS, PILES, CONSTIPATION, KIDNEY COMPLAINTS, URINARY DISEASES, FEMALE WEAKNESSES, AND NERVOUS DISORDERS,

by causing free action of these organs and restoring their power to throw off disease.

Why Suffer Bilious pains and aches? Why tormented with Piles, Constipation? Why free from disordered Kidneys? Why endure nervous or sick headaches? Why have sleepless nights?

Use KIDNEY-WORT and rejoice in health. It is a dry vegetable compound and one package will make six quart medicine. If of your Druggist, it will cost you for you. Price, $1.00.

THE New Hampshire Gazette!

Established 1756

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be prevented and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION; Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains useful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of twenty years of extensive and successful practice, either of which is worth ten times the price of the book. Bound in French cloth, price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The autho has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

An Illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. HEAL THYSELF

COCA BEEF TONIC.

Highest Medals. Indorsed and Prescribed by Medical Men of all Schools.

Professor Duncan Campbell, M.D., LL.D., *President Royal College of Physicians and Surgeons,* etc., etc., says: "It has more than realized my expectations."

Professor J. M. Carnochan, M.D., *Professor of Surgery New York Medical College,* says: "My patients derive marked and decided benefit from it."

Professor H. Goullon, M.D., *Physician to the Grand Duke of Saxony; Knight of the Holy Cross,* etc., says: "It gives more tone than anything I have ever prescribed."

Sir Robert Christison, M.D., LL.D., F.R.S., *Physician to her Majesty the Queen; President Royal British Association,* etc., etc., says: "The properties of the Coca are the most remarkable of any known to the medical world. From repeated personal trials I am convinced that its use is highly beneficial and tonic."

Valuable in malaria; ague; malarial debility; dumbague; low fever; marasmus; paralytic; spinal and nervous affections; female weaknesses; bilious and liver affections; weak throats; palpitation and other affections of the heart; epilepsy or falling sickness; weakness of the voice of actors, singers, public speakers and clergymen; colic; flatulency; sea sickness; faulting out of the hair; asthma; shortness of breath; wasting diseases; etc., etc. It is gratefully refreshing and restorative after prolonged mental and physical strain. It is pleasant and agreeable, and is readily retained by the most delicate stomach. Dr. McBean (British Medical Journal) found it of great service in consumption. Baron von Humboldt says he has never known a case of consumption or asthma among those accustomed to its use, and that they live to a great age, retaining their mental and physical faculties to the last (Cosmos).

CANTERBURY SHAKERS' LIFE-INVIGORATING SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully commend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated nature, (there being in a given amount of Syrup twice the amount of Vegetation Extract that any other contains,) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. T. R. CROSBY, M. D., W. D. BUCK, M. D., S. BUNTON, M. D., J. S. ELLIOT, M. D., JAMES BARR, M. D., Z. COLBURN, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. GALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefitted by other Sarsaparillas should not fail to make a single trial of the Blood Purifying and Life Invigorating Compound, of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Black Cohosh, Garget, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by Thos. Corbett, its inventor. Sold everywhere. Inquire for Corbett's Shakers' Sarsaparilla.

Daily Chronicle.

A Wife to Boot.

The following tale shows that there are incidents going on under our noses, more adventurous than the stories of fiction, and which would excite widespread comment if the characters were less obscure. Thirty-five years ago a pretty smart girl married a man employed near where she lived, and promised to have a prosperous and respectable life; but in a year or two her husband died, and left her a young and handsome widow. She was next taken by a man of more means than her husband had, first as housekeeper, then as deputy wife, and by him had several children. Such a life was not exactly what a woman would desire, and when, after several years, Mary had an offer of marriage, she told the man who kept her of the offer, and gave him first choice. He said they had better live on as they had been living, not supposing Mary would have the heart to leave him and her children. She *was* determined to get married, however, and was married to the new suitor. With him she moved down to Plum island river, where they had a shanty, and dug clams, and sold rum to down-river excursionists. After a while another man came to live with them, and when he had been there but a short time, Mary's husband became discontented, wanted to go out west, and offered to sell the establishment to the man for twenty-five dollars. The man said he would pay the sum, if the husband would throw in Mary to boot. The strange bargain was agreed to, and not many months ago Mary and the man might have been seen on the Ipswich flats, she with thick cowhide boots, digging clams for a subsistence. She had lost the delicacy of her youthful beauty, by the vicissitudes with two husbands and two men who were not legally husbands.—*Newburyport Herald.*

Idle Experiments.

When a man is well and sound he can afford to be indifferent to the character of all the medicine in the world. But when disease is fairly eating him up, he must do something at once and do it intelligently. Therefore do not dose yourself with a hundred things in the hope that some of them may hit the mark, but try Dr. David Kennedy's "Favorite Remedy" which hits it every time. For kidney and liver troubles, piles and constipation, it is just what you want. Druggists have it, or mail one dollar to the doctor at Rondout, N. Y.

Mrs. Thomas Nevels was burned to death at South Deerfield, Mass., Friday morning, by the upsetting of a kerosene lamp. Her husband was badly burned in trying to save her.

Get out Doors.

The close confinement of all factory work gives the operatives pallid faces, poor appetite, languid, miserable feelings, poor blood, inactive liver, kidneys and urinary troubles, and all the physicians and medicine in the world cannot help them unless they get out of doors or use Hop Bitters, the purest and best remedy, especially for such cases, having abundance of health, sunshine and rosy cheeks in them. They cost but a trifle. See another column.—*Christian Recorder.*

The San Francisco Safe Deposit company has just put in the largest single vault in the world. It weighs 800,000 pounds, and had to be carried across the continent in pieces, forty-nine cars being required to transport it.

The only stomach remedy in the world, guaranteed by your own druggist, is D. R. V. G. Dyspepsia Remedy.

Three brothers named Sherwood, triplets, and all sea captains, celebrated their 70th birthday at Westport, Conn., on Wednesday of last week. They are all well, and bear a close resemblance to one another.

What an Accident Did.

It has discovered an absolute cure for all diseases of the kidneys, which can now be found in Day's Kidney Pad.

Ninety-one sheep belonging to Owen Potts, at Brown's Mills, N. J., were killed and injured in one night recently by dogs. Sixty-one sheep were killed.

Yesterday I had such a bad cold that I could not speak. I used Dr. Bull's Cough Syrup and to-day I am as well as ever. It cost me only 25 cents.

In Tallahassee and other southern cities it is usual during the hatching season of the mocking bird, to steal the young birds from the nest, to be trained for singers. As only about two in a hundred live, an early extermination of these birds is probable. A Florida paper suggests that a law be enacted forbidding the capture of young mocking birds.

True as sunshine melts the frost, Adamson's Botanic Balsam cures coughs, cold, and all difficulty of breathing. Price 10, 35, and 75 cts.

The Corean government has forbidden the sale of any native maps of the country to Europeans, and even to Japanese. The latter, however, have for some time past been very active in surveying the coasts, and, when opportunity offered, the interior of Corea, and the map, when published, will no doubt prove very useful, as they have a deservedly good reputation for accuracy in their cartographical work.

Richer in tone and fat producing materials than all others are Malt Bitters.

Portsmouth Chronicle.

MONDAY, NOVEMBER 8, 1880.

[Entered at the Post Office at Portsmouth, N. H., as second-class matter.]

For Congress, John W. Sanborn.

Mr. Jones, in his designation of Mr. John William Sanborn as the democratic candidate for Congress in this district, seems to have missed his guess. Mr. Sanborn, instead of being a help upon the ticket, was a drag upon it; and save in his own town, where his official patronage and personal labors could tell, ran badly behind his party's vote.

Mr. Sanborn may do well enough to manage a branch railroad, but as a candidate for Congress he is not a success. While endeavoring always to stand well in the estimation of his opponents, he has constantly lost caste with the men of his own party, who accuse him of various short-comings. Then too, it was announced—at a late hour, to be sure, but nevertheless unmistakably—that the Eastern railroad was not running for Congress in the late election; and the predicted aid from Mr. Sanborn's corporation position did not develope any strength. In some towns Mr. Sanborn's figures will be found well behind Mr. Jones', and as an aspirant for congressional honors we presume the Carroll county candidate may be considered as permanently laid upon the shelf.

Whether Mr. Jones will share the fate of Roberts, McKean, Sinclair and the other men who have in times past been "sure of election" and been defeated by less majorities than the one beneath which the last candidate is buried, we shall see in the by-and-by.

The Duty on Canadian Malt.

A meeting of brewers to take action against the passage of a bill pending before Congress to increase the duty on Canadian malt to twenty-five cents a bushels has been held in New York recently. The present duty is seventeen cents a bushel. A dozen New York firms and sixteen Brooklyn brewers were represented. A protest was ordered sent to all the members of Congress, and to all the brewers in the country. It was claimed that the bill would help only the maltsers, and would lead small brewers to substitute deleterious compounds for beer.

The farmers want protection against the cheap Canadian labor, but a goodly number of them in our state voted for the party which always favors the foreign products in preference to the domestic article. But in nearly every state, the people begin to see how it is. The yeomany of New Hampshire are conservative, yet they already know that potatoes, grains, and the few articles we can afford to raise for market in our state, ought to be protected. The brewers, however, will not be as powerful in the next Congress as they have done during the recent sessions.

The Election.

Saturday's reports were all right, Goode being defeated for Congress in Virginia by 5000 votes—a republican gain. Counting all the greenbackers with the democrats, the next house according to present returns will stand 155 republicans to 138 opposition.

A despatch from Knoxville, Tenn., says the republican candidate for Governor has 20,000 plurality, and the legislature is surely republican.

The Washington *Post* of Saturday concedes the next house to the republicans.

Vote for Governor—1878, 1880.

The vote of the several cities for governor of New Hampshire in 1878 was as follows:

	Head.	McKean.	Scat.
Portsmouth	1105	866	142
Dover	1138	674	212
Manchester	2382	1082	924
Concord	1823	1115	239
Nashua	1253	1007	123
Keene	877	936	130

The vote in to same cities in 1880 is as follows, according the present returns:

	Bell.	Jones.	Scat.
Portsmouth	1058	1327	16
Dover	1381	1184	33
Manchester	2879	2149	24
Concord	1955	1521	13
Nashua	1367	897	40
Keene	999	956	4

News and Notes.

Steamer Rhode Island, of the Providence line, struck Whale rock in a dense fog early Saturday morning, and was run ashore near Beaver Tail, Narragansett bay, in a sinking condition; she will probably be a total wreck. No lives were lost. There were about 150 passengers on board.

John T. Gordon of Quincy, Mass., was fatally shot, Saturday morning, by an unknown burglar whom he had captured in a house.

Mrs. Bernard, who shortly will become the wife of Senator McDonald of Indiana, is divorced from a former husband who has since married again.

Miss Fanny Knapp, a teacher in one of the public schools of Sutton, Mass., was fatally burned on Monday of last week, one of her pupils throwing a lighted match under her dress. The flames spread so rapidly that she was injured beyond recovery before they could be extinguished, and she died in a few hours.

Thomas McGovern was killed at Barre, Vt., last Thursday night. While putting up a circular saw a tool fell into the fly wheel, breaking the wheel. One piece flew through the roof of the building, and another crushed McGovern's skull. He lived a few hours in an unconscious state. He leaves a young wife.

The secretary of the treasury has instructed the assistant treasurer at New York to receive offers of sixes of 1880 each Wednesday as heretofore, the offers to be strictly confined to bonds; and authorized him to purchase during the past week those bonds to an amount not exceeding $1,500,000, at a maximum price of 102.75. Secretary Sherman says that for the past two months the purchase of sixes of 1880 has been preferred by the dpartment, but the price demanded by holders ran up to the full amount of bonds, including interest when due.

Mrs. Marie Molyneaux of Providence, R. I., was attacked with symptoms of hydrophobia last Thursday evening, and became so violent that it was necessary to remove her to the hospital. Her son was attacked with it the previous Tuesday, and during his struggles the mother was bitten by him. The father was also bitten, but no unfavorable symptoms are yet reported in his case.

While James Young, a colored man of Washington, D. C., was at church with his wife last Friday evening, his house was burned, and his two children, aged respectively seven and four years, perished in the flames.

The Washington *Star* calls attention to the fact that the next President will probably have it in his power to appoint a majority of the judges of the United States supreme court. Justices Hunt and Clifford are both suffering from paralytic strokes, and it is not probable they will remain upon the bench much longer, even if they partially recover health. Justice Swayne is seventy-five years old, and Justice Strong seventy-two. It is said that both of them contemplate retiring, as they have the right to do. Justice Miller has been on the bench twenty years, and is sixty-five years of age. He, too, has the right. Justice Bradley is sixty-seven, and will probably remain on the bench for some years yet.

Recently a young man by the name of Bradbury, visiting his grandfather, Capt. Jotham Bradbury, in Augusta, Me., had a very narrow escape from death by poison. He was stuffing birds, and used arsenic in connection with his work. This being in an uncocked bottle, he placed it in his coat pocket. A short time after, having an apple partly eaten, his attention was called to something else, and he placed the apple in the same pocket. He finished eating the apple a short time afterwards, and with it a large dose of poison. That he took an overdose was what saved his life, in all probability.

"The Danbury Boom," by Jas. M. Bailey. Boston; Lee & Shepard; price, cloth $1.00, paper fifty cents. The "Danbury man" has again come to the front, as if his former perpetrations were not enough for one man to answer for. What is permissable and endurable for the newspaper as a paragraph laughed at and forgotten, is hardly material of stability sufficient to go between covers. These gems of smart things in the papers come and go: at one time they may appear in Connecticut, and then in Michigan or some other part of the country. They serve their purpose, and pass out of sight and memory. Few of them are worthy of being placed in book form, however much the writer may appreciate them. The world is full of books, and readers cannot stop to re-read an old story which pleases at its first sight and fails to be welcome when, like Monsieur Tonson, it "comes again." Editors and paragraph writers have one mission, authors of books another; and while the sprightly and bright extravagances of the newspaper may amuse the readers who daily peruse the papers, the same material in book form does not satisfy their expectation. Still the writer who thinks he has sent forth such cute things may be pardoned for his desire to see them in book form, though we would prefer the reputation of being a good newspaper writer to that of an insignificant author. In the "Boom" Mr. Bailey gives us a few sketches of a political campaign which has many witty and thoughtful pictures, and for those who have not before read most of the waifs which have gone the rounds of the press, then can be found enjoyment in this book, which the author claims is as much better than his second work as that was better than his first volume. For sale at the bookstores.

Mr. Langmaid, who was so severely hurt at Pembroke by a man named McConnell, is not dead, as first reported, and is said to be improving. McConnell is in jail.

Returns received at Concord indicate that the bill providing for minority representation in corporations, which was submitted to the approval or rejection of the voters on Tuesday, Nov. 2d, has been adopted by a majority of 10,000. The measure provides that in all elections for directers or managers of a corporation, each member or shareholder may cast the whole number of his votes for one candidate, or distribute them upon two or more candidates as he may prefer.

George N. Carr was dangerously shot while gunning at Cardis on Thursday last.

Gov. Head and council will hold a meeting on the 18th inst., for the purpose of counting the vote of the state, and to appoint a judge of the supreme court to fill the vacancy occasioned by the resignation of Hon. George A. Bingham, nominated for but not elected to Congress.

An old gentleman in this village—the oldest man, in fact, who voted Tuesday—cast a ballot this year for the republican candidates. He is ninety-one years of age, and has always voted the democratic ticket. Rather a late conversion.—*Gt. Falls Journal.*

SCIENCE WINS!

A Splendid Surgical Operation--Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weakness peculiar to females. This wonderful medicine is now for sale by all our druggists at $1.00 a bottle.

HOSTETTER'S CELEBRATED STOMACH BITTERS

Meets the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and revitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

For sale by all Druggists and Dealers generally.

THE PARADE TO-NIGHT!

REPUBLICAN HEADQUARTERS
OFFICE CHIEF MARSHAL,
PORTSMOUTH, Nov. 8th.

Marshals and Aids will report on High street, near Parade, at 7:30 P. M., for instruction and assignment to duty.

Aids to Chief will wear white baldrics. Marshals of Divisions will wear red, and their Aids blue.

Disposition and division of the line will be published by bulletin this afternoon.

E. G. PEIRCE, *Chief Marshal.*
WM. O. SIDES, *Chief of Staff.*

THE ROUTE.

Through High, Deer, Vaughan, Elm, North and Dennett streets to Myrtle, countermarch through Dennett street, North and Elm streets, Railroad avenue, Vaughan, Congress, Islington, Union, State and Cabot to Middle streets, up Middle street to C. H. Mendum's residence, countermarch through Middle and State streets to wharf, across the head of wharf to Daniel street, up Daniel street, across Market square, through Congress, Middle, State, Cabot, Islington and Union streets, Lincoln avenue, Miller avenue, Rockland street, Richards avenue, Middle, Court, Pleasant and South streets to Langdon park and Yeaton's field.

All ununiformed citizens who propose to join the torchlight procession are requested to meet at the Republican Headquarters at seven o'clock this evening. It has been suggested that a company or two should provide themselves with brooms, indicative of the sweeping victory just achieved by the party.

Mr. Editor: As I and my neighbors intend to illuminate our houses to-night it would afford us considerable satisfaction to know just the moment the procession starts from the parade, so that we may know when to light our candles. As many organizations are expected from abroad, it is probable it will be late before the line will be ready to march. The discharge of a cannon would apprise the expectant public of the time of starting, and give them a chance to touch off their window illuminations neither too soon nor too late. X.

GARFIELD & ARTHUR BATTALION.

The Battalion will muster at headquarters this (Monday) evening at 7 o'clock, in full uniform, equipped with torches and dippers. All members who cannot parade with the Battalion are requested to send in their uniforms, that they may be used by volunteers. The Battalion will be assigned a position in the first division of the grand torchlight procession.

Per Order Maj. Com'd'g.
WM. A. PAYSON, Adjutant.

BOYS IN BLUE

Will meet at their armory this (Monday) evening, equipped for parade, at 7 o'clock. Dippers.

By order Maj. Com'd'g,
WM. O. SIDES, Adjutant.

WINCHESTER CADETS

Will meet this evening at 7 o'clock, in uniform, with dippers. Members who cannot parade will please sent in their uniforms.

By order Maj. Com'd'g.
Clinton Sides, Adjutant.

AROUND HOME.

No smoking was allowed in the town hall at Hampton on election day. Proper.

Rev. Watson W. Smith is now pastor of the Methodist Episcopal church in this city, *vice* Rev. C. B. Pitblado, resigned. Mr. Smith will give a series of monthly lectures during the winter, (each preceded by a service of praise,) on "True words from heathen and infidels." The first lecture in the series was given last Sunday evening, on Plato's saying, "Beautiful things are difficult."

At the republican celebration at Rochester on Thursday evening of last week, a member of one of the companies was killed while firing a salute. Rochester intended to join the parade in this city this evening, but this sad event has cast a gloom over the town, and the companies are considering the propriety of paying to the widow of their comrade the sum contributed for the proposed trip to Portsmouth.

The Eastern railroad has for a month past had a flagman stationed at the crossing at Seabrook depot, a precaution which the townspeople highly appreciate.

Minnie Palmer's Boarding School, at Music hall this evening, will endeavor to toll people in to see a most amusing show. As the grand republican parade of uniformed campaign companies takes place this evening, we do not feel warranted in predicting a crowded house; but those who do see the piece will have plenty of fun. See advertisement.

A despatch from Port Clyde, Me., dated Nov. 4th, says: "A small schooner, hailing from Rockland, Me., is on her beam ends, and full of water, about six miles from this harbor; all sails are set; she doubtless was capsized on Monday night, 1st inst., during a heavy squall. A vessel and a wrecking crew have gone to tow the capsized vessel in." Probably the schooner Lizzie Guptill, from this port with a cargo of apples, and bound east, previously reported as capsized off Monhegan on the night of Nov. 1st.

As Hon. Frank Jones' double team was going down Congress street, about noon on Sunday, one of the spirited horses slipped on the stone crosswalk at National block. This frightened both horses and they started on a gallop, and were not checked until they arrived at the north end of Market street. As the team turned into Market street from the square the carriage (which contained Mrs. Jones, Mrs. Sinclair and another lady,) came perilously near going over, but the driver displayed commendable skill and coolness in guiding the flying animals, and no damage was done.

At Bath, Me., Nov. 4th, a ship of 1770 tons, named the William W. Crapo, was launched from the yard of Goss, Sawyer & Packard. She is owned by the builders, persons in New Bedford, Mass., and Capt. W. W. Harding of Dover, who is to command her. She is classed for fourteen years in the French Lloyds, is splendidly fitted, and carries a steam engine and all the modern improvements. She is named in honor of Hon. Wm. W. Crapo of New Bedford, member of Congress from the first district of Massachusetts, and hails from that port. She is said to be the largest vessel that ever hailed from the New Bedford.

Engineer Averill of the Portland mail train, Engineer Howard of the Saugus branch train, and Edward Worthen, the ball tender at Lynn, Mass., have all been suspended from duty by the management of the Eastern railroad, pending a decision as to the cause of the fatal collision between the two trains at Lynn on Thursday of last week. An investigation was had by the railroad commasioners of Massachusetts on Saturday, when Wm. Averill and B. P. Hill, engineer and fireman of the Portland train, testified that the ball was up at the time of the accident, giving the Portland train the right of way. Other witnesses testified that the ball was down at the time, and had been for some minutes.

POLICE COURT.

SATURDAY, Nov. 6; *Batchelder, J.*

John Rand, for drunkenness, was fined $3, costs $6.90. In default of payment he goes to the county farm at Brentwood.

John Condon, for drunkenness, was sent to Brentwood for thirty days, and ordered to pay $9.18 costs.

POLITICAL CONUNDRUM.

The following conversation took place in this city last Saturday, between a democratic and a republican. Said the former:

"You fellows needn't crow too loud yet; this election isn't settled. The democratic national committee meet in New York on Monday; the vote of New York is to be disputed, and the election carried into the democratic Congress."

To which the republican replied:

"Let 'em meet—who cares? If you fellows couldn't get the President in 1876, when you claimed a majority of thirty-seven in the electoral college, and the republicans claimed a majority of only one, what do you suppose you can do now, when we've got an unquestioned majority of sixty-nine electoral votes?"

The democrat gave it up.

YORK COUNTY ITEMS.

The York Manufacturing Co., of Saco, paid a dividend of five per cent last week.

The Tremont Gun club, of Boston, had another pigeon-shooting match at Eliot depot a few days ago. About six hundred pigeons were slaughtered.

The republican clubs of Kittery intend to have a torchlight celebration on Wednesday evening, and a supper at Trefethen's hall on Thursday evening.

The friends of Mr. Ira S. Paul and wife, of Eliot, celebrated the twenty-fifth anniversary of the couple's marriage on the 27th ult, by a surprise party, about a hundred persons attending, and many valuable presents being taken along.

A young fellow named Todd, of Old Orchard, was arrested and locked up in jail last week. He had stolen an overcoat from a Portland gunner at Pine point, and hid it in the bushes there.

Mrs. Daniel Libby, of Biddeford, a lady seventy-six years of age, attempting to cross the street while a republican procession was passing, before the election, was struck by two cavalry horses, thrown down and her hip dislocated. It was very dark in that locality, and the horsemen did not see the lady.

The two prisoners who called out troops at Biddeford to arrest them last summer, for robbing houses during the parade of the circus, have escaped from the jail at Alfred. Capt. Tarr, the jailer, let them out on the corridors, and when he went to lock them up they threw a dipper of water in his face, pushed him down, ran for the woods, and made good their escape, though Tarr fired two pistol shots after them, and diligent search has since been made.

A few weeks ago it was reported in the papers that the handles, etc., of a burial casket had been found secreted under a pile of brush on a farm at the north part of Limington, and that parties were quietly working up the affair. It is now thought by some that the democrats were looking for a voter, and, after using him for the September election thought they would keep him for the November election, as they were anxious to give Hancock every note possible, and that they merely laid the handles there for a short time, intending to return the whole to mother earth after all the elections were over.—*Biddeford Journal.*

Carpenter B. F. Fernald is detached from the naval asylum at Philadelphia, Dec. 1st, and placed on waiting orders.

Asst. Engr. John D. Sloane is detached from the Kearsarge, and placed on waiting orders.

The leave of absence of Pay Inspector C. H. Eldredge is extended for two weeks.

Lieut. Thomas A. DeBlois has resigned, to take effect Feb. 1st., 1881.

A Reminiscence of the War.

Hon. W. W. Eaton, the distinguished romancer, enjoys also considerable note in the practice of criminal law, where his skill in manipulating facts (so-called) has raised fogs under which more than one poor devil has managed to elude the penalties of crime. During the height of the war excitement he happened to be on one occasion on the side of the prosecution. A woman had entered complaint against her husband for cruelly beating her in a fit of drunkenness. When the case came on trial the wife, for some reason, changed her mind, and showed great reluctance to appear against the prisoner. When pressed to repeat the evidence given by her when the charge was first brought, she attempted to excuse the conduct of her husband by admitting that she had provoked him to the deed.

"How did you provoke him?" inquired Mr. Eaton in his most persuasive tones.

"I called him bad names," replied the witness.

"What names?"

"The worst I could think of."

"Well, what?" impatiently.

"The meanest I could think of."

"Did you call him a liar?"

"Worse than that."

"Did you call him a thief?"

"Worse than that."

"The court cannot be trifled with. Will you answer me? What name did you call the accused?"

"Well, if you must know," replied the witness, "I called him a d——d copperhead!"

The examination stopped there. The prisoner was discharged, the provocation being held sufficient to excuse the assault.—*Hartford Post.*

Tricks of Tramps.

Two well-dressed tramps, calling each other Fitzherbert and Harcourt, stopped at a Canadian farmer's house a few days ago, and, explaining that they had started on a walking trip without estimating their powers of endurance aright, asked him to give them a dinner, and then hired him to drive them over to Hamilton. On the way they spoke most enthusiastically of the scenery and put the farmer in an excellent humor, and when they reached the city they asked him to drop them at the best hotel, where they would have a check cashed and pay him for his trouble in driving them over. The farmer waited for a long time at the door of the hotel for the reappearance of the eloquent Fitzherbert and the dignified Harcourt, but they did not return.

Almost young Again.

My mother was afflicted a long time with neuralgia and a dull, heavy inactive condition of the whole system; headache, nervous prostration, and was almost helpless. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems and feels young again, although over 70 years old. We think here is no other medicine fit to use in the family.—A lady in Providence, R. I. —*Journal.*

—Jim Lyon, who was killed in a barroom fight at Millard, Neb., was found to be clad in a complete, though penetrable, suit of armor. Shields for his back and front were made of heavy leather, padded with an inch of cotton batting, and suspended under his clothing by straps over his shoulders. This protection had long given him the courage to figure as a bully.

A RADICAL CHANGE. Ten years ago, any physician, when consulted, would tell his patients that Bright's Disease of the Kidneys was incurable. To-day, the theory is all changed. What has changed it? We answer, the success of Hunt's Remedy, the Great Kidney and Liver Medicine. In all parts of the country, the best physicians now prescribe Hunt's Remedy when everything else fails. Such a medicine is truly valuable. Hunt's Remedy cures Bright's Disease, and it controls all kidney, bladder, liver and urinary complaints.

Sold by all druggists. Trial size, 75 cts.

—"The mainspring of Italian music in the 18th century," says a recent writer, "was the exclusive and passionate worship of the human voice." But Italian music has experienced a change. Its mainspring is now in a box, and is worked with a handle.

The name Jenner means a drawn lancet putting to flight a loathsome disease; and the name Harvey signifies the circulation of the blood. And the time is coming when the name of Dr. David Kennedy will be indissolubly connected in the public mind with the purification of the blood; a deed only less important than the discovery of its motion through the human body. This Dr. Kennedy accomplishes by means of his new medicine called "Favorite Remedy"—the pleasant and popular title of a preparation which cleanses and sweetens the river of life within our veins, as an influx of oxygen does vitiated air. All druggists, $1.00 a bottle.

There can't nothing come along that's dark and sly and hidden but he'll jine it. If anybody should get up a society to burn his house down he'd jine it just as soon as he could get in, and if he had to pay to get in, he'd go all the suddener!"

Hon. Jeremiah Mason.

Tradition tells us that Mason was a man of singular force and vigor both of mind and character. He had the rough, strong culture which was to be gained at the bar of New Hampshire in his earlier days, and which assorted well with his natural gifts. His personal appearance matched well with his intellectual and moral traits, for he was six feet six inches tall, and of a sound and powerful frame. He also was a federalist, and served in Congress for a few years; and a valuable correspondence which he conducted with Rufus King and Christopher Gore has been fortunately preserved. Statesmanship was not so properly his function as law, yet he acquitted himself well, and his shrewd insight and clear comprehension may occasionally be noted in the political predictions upon which he occasionally ventured. There are probably few prophecies so sure not to be fulfilled as those concerning public affairs made by men in public life; and it is a remarkable circumstance that some of Mason's came true. But if clear, strong common sense could ever reach the measure of genius, it would have done so in his case. It is related of him that once, as he was coming out with his daughters from one of Emerson's very "pregnant" lectures, some one asked him what he thought of it. He replied, "Oh, I can't understand a word of it; but the girls say it's amazingly fine." Mason was often abrupt and rough in his style of speech, and did not refrain from those violent expletives which the true Anglo-Saxon dearly loves. It is related of him that he was once seeking admission to a building which was closed to the ordinary crowd of citizens, and the door-keeper, resolute but pacific, firmly barred his progress. "Do you know who I am?" demanded Mason with sundry strong objurgations. "I do not know," said the other, "but by thy height and by thy language, I think that thou must be Jeremiah Mason." The mention of Mason's name seems to bring up an atmosphere of witty stories and pungent sayings; but such are too readily forgotten, and Mr. Hillard has preserved almost none of them. He has, of course, the famous one of the time, when, while Mason was trying a case, the judge interposed with a question to a witness. Mason promptly checked the reply, and, turning to the court, said: "On which side does your honor put that question? If for the other side, we object to it as inadmissible; and if for us, we don't want it." On another occasion, during the trial of a closely-contested and doubtful case, Mason's client said to him one morning, at the opening of the court, that he had had a vision during the night, in which the angel Gabriel had appeared and given him important and encouraging information. "Serve a subpœna upon him at once," exclaimed Mr. Mason. It was not until 1832, when he was already sixty-four years old, that Mason, came to Boston, but he lived until 1848 in the full enjoyment of his rare faculties. —J. T. MORSE, JR., in *International Review for Nov.*

Story of William Tell.

He was captain of an archery club, and one of the best shots with the bow and arrow in all Switzerland. The country was then under the rule of the tyrant Gesler. One day Gesler set his pike at on a pole for men to salute, and ordered every man in Altorf should make obeisance to it or die. And they did, every one of them. Even the trees standing round made their best boughs. Finally Bill Tell came along with his little boy. He told the men at Altorf that before he would bow to Gesler's hat he would 'Altorf and stamp on it. That was the kind of a bow and arrow he was. Gesler arrested him on the spot, being marshal of the village as well as tyrant, thus drawing a salary from two offices, contrary to the constitution. Gesler, as a punishment for his audacity, ordered him to shoot an apple from the head of his boy. This he did, although it was an arrow escape for young Tell. The apple fell, pierced to the core, no encore being allowed owing to the extreme length of the programme. As Tell rushed forward to embrace his boy an arrow dropped out of his vest. "Ha!" cried the tyrant, "wherefor concealest thou that arrow?" Replied Tell, pointing to Gesler's head gear on top of the pole, "To shoot that hat!" The joke was so good that Gesler released him and gave him a $20 gold piece.—*Cincinnati Saturday Night.*

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire Items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "o'd home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood invigorated.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains 3 annual and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Boston Post says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nerve specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. du&th &6tnov30

LIFE-INVIGORATING

SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. COLBY'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, there being in a given amount of Syrup twice the amount of Vegetation Extract that any other contains, the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. T. R. CROSBY, M. D., W. D. BUCK, M. D., S. BINTON, M. D., J. S. ELLIOT, M. D., JAMES BARD, M. D., Z. COLBURN, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. Hysteria.

Hysteria is by no means confined to women, for one of the worst attacks which I have witnessed occurred in a man. This gentleman one day found he had lost his all, and on returning home he became the victim of laughing and crying, until sheer exhaustion brought an end to the attack. This was quite involuntary. But it might be remarked that even in hysteria such a thing as fashion prevails, showing that a certain power of restraint may be used. When I was a boy, hysteria was the fashion; and if during conversation any remark was made to touch a lady's sensibilities, she would clench her hands, make a wry face, her eyelids would undergo a rapid vibration, she would give a sob or two, and sink from her chair. The cure was accomplished by throwing cold water over her face; and if this encroached on her neck or wetted her dress, the cure was very sudden and complete. During church service, it was the usual practice to have a young lady carried out, but I think, as a rule, she belonged to an inferior class, whose kind of work during the week did not allow them to play dress-making tricks with themselves on a Sunday; for if I remember rightly the cure was effected in their case by the call for a penknife. This was used to loosen the body armor, when a loud explosion took place, followed by a deep sigh and a speedy recovery of the patient. So fashionable was fainting or hysterics in church, that I have a lively remembrance of a young lady who had a weekly attack, and was often carried out by a gentleman in the next pew. As these two were afterward married, I apprehend that this was one mode of courtship. I am only too thankful to think, for the peace of other people, that this method of forcing matrimony has gone out.—*Chambers' Journal.*

The Size of a Drop.

Mr. T. L. Talbot has made a series of experiments regarding the size of drops and their use in measuring medicine, etc. He finds that liquids containing a small proportion of water afford a small drop, and vice versa. Omelin's statement "that the cohesion of liquids is pretty nearly in proportion to their specific gravity" is called in question, and the fact that alcohol and mercury afford nearly the same number of drops to the drachm certainly throws considerable doubt upon the matter. The size of drops is affected principally by the cohesion of the liquid, and the form of lip over which the drop falls. Bottles with ground necks, wide, thin even lips give fair results, but are not so accurate as "droppers." The best of these will not, however, average at all well. The administration of powerful medicines should not be attempted by drops, and this mode of measurement is, in any case, inadmissible if the quantity exceeds half a drachm. The largest drop is formed by syrup of gum arabic, forty-four to the drachm, and the smallest by chloroform, 250 to the drachm. As a general rule tinctures, fluid extracts and essential oils yield a drop less than one-half the size of water, and acids and solutions give a drop but slightly smaller than water.

An Incident of the Rebellion.

A battery of the first artillery halted one night during the "seven day's fight," in a little clearing. The men lay down, unhitching their horses, but leaving them in harness. The first sergeant, now an honored officer of the third artillery, told me he got up and walked toward one side of the clearing. He was halted, and turned back by a sentinel. Going toward the other side he was again challenged.

"Who comes thar?"

The voice struck him. He replied, "Friend," and said, "What regiment is that?"

The answer came, "Seventh Alabama."

"What regiment is that on the other side!"

"Fifth Georgia," replied the sentinel.

"What battery is that?"

Here was a situation. The sergeant didn't know the name of a battery in the rebel army. Hesitation would have been fatal. By a lucky inspiration he replied, "One of Stuart's batteries," knowing that Jeb Stuart commanded their cavalry.

"Oh," said the other, "then you's a hoss battery?"

"Yes," said C—, "Good night."

He immediately awoke the captain, who rather angrily said, "What the deuce is the matter now?"

"Excuse me, captain, but we are encamped between an Alabama and a Georgia regiment."

It is needless to say the captain got up. Horses were hitched in quietly, and the battery withdrew from between the sleeping regiments, who never knew of the prize that was within their grasp.

How a Husband Was Lost.

When the late Lafayette S. Foster, at one time president of the United States senate, was a young and rising lawyer, he wooed and was engaged to a young lady whose family enjoyed a larger social prominence than his own. The wedding day had been fixed, and the couple were talking over their prospective tour, as a part of which young Foster proposed that they should spend a few days with his parents, who resided in a town some distance away. The lady rather reluctantly consented, but said: "I will go with you this time, but in the future you must not expect my visits to your parents to be very frequent. You must remember that our associations have been very different." Surprised and shocked by this cold-blooded depreciation of the father and mother whom he loved and honored, the young man paced the floor, the spot of meeting and conflicting emotions. Finally, taking his hat, he turned to the young lady and said: "I am glad I have found

you out in time; you may go to the deuce." The rebuke might not have been choice in style, but it was earnest in spirit. Thenceforth their ways lay apart, and she was not the gainer.

Diabetes Cured.—Another Life Saved. It is not claimed that Kidney-Wort will cure all diseases, and diabetes is generally regarded as incurable; but it appears from the following that there is hope for such sufferers:

NEW-BEDFORD, MASS., Aug. 8th, 1872.

Gentlemen:—Grateful for the benefit I have derived from Kidney-Wort, recommended to me last winter by a lady friend, I wish to say a word for the encouragement of those who may be suffering as I have been.

I was troubled for about two years with a kidney complaint which assumed the form of diabetes, and although I consulted the best medical advice and tried several largely advertised remedies I found nothing to give me relief until I made use of your Kidney-Wort. I took two boxes before perceiving much benefit, and have taken in all eight boxes. In short, I can say that I am confident if I had not taken it I should not now be alive. I have recommended it to others, and they have taken it with like results.

Respectfully yours, BENJ. RYDER, Conductor New Bedford & Taunton Railroad.

A despatch from Paris says the reason for the delay in the Panama canal scheme is that it is considered prudent to await the meeting of the Congress of the United States in December, when it will clearly be known whether the scheme encounters hostility.

The New Hampshire Election.

Returns from all the towns in the state except Chatham, Clarksville and Wentworth's Location, give the following as the result of the election.

For President, total vote 85,177: Garfield, 44,787; Hancock, 40,707; scattering, 683; Garfield's plurality 4,080.

For governor, total vote 85,963; Bell, 44,355; Jones, 40,730; scattering, 878; Bell's plurality over Jones, 3,625; Bell's majority over all, 2,747.

The towns to be heard from gave, at the last election, 106 democratic votes and 58 republican votes.

Jones leads Hancock 25 votes, while Garfield leads Bell 432, and the aggregate presidential vote exceeds that for governor by 214.

The republican majority in the next house of representatives is not definitely decided, but will not vary much from the present one.

The senate stands sixteen republicans to seven democrats, with no choice in the first district, though the democrats claim that the official count will give them the district, which will make the senate stand eight democrats to sixteen republicans, a democratic gain of four.

The people of Rochester have raised a thousand dollars, by subscription, for the benefit of the widow of Mr. Albert Walker, who was killed last Thursday by the premature discharge of a cannon which was being fired while celebrating the election of Garfield. Wallace Brothers headed the list with $100. The subscription is a generous contribution to an afflicted and needy family.

News and Notes.

John Merrow and Henry Sturtevant were drowned in lake Annabescook at Walthrop, Me., Saturday, while fishing.

The steamer Rhode Island, which went ashore on Bonnet point, R. I., Saturday morning, was broken to pieces before Sunday night. Considerable of the cargo was picked up adrift. The steamer cost $500,000, and is a total loss.

Willie Sprague, fifteen years old, son of Ex-Gov. Sprague of Rhode Island, on Saturday attempted to kill Mr. Thompson, trustee for Mrs. Kate Chase Sprague, by firing a big pistol at him. Failing to hit Mr. Thompson, the boy then ran away. He is to be prosecuted.

The Rhode Island senate has three times passed an act for a light at the point where the steamer Rhode Island was wrecked last Saturday, but it failed in the house.

A meeting of the alumni of Williams college, without distinction of party, was held in New York on Monday evening to take such action as may be deemed appropriate in respect to the election of one of their number to the presidency of the United States.

Turning Bear and five other Brule Sioux, held at Fort Omaha since August for murdering herders and stealing horses, have been taken to West Point, Neb., for trial in the state court. Their case has attracted much attention at Washington.

Smallpox has appeared at Gardiner, Me., and two cases have proved fatal. Smallpox has also appeared at North Adams, Mass.

Margaret Dempsey, said to be 111 years old, was found dead in a hut on the mountains near Ellenville, Ulster county, N. Y., last Thursday, by a party of hunters. The following note, written in pencil, was found by her bedside: "I am dying by inches of hunger. My money will be found—." There is a tradition that Mrs. Dempsey when a girl ran away from home to marry a lover who soon deserted her. She went to that place many years ago, and has lived a hermit's life since. It is supposed she became too feeble to rise from her bed, and slowly starved to death.

Bob Toombs, of Georgia, announces himself for "Grant and empire" in 1884. Better wait till that time comes before commencing another presidential campaign.

The attempt to fix the responsibility for the defeat of the democracy in New York upon different persons and parties, by the several factions in New York, is amusing; charges of infidelity and endorsement of orthodoxy fill the democratic sheets, and the papers pretend not to know what was the real cause of the result.

A new count in the Morse district of Massachusetts shew that Leo polled more votes than he at first was credited with. The German democrats insist that the attempt of the Irishmen to "jew" Morse out of his election, has failed at the polls, and at the re-count.

GREAT FIRE IN DOVER.

Dover had a disastrous fire on Sunday morning, it breaking out in what was known as the Nute shoe shop, at about half-past two o'clock. This shop, which was the property of Ira H. Nute, was entirely destroyed, besides several dwelling-houses and barns in the vicinity. The loss on the Nute shoe shop was $10,000; insurance, $5000. Strong & Burt, shoe manufacturers, who rented half of the building, lost $8000 on machinery and stock; covered by insurance. Charles Dore, shoe manufacturer, who rented the other half, lost his entire stock of boots, leather, machinery, etc.: loss $4000, insured $3500. Other losses were as follows: Joshua Parker, double-tenement house, loss $2200, insurance $1500; Edward A. Morrill, double house and two barns, loss $4000, insurance $1200; Ira H. Nute, dwelling-house, loss $4150, insurance $2500; Miss Hill, a barn, $950, fully insured; Edward Blaisdell, lumber shop, $400, fully insured; George B. Wentworth, barn, $150, insured; John Leighton, house, $250, insured. Total loss on buildings, stock, etc., $34,000. There was about $4000 worth of furniture etc., destroyed. It looked at one time as if the whole city would be burned, as a high wind prevailed. It is believed that the fire originated by spontaneous combustion, as one year ago a fire broke out in the Nute shop, which originated in some cotton used in the shoe business, which was soaked in linseed oil. One hundred men were employed in the Nute shoe shop, and are now thrown out of employment. It is expected that the shop will be rebuilt at once.

YORK COUNTY ITEMS.

At Biddeford, last Thursday, Fred Lefleur, aged seventeen years, and just released from jail, was arrested for a criminal assault on a girl five years old, and placed under $1000 bonds.

Our old friend "S.," the Kittery correspondent of the *Times*, who for some months past has been managing affairs on the navy yard, and on behalf of "the people" sweeping the country for Hancock, to the extent of a column or more a week, has gone out of the business, and will now have leisure to continue his interesting historical sketches of persons and places in the town of Kittery.

—Dr. Tanner announces that he is making arrangements with Dr. W. B. Richardson of London to fast there. Dr. Richardson is opposed to the use of alcohol as a medicine, and challenge is to be issued to the brewers, distillers and doctors for a fast of forty days, for Tanner to take water only, while his opponents will be allowed the use of wine, beer or any spirituous liquor.

A Penny Saved is Twopence Earned. A little SOZODONT, used right along every day, costs but little trouble and is pleasant always. It saves years of suffering from diseased gums and teeth in later days. Its use is economical of time and comfort. Use SOZODONT.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes*. Tu,Th&F,&G

To the Holders of Certificates of Indebtedness.

The Voting Register of Certificate-Holders is now making up at the Office of the Trustees, No. 22 Court Street, Boston, Mass. The names of parties to whom Certificates were originally delivered have been placed in the Register. Any subsequent purchaser or holder desiring to register may do so on presenting at said office to Mr. Joshua Bates a statement of his name, residence, address and the denomination and number of each certificate held by him, or, if so required by the Trustees, on producing the Certificates held by him or a written order from the last-registered holder.

In accordance with regulations fixed by the Trustees the Voting Register will be closed on the thirtieth day of November, 1880, between which time and the Annual meeting on the second Wednesday of December, 1880, no registration will be made. Per Order of the Directors.

HOSTETTER'S CELEBRATED

STOMACH BITTERS

Meets the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and revitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.
For sale by all Druggists and Dealers generally.

The Age of Miracles

is past, and Dr. Pierce's Golden Medical Discovery will not raise the dead, will not cure you if your lungs are half wasted by consumption, or your system sinking under cancerous disease. It is, however, unsurpassed both as a pectoral and alterative, and will cure obstinate and severe disease of the lungs, coughs, and bronchial affections. By virtue of its wonderful alterative properties it cleanses and enriches the blood, thus curing pimples, blotches, and eruptions, and causing even great eating ulcers to heal. Sold by druggists.

A recent typhoon in Japan was very destructive. Over 1000 buildings were destroyed in the city of Tokio, and hundreds of fishermen lost their lives in the bay.

Liebig Co's Coca Beef Tonic

"Is far superior to the fashionable and illusive preparations of beef, wine and iron," says Professor F. W. Hunt, M.D., Honorary Member Imperial Medical Society of St. Petersburg, Russia, etc., etc. Sold by all druggists.

It will reconstruct the most shattered and enfeebled, reinvigorate the aged and infirm, and make sickly children blooming and healthy.

It is invaluable in all female complaints, removing irregularity, pains and exhaustion.

And it quiets restless children and infants.

A six-days tramp in London last week was won by Rowell, who made 566 miles, beating the best previous record. A man named Littlewood made 470 miles, and Dobler 450. It is pleasing to know that but little interest was taken in the match, and that the receipts were small.

To Campaign Clubs.

The Boston *Traveller* of Saturday evening contained the following appeal "To Campaign Clubs:"

The exodus of the colored people from the south continues, the winter is approaching, and our friends in Kansas appeal again for clothing. It is wanted, not only for new comers, but for many destitute ones among last year's settlers. Contribute your cast-off cloth uniforms. Each will warm some needy refugee. All such sent to Garrison & Co., 137 Federal street, Boston, will be gratefully acknowledged. Friendly papers please copy. H. P. Kidder, treasurer; W. L. Garrison, Jr., N. P. Hallowell.

Great Storm in the Sun.

Observers of the sun found indications of intense commotion on the 11th, 12th, and 13th of August. The sun spots were numerous, large and active, and protuberances shot up their rose-colored tongues with increased force and velocity from the surface. The earth made instantaneous response to the solar storm. A magnetic disturbance suddenly commenced, accompanied by an unusual exhibition of earth currents. The magnetic variations were frequent and large, and the earth currents continuous and strong. It is years since the Greenwich observatory has recorded magnetic disturbances of equal magnitude, and it sends forth a timely warning to telegraph engineers, and especially to those concerned in laying submarine cables, that earth currents may now become frequent, as compared with the quietness of recent years. A superb exhibition of aurora accompanied the magnetic disturbance.

An observer at the Stoneyhurst (Eng.) observatory describes it as recalling the magnificent displays of 1869, '70 and '71, while the play of the magnets was one of the most violent ever recorded at that observatory. The auroral display was extensively observed in England and Scotland. One observer describes it as an outburst of streamers, appearing like wavy, swaying curtains from the zenith to near the horizon, with the loveliest green tints near the zenith. Another paints the display as a brilliant band of white light followed by streamers, each streamer fading away before the succeeding one becomes bright. Still another records a glowing celestial picture of the northern horizon skirted by a bright white haze, terminating in an ill-defined arch, from which sprang a large number of broad streamers, stretching toward the zenith. The same phenomenon was seen by American observers, although it did not receive the attention bestowed upon it by European observers.

Growth of Texas.

A letter from Dallas, Texas, speaks of the remarkable growth of that geographically immense state, in population, since 1870, when the total was 818,579. It is now just about doubled. With 1,600,000, Texas would be entitled to nine instead of six members of Congress, if the same basis is to be maintained in the new apportionment, but the basis is likely to be increased. The letter says:

"There are 226 counties in the whole state, covering an area of 274,000 square miles. There are four—El Paso, Pecos, Crockett and Tom Green—which have each an area as large as the whole state of Massachusetts. These counties are, of course, sparsely populated, and will eventually cut up into at least a hundred counties; and when the state is fully divided up and settled it will contain all of 350 counties. The largest city in the state is Galveston, 22,000; next, San Antonio, 19,000; then Houston, 17,000; then Dallas, 15,000—all in round numbers. Five years ago Galveston had at least 30,000 people, but the town has since been badly flanked by Morgan's ship channel and by railways, and then began going down, while Houston went up. Houston sits as a veritable leech, a barnacle upon Galveston. The city of Dallas has grown from 600 or 800, in 1870, to 15,000, and is given up as the pluckiest little rooster in the ring."

KELLOWS' Compound Syrup of HYPO-PHOS-PHITES

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claims to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have in our knowledge where a single dose has been effectual.

S. JACOB, M. D., St. John, N. B., writes:

"I have used your Syrup in one instance in case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, and the patient is cured by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

"Your Syrup will cure Pulmonary Consumption in case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, and the patient is cured by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

"Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy."

Do not be deceived by remedies bearing a similar name, no other preparation is a substitute for this, under any circumstances.

IS STRONGLY ENDORSED.

Rev. E. F. L. GAUSS, Galena, Ill., writes—"Never ten years have I been a great sufferer from pains in the small of the back and region of the kidneys, which was almost excruciating and at times almost insufferable. Doctoring brought no relief, and I was finally advised to go abroad and seek the climate of my youth. In Germany and Switzerland eminent physicians, after close examination, declared my sufferings to arise from disease of the Kidneys, of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No sooner had I been back and resumed my pastoral work, when the old trouble grew again so intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and look again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad Co., God's agents and great benefactors of mankind. Many all the suffering he helped as I have been in my earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have now used three Kidney Pads thirty days, and it has done me more good than any medicine I have ever taken."

LARIMORE & DEAN, Druggists, Niles, Mich.—(30 years in business)—"DAY'S KIDNEY PAD is having a large sale and is giving general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been great sufferer from Kidney complaint, and after wearing your Pad 20 days I feel better than I have in 15 years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is doing great good here. It sells every day and gives general satisfaction."

For sale by drug'ists, or sent by mail (free of postage) on receipt of the price—Regular Pad, $2.00; Special Pad, (extra size), $3.00; Children's, $1.50. Our book, "How a Life was saved," giving the history of this new agent and a large record of most remarkable cures, sent free. Write for it. Address,

DAY KIDNEY PAD CO., TOLEDO, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it due the afflicted to warn them. Ask for DAY'S KIDNEY PAD and take no other.

THE New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nerve specialist, and therefore knows how to treat with such power and ability."

AROUND HOME.

Mr. Horace S. Spinney died very suddenly, Monday morning, at his home on Partridge street, falling dead as he was putting on his coat.

Capt. G. Frank Towle, 19th U. S. Inf., has been ordered from Baxter Springs, Kansas, to Fort Leavenworth, as a witness in a court-martial case.

A Seabrook man was recently arrested, at the instance of the anti-cruelty society, for shooting sparrows; he was adjudged guilty by the magistrate before whom he was taken, and fined $5.

The Dover *Republican* issued its last number as a campaign daily on Saturday last. The paper is to be kept up, however, as a general newspaper, and will be issued from the *Enquirer* office.

Stephen Scammon's barn, in Stratham, was burned last Saturday night, with a large quantity of hay, and several cows, horses and pigs, and a lot of farming utensils. Loss $1200 or $1500; partially insured. Supposed incendiary.

The schooner Maud S. Wetherell, Hontvet master, sailed from this port on Monday with a cargo of apples, bound for Summerside, Prince Edward's island, where she will take on board a cargo of potatoes for a port in the United States.

Miss Jennie Ladd, of Epping, met with a serious accident in Exeter on Monday of last week. She was riding when her horse became frightened by a bicycle, and she was thrown from the wagon, and had the bones of her right wrist broken by the fall.

Mr. Josiah F. Adams has filled the office of sexton and janitor of the Universalist church and Sunday school for twenty-five consecutive years. We think his predecessor the, late William Ilsley, Esq., occupied the office for even a longer period.

Rev. Wm. A. McGinley, pastor of the North church, will be absent from his pulpit for the next three Sundays. He will attend the meetings of the National Congregational Council at St. Louis this week, and afterwards take a week's much-needed rest.

Joseph Kidder, grand commander of the Grand Commandery of New Hampshire, United Order of the Golden Cross, will visit Portsmouth Commandery on Thursday evening, Nov. 18th, when the work will be exemplified, following which a fine banquet will be served.

The schooner Lizzie Guptill, Smith master, of and for Rockland from this port with a cargo of apples, was towed into Port Clyde, Me., on the morning of Nov. 3d, by wreckers. The vessel is much damaged in sails and rigging, the mainmast being out altogether.

The new freight house of the Eastern railroad at Dover, now nearly completed, is one hundred and eighty feet long and thirty feet wide. The old one, which was much too small for the large and constantly increasing freight business at that end of the Portsmouth & Dover line, will be torn down as soon as the new one is completed. A new passenger station is now called for by the people of Dover.

The democrats claim that the endorsement by *Miller's Weekly*, which with the forged Chinese letter was read in the saloons on the week before election, quite generally, lost Mr. Jones many democratic votes. There was something in it which the average democrat did not comprehend, and so they went against the candidate on the ground that if he was endorsed by the *Weekly* he could not be all the democracy required.

"Rice's Originals" appear at Music hall this evening in "Evangeline." They appeared at Portland a few evenings ago, and the *Press* of that city says: "Rice's Originals appeared last evening at the new Portland theatre in the famous extravaganza Evangeline. As on the occasion of a former visit of the company to this city we noticed both the singing and the acting, it seems scarcely necessary to do more than to say that the company is as good as ever, and the applause with which the music was greeted serves to show that the breezy extravaganza is still a popular favorite. The house last evening was completely packed."

Governor-elect Bell held a reception at the Peirce mansion on Middle street, which was attended by many prominent citizens, Monday evening, after the parade.

SUPREME COURT--CLARK, J.

MONDAY, Nov. 8th.

On the coming in of the court, Eben D. Chapman of Epping, indicted for murder, was arraigned, pleaded not guilty, and was released on his own recognizance in the sum of $1000. This indicates that the prosecuting officer considers the evidence insufficient to warrant a trial, and the case will probably not be heard of again.

Case Newell vs. Concord railroad was opened, and the court went to Candia to view the premises.

POLICE COURT.

MONDAY, Nov. 8; *Batchelder, J.*

Dennis Sullivan, for drunkenness, was fined $3, costs taxed at $6.90. Brentwood in default of payment.

HARVEST SUPPER.

The ladies of the Universalist Society will have a Harvest Supper, and sale of aprons and fancy-work, at their Vestry, Thursday evening, Nov. 11th. Tickets of admission 10 cts.; supper tickets 25 cts.: supper served at seven o'clock. Oysters and Ice Cream also for sale.

A REVOLUTIONARY HERO.

On Thursday evening of last week some democrat in some place telegraphed to some other democrat in some other place not to pay any election bets yet, as the contest was not decided, Chairman Barnum, of the democratic national committee, not having yet "given up" the state of New York. This important news reached this city, and thereat some of the democrats almost tried to be hopeful; they had been plunged so long and so deeply beneath the dark waters of affliction that they were almost drowned, and eagerly grasped at even so slender a straw as this. And absurd though it may seem, some republicans even were troubled by it, though nothing more ridiculous could be conceived than the idea of William H. Barnum organizing a revolution to overturn the government of a Nation of fifty millions of people. Had it been announced that he intended to purchase from a state legislature a nomination as United States senator, or to commence "buying mules" or "laying steel rails," or to instigate a contemptible forgery, or to procure perjured testimony in support of the forgery after it was committed, there might have been some cause for alarm; but that he is the kind of man to lead a movement to set aside the will of the people as expressed at the ballot-box—bah! Garfield and Arthur have been triumphantly elected, and will be peacefully inaugurated on the 4th of March next.

THE REPUBLICAN CELEBRATION.

The republican campaign companies of this city, with delegations from Biddeford, Saco, Kittery, Eliot, Dover and Exeter, celebrated the national victory of the party by a torchlight procession Monpany evening, starting on the march shortly after nine o'clock, the following being the

ORDER OF PROCESSION.

Samuel Adams, handsome display.
S. G. Hooper, tableau, drummer boy.
Joshua Stackpole, balls of fire.
Elvin Newton, bonfire and fireworks, fine show.
E. A. Tilton, Sidney Wentworth, J. E. Rider, M. J. Vaughan, Langdon M. Perkins, J. M. Tibbets, C. E. Laighton, and scores of others whom we cannot particularize, all made fine displays; and fireworks were being sent off incessantly all along the line of march.

James Miller had his house lighted, and flags set; fired a salute of thirteen guns after the march was ended.

On the arrival of the procession at the end of the route a fine display of fireworks was set off in Langdon park, the first division being detailed to attend to this duty while the other divisions were fortifying the inner man; refreshments were distributed, the procession dismissed, and the last political demonstration of the campaign in this city ended.

BOW MISSION SERVICES.

The Saturday evening meeting was in charge of Mrs. Hooper; a social service was enjoyed.

Mr. James Janvrin presided at the bethel service, Sunday afternoon. The Sunday school lesson for the day, viz.: "Joseph in prison," was the theme.

The reform club held a social service Sunday evening.

Gospel meetings were held at Newcastle, Saturday and Sunday evenings, and at Mt. Agamenticus, York, Sunday afternoon and evening, by workers from this city. Meetings were also held at the almshouse and jail.

A Suggestive Incident.

There was an incident of the landing of the French actress at New York which had a certain curiousness of contrast. As the passengers gathered near the gangplank of the Amerique, all in that mortal dread of spending another moment on board which characterizes equally the survivors of an ocean voyage or the passers over a ferry,—Miss Bernhardt and her numerous managers were foremost, and among the rest stood an aged woman, "dressed," says the observant reporter, "plainly and commonly. There was a rent in her ample cloak. Her face was furrowed and her hair was streaked with white. This was the widow of Abraham Lincoln." She had come alone across the Atlantic, from southern France, where she has lived for four years past. A nephew met her at quarantine, but there were no friends around her and no one to pay her attention. On the wharf the Bernhardt's carriage was a long time getting through the gaping crowd, and while she waited, everybody else waited—indeed, most of them wanted to wait, and will stir up the envy of their various circles all the season with allusions to "the time I went down to meet Bernhardt." But Mrs. Lincoln, with her nephew, moved toward the gate. A policeman vigilantly touched her on the shoulder and bade her stand back, and back she stepped, while all the people there were jammed aside to let Miss Bernhardt's carriage draw up. When she had relieved the ferry-house of her presence, the widow of Abraham Lincoln was allowed to pass.—*Springfield Republican.*

—A cave in eastern Tennessee is two miles in length, and has openings at both ends. The owners of the ground around each entrance charged for admission, and acted as guides for visitors. Their rivalry led to serious fights in the cave, for each held the other to be a trespasser. Then one of the contestants hit upon a novel and effective means of ruining the other's business. He sank a shaft so as to admit a large stream into the cave at about the centre, and, as there was an incline in a favorable direction, the water poured out at the enemy's portal, while his own was unobstructed. The matter is to be made the subject of a law-suit.

Idle Experiments.

When a man is well and sound he can afford to be indifferent to the character of all the medicine in the world. But when disease is fairly eating him up, he must do something at once and do it intelligently. Therefore do not dose yourself with a hundred things in the hope that some of them may hit the mark, but try Dr. David Kennedy's "Favorite Remedy" which hits it every time. For kidney and liver troubles, piles and constipation, it is just what you want. Druggists have it, or mail one dollar to the doctor at Rondout, N. Y.

—Glucose is a remarkable production. It is described in a recent French paper as follows: "Glucose—a product with which wine is manufactured without grapes, cider without apples and confectionery without sugar."

Get out Doors.

The close confinement of all factory work gives the operatives pallid faces, poor appetite, languid, miserable feelings, poor blood, inactive liver, kidneys and urinary troubles, and all the physicians and medicine in the world cannot help them unless they get out of doors or use Hop Bitters, the purest and best remedy, especially for such cases, having abundance of health, sunshine and rosy cheeks in them. They cost but a trifle. See another column.—*Christian Recorder.*

—A Maine lumberman took his daughter to a ball, and after sitting in the gallery for some time looking at the bare arms and shoulders, turned to his daughter and said: "Katie, I don't see any good muscle in the whole room."

Public Speakers and Singers will find Fellow's Syrup of Hypophosphites of inestimable value, as it speedily and effectually allays all irritation and huskiness, and gives power to the vocal chords, rendering the voice clear and sonorous.

WESTERN MEDICAL INSTITUTE, CLEVELAND, O.

MR. JAMES I. FELLOWS. Dear Sir: We were induced to prescribe your Syrup of Hypophosphites by Dr. McMaster; and its use has been attended with such satisfactory results as to warrant our employing it largely from this time forward.

Santonia, a young lady with a dowry of $1,250,000; and the eldest daughter of the marshal is about to marry the bride's brother, who has a similar fortune.

The best and cheapest in the world. Dr. Bull's Cough Syrup costs you only 25 cents, and it does not cure your cough you can get your money back.

—The Cincinnati Gas Company has put its employees in uniform to prevent its patrons being robbed by strangers under the pretence of taking the state of the meter. Gas companies will brook no competition.—*Boston Post.*

Parties sick and afflicted run no risk in buying D. R. V. G. Guaranteed by your own druggist to give satisfaction, or money refunded. Try it.

—A young lady on being asked where her native place was, replied, "I have none; I am the daughter of a Methodist minister."

Rich in fat-producing material beyond all other foods and medicines are Malt Bitters.

Disbursing Campaign Funds.

The democratic national committee having given out that it was absolutely necessary to gain a few members of the national House of Representatives in order to hold their power in Congress, it was assumed that the 1st and 2d districts of New Hampshire could be secured. The funds were not wanting, and two thousand dollars were sent to a former republican, who was in the interest of the democratic candidate, in one town in Strafford county. Of this sum, two hundred dollars was placed where it was thought it would do the most good. The party holding this sum was waited upon on the eve of the election by a republican creditor, who insisted that a debt due him of eight dollars should be paid. The democratic disbursing agent had shown himself to be in funds, and after some parley he paid his debt, doubtless thinking that the best use to which he could put the money was to place it in the hands of a republican. Numerous instances have come to light which show that the men who furnished the money for the democratic party were most effectually cheated in its expenditure in the late canvass.

The Election.

The latest reports from Oregon are that Garfield's marjority is 600.

Garfield's plurality (official) in Pennsylvania, with three counties to hear from, is 35,367.

California is claimed by both parties, neither however claiming a plurality of 100. Terry, one of the democratic candidates for elector, is certainly beaten, having run behind his ticket everywhere on account of his connection with the murder of Senator Broderick many years ago.

Johnson, colored republican, is elected to Congress from the first district of Arkansas by 1000 majority over Poindexter, democrat. Johnson is a barber of Augusta, Ark., and was nominated only a week before the election.

New Hampshire Items.

Saturday night, on the Concord & Peterboro railroad, at Henniker, a misplaced switch threw a train off the track. The front of the engine was smashed in, and one car demolished. The train men saved their lives by jumping.

A French Canadian boy, eight years old, was found dead in a well at Great Falls last Friday morning, having been missing since noon of the previous day. Foul play is suspected, as the well was closely covered, and the cover was on when the searchers for the body went there. A later report says the doctors assert that the boy did not come to his death by drowning.

Bishop Niles, of the Episcopal diocese of New Hampshire, accompanied by his wife, will sail on the 16th inst. for the Isle of Wight, England.

News and Notes.

In a conference meeting in the Baptist church at Woonsocket, R. I., Sunday evening, Mr. B. P. Hawkins, a prominent member of the church, became violently insane while making an exhortation, and broke out into a frenzy of profanity, finally advancing to the pulpit and making a violent assault upon the pastor. He seems in a hopeless condition.

Three hundred and twenty thousand dollars, the fifth installment in payment of the American debt, was shipped by the last steamer from Mexico for the United States.

Snow fell Saturday in Springfield, Ill., to a depth of ten inches.

In one of the large dry goods stores of New York the sprightly cash girl has been superseded by an endless brass railway, which takes the bundles and checks up to the cashier's desk and totes the change back.

John Torrence found the body of his newly-buried wife in the dissecting room of the Kansas City (Mo.) medical college the other day, and one of the faculty kindly explained that they did not usually take the bodies of those having friends or relatives in the city.

The supreme court at New York city has just decided that a man who sells diseased cattle forfeits his pay, and is liable in damages for the spread of the disease.

At Bushkill, Pa., Saturday, Absalom Arnst, while hunting, was killed by the accidental discharge of his gun.

George A. Brown, colored, of Smithtown, L. I., was buried in a well on the 3d inst., and remained thirty-nine hours before being rescued.

John Tobin, a passenger for New York, while in a somnambulistic state, jumped from an express train at Warsaw, Ill., and was killed.

Rev. W. H. H. Murray delivered a lecture in Music hall, Boston, Monday evening, on "Free trade and the protective tariff," in which he strongly condemned protection and "declared" in favor of free trade. Some gentlemen, who have proved more successful than Mr. Murray in their business ventures, are in favor of proctection to American industries.

The schooner Belle Sheridan, from Oswego for Toronto, went ashore at Weller's bay last Sunday, and was wrecked. Capt. McSkerry and his three sons, Hamilton, Mat and Boyd, sailors, were all drowned.

Dr. Turner, operating "the Swedish movement cure" in Rome, N. Y., and known elsewhere as Dr. O'shaughnessy, alias Tarbell, about forty-two years old, has been arrested in Utica for horse-stealing there and in Binghamton. The property was found in his possession.

A half-starved boy has been sentenced to fourteen days' imprisonment at hard labor by the Worthing (Eng.) police court, for stealing a turnip to satisfy his hunger.

A new steamship, to be named the Alaska, is now being built on the Clyde for the Guion line, and will be ready for use next August. She is of iron, and will register 6,500 tons. Her dimensions will be: Extreme length, 500 feet; breadth of beam, fifty feet; and depth of hold from main deck, thirty-eight feet. There will be 150 staterooms in the first cabin, and the saloon will accommodate 350 passengers. The Alaska will have a capacity for carrying 2,000 steerage passengers, if necessary. Her engines will have a greater power than those of any vessel now sailing the Atlantic. She will be a great improvement on the Arizona, of the same line, which is now the fastest ocean steamship afloat. Her boilers will be heated by fifty-four different furnaces. The Alaska will, in good weather, be able to cross the Atlantic in six and one-half days. She will carry four masts, and will be provided with two smoke funnels.

On election day, at Oswego, N. Y., Dr. Mary Walker offered her vote at the polls, but it was rejected by the inspectors, whom she threatened legal proceedings against.

The U. S. S. Ticonderoga, Commodore R. W. Shufeldt, arrived at San Francisco on the 8th inst., from Japan via Honolulu.

Accidents from horses from being frightened by bicycles are becoming very numerous. They may be avoided if the riders will be careful to dismount when a horse shows signs of uneasiness at the machine, and stand by it until the animal passes. The fright is caused by the motion of the vehicle, but when it is stationary it does not seem to affect the horses.—*Exeter News-Letter.*

Books, Magazines, Etc.

"How I found it, North and South, together with Mary's statement," is one of Lee & Shepard's recent books, published at fifty cents paper covers, and one dollar in cloth binding. Amid much that is merely personal narration and of no possible interest, except perhaps to the writers, is told the experience of a Vermont man at farming in his native state, and in Massachusetts; and the attempt to better his condition by orange culture in Florida. The author tells us what was patent before to all who had investigated the subject, that farming in New England requires constant toil, followed by uncertain prices for crops; and that after a comfortable living, not much remains to the husbandmen. It is this which sends to cities the young men from the country, some to get gain and become rich through metropolitan chances, others to be and remain poorer than it they had continued their honorable labor upon their native hill-sides. People wish to live without work, and seek to attain not only a living, but a competence, by some easy mode not laid down in the economy of affairs. So David, the author, tried the experiment of farming upon the paternal acres in Vermont, remote from markets, and again in Massachusetts near a large city, and sensibly kept an accurate account of his receipts and expenditures; and not contented with hard work and small results he went down to Florida, got homesick, and threw up his chances before acquiring there an experience which would make his book of especial value. He put his hand to the plow and looked back, and abruptly ends his book at this point. The statement of his wife is but a recital of uninteresting domestic events which will possibly engage the attention of some readers, but in the vast sea of literature constantly rolling before us we must have fresh ideas, valuable experiences, practical treatises or highly-wrought narrative to attract our attention. Among the Green mountains and beside the still waters of the rural village, this book will doubtless be appreciatively read; but what the farming interests of New England want, is thoroughly written books to demonstrate how to keep our farmers profitably occupied, and what we can raise with the best success. As far as this book goes, in this direction, it has a value above the recital of the every day occurrences in which the work abounds. For sale by M. Goodrich.

—An elephant is used in a spectacular play in Philadelphia. He is kept in a stable several blocks away, and taken to the theater every evening at the proper point in the piece. One afternoon he took it into his head that the time had come to perform. Throwing his keeper aside, he burst into the street, overturned a wagon and several street stands on the way to the theatre, smashed a door and took his usual place on the stage. The absence of light and audience seemed to convince him that he had made a mistake, and he suffered himself to be led back to the stable.

DAY'S Kidney PAD

IS STRONGLY ENDORSED.

Rev. E. F. L. GAUSS, Galena, Ill., writes—"For over ten years I had been a great sufferer from pains in the small of the back and region of the kidneys, which at times were excruciating and at times almost insufferable. Recently I found relief, and I was finally advised to go abroad and seek the climate of my youth. In Germany and Switzerland, eminent physicians, after close examination, declared my sufferings to arise from disease of the kidneys, of long standing, and could do me no good. I was, however, benefited by the climate and, consequently returned. No sooner had I been back and resumed my pastoral work, when the old trouble grew again so intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and look again the very picture of health. I write this perfectly voluntarily, and is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad a God's agents and great benefactors of mankind. May all the suffering be helped as I have been is my earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have now used DAY'S KIDNEY PAD thirty days, and it has done me more good than any remedy I have ever tried."

LARIMORE & DEAN, Druggists, Niles, Mich.—(30 years in business)—"DAY'S KIDNEY PAD is having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from Kidney complaint, and after wearing your Pad 20 days I feel better than I have in 10 years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is doing great good here. It sells every day and gives universal satisfaction."

AROUND HOME.

Mr. N. F. Gilson, at his grocery store on Market street, now keeps lobsters on sale, received fresh every day. Try one.

Blake Roberts trundled Patrick Haley of Newmarket one mile and a half about that town Saturday night, without stopping to rest, in payment of an election bet on the general result.

The sloop belonging to the contractors for the removal of Gangway rock was on the marine railway at Kittery, Tuesday. The "band-stand" over the rock, which was carried away by the tide shortly after being put in position, has not yet been replaced.

Judge Leavitt of Exeter failed to put in an appearance at the stated term of the probate court in this city on Tuesday. Register Durgin appeared, and stated that the judge was detained at home by illness, and the court would be held on Tuesday, the 16th inst.

Contrary to general expectation, Minnie Palmer's "Boarding school" did hold a session at Music hall on Monday evening. The audience had abundant room to laugh, each spectator having about a whole row of seats to himself. The free show outside was too great an attraction.

While John Hennessey was at work discharging coal from the schooner J. P. Ames at gas-house wharf, Tuesday forenoon, a ringbolt in the end of the staging on which he was standing drew out, throwing him violently to the deck, a distance of about twelve feet, injuring him badly, although no bones were broken.

For several days past workmen have been engaged in putting up a lofty "derrick" or tower, similar to those seen in the oil-regions, over the big well near the Eastern railroad station, preparatory to the commencement of drilling operations. An old locomotive, with the wheels removed, and fitted with a large pulley to take a belt, has been put in position to furnish the motive power. The well is being bricked up inside, the wall starting from the solid ledge.

SUPREME COURT--CLARK, J.

TUESDAY, Nov. 9th.

Thompson N. Newell vs. Concord Railroad. An action brought to recover damages for injuries sustained by being run into by defendant's locomotive at a crossing of the highway and deft.'s railroad in the town of Candia. It appears from the evidence offered by plaintiff that he was going to his home in Candia from Massabesic, where he had been with a load of apples, on the 18th of October, 1878; that he reached that part of the road where the railroad crosses at grade the highway which is called the Manchester road; that he knew of the existence of the railroad, and kept a good lookout for trains; but notwithstanding his caution and vigilance, just as his horse (which was walking) stepped on the track, plaintiff heard two sharp whistles; he struck the horse to urge him across the track, and arose in the wagon to jump out, but in an instant the train was upon him, and he was knocked into the air and very much injured, and his horse was also injured and the wagon and harness destroyed. The accident occurred, he claims, by reason of the neglect of the train to whistle before it approached the crossing. The evidence of the plaintiff was concluded late in the afternoon. Gen. Marston and Mr. Dodge of Manchester for piff.; Judge Fellows and Mr. Frink for deft.

The defence will open Wednesday morning.

THE RECEPTION.

The reception given in honor of Governor-elect Bell at the Peirce mansion on Haymarket square, was one of the pleasant episodes of Monday evening. There were present, beside the coming Governor, Senators Rollins and Blair, Ex-Gov. Prescott, Representative-elect B. W. Hoyt of Epping, Cols. John Bracewell, A. H. Young and Daniel Hall, and Ex-Judge Charles W. Woodman, of Dover, the mayors of Biddeford, Dover and Portsmouth, Collector Howard, Ezra H. Winchester, Esq., Dr. M. F. Wentworth of Kittery, Emery J. Randall of Great Falls, Charles G. Connor of Exeter, and many other gentlemen from different parts of Rockingham and Strafford counties, as well as from our own city.

While the grand old mansion shone with its brilliant lights and tasteful decorations, the guests were welcomed in that hospitable manner for which the present representatives of the ancient Peirce family are noted. The interchange of congratulations was not the exultation over a mere victory between different political parties, but as the triumph of ideas in the demonstration by the result of the election that the practical, sound, reflecting business men of the country, to whom is due our prosperity, and without whose aid and countenance no measures can for a moment be expected to succeed, had not quietly suffered the election to go by default, but had in their might risen and indicated their strength in the contest.

One had only to see the element of vigor and ability shown in the assembled guests at Haymarket square on that occasion, to be assured that whenever a political army which could bear upon its rolls the names of such men as were there gathered goes into a contest in earnest, the defeat of its opponents is inevitable. The occasion will long be remembered by the participants as one of marked enjoyment and pleasant associations.

BUFFALO BILL.

This noted scout, guide and actor will appear at Music hall on Monday evening next in his new drama the "Prairie Waif," written expressly for him, and taken from scenes in his past life. The Montreal *Gazette* says:

The Buffalo Bill combination made their first appearance in this city last evening, in the play of "Prairie Waif." There was a very good house. The "Prairie Waif" is a capital border drama, abounding both in humorous situations and sentimental incidents. The plot turns upon the capture of a girl by Indians, her rescue, and her subsequent love episodes with her deliverer. Mr. Cody, as "Buffalo Bill," was naturally the principal attraction, and acted with all his accustomed vigor and ability. Jules Keen, as "Hans," was particularly good, and Miss Fetcher, as "Onita," exhibits some good acting in the emotional scenes. "Sadie" was well rendered by Miss Thompson, who delighted the audience by her humorous rendering of the part, and her funny dialogue with "Hans." In the fourth act a band of Cheyenne Indians made their appearance, and gave some of their war dances, which were very original and had the effect of bringing down the "gods." Buffalo Bill's fancy rifle shooting was also very good, and elicited warm and well-deserved applause.

THE COMING PARTY.

The surviving members of the greenback party of Portsmouth, who were desirous of no particular office, either honorary or pecuniary, at the late election, hold a love-feast at their hall on Market street on Thursday evening, when a fine supper will be served.

We are informed that in a few days they will proceed to reorganize the party "upon a much firmer basis than ever," on a platform so broad, strong and inviting as to call for occupation by all greenbackers, nationalists, independent republicans, independent democrats, and everybody else who will fairly scrutinize it. The following we understand are some of the principles of the proposed new party:

Opposition to all monopolies.
Protection to labor.
Opposition not to banks, but to the present national banking system.
A demand for a graduated income tax, and for a speedy payment of the debt of the United States in gold, silver or paper.
A demand for government money, and none other; retention of greenbacks, and full remonetization of silver.
Discountenancing the offer or acceptance of bribes for election purposes, and the prosecution of any and all persons offering or receiving them, according to law.
An attempt to amend the constitution of the United States in regard to the election of President and Vice President by the present electoral system, created a hundred years ago, so that the election of those officers may be effected more directly by the people and not by a few interested politicians.
A secret ballot, so that the suffrages of voters may not be interfered with.
Protection of citizens of the United States at home and abroad.
The simplifying of registration laws, and non-interference with voters.
Free speech, and liberty of the press.
Right of all men to worship God in the way they think best, or not at all, as they please.

FOREIGN INSOLENCE.

There was a lively little female confab at the corner of Pleasant and Water streets on Monday night about twelve o'clock, just before the republican procession reached that locality. The dispute occurred between a colored resident of the south end, native born, respectable and respected, and a white woman unknown to us, but evidently of Celtic birth, altho' none the worse on that account. The colored woman, filled with enthusiasm over the recent presidential victory, which to her meant freedom and an approach to equal rights for her race, ventured to hurrah for Garfield, whereupon a torrent of the most profane and abusive epithets was poured out of the mouth of the white woman, disturbing the quiet of the neighborhood and making the woman a subject for the lock-up. The colored lady, who is the daughter of one of our late well known and respected citizens, Solomon Holmes, and who is also a woman of more than average education and good sense, was at first inclined to resist any encroachment upon her rights as an American citizen, and answered the raving woman pretty sharply; but finally, finding that she was talking to ignorance, and that there was likely to be trouble from the fast-gathering crowd, wisely withdrew and left her assailant to rave at the neighbors about the "d—d niggers" and the "black republican defence of the niggers," and so on. The fury kept up her cursing and loud talk until the procession reached the scene, when she vented the remainder of her wrath upon it. She was hardly enough for this, however, with its numerous bands and drum corps, and after shouting herself hoarse, was finally compelled to retreat. She was not drunk, nor did she appear to have been drinking at all. She was simply mad way through, and all because a respectable woman, whose blood was quite as good as hers, though her skin is of a different color, cheered for Garfield.

HOME FOR INDIGENT WOMEN.

The following is the general statement in the report of the superintendent of the Faith Home for the year ending Sept. 15th, 1880:

"Time, ever on the wing," has brought us to the fourth anniversary of the "Faith Home," and in presenting our annual report, we would most devoutly acknowledge our gratitude to our heavenly Father, for His manifold goodness and mercy toward us during the year that is past.

To our friends, one and all, who have so liberally contributed of their means, and have expressed to us kind words of sympathy and cheer, we give our hearty thanks; as likewise the thanks of those who have been the recipients of our liberality. We trust the "Home" will continue to be remembered by those who have in the past so kindly contributed to its support. To the ladies of the various churches, and other friends, for kind and continuous remembrances of the sick, we are under renewed and special obligations.

The "Home" has lost one of its best friends in the death of the Hon. William Simes, who for nearly four years was president, and treasurer of the permanent fund and estate. Also, in the death of Hon. John H. Bailey and Deacon George Robinson, the home has lost good friends and patrons.

During the year, two of the inmates have died, and at the present several of the ladies are quite feeble; yet the general health of the inmates we consider to be very good.

At the present time, we have several women to whom we should be pleased to give a home and shelter from the storms of life, if we had suitable accommodations, and our immediate circumstances permitted.

In the year past, we have received very interesting and encouraging letters from different parts of the country. We insert the following—showing, as it does, the kind spirit of the writer; and especially as it comes from one of the Lord's afflicted ones, who is not able to leave her home. May the Lord's blessing rest upon all who have thus remembered our work!

MONDAY, Sept. 13th, 1880.

Mr. Loyne: The two dollars enclosed, are to be used for the Faith Home. I should rejoice if I had a hundred times as much to send you. "The Lord will provide:" "Fear not!" E. A. T.

All will admit the peculiar character of our work, and we know that the friends of the "Home" often wonder how we prosper and "get along." It is an old saying, and we believe true, that "Whatever is done willingly is done easily." And this is especially true in connection with the Faith work. It is true there are many things to be done that require both grace and patience; and often are there tedious hours of toil, both day and night; yet, with a willing mind, and lives fully consecrated to the care of the aged, "the days pass sweetly by." The gifts and kind remembrances of friends often cheer us; and, above all, the presence of the Comforter is with us, to shed light upon our way.

We have had more sickness than usual, during the year; and withal, it has been a year of peculiar trial to us. With respect to this matter of sickness, our thanks are due, and herewith presented, to the medical fraternity, for their kindness in visiting the "Home" free of charge.

In closing, let us again express our thanks to all who have in any way assisted us, making our burden light; and we ask you to remember us in your prayers and sympathies throughout the year upon which we have entered.

Commending our cause to Him who has promised to "supply all [our] need," we go forward! And, truly, God works through human agencies; and there is work for us all to do. May we each be faithful to our several duties, until it shall be said, "Come, ye blessed of my Father, inherit the kingdom prepared for you; for I was an hungered, and ye gave Me meat; I was thirsty, and ye gave Me drink; I was sick, and ye visited Me."

SCIENCE WINS!

A Splendid Surgical Operation--Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weakness peculiar to females. This wonderful medicine is now for sale by all our druggists at $1.00 a bottle.

Almost young Again.

My mother was afflicted a long time with neuralgia and a dull, heavy inactive condition of the whole system; headache, nervous prostration, and was almost helpless. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems and feels young again, although over 70 years old. We think here is no other medicine fit to use in the family.—A lady in Providence, R. I. —*Journal.*

Much excitement was caused at Greenville, S. C., by the reported assassination of an aged colored democrat on Saturday night. It proved, however, that the man died from natural causes.

The name Jenner means a drawn lancet putting to flight a loathsome disease; and the name Harvey signifies the circulation of the blood. And the time is coming when the name of Dr. David Kennedy will be indissolubly connected in the public mind with the the purification of the blood; a deed only less important than the discovery of its motion through the human body. This Dr. Kennedy accomplishes by means of his new medicine called "Favorite Remedy"—the pleasant and popular title of a preparation which cleanses and sweetens the river of life within our veins, as an influx of oxygen does vitiated air. All druggists, $1.00 a bottle.

It is reported that President Hayes was shot at twice by a man named Hooker, at Howell station on the Santa Fe railroad, Saturday, and that Howell is under arrest. The story is not fully credited.

The best blood Purifier in the world is D. R. V. G. Dyspepsia Remedy. Guaranteed by your own druggist.

A young man named Gilkey was arrested in Portland, Me., Monday, for the embezzlement of $200 from the Lowell Cartridge company of Lowell, Mass., for which he was bookkeeper. He was taken to Lowell.

F. W. Kinsman, Esq.,—Dear Sir: With pleasure we order ten gross Adamson's Botanic Cough Balsam, showing conclusively that merit has won the day, and that your Balsam is taking the lead over the many bottles of trash that now flood the market. From Smith, Doolittle & Smith, Druggists, Boston.

A heavy wind-storm, Sunday night, drove the water in the North Adams, Mass., reservoir against the embankment with such force that a portion of it gave way, doing $500 worth of damage.

The great strainers of the human system, the kidneys, are subject to a variety of diseases that Day's Kidney Pad will certainly cure.

A magazine containing a ton and a half of powder was exploded in LaCrosse, Wisconsin, Monday, by shots fired at the building by two men, who were arrested. The explosion was heard twelve miles, and smashed windows all over the city. No lives were lost.

Food is digested and assimilated by Malt Bitters. Hence increased flesh.

THANKSGIVING PROCLAMATION.

The past year has been signalized by bounteous blessings from the hand of God. Abundant harvests crown the labors of those who till the soil, and commerce and manufactures feel the impulse of prosperity. There is no lack of employment for willing hands, and industry wins substantial returns.

Our country has been free from the devastations and sorrows of epidemic, and we have peace in all our borders. These, plenty, prosperity, health and peace, are the elements of national happiness, and all these are ours.

Thousands who flee from want and exaction in other lands, find shelter and wealth under the protection of our government, and themselves become part of its strength. For these blessings, and for the mission and opportunity of doing good to all mankind by offering home and liberty to the poor and oppressed, and of exhibiting a grand example of the dignity and power of free government "*Of* the people, *by* the people, and *for* the people," we owe devout thanks to the Giver of all good.

I therefore recommend, in accordance with the custom of our fathers, that on Thursday, the 25th day of November inst., the day set apart by the National Executive, the people of New Hampshire assemble in their respective places of worship to give thanks to Almighty God for these benefits, and to pray for his continued love and blessing, and, further, that we consecrate all our gains and goods by giving of our first fruits to God's poor, in His holy name, that they, too, may rejoice in the bounty of our Father's land.

Given at the Council Chamber in Concord, this fourth day of November, in the year of our Lord one thousand eight hundred and eighty, and of the Independence of the United States the one hundred and fifth. Natt Head.

By his Excellency the Governor, with advice of the Council.

A. B. Thompson, Sec. of State.

The Fortune Teller of Indiana.

The case of the Indiana miller who was swindled by a gypsy fortune teller out of $2,100 under pretense of furthering his matrimonial prospects is again brought to public notice by the trial of the fortune teller and her husband. An Indiana jury decided that the woman should pay a fine of $1,200, and go for five years to the penal department of the state reformatory. The husband is let off without penalty, as he had little or nothing to do with the swindle. The case is a remarkable one, showing how simple an old widower can be, and what a fool a man can make of himself when he is conditionally in love with two women and asks a third to help him find out which he loves the best. The wily woman, knowing that the old simpleton had money, at once set herself to work to possess some of it. This was natural enough. It would have been unnatural for a professional fortune teller to do anything else. She told the old fool that she needed money for a while in order to work a charm with it. She worked the charm in the charming manner, as he might have knew she would had he been gifted with a grain of common sense. Under the circumstances it was natural that she should hand him brown paper in return. She had no use for this brown paper, and thought her poor dupe might as well have it. She told him to kneel down and pray. It was while he was engaged in this devotional exercise that she deftly made the substitution of brown-backs for greenbacks. The miller was not habitually a prayerful man, and knew so little about praying that he could not watch and pray too.

—Text in a little boy's copy book: "It is a ferule that works both ways."

—A musical composer can not do much with one piece of music. He must write by the score.

KIDNEY-WORT

THE ONLY MEDICINE

That Acts at the Same Time on THE LIVER, THE BOWELS, and the KIDNEYS.

These great organs are the natural cleansers of the system. If they work well, health will be perfect; if they become clogged, dreadful diseases are sure to follow with

TERRIBLE SUFFERING.

Biliousness, Headache, Dyspepsia, Jaundice, Constipation and Piles, or Kidney Complaints, Gravel, Diabetes, Sediment in the Urine, Milky or Ropy Urine; or Rheumatic Pains and Aches,

are developed because the blood is poisoned with the humors that should have been expelled naturally.

KIDNEY-WORT

will restore the healthy action and all these distressing evils will be banished; restore them and you will live but to suffer.

Thousands have been cured. Try it and you will join one more to the number. Take it and health will come more glad to your heart.

Why suffer longer from the torment of an aching back?

Why bear such distress from Constipation and Piles?

Why be so fearful because of disordered urine?

Kidney-Wort will cure you. Try a package at once and be satisfied.

It is a dry vegetable compound and One Package makes six quarts of Medicine.

Your Druggist has it, or will get it for you. Insist upon having it. Price, $1.00.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire Items; carefully prepared marine news, containing reports of vessels owned at the port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION! Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Newton specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. Hissell, M. D., president of the National Medical Association.

CANTERBURY SHAKERS' LIFE-INVIGORATING SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla on the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Vegetation Extract that any other contains,) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and efficacy. Daily Chronicle.

Miller was a life convict in the Indiana state prison. He talked so much and so favorably of his wife that Trader, a fellow prisoner, sought her out, as soon as his own term expired, and married her. Trader is now under arrest for murder, and he says that the crime was committed on the instigation of this woman, who is also responsible for her first husband's downfall. He curses the day that he fell in love with her.

Diabetes Cured.--Another Life Saved. It is not claimed that Kidney-Wort will cure all diseases, and diabetes is generally regarded as incurable; but it appears from the following that there is hope for such sufferers:

NEW BEDFORD, MASS., Aug. 8th, 1872. *Gentlemen:*—Grateful for the benefit I have derived from Kidney-Wort, recommended to me last winter by a lady friend, I wish to say a word for the encouragement of those who may be suffering as I have been.

I was troubled for about two years with a kidney complaint which assumed the form of diabetes, and although I consulted the best medical advice and tried several largely advertised remedies I found nothing to give me relief until I made use of your Kidney-Wort. I took two boxes before perceiving much benefit, and have taken in all eight boxes. In short, I can say that I am confident if I had not taken it I should not now be alive. I have recommended it to others, and they have taken it with like results.

Respectfully yours, BENJ. RYDER, Conductor New Bedford & Taunton Railroad.

—This being leap-year, says the Sackville, N. S., *Post*, "the young ladies of Advocate, in connection with Chignecto Division, Sons of Temperance, took advantage of it, on the evening of the 29th inst., to give the young gentlemen a drive to visit Island Division, at Spencer's Island. It was a very amusing and novel sight to see fourteen young ladies drive out with good teams, call for an equal number of young gentlemen, get into procession, take the drive, make the visit, drive the gentlemen to their respective homes, and perform all the courtesies which usually fall to the lot of the other sex. The whole affair was a grand success."

Thousands of ladies to-day cherish grateful remembrances of the help derived from the use of Lydia E. Pinkham's Vegetable Compound. It positively cures all female complaints. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlets.

—A man in Indiana had a chance to observe the ingenuity of sparrows which were seeking a drink of clear water. The clear water was too far from the swampy margin of the bank of a stream to allow them to reach it readily, but weeds grew thickly along the edge. Four sparrows settled on one of these weeds, one above the other, and their weight bent it over half-way to the water. A fifth lighted farther up, and bent it farther down. Then a sixth settled near the end, and they drank their fill without any difficulty, or having to wade through the muddy margin of the pond.

FOR diarrhœa, bloody-flux, cramps and colic, whether affecting adults, children, or infants, Dr. Pierce's Compound Extract of Smart-Weed is a sovereign remedy. It is compounded from the best brandy, Jamaica ginger, smart-weed, and anodyne, soothing and healing gums. For colds, rheumatism, neuralgic affections, and to break up fevers and inflamatory attacks it is invaluable and should be kept in every household. Fifty cents by druggists.

—A Boston man besought his wife, he being but three years married, for the privilege of a night key. "Night key?" she exclaimed, in tones of amazement; "what use can you have for a night key when the Woman's Emancipation League meets Monday night, the Ladies' Domestic Mission on Tuesday, the Sisters of Jericho on Wednesday, the Woman's Science Circle on Thursday, the Daughters of Nineveh on Friday, and the Woman's Progressive Art Association and the Suffrage Band on alternate Saturday nights. You stay at home, and see that the baby doesn't fall out of the cradle." He stays.

H. RICHARDSON, Sac and Fox Agency, Indian Territory, says: The "Only Lung Pad" has restored me to health, and I shall be glad to recommend it to any one. —*See Adv.*

—Mr. Belknap and Mrs. Greene were foolish and wicked enough to elope together at Melrose, Wis. They drove a good horse rapidly, but when ten miles from town they heard a clatter of hoofs behind them. The deceived husband had got wind of the flight, and was in hot pursuit. The race was long and exciting, but anon the husband caught up, and presented a pistol at the terrified pair. "You may have your wife, Mr. Greene," said the abject Belknap. "Wife be blowed," replied Mr. Greene. "You don't think I've chased after her? Oh, no. But I'll take the dollar and a half she has in her pocket." The money was given up, and the elopement was then carried out according to programme.

The best blood Purifier in the world is D. R. V. G. Dyspepsia Remedy. Guaranteed by your own druggist.

—"Annie," said a fond husband to his wife, "what were the current expenses for last month?" "Oh," she answered, "only twenty-eight cents." "Why, how was that?" "Well, you see I only baked cake twice, and therefore used very few currants."

The invalid's hope and strength beyond all other remedies is Malt Bitters.

Chronicle Correspondence.

WASHINGTON, D. C., Nov. 9th.

Enquiry among democrats in this city fails to develope one of any prominence who puts any confidence in the silly talk about refusing to count the electoral vote of New York. The proceedings of the two houses of Congress will be the same as if Garfield had received all the votes in all the states. He will be declared elected, and will be inaugurated without a murmur of dissent. It is not unlikely that resolutions of enquiry as to events connected with the votes of several states will be submitted in the House or Senate, but not with any idea that the regular proceedings incident to Garfield's assumption of the presidential office shall be affected.

Of suggesting cabinet officers for President Garfield, there is no end; but I find no one who says he has talked with that gentleman on the subject, and very few who believe any pledges have been made. As to the "policy" of the administration there is equal fluency of suggestion, and equal absence of alleged declarations of the future President. It is generally believed that the inaugural will be written with a view of attracting men's minds to other subjects than the "Southern question," and that General Garfield will endeavor to impress upon us all the fact that that particular subject is not a desirable one for parties to divide upon.

There will be the usual batch of contested seats before the next House. Virginia will furnish at least one contest, in the Richmond district. John S. Wise will have a very good ground for contest in the refusal to receive votes from men who paid poll taxes to the deputy tax collectors appointed by Auditor Massay. South Carolina will have three contests, if the republicans organize the House. John R. Lynch will contest Chalmers, seat from the sixth district of Mississippi, and will probably be successful. KNOX.

News and Notes.

At Batesville, Ohio, Sunday, a wealthy young German named Frank M. Bleedenbough killed his wife and child, and a lady and child visiting the house, attempted to kill the servant girl, and then cut his own throat, but not fatally.

A Frenchman at "New City," Easthampton, Mass., was instantly killed on the 8th inst. while getting a barrel of cider down his cellar. He was below the barrel, and his wife and child were holding the rope, when the rope and plank broke, throwing his head between the barrel and wall and crushing it terribly, causing instant death.

A mechanic at Beaufort, S. C., intent upon suicide by drowning, but desirious that his body should be recovered, fastened lead to his head and life preservers to his feet before leaping into the water. So he was quickly drowned, while his legs floated.

A Galveston man, who is not of the opinion that the city council does its full duty in public improvement, heard a stranger say: "You have splendid weather here in Galveston." "That's because our local authorities have nothing to say about it," was the response.

Preparations at Washington for the inauguration of Gen. Garfield have already assumed an organized form. The executive committee having the arrangements in charge extend a cordial invitation to all military and civic organizations thoughout the country to take part in the inauguration ceremonies. All communications and inquiries on the subject should be addressed to Col. H. C. Corbin, corresponding secretary, Washington, D. C.

A young woman, rather prepossessing in appearance, but possessed of a considerable growth of beard, is once a week a visitor to a barber shop at Clinton, Ga. She takes her seat in a chair just like a man, and quietly submits her face to the lather brush and razor. Showmen have tried to induce her to travel as a bearded woman, but she scornfully rejects their offers.

There were 23,767 applications to enter the regular army last year, when only 5000 men were wanted. Of the 5000 who were accepted 3411 were born in America. New York furnished the most, 727, and next in order were Pennsylvania 474, Ohio 307, Maryland 255, Virginia 202, Indiana 149, and Kentucky 140. No other state furnished as many as ninety.

The expert employed to examine the accounts of the defaulting cashier, John A. Woodward, of Boston, has completed his work, and reports that the defalcation will not exceed $88,000.

There is a young mother in Portland, Oregon, whose age is but twelve, weight eighty-five pounds, yet her infant son weighed nine pounds at its birth.

Several Philadelphia women have bonnets bet on the election. This should be frowned upon as an attempt to introduce millinery at the polls.

The postal authorities will not hereafter concern themselves in the forwarding of the postal cards of the people who wish to see how soon they can make a circuit of the world.

Miss Mary Beebe is to make her farewell of the operatic stage on the 20th inst., at the Boston Museum, the occasion being a benefit to Miss E. H. Ober of the Ideals. It is understood that "Fatinitza" is to be presented, and Miss Beebe will appear in her original role of the "Princess" in the first two acts, Miss Marie Stone assuming the role in the third act. Messrs. Tom Karl and W. H. Fessenden will each appear in the "War correspondent," Tom Karl taking the first and third acts, and Mr. Fessenden the second. Miss Abelaide Phillips and Messrs. M. W. Whitney, H. C. Barnabee, W. H. Frothingham and Gus Kammerlee will appear in their several roles.

Tiffany has just completed an elegant new silver dinner service for Mrs. Bonanza Mackey. The style of the whole is thoroughly eastern in its character, recalling some of the finest pieces of silver among the presents to the Prince of Wales during his travels in India, and exhibited at the Paris Exposition of 1878. The center piece of the service rests upon twelve elephants' feet in silver, is of immense weight, and will tax the strength of two men to lift it.

The statement telegraphed from Kansas City about an attempt to shoot Mr. Hayes at Howell station, during the recent trip through Arizona, is pronounced by members of the party as a pure fabrication. There was not an incident during the entire trip upon which such a story could be founded.

The miners in the Ada mine, Salt Creek, Utah, have been frightened from their work from a singular cause. In driving the tunnel, which is now one hundred feet long, a strange formation was encountered. At every stroke of the pick the tunnel was filled with a luminous vapor, and the weird light made the blood chill in the veins of the superstitious miners. The men dropped their tools and left, and the contractors could not induce them to resume their work. They call the rock "hell-fire rock," and give the tunnel a wide berth. The rock is probably phosphoretic. An analysis is in progress.

Dr. Cutter says that the increase of nervous diseases, decaying teeth, premature baldness and general lack of muscular and bone strength are greatly due to the imporverished quality of flour now in use, the gluten being thrown away in order to make the flour white. He urges the use of unbolted flour and of eggs, milk and butter. He denies that fish is brain food or that Agassiz ever said that it was, and claims that butter, being nearly all fat, is a better kind of brain food than any other.

Mrs. Orpha R. Smith, who has for some time been at the Massachusetts general hospital in consequence of injuries received in escaping from the burning house of Capt. Jordan in Needham, Mass., has been arrested on the charge of setting fire to the house, and also on the charge of larceny, the second crime being committed to cover up the first.

New Hampshire Items.

The Dover *Democrat* says "There were no greenback tickets to be found at the polling places in Salmon Falls on election day, and hence two votes were lost on that account. Two believers in the greenback doctrine hunted high and low for a ticket, but it was useless. A happy idea struck one of the men, Samuel Downing by name. He told his comrade that they could be got in Dover, and volunteered to tramp up and back for them. However, Downing's eight mile walk was lost, for nary a rag baby could be found here, and he returned and told his friend of the result. After due consultation greenbacker No 1 made a motion that the democratic ticket be substituted for the greenback ticket, for both. Downing seconded the motion, and the Hancock electors were the recipients of two more votes than they otherwise would have received."

Political Notes.

The Boston *Post* truly says: "It does not become Senator Ben Hill to throw stones at northern democrats for their blundering stupidity. The democrats of the north have had a big load on their shoulders since the days of secession, which is one of the main reasons why the north is so solid against them. Who piled it on and how it was done needs no explanation."

The "Chinese Letter" Forgery.

In New York, Nov. 9th, Samuel S. Marcy and Robert Lindsey were arrested for perjury in connection with the "H. L. Morey" letter, the evidence against them being conclusive. S. S. Morey swore that he had an uncle named H. L. Morey, but other members of his family swore they never heard of such a man. Evidence was produced at the trial of Philp, on the 9th, proving conclusively that the signatures of "H. L. Morey" on the register of the Kirtland house, Lynn, were forgeries, they being written with aniline ink, and all the rest of the register with gall ink. Barnum's tools in this business are being hunted down to very close quarters.

AROUND HOME.

The pay car of the Eastern railroad visited Portsmouth on Wednesday.

The Boston & Maine railroad has relaid the platform at Newmarket junction with new planking.

The New Hampshire Sunday School Association held its annual meeting at Manchester, Nov. 10th. Several delegates from this city were in attendance.

Judge Leavitt was confined to his room at Exeter on the 10th inst. by illness, and the probate proceedings on that day were necessarily confined to hearings "in chambers."

The republicans of Exeter celebrated the victory on Tuesday evening, the 9th inst. On Wednesday evening Hon. Charles H. Bell, governor-elect, received the congratulations of his friends in the town hall, where a banquet was provided.

Editor Foster, of the Dover *Democrat*, in a recent issue of that paper says: "Whatever may be the course of our local contemporary, we may as well add here for ourselves, that we shall be a little more independent and unpartisan in our democracy than in the past." That's a very good resolution.

We look to see very large audiences at the lyceum course which commences on Tuesday evening next. When five of such entertainments as are advertised are offered at only one dollar for the course, it seems that Music hall should be filled to its utmost capacity. Those who apply first will get the most desirable seats.

It is amusing to see several fierce democratic journals, which have been noted for their abuse of and prevarication concerning republican candidates in the late contest, and whose existence to a great extent depends upon the patronage of republicans, now that the battle is over assuming the neutral tint in politics.

[illegible] recently copied from the *Journal* [illegible]m concerning the resignation by [illegible] L. Chauncey, of Kittery, of his [illegible]n as assistant lightkeeper at [illegible] shack. Mr. Chauncey requests us [illegible] that the item does him great injus[illegible] he had contemplated resigning [illegible]ng time, voted for Hancock on [illegible]ple, and never spoke to E. C. Spin[illegible]sq., of Kittery, in his life.

[illegible]eventy-eighth annual meeting of [illegible]sociated Mechanics and Manufac[illegible] the state of New Hampshire," [illegible]d in their reading room, at [illegible]s Block, Tuesday evening, Nov. [illegible]. The following officers were [illegible]r the ensuing year: [illegible]nt, W. A. Hodgdon; Vice Presi[illegible]G. Billings; Treasurer, Lewis [illegible]etary, Joseph R. Curtis; [illegible]osiah F. Adams; Marshal, [illegible] Knapp; Dep. Marshal, Wm. J. [illegible] Standard Bearer, James H. [illegible] Trustees, Charles E. Leach, [illegible]I. Downs and J. H. Slater.

[illegible] transparencies borne in the re[illegible]procession, Monday night, could [illegible] left behind without in any way [illegible] from the interest of the occa[illegible]rsonalities do not "pay" as a [illegible]ngine before an election, and [illegible] be no excuse for them after the [illegible]over. That a political antago[illegible]aten at the polls is no reason he [illegible] insulted afterward, for he has [illegible]ight to hold his political views [illegible]or has to hold opposite ones; [illegible]here can be no objection to [illegible]g party rejoicing over a victo[illegible]licing should never degener[illegible]ty exultation over the oppos[illegible]r any of its members.

[illegible]n that on Monday night of this [illegible] after the republican procession [illegible]rom State street into Daniel [illegible]oung men were assaulted by [illegible] democratic roughs near [illegible]kery, and one of them very [illegible]red. One of the persons as[illegible]resident of Portsmouth, the [illegible]Mr. John Emery of Dover. [illegible]pped out of the procession a [illegible]previously, to assist in lighting up a house on the line of march, and while hurrying to rejoin it passed the gang of roughs, when the Portsmouth man was knocked over by a blow from a fist, and Mr. Emery struck down with a brick which hit him in the head, the latter requiring the assistance of a physician for several hours before he regained consciousness. The cowardly ruffians fled immediately after making the assault, and we regret to say they are unknown.

At the reception to Gov. Bell in the Peirce mansion Monday evening of this week, there was suspended from the chandelier over the supper table a magnificently-arranged floral bell, with a tongue of white carnations. The guests, amid other attractions, did not seem, in the estimation of one of the domestics who served at the table, to sufficiently observe and appreciate this floral tribute to the governor-elect, and the next time she appeared at the table she was seen to vigorously ring a bell. The guests then seemed not only to hear but to see it, and the floral decoration was thereafter an object of admiration. We hear it was subsequently presented to the coming chief magistrate, and on his return to Exeter on Tuesday morning he took it home with him. The bell was prepared at the floral establishment of M. E. Hutchinson & Co., and was tastefully arranged from the flowers in their hot-houses on Lincoln avenue.

OUR HARBOR DEFENCES.

The chief engineer of the United States army, in his annual report for the year ending June 30th, 1880, thus refers to the defences in this harbor:

Fort McClary, Portsmouth harbor, New Hampshire, in charge of Lieutenant-Colonel C. E. Blunt, corps of engineers.—This work, together with Fort Constitution, opposite, forms the inner line of defence to the mouth of the Piscataqua river and to the navy yard at Kittery, Me. The original fort was commenced early in the present century. An inclosed barbette work was commenced in 1863, but has not been completed. The work remains the same as at the date of last report, no operations having been carried on except for the necessary care and preservation of the property.

No appropriation was made for the fiscal year ending June 30, 1881. No appropriation asked for next fiscal year.

Fort Constitution, Portsmouth harbor, New Hampshire, in charge of Lieutenant-Colonel C. E. Blunt, corps of engineers.—This work, together with Fort McClary, opposite, forms the inner line of defence to the mouth of the Piscataqua river and to the navy yard at Kittery, Me. Extensive modifications are required for the casemated work at this place before proceeding with its construction. Plans for an exterior earthen battery for heavy rifled guns have been approved by the secretary of war, but it has not yet been commenced. The condition of this work has remained unchanged since the date of the last annual report, no operations having been carried on except for the necessary care and preservation of the property.

No appropriation was made for the fiscal year ending June 30, 1881. No appropriation asked for next fiscal year.

Battery on Gerrish's island, Portsmouth harbor, N. H., in charge of Lieutenant-Colonel C. E. Blunt, corps of engineers.—This earthwork, with the one opposite on Jerry's point, forms the outer line of defence to Portsmouth harbor and to the navy yard at Kittery, Me. It was commenced in 1873. The work remains in the same incomplete condition reported at the close of the last fiscal year. Plans for the completion of this work have been prepared by the board of engineers for fortifications, and approved by the secretary of war, but are only partially executed. An appropriation is asked for constructing the operating-room and gallery for torpedo cables, and continuing work on the battery proper.

No appropriation having been made, no work was done at this fortification during the last fiscal year, beyond its protection, preservation and repair, as far as was possible with the general appropriation made for this purpose, and no other work is contemplated during the current fiscal year for the same reason. Appropriation asked for next fiscal year, $36,000.

Battery on Jerry's point, Portsmouth harbor, New Hampshire, in charge of Lieutenant-Colonel C. E. Blunt, corps of engineers.—This earthwork is on the western side of the entrance of the harbor of Portsmouth, N. H., and with the battery at Gerrish's island, on the opposite side of the entrance, forms the outer line of defence to that harbor and to the navy yard at Kittery, Me. In was commenced in 1873. Plans for the completion of this work have been prepared by the board of engineers for fortifications, and approved by the secretary of war, but are only partially executed.

No appropriation having been made, no work was done at this fortification during the last fiscal year beyond its protection, preservation and repair, as far as was possible with the general appropriation made for this purpose, and no other work is contemplated during the current fiscal year, for the same reason. Appropriation asked for next fiscal year, $30,000.

IMPROVEMENTS ON DANIEL STREET.

The relaying of the sidewalk at the northerly corner of Daniel and Penhallow streets, at H. S. Hartshorn's store, is an improvement to be appreciated by pedestrians passing in that section of the city.

One of the projected improvements in the neighborhood, the removal of Mr. Thomas Murphy's house back to the line of the street, failed to be carried out some years since, because the public perhaps did not sufficiently appreciate the result of the proposed change. Mr. Murphy at the time, we believe, was willing to give the land gained upon the sidewalk, if he could be repaid the cost of removal, which was estimated at about a thousand or twelve hundred dollars; all he required was to be made whole in the transaction. This is an improvement which would be of importance in making a much-used thoroughfare more attractive, and at this outlay Daniel street would be as fine a street as any in the city. Since the establishment of the ferries to Kittery the travel through this street has much increased; and with the landings of steamboats running to Kittery point, the foreside and the navy yard, at the foot of Daniel street, it has become a leading street, in point of travel. If we wish to attract our Kittery friends to our city, we should have our thoroughfares in good shape; and this street especially should be well lighted and graded. Let us hope that on some nor far distant day the Murphy house will be placed back on a proper line, and when it is done, everybody will wonder why it was not before accomplished.

SUPREME COURT--CLARK, J.

Thompson N. Newell vs. Concord railroad, action for injuries sustained by being run into by a locomotive at defendant's crossing in Candia. The defense was opened this morning by Judge Fellow who stated that the plaintiff in order to recover must prove two things, *first* that he was using the necessary amount of care. *Second*, that the defendant was not acting with due diligence to prevent accident—in other words was careless. He then briefly outlined the evidence that he was about to introduce and proceeded with the testimony. The engineer, fireman, baggage master and conductor of the train were all examined and the testimony of each was to the effect that the whistle was properly sounded as required by the rules of the railroad some eighty rods before the train came to the crossing. The engineer and fireman testified that they saw the plaintiff when he was from fifteen to twenty feet from the track and that they then took all possible precaution to stop the train and also gave the danger whistle consisting of three or four sharp blasts, to alarm the pliff. Several other witnesses who were passengers on the train testified to the fact that the whistle was properly sounded and gave evidence as to other points in the case. The evidence was closed late in the afternoon and the case will be argued at nine o'clock tomorrow morning by Mr. Frink for the defendant, Gen. Marston for plaintiff.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staples remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or ever-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Brokchial Troches*" are sold *only in boxes.* Tu,th&f,&G

SCIENCE WINS!

A Splendid Surgical Operation--Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weakness peculiar to females. This wonderful medicine is now for sale by all our druggists at $1.00 a bottle.

Information has reached Washington that the Mexican senate has decided, on the recommendation of President Diaz, to allow the United States troops to cross the frontier in pursuit of Indians, with the condition that the Mexican troops are to be allowed the privilege of crossing into the United States territory on the same mission. The fear in Mexico has been that, if the United States troops were permitted to enter Mexico territory, they would remain for purposes of conquest, but the representations of President Diaz are understood to have quieted this apprehension.

Ex-Gov. Sprague of Rhode Island says that his son Willie has not attempted to kill his mother's attorney, Thompson. The pistol which was discharged was a toy one, and was fired in the air by a companion of young Sprague, the two boys having been amusing themselves all day with the sport. Willie Sprague is a fine marksman, and owns a long-distance rifle. If he had wished to shoot Mr. Thompson he would not have missed his mark.

Japanese paper air-cushions are said to have some advantages over those made of rubber. They may be rolled into a package of smaller dimensions when not in use; they will not stick together as rubber does after it is wet; and for pillows they are better, because they have no odor. Their strength is marvelous; a man weighing 160 pounds may stand upon one without bursting it. They are said to be waterproof, and to make excellent life-preservers.

The new city government of Nashua was inaugurated Nov. 8. Mayor Fletcher, in his inaugural, gave the financial standing of the city as follows: Debt, January 1st, 1880, $470,850; paid during the year, $11,850; temporary loan, $80,000; assets, $157,517; total indebtedness, Nov. 1st, $381,972.

FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the sagacious of England and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS'S COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of incalculable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have known cases where a single dose has been effectual.

S. JACOB, M. D., St. John, N. B., writes:
"I had occasion to use your Syrup in a case of Aphonia where others would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expeditious and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

THE New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail postpaid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, which are due to pernicious habits or inherited. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. dm4th & ednov80

A Spiritualistic Test.

Tremont Temple was crowded on Monday evening to witness the spiritualistic tests proposed by Rev. A. A. Waite, who promised to meet and expose any tests that might be made by any and all mediums. Shortly after eight o'clock Col. King said he had accepted the challenge of Mr. Waite, and proposed to produce a medium whose tests he could not expose. He said he had no doubt there were frauds in spiritualism, but he doubted if there were so many as among other religious sects. He proposed to have a committee of six, three appointed by each, and the following gentlemen were named: By Col. King—Mr. Diamond, Mr. Damon, Prof. Alline. By Mr. Waite—Dr. Bundy, C. M. Chase, S. W. Clifford. Mr. Warren Lincoln of Maplewood was introduced as the medium. The cabinet used by Mr. Lincoln was simply a covering of rubber cloth stretched over a frame, and this was examined by the committee, who reported that everything connected with it was as it seemed. Mr. Lincoln took his seat inside, and in four minutes the curtain was drawn aside and he appeared tied to the chair. Dr. Bundy declared that he was not securely tied, and he would prove it if the medium would allow him to tie his thumbs, but this was declined. A guitar was then passed in, then a bell —from both of which sounds were made. A lady from the audience, and one of the committee, then entered the cabinet, and the same sounds proceeded as before. Dr. Bundy, for the lady, said she was sure she felt the medium's hands upon her arms. Mr. Waite then tied himself before the audience, and, being placed in the cabinet, produced sounds from the gong and a bell. Handcuffs were then put on by both the medium and Mr. Waite, and whatever the medium did in his cabinet, Mr. Waite duplicated in his. Mr. Waite claimed that the medium had a skeleton key, but the latter declined to be searched. Mr. Waite then took a policeman into the cabinet, and showed him how to slip the irons off. Mr. Waite and a lady then entered the cabinet, to assist in what is termed the holding test. Mr. Waite placing his hands on the medium, —sounds then appeared from the gong and bell, and Mr. Waite said he was bound to say that to all appearances the medium did not move. Mr. Waite then did the same things in his cabinet, and then showed how it was done, on the open platform, amid loud applause. The thumbs of both were then tied and sealed with wax. Mr. Allen entered both cabinets, and the bells were rung and the gong beat. Mr. Waite then showed how easy it was to slip the thumbs out. Mr. Waite then asked the medium and his assistant to tie his thumbs, and as they did so he suddenly slipped one of them out, amid loud applause. This closed the exercises, but calls for Col. King were responded to by that gentleman, who claimed that Mr. Waite's tests were done by spiritualistic influence.—*Boston Post.*

Canary Bird and Mouse.

In one of the editorial rooms of the *Times* live two canary birds, both bright fellows, who chirp and sing day in and day out. Some weeks ago one of the birds, whose name is "Tom," struck up an acquaintance with a bright-eyed mouse. Where the mouse's nest may be no one knows. Perhaps he lives under the carpet or among the books in the same room. Anyhow he gets his living through Tom's kindness. The mouse visits Tom's cage every day, and as soon as Tom sees him he begins to chirp in a peculiar way. In fact, it does seems that Tom is talking to the mouse. Tom allows his visitor to climb into the seed cup and eat all the seed he wants. Canary seed are just what mice like, of course, and Tom's mouse gets his breakfast, dinner and supper, with a half-dozen lunches thrown in, at Tom's cup every day. The mouse also gets water in the cage, and very often spends an hour or so playing in the bottom of the cage. It is amusing to hear the bird scold the mouse whenever the visitor eats too much. Tom seems to say: "You ought to be ashamed, mousey; if you don't mind you'll be a regular glutton after awhile." For some reason the other canary doesn't like the mouse, and refuses to make friends with him.—*Philadelphia Times.*

Too Much for the Democrats.

Benjamin F. Butler and Col. Ingersoll met, on the train to Washington, Wednesday evening. In reply to Col. Ingersoll's greeting, "How do you feel to-night?" Gen. Butler said, "Oh, pretty well."

"Why," said Col. Ingersoll in a surprised tone, "I supposed you must be feeling very sick over Garfield's election."

"I misunderstood you," replied Butler; "I do feel badly enough," and then added, "You and Beecher did it, colonel."

"Well," retorted the colonel, "how could you expect to win, with the Lord and the devil both against you?"—*New York Tribune.*

—"He was a kind parent, a good citizen, and had three horses that could beat 2:30," is considered about the right thing for an obituary in Kentucky.

—A valuable heifer owned by a farmer near Northallerton, in England, recently broke a leg, and had it amputated. The animal has since been fitted with a wooden leg, on which it moves about with the utmost ease, which proves the absurdity of hastily ordering the destruction of animals that meet with such accidents.

—Two girls in an Illinois boarding school had a contest to see which would dress quickest, on a wager. Three other girls acted as judges, and the air seemed full of lingerie, pictorial stockings and lots of things that no fellow even knows the names of, for seven minutes and thirteen seconds, when the winner smilingly emerged, faultlessly attired, even to bonnet and gloves.

Portsmouth Chronicle.

FRIDAY, NOVEMBER 12, 1880.

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

The Election.

The clerks' returns of the votes for electors of President and Vice President have been received at the office of secretary of state from all but six towns and six plantations in Maine. With the exception of adding somewhat to the total vote, the figures from the remaining towns will not materially change the result given below: For Garfield, 74,005; for Hancock-Weaver electors, 64,832; for Weaver straight-greenback electors, 4076; for Dow, 66; scattering, 12. Total, 142,991; majority for Garfield, 5091.

The official returns of California are not yet all in, but enough are received to determine that the Hancock electors, except Judge Terry, have carried the state by 200 or 300 majority, while the republicans have elected forty-one assemblymen, giving a majority of two in the assembly, and of twelve on a joint ballot.

News and Notes.

Garfield has hitherto attended the Disciples church at Washington, Rev. F. D. Power, pastor, a plain, unpretending frame structure on Vermont avenue. The friends of the denomination, however, hope to raise $50,000 in the west and other parts of the country during the winter and spring to provide the coming President with a finer church home.

An old man who was taken for a tramp died in a wayside wagon house near Schenectady, N. Y., a few days ago. He was shabbily dressed, having on two ragged woolen coats and two pairs of faded trousers, and was covered with vermin and filth. Yet when the coroner held an inquest, $239.77 were found in the old man's pocket, and in a tin box which he carried about in his hands were secreted $19,950 in 4 1-2 per cent. bonds. A gold watch and handsome chain were also found on his person. Strangest of all, the old tramp turned out to be a minister.

Warrants have been issued by Governor Hoyt of Pennsylvania for the execution, January 6th, of Daniel F. Sullivan, who murdered Josie Irwin in Philadelphia; Patrick Hayes, who murdered his wife in Philadelphia; and George Smith and Catharine Miller, who murdered Andrew Miller, the husband of the latter, in Lycoming county.

Charles Gooebles, a well known Memphis (Tenn.) florist, was fatally shot on the 9th inst., by Joseph Gregory, a young attorney. They quarelled over some lumber, and by agreement met outside the city limits, and engaged in regular fisticuffs. Gooebles, who was the most powerful, was getting the best of the fight, when Gregory drew a pistol and shot him in the groin.

A Bangor, Me., taxidermist has lately stuffed a woodcock that has a breast pierced by a twig from side to side. These birds fly in the night, and this specimen probably flew swiftly against the twig and was stabbed; as it did not peirce the vital parts the bird lived and the wounds healed up, but the presence of the twig in the bird's breast stunted its growth somewhat. The bird is mounted with the twig still in its breast and extending about two inches on each side.

The investigation at Foxborough, Mass., in regard to the remains of the Montreal reporter recently discovered in the woods of that town, is still going on. The medical examiner states that he has no doubt but that the deceased came to his death by violence.

An eight-years-old girl of Lowell, Mass., was recently arrested for drunkenness, and lay insensible in her cell from midnight until ten o'clock the next forenoon.

The epizootic is raging in Montreal, and many horses are dying. The disease is reported to be much more virulent than on its former visit.

At Tiverton, R. I., Nov. 9th, Moses Grinnell, aged seventy years, shot and instantly killed Charles Thomas in a quarrel about a hencoop. Thomas was a man of bad reputation, having been in state prison for burglary. He was living with Grinnell's daughter, Mrs. Almy, as her husband.

Propeller Zealand, owned in Hamilton, Ont., is supposed to have gone down in the recent gale on Lake Ontario with all hands, sixteen in number. A schooner is also missing, with a crew of eight men.

Telegrams state that from the 3d to the 8th inst., there have been ten cases of yellow fever and two deaths at Key West. One of the deaths was an Episcopal clergyman, named Gilbert. Some cases occurring outside the city limits are not yet reported.

Andrew J. Gillew, a young lawyer of dissipated habits, on the 10th inst. shot dead Miss Sigerson, sister of the corporation attorney of New York, for refusing his suit. The murder was committed in the presence of Miss Sigerson's mother, the assassin placing one arm about the girl's neck, and putting the muzzle of the pistol against her head.

The Boston *Commercial Bulletin*, good authority, says: "New England hotel managers are celebrated the world over for their good management and excellent provision of comforts for the inner and outward man, and the celebrated St. Nicholas hotel at New York, managed by a well-known New England man, is a prominent example. Situated conveniently and centrally, conducted so satisfactorily that it has a set of patrons that any hotel in New York might be proud of. Its excellent table, clean, richly furnished rooms, and the quiet, systematic management that characterizes it, wins an approbation that is worth having.

While Tinnie Bryans and her sister Mary were visiting Joseph Kelly, at Buffalo, N. Y., Nov. 9th, the former picked up a revolver from the table and asked Kelly if the pistol was loaded. Upon his replying no she pointed it at him, with the remark: "Your money or your life." and fired, the shot taking effect in Kelly's abdomen; the wounded man lingered a few hours, and then died. Miss Bryans is twenty years old; Kelly eighteen.

Secretary Schurz has requested Mr. Poppleton, of Ohama, attorney for Standing Bear in the celebrated Ponca case, to defend the six Sioux Indians now held at Fort Omaha under a charge of horse-stealing, and tendered him the fee of $350 raised by Spotted Tail's Indians.

Before flitting back to Europe James Gordon Bennett gave a little party to Sarah,—nine men and Bernhardt. Some prominent New York women have called on the actress, though Paris letters have been received by other good people asking them to ignore the wicked creature. Whether society will open its arms to Sarah does not appear to be settled.

Gordin, a Paris iron-master, has combined community of work and the co-operative store in a palais social he founded at Guise, near Compiegne, in 1860. Godin makes his workmen associates in his business, giving them twenty-five per cent. of the net profit, and houses his whole community of 1,200 persons in a large mansion of three wings, each four stories high. There are extensive grounds and gardens, a hospital and a store where everything of the first quality can be had at nearly cost prices. The factory also employs women, suiting the hours to those caring for children, takes the boys as apprentices when they leave school, and boards and lodges the aged and incapacitated for the good they have done.

Naval Gazette.

The naval inspection and review at Fortress Monroe began on the 10th inst., and ended next day. During the previous week, the fleet had been thoroughly inspected by the rear admiral commanding the North Atlantic station, and a board of officers had been engaged in determining the relative merits of different members of the crew, with the view of distributing some handsome and costly prizes to the more deserving ones. They finished the labor, and the crew of the famous old Kearsarge of Alabama fame were fortunate enough to secure the two highest prizes. C. N. Boylen took the first prize for general merit, while the Dahlgren medal was awarded to F. C. Messenger for proficiency in gunnery. The third prize fell to Francis Moore, for seamanship; he is a member of the crew of the frigate Constitution. These medals were presented by the secretary of the navy to the winners.

Political Notes.

On the 10th inst., in the New York police court, Samuel S. Morey and Robert Lindsey, alias James O'Brien, arrested for perjury in regard to the forged "Chinese letter," made full confessions to the court. The confessions were not made public, but will be laid before the grand jury.

Five men arrested for violation of the United States election laws at Madison, Florida, were taken from the custody of the United States deputy marshals by a gang of armed and masked men.

—A growing industry—Farming.

—Otter is the leading fur in Paris this winter, says a correspondent. It is not so easily imitated in plush as seal-skin, and it looks better with either black or colored gowns.

—The very latest thing in dress garniture is the caterpiller fringe. Of course it is "fuzzy" as its name betokens. It is made of plush or chenille, and is of a yellow and bronze mixture.

—"I would rather vote for a long-eared donkey than for you," said an independent voter to a Galveston candidate. "O, come now! you should not allow yourself to be so influenced by family ties," responded the candidate. The voter has been puzzling his head ever since to find out why the crowd laughed.

Get out Doors.

The close confinement of all factory work gives the operatives pallid faces, poor appetite, languid, miserable feelings, poor blood, inactive liver, kidneys and urinary troubles, and all the physacians and medicine in the world cannot help them unless they get out of doors or use Hop Bitters, the purest and best remedy, especially for such cases, having abundance of health, sunshine and rosy cheeks in them. They cost but a trifle. See another column.—*Christian Recorder.*

Ex-President Millard Fillmore's widow has been nearly deprived of speech, and on one side of her body made powerless by a stroke of paralysis at her Buffalo home. Mrs. Fillmore was the widow of Ezekiel McIntosh of Albany when Mr. Fillmore wedded her.

The name Jenner means a drawn lancet putting to flight a loathsome disease; and the name Harvey signifies the circulation of the blood. And the time is coming when the name of Dr. David Kennedy will be indissolubly connected in the public mind with the the purification of the blood; a deed only less important than the discovery of its motion through the human body. This Dr. Kennedy accomplishes by means of his new medicine called "Favorite Remedy"—the pleasant and popular title of a preparation which cleanses and sweetens the river of life within our veins, as an influx of oxygen does vitiated air. All druggists, $1.00 a bottle.

The residence of E. R. Quimby at Haverhill, Mass., was entered Tuesday night, Nov. 9th, and $160 stolen, together with his account books. The money was taken from a vest within a foot of where Mr. Quimby was sleeping.

Equally adapted to the feeble or robust, male or female, are Malt Bitters.

An English doctor who has made a special study of intoxication says that wine or beer makes one fall on one side or the other; that whiskey, especially Irish whiskey, makes one fall on his face, and cider or perry (English pear cider) makes one fall on his back every time.

For the teeth there is no whiteness,

But those who use it, know full well,
How bright and beautiful the spell
It throws o'er man or woman's face.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes.* Tu,th&f,&c

THURSDAY, Nov. 11th.

ll vs. Concord railroad. This
g on the opening of the court the
as ably argued by Mr. Frink for
road and by Gen. Marston for the
he case was given to the jury about
st three o'clock in the afternoon,
to the time of adjournment noth-
d been heard from them. If they
to-night their verdict will be sealed
d given to the court to be opened
y morning.

he next case in order for trial was
arles B. Leavitt vs. George Fletcher
d William M. Boyce, an action to re-
er the balance due on a horse trade
lor the following circumstances, as
wn by the plff. in the opening: The
f. was a dealer in horses, and in the
ar 1879 dwelt in Portsmouth. In May
that year he purchased in Canada a
mber of horses, and started with them
the cars for Portsmouth. He reached
chester at two o'clock in the after-
n on Saturday, and learned that there
s no freight train to Portsmouth until
Monday morning. He thereupon took
his horses to a stable, and arranged for
them to be taken care of over Sunday
and shipped on the train again on Mon-
day morning. Plff. then went with the
stable keeper to an eating house kept by
the defendants as partners, where he was
introduced to Mr. Boyce, who said that
they wanted a horse and he would like to
look at Mr. Leavitt's lot. Leavitt told
Mr. Boyce that he might try any of the
horses over Sunday, and if he found one
he liked perhaps they could trade. Mr.
Leavitt then went to Concord to stay over
Sunday. On Monday morning he re-
turned to Manchester and was met at the
depot by Mr. Boyce and the stable keep-
er, who informed him that he had shipped
his horses, sixteen in number, on the
cars, but one black horse he had left
at the request of Mr. Boyce, who had
tried him and wanted to see about a trade.
Mr. Leavitt then took Mr. Boyce one side
and agreed with him to sell him the horse
for $225, Leavitt to take in exchange a
brown horse which belonged to Messrs.
Fletcher & Boyce, and $100, or Mr.
Boyce should return the black horse to
Mr. Leavitt at Portsmouth the following
day (Tuesday) by freight, at no expense
to the plff. Mr. Leavitt then went to
Portsmouth with his horses. On Wednes-
day afternoon, not having heard from Mr.
Boyce, plff. wrote to Manchester to en-
quire about the horse. That evening Mr.
Boyce came down from Manchester and
saw Mr. Leavitt at Cochrane's stable, and
told him that he had been able to purchase
a horse of Mr. Eldredge on much better
terms, and so the black horse was being
driven down over the road and he was
going to drive the Eldredge horse back.
Mr. Leavitt said that was not the trade,
and would not accept the horse. Later
in the evening the horse came in, much
used up by his travel, and it subsequent-
ly proved that the horse was injured by
the drive. Mr. Leavitt did not receive
the horse, and he remained at Cochrane's
stable and was subsequently sold at auc-
tion to pay his board. Plff. now sues to
recover amount for which he claims to
have sold the horse. Mr. Leavitt and
Mr. Cochrane were examined, and plff.
rested there.

Defendants will open their case on Fri-
day morning.

"AN UNLIKELY STORY."

Under the above heading the *Times* copies the item in the CHRONICLE of the 11th inst. regarding a brutal and cowardly assault with a brick upon a republican from Dover, on the night of the 8th inst., and adds:

We should have thought the CHRONICLE would have been more discreet than to have published the above, when it is generally well known what the condition of many of the men in the procession was on Monday night. A story from any of them cannot receive any credit whatever.

So! The brilliant yet discreet youth who "does the local" for the *Times* authoritatively announces that not one of the twelve or fifteen hundred men in the republican procession of the 8th inst. is entitled to "receive any credit whatever!" We unhesitatingly assert that there were hundreds of men in that procession whose word would be taken quite as soon his, either in everyday affairs or in any court of law. The *Times* goes on to say:

Now the facts in the case of the injured man, which the CHRONICLE apeaks of, are these, which we have learned from the physician who attended him, and which our contemporary would have done well to have learned before it had told the story. A gentleman from York found a man on the sidewalk at about twelve o'clock, and carried him into a house near by, supposing him to be badly injured. The doctor was called, and found that the man was suffering from a terrible fit of drunkenness, being unable to move at all, and that he had been hit with a brick—sidewalk—and that one side of his face was bloody, having come in contact with the gravel when he fell.

Feeling deeply grateful to our neighbor for its advice, we return it by suggesting that "it is better not to know so much, than to know so many things that aint so." We *did* learn all the "facts in the case" before we told the story, and we told it correctly, the *Times* and its medical informant to the contrary notwithstanding. The youth who was the victim of the cowardly assault had shortly before it left the procession, and climbed up on the wooden awning next to the residence of Mr. Philbrick, near the lower end of State street, remaining there waving a flag until the procession had passed, when he entered the house, conversed for a few minutes with the inmates, and then hurried off in company with another youth, Goodwin E. Philbrick, to catch the procession, passing several persons, among whom were Daniel L. Randall, Wm. J. Doyle and Wm. C. Randall, all of whom a moment later distinctly heard the sound of hard missiles striking against a fence, and immediately after came upon the prostrate body of young Emery, with Philbrick hanging over him bleeding and partially stupified, Emery having evidently been struck with a piece of brick which was lying close beside him. They assisted to remove the senseless youth into Mr. Philbrick's house, where he was bathed with rum in the endeavor to restore the consciousness knocked out of him by the democratic brick-bat. The statement that he was drunk, and hurt himself by a fall, is simply a falsehood.

PORTSMOUTH, Nov. 12th.

The article in the *Times* of last evening headed "An Unlikely Story," does gross injustice to a worthy young man. The facts in the case are *precisely* as stated in the CHRONICLE of yesterday, and can be abundantly substantiated. The gentleman referred to, Mr. John Emery of Dover, is an industrious and respectable mechanic, and those who have the best opportunity of knowing, consider him a strict teetotaller. The opinion of the physician who attended him was based upon the smell of the rum with which his head had been bathed previous to the doctor's arrival, and the insinuation that the young man had been drinking, was instantly repelled by those who had been with him for some time previous to the assault, and by Mr. Goodwin E. Philbrick, who was also knocked down at the same time, and who retains a lively recollection of the affair. The animus of the *Times* article in perfectly apparent. It is an attempt to cover up a democratic outrage, and will not succeed. While the public does not look for veracity in the editorials of the *Times*, the relatives of the injured young man can not allow the falsehood to remain uncontradicted.

FRANK J. PHILBRICK.

EASTERN RAILROAD.

The annual report of the Eastern railroad shows that the gain in gross earnings for the year ending Sept. 30th, is 16 4-5 per cent. The increase in expenses is twenty-two per cent The expenses last year were 50 9-10 per cent. of the gross earnings, and this year are 62 65-100 per cent of the gross earnings. It has been the policy of the directors to maintain the road in a strictly first-class condition, in order to meet the demands of a largely increased traffic. With this end in view, large expenditures have been made in the maintenance of the property. The accounts for expenditures for maintenance of way and buildings in 1879-80 were $450,560.21. The expense accounts for maintenance of rolling stock in 1879-80 were $243,119.52. The expenses include the cost of four new locomotives, two passenger cars, one baggage car, and twenty new freight cars. In pursuance of the same policy the surplus earnings ($186,993.56) have been mainly expended in additions to equipment. Twelve passenger cars, one baggage car and one parlor car have been added, at a cost of $49,630.04; and 181 freight cars and seventy gravel cars, at a cost of $110,143.39. The sum of $26,305.12 has also been expended in filling the flats owned by the company in Charlesown, Mass.

The increase of traffic already realized is shown by the following table:

	1878-9.	1879-80.
Passenger train mileage	1,028,719	1,134,190
Freight train mileage	490,946	583,423

YORK COUNTY AFFAIRS.

The barn of George Hobbs, at Wells, was damaged to the amount of about $100 by fire on Sunday morning, the 7th inst. Insured.

At the recent baby show in Horticultural hall, Boston, Mrs. Ida Wyman, daughter of L. H. Bean of Saco, was awarded an elegant Russia leather dressing case as the first of the prizes awarded to handsome mothers. About three hundred ladies voted, and Mrs. Wyman received a majority of 136 votes.

The Dover *Democrat* says that John H. Canney, "the pirate of the Piscataqua," who was arrested at Newburyport some two months ago for the robbery of boats, oars, farm produce, etc., from residents of Eliot, Dover point and the region about there, and sent to the jail at Alfred, Me., to await trial, is now at liberty. It appears that the Maine authorites finding out that Canney was crazy sent him across the New Hampshire borders at Rochester, and he is now, according to all accounts, in the Granite State. Since this occurred some houses have been broken into, but nothing is known as to whether Canney had any connection with the matter or not.

—"'Tis love that makes the world go round." It also makes the young man go round—to the home of his girl, about seven nights per week.

—The much-admired garment, the Jersey, has suddenly gone out of fashion in London. The Princess of Wales discovered that circus women had worn them for years, and that ended them.

SCIENCE WINS!

A Splendid Surgical Operation--

Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weakness peculiar to females. This wonderful medicine is now for sale by all our druggists at $1.00 a bottle.

Idle Experiments.

When a man is well and sound he can afford to be indifferent to the character of all the medicine in the world. But when disease is fairly clinging him up, he must do something at once and do it intelligently. Therefore do not dose yourself with a hundred things in the hope that some of them may hit the mark, but try Dr. David Kennedy's "Favorite Remedy" which hits it every time. For kidney and liver troubles, piles and constipation, it is just what you want. Druggists have it, or mail one dollar to the doctor at Rondout, N. Y.

Thomas A. Doyle, for fifteen years mayor of Providence, R. I., publishes a card declining to be a candidate for re-election.

Almost young Again.

My mother was afflicted a long time with neuralgia and a dull, heavy inactive condition of the whole system; headache, nervous prostration, and was almost helpless. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems and feels young again, although over 70 years old. We think here is no other medicine fit to use in the family.—A lady in Providence, R. I. —*Journal.*

It is reported that Willie Sprague is to be arrested for firing a pistol at Mr. Thompson, Mrs. Sprague's trustee.

It is surprising that sensible men will continue to suffer from kidney trouble when there is a cheap and effective remedy within their reach. Use Day's Kidney Pad.

Emil Seifert, a music teacher, was fatally shot at Buffalo, N. Y., Nov. 10th, by Russell Dart, with whose daughter Seifert was in love.

Parties sick and afflicted run no risk in buying D. R. V. G. Guaranteed by your own druggist to give satisfaction, or money refunded. Try it.

James A. Garfield has sent to Gov. Foster of Ohio his resignation of the position of member of Congress from the 19th district of Ohio.

The use of Malt Bitters increases the flesh and prevents pulmonary or wasting diseases.

Shooting at Balloons.

English papers report some experiments, lately made at Dungeness, which show remarkable success in reducing the efficiency of military balloons. An ordinary service balloon was used, and after it rose to a height of 800 feet was fired at with an eight-inch howitzer at a distance of 2,000 yards. The gunners were not instructed as to the precise range, but were required to find it for themselves. An eight inch shell was accordingly fired into the air as a trial shot, and this despite the novelty of the target, sufficed to supply the gunners with the necessary information. The next shot brought down the balloon. The projectile was a shrapnell shell, and the fuse had been so well timed that the shell burst just in front of the balloon, projecting something like 300 bullets through the fabric, and causing its immediate descent.

L. C. Bronson, representing the "Roofing Paint company of Boston," arrested some time ago in Connecticut for obtaining money under false pretences, has escaped trial by a technicality, pleading that the justice issuing the writ was not legally elected. Bronson and his associates have operated extensively among farmers in New England and New York. The Roofing Paint company of Boston cannot be found in that city, and a large number of the references published by the concern are found to be unauthorized or bogus.

Fayette McMullen, in attempting to cross the railroad track at Wytheville, Va., Monday night, Nov. 8th, was struck by an express train and fatally injured. He was seventy-seven years old, and represented Virginia in the United States Congress several terms before the war. President Buchanan also appointed him first governor of Washington territory.

—To produce an ink which cannot be removed from paper or parchment by any chemical solvent known, and which will permanently retain its color, make a solution of shellac in borax and add enough lampblack to give the desired depth of color.—*Paper World.*

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all disease originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is soon cured by a few doses. We have known cases where a single dose has been effectual.

S. JACOB, M. D., St. John, N. B., writes:

"I had occasion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expedition and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

THE ONLY MEDICINE

That Acts at the Same Time on

THE LIVER, THE BOWELS, and the KIDNEYS.

These great organs are the natural cleansers of the system. If they work well, health will be perfect; if they become clogged, dreadful diseases are sure to follow with

TERRIBLE SUFFERING.

Biliousness, Headache, Dyspepsia, Jaundice, Constipation and Piles, or Kidney Complaints, Gravel, Diabetes, Sediment in the Urine, Milky or Ropy Urine or Rheumatic Pains and Aches,

are developed because the blood is poisoned with the humors that should have been expelled by the kidneys.

KIDNEY-WORT

will restore the healthy action and all these sufferings cease. Hundreds have testified to this. Why not you will live but to enjoy.

Thousands have been cured. Try it and you will add one more to the number. Take it and know the reason why sudden pain ceases.

Why suffer longer from the torment of an aching back?

Why bear such distress from Constipation and Piles?

Why be so full of pain, and feel so disordered urine?

KIDNEY-WORT will cure you. Try a pack age at once and be satisfied.

It is a dry vegetable compound and

Rev. E. F. L. GAUSS, Galena, Ill., writes: "For over ten years I had been a great sufferer from Kidney's, which was most excruciating and at times had I was finally advised to go Abroad and seek the eminent physicians, after close examination, declared my sufferings to arise from disease of the Kidneys of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No sooner had I been back and resumed my pastoral work, when the old trouble grew again so intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after weeks the second pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and look again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad Co., God's agents and great benefactors of mankind. May all the suffering be helped as I have been is my earnest wish."

CHAS. DAYIS, 124 Myrtle Street, Boston: "I have now used DAY'S KIDNEY PAD thirty days, and it has done the more good than any remedy I have ever tried."

LAKEMORE & DEAN, Druggists, Niles, Mich.—(30 years in business)—"Day's Kidney Pad is having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I am now a great sufferer from Kidney complaint, and after wearing your Pad 35 days I feel better than I have in 15 years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is doing great good here."

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured valuable patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or offered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervous specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

LIFE-INVIGORATING
SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Vegetation Extract that any other contains,) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. Spontaneous Combustion.

Some experiments made at Riga with reference to the spontaneous combustion of various materials, wadding, raw flax, hemp, the waste of silk, wool and cotton spinning, also sponge, as well as the wood-dust found in the cabinet-makers' shop, appear to demonstrate the important fact, among others, that small quantities really take fire sooner than large ones. The substances named were saturated with various fluids—oils, turpentine, petroleum, various varnishes, etc. All the fibrous materials took fire when saturated with any of these oils, or with mixtures of the same; sponge and wood-dust, on the contrary, proved to be entirely harmless. Combustion ensued most rapidly with seventeen grains of wadding, and sixty-seven grains of a strong oil varnish, namely, in thirty-seven minutes, while 200 grains of washed cotton waste, of which a portion was saturated with 750 grains of strong oil varnish and the remainder wrapped about it, required a period of well nigh fourteen hours. On these materials being placed in a well-sheltered spot and subjected to a heat of from eighteen to forty degrees C., silk did not flame up, but slowly charred; and, as already mentioned, small quantities seemed to take fire sooner than large.

CHRISTOPHER GERBER, Wholesale Hardware, Toledo, Ohio, says: The Excelsior Kidney Pad has accomplished more for my wife in three weeks than all the medicine she has taken in three years. Refer all skeptics to me.—*See Adv.*

At South Framingham, Mass., last Thursday, Thomas Shillady, a Framingham milk dealer, was fined $50 and costs for having adulterated milk in his possession with the intent to sell the same, an analysis showing thirty per cent of water.

For diarrhœa, bloody-flux, cramps and colic, whether affecting adults, children, or infants, Dr. Pierce's Compound Extract of Smart-Weed is a sovereign remedy. It is compounded from the best brandy, Jamaica ginger, smart-weed, and anodyne, soothing and healing gums. For colds, rheumatism, neuralgic affections, and to break up fevers and inflamatory attacks it is invaluable and should be kept in every household. Fifty cents by druggists.

Some unknown rascal concealed in the bushes by the roadside in East Brookfield Centre, Mass., fired three shots at Henry Forbes the other evening, but couldn't aim well enough to hit him.

The best blood Purifier in the world is D. R. V. G. Dyspepsia Remedy. Guaranteed by your own druggist.

The Stonington Steamboat Co. have voted to build a new steamboat at once, to replace the wrecked Rhode Island.

Malt Bitters build up anew the nervous, osseous (bone) and muscular system.

Mr. Shields, of Perth, Scotland, has invented a method of calming storms at sea, which, if it prove to be practicable, will effect a great saving of life and property. His plan is to sink bottles filled with oil, which, being allowed to ascend to the surface, smooths the waves, thus reducing the proverb to practice. The invention has been experimented with at Peterhead, and it is said that the experiments were attended with amazing success. The Scottish papers are full of the scheme.

Neuralgia.

It has been assertained that the most inveterate cases of neuralgia are cured by Fellows' Compound Syrup of Hypophosphites.

Terrible Mining Disaster.

By an explosion in the Food coal mine at Stellarton, N. S., early Saturday morning, several men and horses were killed, the mine set on fire, and from forty to sixty men imprisoned by the fall of coal, all of whom it was feared would perish.

News and Notes.

The ship Gold Hunter, of Boston, Captain Joshua Freeman, from Cardiff for Hong Kong, was totally wrecked at Manilla. The crew were saved. The vessel was valued at $40,000; partially insured in Boston offices. She was owned by J. Henry Sears & Co. of Boston, and parties in Maine.

Jay Gould has brought the Denver, South Park & Pacific railroad, and it will probably be included at once in his system of Colorado lines. This road consists of a line extending from Denver to Buena Vista, a distance of 135 miles, and a nine-mile branch from Bear Creek Junction to Morrison.

Lucretia Mott died at her residence near Philadelphia on the 11th inst., at the age of eighty-eight years.

Charles Sisson, aged twenty-eight years, was found drunk in a gutter at Jersey City a day or two ago, and sent to jail as a common drunkard. He is a son of the deceased millionaire Charles S. Sisson, who left $250,000 in the hands of trustees for his benefit, not daring to entrust the young drunkard with it.

The entrance of the Northern Pacific railroad into the territory of Montana was formally celebrated on Wednesday, Nov. 10th, at the end of the track, which had on that date reached the boundary between Dakota and Montana territories. The ceremony of driving a solid silver spike into a polished oak tie on the boundary line was performed in the presence of a small party, and the work of laying the track in Montana began.

The small pox in Gardiner, Me., is causing considerable excitement. It was carried there by a negro sailor, since which two children have died. Several persons are now sick, and new cases are reported frequently. Much anxiety is felt lest it may spread seriously. The public schools have been closed.

The supreme court of Maine has rendered on important decision, affirming the right of laborers to assign their claims for labor without forfeiting the lien which they personally have to secure payment for their services. Heretofore it has been a question whether a laborer could assign his claim for services, and retain the lien; and as many laborers could not incur the expense of prosecuting their claims, the benefit of their lien was a great measure lost. The decision, therefore, is very important to workingmen.

At Melbourne, Australia, on the 11th inst., a man named Kelly was hanged. He was the leader of a gang of bushrangers, notorious for bank robberies in New South Wales, and which had long defied the authorities. In the fight between the officers and robbers at the time the gang was captured four persons were killed.

A terrible casualty happened on the evening of the 10th inst. at Brown's sawmill at Bordell city, twelve miles from Bradford, Pa. A number of men congregated at a boarding house, sitting around the fire, while four had gone to bed up stairs. As the fire began to burn low, one of the men dipped a cup of oil from a bucket, and poured it on the coals. The oil remaining in the cup caught fire and burned his hand, when he threw the blazing mass away from him, and it fell into the bucket nearly full of oil. An explosion ensued, and the burning fluid was scattered all around the room. The clothing of the men was deluged with the flaming oil, and they rushed out into the air, covered with a sheet of fire, and writhed on the ground in agony. Meanwhile the house was burned to the ground, and in the embers were found the charred bodies of the four men who were up stairs. Four of the others have died, and another is seriously burned but may recover.

The total velocity of the wind for the month of October as recorded at Thacher's island, was 10,416 miles, while in Boston it was 4000 miles less. The highest velocity reached was fifty-two miles an hour, which occurred in a northeast gale. The highest temperature was seventy degrees above zero and the lowest thirty, while in Boston it went three degrees lower and ten higher. So says Mr. Goss, the officer in charge of the signal station of the district.

It is learned at the treasury department that at no time was gold as freely paid out over the counters in New York and other great financial centres as now. A glut of gold is reported, and a scarcity of paper money. The cause of this is the immense amount of paper money sent west to move crops, while gold remains at the large money centres.

City Marshal Stone of Lynn, Mass., has received a letter from Meriden, Conn., stating that Israel Morris of that city, who was supposed to have committed suicide in Rock's pasture in Lynn, some time since, is alive and well in Chicago. This leaves the identity of the suicide a mystery.

Thomas Gallagher of Providence, R. I., is charged with bigamy, having recently married a young woman at Brockton, Mass., while he has a wife in Providence; but as the latter refuses to make complaint against him, he has not been arrested.

George Goodrich, a highly respected and quite wealthy citizen of Hyde Park, Vt., has been arrested at North Troy for eloping with his servant girl, named Thompson.

New Hampshire Items.

Alfred Cowan, an operative in the hosiery mill at Manchester, while walking on the railroad track near Langdon mills was struck by the engine of a passenger train on the 9th inst., and thrown sixty-five feet. He has since died. He was about eighteen years old, and came from Summit, N. Y.

Eddie Corbin, son of James Corbin, fell from a scaffold in a barn at Fisherville, last Thursday, and was fatally injured.

The loss by the stoppage of the Nashua and Jackson companies' mills at Nashua, by means of the late drought, is estimated at $132,000 in production and $85,000 in wages. To provide against similar contingencies in the future, the Nashua company are putting in a 1,000 horse power Harris-Corliss engine.

Fred B. Cooper, a young man of Colebrook, was found dead Nov. 10th, shot through the heart; supposed suicide.

Horace W. Baker, of Ashland, aged thirty-four years, shot himself in the head at Laconia on the 9th inst., inflicting a fatal wound. Ill health and despondency caused the act.

The Boston, Concord & Montreal railroad pays a dividend of three per cent Nov. 20th, to its preferred stockholders.

It has been decided to build a spur of the Profile & Franconia Notch (narrow guage) railroad, from a point near its junction with the Boston, Concord, Montreal & White Mountains railroad at Bethlehem station, to Bethlehem village. Leaving the present line of the narrow guage road about a mile from the station, the new line will ascend the hill by convenient grades to the Maple house, and then extend along the crest of the hill to the Sinclair house. This will bring the hotels and boarding houses of this great summer resort into all-rail communication with every other part of the mountain region and the outside world. The surveys will be made at once, and the road completed in time for next summer's travel.

The annual catalogue of Dartmouth college and its associated institutions shows the following numbers: Dartmouth College—Seniors, 49; Juniors, 58; Sophomores, 76; Freshmen 64; total, 247,—an increase of 19 over last year. Chandler Scientific Department—First class, 12; second class, 6; third class, 13; fourth class, 13; total, 44. Agricultural College—Senior class, 15; Middle class, 12; Junior class, 12; total, 39. Medical college, 89. Thayer Engineering School, 6. The entire number of students is 429, being an increase of 35 this year. Some modifications appear in the requisites for admission, and some changes in the faculty. The library numbers 58,863 volumes, and is one of the first college libraries in the country. Very considerable accessions have been made to the funds during the year, of which $35,000 was received from Mrs. Valeria G. Stone in the month of October.

The Philadelphia *Record* of Nov. 10th says: "Naval Constructor Hichborn's model of a steel-armored ram, which he proposes submitting to the navy department at Washington for competitive examination, reflects credit on the League Island navy yard. The specifications show that the ram will be of 2,100 tons displacement; length between perpendiculars, 226 feet; length over all, 245 feet 3 inches; extreme breadth, 40 feet; measurement, 1,034 tons; mean draught of water, 15 feet 1 1-2 inches; area of principal sails, 13,000 square feet; indicated horse-power, 2,400; speed, 15 knots. Compound engines, two low-pressure cylinders, 60 inches, one high-pressure cylinder, 51 inches diameter; length of stroke, 36 inches; diameter of propeller, 15 feet 3 inches; pitch, 23 feet; 8 cylindrical boilers, with grate surface of 504 square feet. The armament to consist of one 8-inch rifled breech-loading pivot gun, two 7-inche broad-side and two Gatling guns."

"Scribner." Concerning this excellent magazine, which is so rapidly growing in public favor, we learn that some remarkable pictorial work will appear in the number for December. The first of the "Glimpses of Parisian Art" will contain original sketches by De Neuville, Duez, Merson, Dupain, Delance, Chevilliard, Clairin, Detaille, Sarah Bernhardt, Jacquet, and Berne-Bellecour. The second and third papers of this series will make it a quite complete account of current sketch-work in French ateliers. Two full-page portraits by Blum accompany a paper on Sheridan's "Rivals," and give strikingly life-like representations of Mrs. John Drew as "Mrs. Malaprop," and Joseph Jefferson as "Bob Acres." Mrs. Mary Hallock Foote and others illustrate the subject of "Hunting the honey-bee." In "Peter the Great," Victor Nehlig has a vigorous drawing of "The Streltsi going to execution;" Mr. Brennan, Mr. Lungren, and others have interesting original work, while among the reproductions is a beautiful "Russian girl in ancient Russian dress," engaved by Closson, from a painting by Makovsky. There are also drawings by R. C. Woodville in "Montenegro as we saw it," of subjects on the way to and in Cetinje, including an equestrian portrait of Prince Nicholas I. A pleasing sketch of "An American girl" completes the illustrations of the number. Some exceedingly strong and beautiful pictures are soon to appear.

Destructive Influences.

Countless myraids of living creatures come into existence, of which by far the greater part must be destroyed. One aphis may be the parent of 5,904,900,000 individuals in five generations, and when these are swallowed up by lady-birds and other enemies in mass, it is no individual variation that can avert their fate. The unchecked produce of one pair of herrings would stock the Atlantic in a few years, until there was no room to move; and when these are engulfed by shoals as a mouthful for the baleenopter, they can make as little struggle for their existence as the grass can make that the ox licks up, or the vegetation of a district that is devastated by locusts. It is the unwritten law of Nature that one race must die that another may live; this other, in its turn, subserving the same end, and so on constantly until the cycle be complete. Without this law, against which there is no appeal, Nature would be a chaotic impossibility. The destructive influences so predominate that the carnage is indiscriminate and without struggle.

—The difference between "the cheese" and "the real cheese." In a tobacconist's window on Court street are three lots of pipes, the first marked "Genuine briarwood, twenty-five cents;" the second, "Genuine French briarwood, fifty cents;" the third, "Genuine imported French briarwood, one dollar."—*Boston Courier.*

—A young chap from Shutesbury took his girl to a hotel not far from Amherst the other day and the pair were seated together at the table. Directly in front of them stood a glass containing celery, the white crisp stalks still having the green leaves on them. Never having seen anything of the sort before, and mistaking it for something ornamental, he turned to his sweetheart and remarked in a drawling tone, "That's a hefty bo'kay, ain't it?"

—What a pleasure it is to note the generosity of our wealthy autocrats! The wife of the proprietor of one of the principal London journals was entertaining the editor of the paper at dinner. The conversation happening to turn upon servants, the lady of the house explained in a most considerate and feeling manner the many good qualities of an old nurse she had in her employ. "Ah," she said, "she has been a good servant; she has brought up all my children from the cradle; but, poor thing, her health is failing her. I should like to comfort her last days. Can you, therefore, tell me how I should set to work to get her into the workhouse?"

An excited old gentlemen, upon the receipt of the republican victories, shouted to a neighbor: "Where's your democratic party now?" The reply was: "Gone to h—l." A good old Methodist brother quietly remarked: "Home at last."—*Allegheny Mail.*

THE MEMBERS OF THE ODD FELLOWS' LODGES of this city are requested to meet at Odd Fellows' Hall on Sunday, Nov. 14th, at 12:30 P. M., to attend the funeral of our late Bro. James L. Palmer, of Washington Lodge, No. 4, of Great Falls, N. H. PER ORDER.

State of New Hampshire, Rockingham ss.

SUPREME COURT, October term, A. D. 1880.

IN THE ACTION, JOHN TAUGHTON of Portsmouth in said County, Trader, plaintiff, vs. ALBERT L. DODGE of the City, County and State of New York, Yeoman, defendant.

In a plea of the case, to recover of said defendant the amount of his promissory note for three hundred dollars, dated March 1, 1878, and payable to the order of the plaintiff, on demand, after date for value received, on said note are the follow indorsements: October 31st, 1878, received the interest on the enclosed to March 1st, 1879, eighteen dollars, ($18.00) and June 23rd 1879, received the interest on the enclosed to March 1, 1880, eighteen dollars, ($18.00.)

Also, to recover of said defendant the sum of five hundred dollars for so much money received by the defendant of the plaintiff to the plaintiff's use, before August 19th 1879, the date of the plaintiff's writ.

It having been suggested to the Court that the property of the defendant in this State has been attached on the writ, and that no personal service has been made on him in this suit, he not being a resident of this State at the time of the service thereof:

It is ordered by the Court that the action be continued to the next term of said court, to be holden at Exeter within and for said County of Rockingham, on the third Tuesday of January next, and that the plaintiff give notice to the said defendant of the pendency thereof, by causing the substance of said declaration, with a copy of this order, to be published once a week for three weeks successively, in the PORTSMOUTH DAILY CHRONICLE, a newspaper printed at Portsmouth in our County of Rockingham, the last publication whereof to be at least thirty days prior to said Court, to which this action is continued.

SCIENCE WINS!

A Splendid Surgical Operation--Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removing a stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weaknesses peculiar to females. This wonderful medicine is now for sale by all our druggists at $1.00 a bottle.

FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We know of no known cases where a single dose has been effectual.

S. JACOB, M. D., St. John, N. B., writes: "I had occasion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expedition and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

AROUND HOME.

Rev. Henry Morgan of Boston will on Sunday evening deliver his lecture on "Fast young men" in Music hall.

The republicans of Rye fired one hundred guns at Breakfast hill on Friday evening, in honor of the election of Garfield and Arthur.

One hundred and fifty tons of sugar beets were shipped over the Eastern railroad to the sugar factory at Portland, Me., during one week recently, by the farmers of Newbury, Mass.

The "Old Farmer's Almanac for 1881, by Robert B. Thomas," is already issued by William Ware & Co., of Boston, and can be procurred at the bookstores. This is No. 89 of this work.

Mr. Clarence Foote was struck between the eyes by the thimble of a hook on Friday, while assisting in the discharge of a coal vessel at Concord railroad wharf, and knocked senseless. He got an ugly bruise, but no serious consequences will result.

In the board of mayor and aldermen, Thursday evening, 11th inst., John F. Shillaber's petition for a new sidewalk was granted, and consideration of a petition of the assessors for an increase of their salary was postponed to the next meeting of the board.

The schooner Lizzie Guptill, Capt. Smith, which sailed from this port for Rockland with a cargo of apples about the last of October, and was capsized the next night off Monhegan, and afterward towed into Herring Gut by wreckers, arrived at Rockland on the 10th inst.

The lyceum entertainments which commence at Music hall on Tuesday evening next are the subject of considerable talk; the talent engaged should be sufficient to draw patronage enough to fill every seat. Evening tickets we hear are to be placed at 75cts each, but when the whole five can be procured before Tuesday for only one dollar, we should suppose there would be little room left in the hall for evening patrons.

The handcart election bet will be paid this evening, when Mr. Daniel D. Waldron, of the Metcalf Drum Corps, will propel Mr. Henry A. Brown, another member of the same organization, from Market square to the Creek and back in a handcart, starting from the square promptly at 7:30 o'clock, the drum corps furnishing music for the procession. On the completion of the journey the entire drum corps will sit down to an oyster supper.

"The survivors of the greenback party of Portsmouth," to the number of sixteen, (were there sixteen straight greenback tickets cast in this city at the late election?) had a nice supper at their head-quarters on Market street, Thursday evening last. They also did something toward saving the country by adopting a series of resolutions, and were persecuted by the reading of an alleged poem by Stewart A. Sheldon, Esq. They had a good time.

Buffalo Bill and his company will perform the "Prairie Waif" at Music hall on Monday evening. Of this piece the New York *Herald* says: "It is the best border drama we have ever seen. Buffalo Bill was, of course, the central figure, and deservedly obtained the recognition of the large audience present. His sharp-shooting was excellent and his acting was vigorous and natural. Some of the points he made last night were very effective and artistic. It is but just to say that he has wonderfully improved as an actor. He has selected for his company artists who are mindful of the public demand for clever acting."

Rev. Fernando C. Putnam, an Episcopal clergyman of Jersey City, was in town this week. Mr. Putnam studied theology with the late Charles Burroughs, D. D., and for four years ending in 1840 taught a private school for boys in this city, at one time on Court street, and subsequently on Pleasant street. Among his pupils were John Haven Cheever of New York, William L. Walker of South Newmarket, Joseph Hiller Foster and William H. Hackett, of Portsmouth, and the late Joseph A. Grace, Robert L. Emery, Andrew C. Haven and many others. Mr. Putnam while residing in Portsmouth had very many friends in our community, most of whom however in the four decades since have "gone beyond the river."

SUPREME COURT--CLARK, J.

FRIDAY, Nov. 12th.

In case of Thompson N. Newell vs. Concord Railroad Co., the verdict was for the plaintiff; damages $1454.16.

The horse case occupied the day on Friday, and was argued in the afternoon. The defendant took the ground that no trade was made with plff. for the horse, but on the contrary, when they talked together they were unable to agree about the price, and Mr. Boyce undertook to return the horse to Mr. Leavitt at Portsmouth on Wednesday, which he subsequently did. This was corroborated by two disinterested witnesses who heard the conversation.

The jurors summoned to try John H. Elkins upon the charge of murder have been notified that their attendance will not be required, as the accused will plead guilty of murder in the second degree.

THE CRUISE OF THE "PACIFIC."

An item having recently appeared in a local paper concerning the sealing voyage of the schooner Pacific from this port many years ago, on which occasion the participants had a "mighty good sail" if they made little money, the following brief account of the expedition by one of the survivors may be of interest:

The strong and substantial schooner Pacific, of sixty-five tons, copper fastened and copper bottomed, built by the late George Raynes for a company, sailed from this port on a sealing voyage to the South Seas in the fall of 1829, with a crew of fourteen men all told, as follows:

James Brown, captain; William Prince, first mate; Benning Willey, second mate; Amos Chick, Morris Ham, carpenters; John Rackliff, cooper; John Dudley, Samuel Somerby, seamen. The rest of the company were Col. Joseph W. Pickering, Ammi R. H. Fernald, Henry T. Curtis, Joseph Currier, Oliver Potter and James M. Locke. There were no boys on board.

The Pacific was a good sea-boat, staunch and strong, and sailed ten knots; and her crew were not called to the pumps from the time she sailed till she got back. She carried two four-pounders on her quarter deck, and plenty of pikes and small arms for all hands, to repel any possible attacks from pirates, which at that time swarmed in the West Indian waters and adjacent seas. Off the Gulf of Mexico she was chased by a suspicious-looking craft which ran near enough to see that the Pacific was strongly manned and carried guns, but then hauled off without making any further demonstration.

The schooner touched at the isle of May, one of the Cape de Verdes, on her way out, for salt, and proceeded thence to the island of Georgia, situated in latitude fifty-five south, longitude thirty-six west, where she wintered. From thence in the spring she went to Sandwich Land, afterward returning to Georgia, making the stay at Georgia thirteen months. On this desolate island there was no wood and no inhabitants; birds and their eggs were plentiful—kingpenguins, gentoos, johnnies, etc.; and fish abounded in the waters adjacent to the rockbound shores. The schooner was frozen in at Georgia for three months, but suffered no damage. All the seals taken by the schooner were captured at Georgia. Sandwich Land was found to consist of seven small, rocky islets, with very deep water close up to them all around.

The expedition did not go around the Horn, but was in the neighborhood of the cape continually; and gales and islands of ice were met with in great numbers. The party returned all well, but with no surplus, having sailed during the two years they were absent about 30,000 miles. But two of the party now survive—John Dudley of Kittery and James M. Locke of this city.

A shanty has been discovered in the mountains near North Thetford, Vt., which was used by a gang of burglars led by George A. Abbott, recently captured, which was completely packed with the proceeds of their robberies. Abbott escaped from his keeper after being arrested on the 8th inst., but was recaptured next day, being found hiding under a railroad bridge in North Thetford with no clothing on but a shirt and a bedquilt.

For the lip there is no brightness,
For the teeth there is no whiteness,
Where SOZODONT has no place;
But those who use it, know full well,
How bright and beautiful the spell
It throws o'er man or woman's face.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

Diabetes Cured.--Another Life Saved.

It is not claimed that Kidney-Wort will cure all diseases, and diabetes is generally regarded as incurable; but it appears from the following that there is hope for such sufferers:

NEW BEDFORD, MASS., Aug. 8th, 1872.

Gentlemen:—Grateful for the benefit I have derived from Kidney-Wort, recommended to me last winter by a lady friend, I wish to say a word for the encouragement of those who may be suffering as I have been.

I was troubled for about two years with a kidney complaint which assumed the form of diabetes, and although I consulted the best medical advice and tried several largely advertised remedies I found nothing to give me relief until I made use of your Kidney-Wort. I took two boxes before perceiving much benefit, and have taken in all eight boxes. In short, I can say that I am confident if I had not taken it I should not now be alive. I have recommended it to others, and they have taken it with like results.

Respectfully yours, BENJ. RYDER, Conductor New Bedford & Taunton Railroad.

H. RICHARDSON, Sac and Fox Agency, Indian Territory, says: The "Only Lung Pad" has restored me to health, and I shall be glad to recommend it to any one. —*See Adv.*

What Can be Found in a Cod.

A fruitful source of specimens were the carcasses of fish. Many scores of curious creatures could sometimes be collected from the stomach of a codfish. Indeed, the cod may well be dubbed the alderman of the deed, so voracious is his appetite, and so omnivorous his taste. A list of the luxuries which have travelled down the lane that leads to his capacious maw may remind one of the menu of a fish dinner at Greenwich. The catalogue comprises a huge number of little crabs and lobsters, served whole in their shells by way of tickling the palate. Then come, if not a fishy omelet, at least some eggs of fish, those of the dogfish being eaten in their transparent pot or capsule, to give them a nice crispness, like the crackling of roast pig. Next may be counted some sea-cucumbers, served in lieu of salad, with a quart or so of shrimps. Then a dainty dish of zoophytes, followed by a few sea-urchins, which seem to give a smack of cannibalism by way of further relish. For game there appears the skeleton of a partridge, plainly gulphed down in its feathers; while a cluster of ripe beech-nuts serve for the dessert. Finally, there figures in the list of luxuries a little pot of pottage, with the fragment of some cloth, as if the glutton in his haste had swallowed his spoon and napkin while waiting for his soup.—*All the Year Round.*

—Professor Young, in discussing the sun's heat, says that if it were surrounded by a shell of ice one mile in thickness, the inner surface touching the photosphere, it would melt its way out in two hours and thirteen minutes. This will be an interesting experiment for our young people to try during the long winter evenings. It will cost nothing for the ice, for Vennor says there are going to be oceans of it.

Prof. Edison's

POLYFORM

is the result of a long series of experiments by the distinguished inventor, upon himself and others to relieve the terrible suffering of neuralgic pains. Under his name and guarantee it is offered to the public, with the assurance that it will relieve the excruciating pains of

RHEUMATISM, NEURALGIA, HEADACHES,

No higher testimony could be adduced than the certificate of Prof. Edison, who authorizes the publication of the following:

Menlo Park, N. J.

I certify that the Preparation known as Edison's Polyform is made according to formula devised and used by myself. THOMAS A. EDISON.

Sufferers who have despaired of ever being relieved and cured of these distressing complaints will find a certain relief by using

EDISON'S POLYFORM.

Price, $1 per Bottle.

Prepared by the MENLO PARK MANUFACTURING Co., New York.

Sold by all Druggists.

TRADE MARK. DAY'S Kidney PAD

IS STRONGLY ENDORSED.

Rev. E. F. L. GAUSS, Galena, Ill., writes—"For over ten years I had been a great sufferer from pain in the small of the back and region of the Kidneys, which was most excruciating and at times almost inoperable. Doctoring brought no relief, and I was finally advised to go abroad and seek the climate of my native land. In Germany and England, eminent physicians, after close examination, declared my suffering to arise from disease of the Kidneys, of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No sooner had I been back and resumed my pastoral work, when the old trouble grew again so intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and look again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad Co., God's agents and great benefactors of mankind. May all the suffering be helped as I have been in my earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have now used DAY'S KIDNEY PAD thirty days, and it has done me more good than any remedy I have ever tried."

LAMPHERE & DEAN, Druggists, Niles, Mich.—(30 years in business)—"DAY'S KIDNEY PAD is having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from Kidney complaint, and after wearing your Pad 25 days I feel better than I have in 15 years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is doing great good here. It sells every day and gives universal satisfaction."

For sale by druggists, or sent by mail (free of postage) on receipt of the price, Regular, Pad, $2.00; Special, Pad (extra size), $3.00. Pad for Children, $2. Our book, "How a Life was Saved," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it. Address,

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1869, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

THE New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION, Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, which are due to pernicious habits or inherited. He is a Nervo-specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. HEAL THYSELF

Salvini.

Mr. John Stetson of the Globe Theatre, Boston, has effected an engagement with the eminent Italian tragedian Tomaso Salvini to play in this country, supported by an English speaking company. Mr Stetson tells us regarding the combination on the same piece of a foreign actor and home support, each speaking their own language on the stage, that the alternative presented to the American management was this: Salvini and a company of Italian actors, playing together in their native language, or Salvini with an American company speaking English, and to that extent aiding American audiences to the better comprehension and appreciation of Signor Salvini's transcendent powers, as they can be alone exhibited in his native tongue. While this method throws the chief character into bold relief, it is believed that, to the theatre-goer unacquainted with the Italian language, it may impart interest to all portions of the tragedies which the management presents.

Signor Salvini's mastery over human passion, his power to express the stronger emotions of the mind, the grandeur of his appeals to the imagination, and the perfection of histrionic art can only be shown at their best in his mother tongue, and no interpreter is required to give to a listener, whatever his nationality or however profound his ignorance of the actor's language, a realization of Signor Salvini's marvelous inspiration. In London, in 1875, his performances were thronged by thousands of persons ignorant wholly of Italian, and who had commonly cared nothing for foreign drama, and who could not be tempted to witness a play in French. Never did English audiences burst into such a *furore* over any interpreter of Shakespeare, native or foreign. In Salvini, dramatic genius rises superior to the disadvantages of the difference of language, and the power of the artist will, it is believed by the present management, be more thoroughly displayed and appreciated in America than they could have been were the whole organization a foreign one. The training of the stock actor in Italy is, as a rule, in plays far too classical for popular acceptance in America; and the management, having secured an American company the members of which at home justly claim the highest honors of their art, bespeaks for the enterprise a success with the public.

Salvini will appear as Othello, La Morte civile, (the civil death,) Macbeth, Hamlet, Gladiator, Ingomar, and David Garrick, while the supporting company engaged for the Salvini tour will consist in part of Messrs. L. R. Shewell, W. H. Crisp, J. R. Grismer, A. D. Billings, H. Weaver, W. F. Owen, N. D. Jones, Louis Baker, T. M. Hunter, E. D. Tamneyhill, H. Lewis, Geo. Warren, and Miss Marie Prescott, Miss Ellie Wilton, Mrs. E. L. Davenport, Miss Julia Stewart, and Miss Athena; and Mr. Stetson will, we trust, be amply repaid for his efforts to give the American public an opportunity to again see this able dramatic celebrity in the plays above referred to.

Doctor's Fees.

THE fee which physicians may charge in Prussia for their services is regulated by law, and according to the most recent ordinance, the charge for the first visit to a sick person is fixed at two marks (twenty-five cents standing for a mark), and one mark for each subsequent visit; where, however, several persons belonging to the same family and dwelling in the same house have to be treated at the same time, then, for the second and each succeding person, only the half of these fees respectively is to be charged—the same rule is to apply to boarding schools and similar institutions, also to prisons. When there is a consultation of several physicians about the treatment of a sick person, including their personal visits, each physicians is to receive for the first consultation five marks, and three marks for each subsequent similar consultation. On the occasion of the first visit to the physician's residence for his medical advice, one mark and a half. For the administration of chloroform, etc., when necessary for the treatment of the patient, three marks.

Idle Experiments.

When a man is well and sound he can afford to be indifferent to the character of all the medicine in the world. But when disease is fairly eating him up, he must do something at once and do it intelligently. Therefore do not dose yourself with a hundred things in the hope that some of them may hit the mark, but try Dr. David Kennedy's "Favorite Remedy" which hits it every time. For kidney and liver troubles, piles and constipation, it is just what you want. Druggists have it, or mail one dollar to the doctor at Rondout, N. Y.

The Next Speakership.

Hon. Chester B. Jordan of Lancaster is mentioned in different sections of the state as likely to be the speaker of the next house of representatives of New Hampshire. Mr. Jordan was at one time clerk of the courts of Coos county; afterward he entered into a law copartnership with Hon. Ossian Ray and Col. Irving W. Drew of Lancaster, the firm practising extensively not only in Coos and Grafton counties but in Essex county, Vermont. Mr. Jordan will make a good presiding officer; he is of fine presence, quick perceptions, thoroughly posted in parliamentary matters, and will preside with dignity and ability. We hope that the great victory in Lancaster will be remembered in the selection of her gifted representative as Speaker of the House in '81.

The New Judge.

The governor and council are to meet on the 18th inst. to select a judge to succeed George A. Bingham, who resigned the office to run for Congress. It is said that the Chief Justice desires Bingham's re-appointment. Many others regard it as not consistent with the fitness of things for a man to leave the bench to enter the hustings, and then return, with the feelings of a defeated candidate, to a seat on the bench. It is thought by many republicans that the office should be conferred upon a democrat, but not because the majority of judges are at all republican. The chief justice is no partisan, and always selects a democrat before a republican if he has any patronage to bestow. Judges Foster and Smith will never be considered as at all republicans in their acts, but rather as extremely non-partisan; while Judge Allen is naturally republican. The two democrats now on the bench were active democratic politicians before appointment, but their whole judicial career has been apparently free from political bias. The feeling in the state is nearly balanced in its political parties. No one fears the uprising of the democracy and the abolition of the court, but there is a feeling that there is a propriety in having the court composed as nearly as possible of an equal number of members of different political faiths.

Conceding the proposition, and the time to concede it is now, after recent republican victory, the question comes up, "Who shall be judge?" The bar of this city would gladly see Hon. Albert R. Hatch selected for the position. Combining as he does abundant learning as a lawyer and a ripe experience gathered from an active practice of many years, both in the state and federal courts, his appointment would give to the state an able judge and one thoroughly familiar with the jurisprudence of the state. But Mr. Hatch will not accept the position if offered to him.

Again, the people in the northerly section of the state insist that a judge should be appointed who resides north of Concord, for the convenience of suitors in the upper part of the state. This would bar out such an able lawyer as William M. Chase of Concord, though perhaps it might admit Isaac N. Blodgett of Franklin, who is said to be the favored candidate of Frank Jones and the moguls of the democracy.

Up the line of the Boston, Concord & Montreal railway is Hon. Joseph Burrows of Plymouth, a well read lawyer, more of a jurist than he passes for, who has three years of well spent life to devote to the bench, and who will accept the position if tendered him. Mr. Burrows would make a good judge, and perhaps from his locality and from the fact that he is a member of the governor's council, may be more likely to receive the appointment.

If we cannot have Mr. Hatch, let the democrats name their best man in the northerly section of the state, and let him be appointed; but let him understand that if he wants to go to Congress in 1882, and resigns to enter upon the contest, he will not be encouraged to apply, in case of his rejection by the people, for an appointment by the executive.

"Truth" Philp Held For Trial.

Judge Davis of New York on Saturday rendered a decision in the case of Kenward Philp, of the New York *Truth*, charged with libel against James A. Garfield, holding the accused for a jury trial. Judge Davis said the evidence produced had shown the so-called "Morey letter" to be a forgery, and that no such person as Henry L. Morey of Lynn ever existed.

It is reported that other arrests in connection with the forgery will be made, of persons who were active in securing the perjured testimony with which the democrats sought to bolster up the forgery until after the election.

He Deserves Reward.

The executive committee of the democratic national committee have tendered the thanks of the committee to Chairman Barnum for his faithful service in the recent campaign. It will be the basest sort of ingratitude if the republicans do not go a little better than this, and have an appropriate Chinese medal presented to the man who did so much to inspire the republicans with courage for the contest, and with energy to achieve the great result.

Honesty—After Election.

Before the election, and so long as there was any hope of gaining anything by it, the Boston *Post* did its best to bolster up the Morey forgery, and to make people believe that it was genuine. Now that the election is over, and the letter has done all the mischief that was possible for it, the *Post* attempts to get rid of its share of the responsibility by publishing the following:

A few weeks ago there were many people who honestly believed that the Morey Chinese cheap letter was written by Gen. Garfield. Even after the alleged author repudiated it, they had good reason for declining to change their opinion. But to-day, one might rake the country with a fine-tooth comb and not find such a person. It is now pretty evident that the letter was not only a forgery, but that there was a conspiracy to make it appear genuine. Who were the conspirators we do not pretend to say. The chief witnesses in the Philp examination have shown themselves to be such accomplished liars that other testimony than theirs will be needed to decide that question. The alleged *Truth* has had its day so far as this miserable business is concerned. Now let the real truth hold sway, and may no guilty man escape.

Commenting on this statement of the *Post*, the Boston *Journal* uses the following language, which though severe is not more severe than the occasion warrants:

If the *Post* fancies that it can reinstate itself in the respect of honorable and fair-minded men by this tardy acknowledgement and a hypocritical pretence of indignation, it is very much mistaken. It chose to assume that Gen Garfield was a liar. It made light of his denial of the authorship of the letter. It magnified every shred of bought and perjured evidence which was brought forward to sustain the letter. It chose to give credence to any lying tramp who, for a square meal or a suit of clothes, was willing to swear that he had known H. L. Morey from his infancy. It vilified by mean insinuation and direct charge one of the cleanest and purest statesmen the country has produced. It scrupled at no misrepresentation or falsehood to aid its cause. And now that the whole fabric of the Morey forgery is tumbling about its ears, and an indignant people are awakening to the fact that the forgery, and the falsehoods employed to sustain it, were not the work of a wandering Bohemian, an obscure newspaper, or two or three lying loafers, but of the Democratic National Committee, the *Post* fancies it can extricate itself by publishing such a paragraph as that which we have quoted. It comes too late. The *Post* knew that the Morey letter was a forgery, and its publication the result of a conspiracy, two weeks ago, just as well as it knows it now. Why did it not tell the truth then? Why did it bolster up the lie just as long as there was anything to be gained by it?

News and Notes.

The card of Fred. S. Stanwood & Co., Boston, is worthy the attention of all investing in stocks.

England's imports from the United States for October were over twenty millions of dollars less than for October of '79, and her exports to this country were about five millions greater than for October of last year.

The Libby prison at Richmond, Va., was sold by auction on Thursday, for $6,725.

The Yale college faculty have abolished the two freshmen secret societies, Delta Kappa and Kappa Sigma Epsilon. The organizations thus destroyed are chartered fraternities, having branches at Dartmouth and other colleges. They have existed—the one since 1845, and the other since 1849.

A Bremen paper says: "The North German Lloyds have engaged to convey 3,000 Roumanian Jews to New York before the end of the present year. The emigrants are sick of their own country, and have been enabled to seek fresh homes across the Atlantic by the liberality of their co-religionists in France and Germany. Their patrons provide funds, not only for the passage but for the purchase of homes and farms in America.

A small Canadian schooner loaded with twenty tons of nitro-glycerine was on the 12th inst. aground in Erie harbor, Pa., having been driven in by bad weather two days before, and as there was danger of her pounding enough to explode her cargo, which would undoubtedly result in great damage, the people of the town were greatly excited.

J. W. Bugbee, of the late "Ladies' Grain Exchange" of Chicago, which collapsed a few days ago, was before the court on Thursday on the charge of embezzlement. Four ladies testified how they "margined up" and lost each from $30 to $100. The defence claim that the business was unlawful, and Bugbee not responsible for the absorption of margins.

Three children of one family died during the last week at New London, Conn., of diphtheria and typhoid fever, and now the mother and the one remaining child are dangerously ill from the same diseases.

The grand jury at New Orleans has indicted the proprietors of the St. Charles, City, St. James, Cassidy's and other hotels, for failing to comply with the law requiring knotted ropes to be provided in each bedroom fronting the streets or alleyways, long enough to reach the ground, for the escape of guests in case of fire. The penalty for the first offence is $500.

While returning from school, Nov. 9th, at Columbus, Ohio, Frank Mangold, fourteen years old, stabbed Frank Ansman in the back with a pen-knife. A crowd of school boys had been taunting Mangold. Ansman's wound extends to the lungs, and death is expected. Mangold is under arrest.

The Bergen County savings bank, and the Bank of Bergen county, both at Hackensack, N. J., closed their doors on the 11th inst., John J. Berry, cashier of both institutions, having stolen $100,000 of the funds and lost it in Wall street.

The fleet which has been at Hampton roads for the past month, commenced separating Friday morning; the Powhatan, Galena, Yantic and Alliance proceeded to Norfolk, and the Constitution, Minnesota and Vandalia sailed Saturday. Friday was occupied in transferring boys from the Saratoga and Portsmouth to the other vessels of the squadron, and exchanging visits. The Saratoga goes to Baltimore to recruit some boys, about seventy-five being required to complete her complement.

The Concord horse railroad has been leased for five years to Moses Humphrey at four per cent annually on its capital stock, subject to the approval of the stockholders.

—When a woman makes up her mind she usually carries her point. A white woman near Kingston, N. Y., wishing to marry a colored man went to the city and went the rounds of the clergymen, seeking to be united to the man of her choice. As she was under age they refused to perform the ceremony, being influenced, moreover, by the difference in color between the parties. As a last resort she blacked her face with burnt cork, and then applying to a minister, was married without question, and the couple have gone to housekeeping, both seemingly well pleased with the selection.

FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in man; confirmed cases, as is that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have known cases where a single dose has been effectual.

S. JACOB, M. D., St. John, N. B., writes:

"I had occasion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expedition and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

HOSTETTER'S CELEBRATED STOMACH BITTERS

Meets the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and revitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

For sale by all Druggists and Dealers generally.

SCIENCE WINS!

A Splendid Surgical Operation--Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weaknesses peculiar to females. This wonderful medicine is now for sale by all our druggists at $1.00 a bottle.

AROUND HOME.

Myers has an unusually fine stock of Christmas cards.

Mr. Howard Newman and another gentleman will play a match game of billiards for $50 a side, on Tuesday evening.

Miss Norah Bartlett's first appearance at the Boston Museum will be on the 29th inst., when she will enact Aurelia in "The Guv'nor," then to be produced for the first time in Boston.

The schooner Joseph G. Stover, Arey master, from Port Johnson with coal, in making a berth at Concord railroad wharf on Thursday of last week ran foul of the schooner Ned Sumter, Snow master, which arrived from Perth Amboy the same day, carrying away the Sumter's head gear and losing one of her own anchors.

Every ticket to the Star Lyceum course at Dover has been sold; and as the course here at Music hall commences to-morrow evening, we hope the same can be said in this quarter. The entertainments are all of a popular nature and of first class talent, while the price is so low that everybody can afford to go. Read the advertisement.

The funeral of the late James L. Palmer took place on Sunday, under the direction of Washington Lodge, No. 4, I. O. O. F., of Great Falls, of which deceased was a member. The visiting Odd Fellows brought with them the Great Falls Cadet band, returning after the funeral in a special train. There was quite a large turnout of the fraternity of this city.

A brilliant logician who signs himself "Denny" writes a letter to the *Times* in which he argues that the editor of the CHRONICLE possibly had his credulity imposed upon in regard to the cowardly assault upon Mr. John Emery by a democratic ruffian or ruffians, as certain election tickets were printed in the CHRONICLE office eleven years ago! We confess that "Denny's" reasoning is altogether too abstruse for us to comprehend.

The fire at Newcastle, which occasioned an alarm in this city at about three o'clock Saturday morning, consumed the grocery store and goods of Mr. Frank P. Locke. The engine which started from this city in response to the call for aid did not cross the bridge, the people of the town having got the fire under control and countermanded the call in time to prevent it. The loss is given at about $1500; insured. Several buildings near by caught fire; but were saved without serious injury.

Henry Lewis, who escaped from the Massachusetts state prison in the latter part of 1878, and was arrested in this city for breaking into the store of N. F. Mathes & Co., and returned to prison, again made his escape last week. At bell time Thursday evening he was missing, and the officers thoroughly searched the shops and building until nine o'clock, when two reliefs of six men each were placed on watch for the night in the yard. The discovery of a rope and pole, Friday morning, showed that he had eluded their vigilance by going over the roof of the main building, and descending by the octagon outside.

According to the CHRONICLE, good authority (???), our word or that of any other republican is good for nothing.—*Times.*

We cannot tell whether that statement was intended by our brother of the *Times* for a witticism or a bit of withering sarcasm; but we know very well what it *is*—a silly falsehood, as the CHRONICLE has never said anything which could be tortured into conveying any such meaning, as the *Times* writer very well knows, if indeed he knows anything. We did say that hundreds of the men in the republican procession of the 8th inst. would have their word taken quite as soon as his, notwithstanding his assertion that "a story from any of them cannot receive any credit whatever!" We will merely add that when our brother says Mr. John Emery was drunk at the time he was hurt, and that his injuries resulted from such drunkenness, he but repeats a story the absolute falsity of which has been proved to him.

SUPREME COURT--CLARK, J.

SATURDAY, Nov. 13th.

In case Leavitt vs. Fletcher, surviving partner, the jury found a verdict for the plaintiff in the sum of $191.75, with interest from Aug. 19th, 1879. Frink and Page for pliff.; Huse for deft.

Frederick Henderson vs. estate of Geo. M. Marsh. Action upon an alleged written instrument, and for services rendered to the deceased in his life time. This is an appeal from the report of a commissioner of insolvency upon the estate of Mr. Marsh. The commissioner disallowed the claim of the appellant, Henderson, of $3200, for services claimed to be due, also the amount due on a written obligation for $600, due in sixty days after said Marsh's death, with interest, and to be paid to Henderson personally, and to no other person. Mr. Marsh died in November, 1878, unmarried; the plaintiff was his nephew, and from June 20th, 1876, it is claimed that he was in attendance upon his uncle to April 20th, 1878, at his uncle's request. Mr. Henderson terminated these services upon his receiving an offer for business in New York, and he claimed this sum as due him. The written instrument was dated Aug. 1st, 1878. The instrument was objected to by the defendant, and was ruled out by the court. The plaintiff was offered as a witness, but it was objected that he could not be a legal witness, as the opposite party was an administrator. He was excluded from testifiying.

Dr. Benj. W. Curtis, who was Mr. Marsh's attending physician, testified as to the condition of Mr. Marsh's bodily health. The cross examination of the doctor by the senior counsel for the defendant resulted in some spicy retorts by the medicine-man, which seemed to create no little merriment.

The defence was that Mr. Henderson attended Mr. Marsh merely as a relative, without hope or expectation of reward. Some witnesses were introduced to prove that Mr. Marsh transacted his own business to a considerable extent during the time referred to by plaintiff, and did not call upon pliff. to do the acts for which he now seeks to recover, any further than one relative might call upon another in a friendly way. The case was briefly argued in the afternoon, and the jury after considering the question returned a verdict for the plaintiff in the sum of $1916, and interest for one year.

Page and Frink for pliff.; A. R. Hatch and John Hatch for estate.

POLICE COURT.

SATURDAY, Nov. 12; *Batchelder, J.*

Simeon S. Brackett of Greenland was examined on a charge of assault upon James P. Tilton of the same town. The examination took up considerable time, and resulted in Brackett being discharged.

POLITICAL PROCESSION.

Quite a crowd of people assembled on Market square, Saturday evening, to witness the parade of the *very last* political procession of the campaign, so far as this city is concerned. At the appointed hour, 7:30 o'clock, in payment of an election bet, Daniel D. Waldron commenced to propel Henry A. Brown to the Creek and back in a handcart, Brown wearing the uniform of the Winchester Cadets and Waldron that of the High School Hancock and English Cadets, and each being attended by two torch-bearers from their respective companies, also in uniform. The Metcalf Fife and Drum band, to which both the young fellows belong, furnished excellent and appropriate music for the march, which was witnessed by numerous spectators on both sides of the route, and enlivened by the burning of Roman candles and red fire at several points as the procession passed. At the close of the parade Mr. Waldron took the entire procession, except the handcart, into Marden's dining hall, where an oyster supper was served. The affair passed off pleasantly, and as a boyish "lark" was successful and amusing; and for persons of any age such a bet is much less foolish than the wager of sums of money which neither party to the transaction can afford to lose.

BUFFALO BILL.

This evening, at Music hall, the Buffalo Bill combination will appear in the "Prairie Waif," written expressly for Mr. Cody by John A. Stevens. The "Prairie Waif" is a white girl named Onita, stolen by the Indians, and afterward rescued from the Mormon Danites by Buffalo Bill. The Hamilton (Ont.) *Spectator* says "the brave and handsome scout has improved wonderfully in his stage business, and the performance as a whole was quite as satisfactory as the most intense admirer of the dime novel could possibly wish it to be. His love scene in the second act was decidedly well wrought up, and his marksmanship created unbounded applause. Lizzie Fletcher is a pretty, graceful little actress, and in the first two acts was very pleasing. Miss Thompson was extremely lively, and evidently enjoyed the performance as well as did any of the audience. Jule Keen was very funny, and the trained ass did his share towards the success of the play. The band of Indians whooped and tomtomed, and war-danced, and yelled, and performed all sorts of grotesquely ridiculous actions in a highly successful and extremely noisy manner."

A CARD.

The issue of the *Portsmouth Weekly* dated Nov. 13th contained the following

Card to the Readers of the Weekly.—Severe illness of nearly two months, not only prevents our joining in any public duties, but also forbids making any public defence of ourself, which some friends doubtless fear, or some enemies hope, to be necessary.

Even now we can only say, at the hand of another, that all reports of any change of heart on the Temperance question, as to the *Weekly* or its editor, are utterly without foundation. We have never changed the shadow of a hair, except that our hope is brighter, our faith stronger and our devotion more earnest.

Anything to the contrary of this is an utter misapprehension of the case, as we will show, when able to hold a pen, to any good temperance friends who strangely misconceive it now.

FRANK W. MILLER.

We regret to hear that the energetic editor of the *Weekly* is improving but slowly; but he has been all his life a most intemperate worker, both as to the length of his working days and the amount of work he has crammed into each hour, and has been about as careless concerning diet as it is possible for a man to be—and Nature will not stand everything, even from a man of iron constitution and strong will. We hope that when he gets out again he will be more prudent; but he probably won't.

Get out Doors.

The close confinement of all factory work gives the operatives pallid faces, poor appetite, languid, miserable feelings, poor blood, inactive liver, kidneys and urinary troubles, and all the physicians and medicine in the world cannot help them unless they get out of doors or use Hop Bitters, the purest and best remedy, especially for such cases, having abundance of health, sunshine and rosy cheeks in them. They cost but a trifle. See another column.—*Christian Recorder.*

An Auburn, Me., man received a check for $280 in payment of a dividend from an insurance company, one day recently. When he received the check a deputy sheriff, in every-day clothes, happened to be conversing with him. "Let me look at this a minute," said the deputy, curiously. The man innocently allowed him to take it. The deputy coolly pulled a folded paper from his pocket and pinned the check to it, while the man looked on in astonishment. "I have a writ here and I shall have to attach this," and the debtor had to see his $280 walk away.

The best blood Purifier in the world is D. R. V. G. Dyspepsia Remedy. Guaranteed by your own druggist.

Great excitement was caused in the town of Newbury, Me., Friday, by the discovery of the dead body of a boy named Newcomb. He started off gunning about noon Thursday, and as he did not return, search was made, which resulted in the discovery of the body shot through the back of the head. He borrowed a gun from a boy named Inman, who has a hard reputation, and there is a strong feeling among the citizens that Inman fired the fatal shot, while others favor the theory of accidental shooting. Coroner Wilson of Bangor was summoned, and after holding an inquest returned home. He says the evidence is not sufficient to commit Inman for trial; therefore there will be a continued hearing for a fortnight, in order to get additional particulars.

More people are wasting away through diseases of the kidneys without knowing what ails them than from any other complaint. Day's Kidney Pad is the appropriate remedy.

Ed. Hall, Mike Walsh and Robt. White, three New York counterfeiters on trial at Reading, Pa., were found guilty, Friday, of conspiracy to issue forged wages certificates of the Philadelphia & Reading Railroad company, and sentenced to two years imprisonment and $100 fine each, the sentence to commence from the date of their arrest, May 27th, 1880.

The "Ladies' Stock and Mining Exchange," run by Mrs. M. E. Warren at No. 22 Union square, New York, on similar financial principles to those of the "Ladies' Deposit Company" in Boston, has closed, and hundreds of ladies are anxious to find Mrs. Warren, who fled on the 10th inst. The liabilities of the concern are estimated at from $40,000 to $100,000.

F. W. KINSMAN, Esq.,—Dear Sir: With pleasure we order ten gross Adamson's Botanic Cough Balsam, showing conclusively that merit has won the day, and that your Balsam is taking the lead over the many bottles of trash that now flood the market. From Smith, Doolittle & Smith, Druggists, Boston.

WHIPS! All qualities and prices; LARRABEE'S, 26 Congress

The name Jenner means a drawn lancet putting to flight a loathsome disease; and the name Harvey signifies the circulation of the blood. And the time is coming when the name of Dr. David Kennedy will be indissolubly connected in the public mind with the the purification of the blood; a deed only less important than the discovery of its motion through the human body. This Dr. Kennedy accomplishes by means of his new medicine called "Favorite Remedy"—the pleasant and popular title of a preparation which cleanses and sweetens the river of life within our veins, as an influx of oxygen does vitiated air. All druggists, $1.00 a bottle.

The notorious "Dr." John Buchanan was arraigned in the court of quarter sessions at Philadelphia, Friday, and pleaded guilty to two charges of selling bogus academic degrees. Sentence was deferred.

Almost young Again.

My mother was afflicted a long time with neuralgia and a dull, heavy inactive condition of the whole system; headache, nervous prostration, and was almost helpless. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems and feels young again, although over 70 years old. We think here is no other medicine fit to use in the family.—A lady in Providence, R. I. —*Journal.*

A despatch from Chicago states that John McManus has been arrested there for the murder of Bernard Riley, in Philadelphia, during a riot at a political convention in December last.

Parties sick and afflicted run no risk in buying D. R. V. G. Guaranteed by your own druggist to give satisfaction, or money refunded. Try it.

William N. Glover of Redbank, N. J., aged fifty years, married a girl thirteen years of age last May. She fled from his abuse to her home last Thursday night. He followed and shot her. She is dying. Glover was arrested.

The friends of temperance will find Malt Bitters invigorating and strengthening.

Hilarious Farmers.

A farmer of our acquaintance, an old subscriber, was stopped in the rain by a wealthy man, who haggled about the price of turnips for several minutes, finally getting them down from thirty-three to twenty-five cents a bushel, and then ordered a peck; and ended by asking that half of them be yellow turnips for his wife, and half white ones for himself! We saw their delivery, in an immense cart, drawn by seventeen yokes of oxen, with a driver for each yoke, each driver carrying and wielding a long whip, and vigorously shouting, "haw, gee, g'long," etc. The oxen's horns were ornamented with white and yellow ribbons, and the white and yellow turnips were marked by ribbons of corresponding color tied around them! The cavalcade made a tour of the town and two wide circuits before successfully backing up squarely to the purchaser's gate. Four men delivered them in a huge basket, and the farmer refused to receive more than 6 1-4 cents, the contract price. A mechanic, previously engaged, was present to chip off the quarter of a cent to make the "change" right. The seller and drivers—neighboring farmers—then went to a hotel. "put out" their teams, and had a bounteous dinner together.—*American Agriculturist.*

Food and Work.

In order to perform an amount of mechanical work equal to lifting 140 pounds 10,000 feet high, Prof. Graham calculates that a man must eat five pounds of potatoes, one and a third pound flour, two and a third pounds bread, one and a quarter pound oat-meal, one and a third pound rice, three and a half pounds lean beef, half a pound beef fat or one and a fifth pound Cheshire cheese. He says that the peasants of all countries have been right, in spite of many scientific assertions that they were wrong, in their instinctive habit of adding fat rather than nitrogenous food to their diet when undergoing hard work.

—Now let the young men take warning. The "Ladies' Blushing Bonnet" is a new Parisian device. To the side ribbons which go under the chin are attached two thin but powerful steel springs, ending in round pads, which are brought to bear upon the temporal arteries by the action of bowing the head, and by artificially forcing blood into the cheeks cause them to be suffered with crimson at a moment's notice.

BRIGHTON CATTLE MARKET.

For week ending Wednesday, Nov. 10.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 2848; sheep and lambs 4770; swine 15,120; Veals 65; number western cattle 1872; eastern cattle 551; milch cows and northern cattle 425.

Prices of beef cattle per 100 ℔s, live weight—Extra quality $5 75 @ 6 25; first quality $5 @ 5 62½; second quality $4 50 @ 4 87½; third quality $4 @ 4 37½; poorest grades of oxen, bulls, etc., $3 12½ @ 3 75.

Brighton hides 7½ @ 8c per ℔.

Brighton tallow 5c per ℔.

Country hides 5c per ℔.

Country tallow 4½ @ 5c per ℔.

Calf skins 10 @ 12c per ℔.

Sheep and lambs skins $1 @ 1 25 each.

These has not been much improvement in the live stock trade during the past week. The quality of the cattle coming in last week was mostly of an ordinary grade. Extra beeves, of which there was a light supply, sold at a slight advance over prices realized one week ago, but common grades sold about the same as they did at last market. The demand for shipping cattle has been light. Prices for Canada' cattle have ruled at 4½ @ 5½c per ℔ live weight. A few extra beeves were sold to butchers at 6c per ℔ live weight. The cattle from Maine consisted largely of store cattle; but a few beeves among them.

Working Oxen—The trade for working oxen was very quiet and the supply from Maine not so large as it has been of late. We note sales of 1 pr girth 6 ft 9 in, live weight 3700 ℔s, at $230; 1 pr girth 6 ft 9 in, live weight 2600 ℔s, at $85; 1 pr girth 6 ft 9 in, live weight 2600 ℔s, at $80; 3 prs girth 6 ft 6 in, live weight 5200 ℔s, at $305; 1 pr girth 7 ft 4 in, live weight 3400 ℔s, at $145; 4 prs steers girth 6 ft 8 in, live weight 6300 ℔s for $475 the lot.

Store Cattle—Yearlings $8 to $11; two-year-olds $11 to $25; three-year-olds $18 to $45 per head. Store cows sales of 2 two-year-old heifers $18 each; 7 two-year-old steers $18 per head; 37 yearlings at $8 to $11 per head; 25 two-year-olds $12 to $25 per head; 1 do at $45.

Milch Cows—Extra $50 to $65; ordinary $25 to 45; springers $16 to $45. We quote sales of 1 springer $30; 1 do $38; 3 do $32 50 each; 6 milch cows $20 to $25; 1 do $18; 1 new milch cow $31; 6 milch cows $35 each; 1 do at $45.

Sheep and Lamb—Those from Maine were consigned to G. W. Hollis, to slaughter and market at a commission. Sheep and lambs cost landed at Brighton from 4½ to 5½c per ℔ live weight; only a light supply brought in.

Swine—Fat Hogs—We quote prices 5½ @ 5¾ per ℔ live weight.

VEGETABLE

PAIN KILLER

A PURELY VEGETABLE REMEDY

For Internal and External Use.

Is a SURE CURE for all the Diseases for which it is recommended, and is ALWAYS PERFECTLY SAFE in the hands of even the most inexperienced persons.

It is a sure and quick remedy for COUGHS, SORE THROAT, CHILLS, and similar troubles; affords instant relief in the worst malignant forms of DIPHTHERIA, and is the best known remedy for RHEUMATISM and NEURALGIA.

THE OLDEST, BEST, AND MOST WIDELY KNOWN FAMILY MEDICINE IN THE WORLD.

It has been used with such wonderful success in all parts of the world for CRAMPS, CHOLERA, DIARRHŒA, DYSENTERY, and all BOWEL COMPLAINTS, that it is considered an unfailing cure for these diseases.

HAS STOOD THE TEST OF 40 YEARS' CONSTANT USE IN ALL COUNTRIES AND CLIMATES.

It is RECOMMENDED by Physicians, Missionaries, Ministers, Managers of Plantations, Work-Shops, and Factories, Nurses in Hospitals—in short, by Everybody who has ever given it a trial.

IT IS WITHOUT A RIVAL AS A LINIMENT.

TRADE MARK DAY'S Kidney PAD

A discovery which cures by the natural process.

ABSORPTION.

all diseases of the Kidneys, Bladder, Urinary Organs and Nervous System. When nothing else can. It is comfortable to the patient, positive in its effects, and the first cure for those painful and much dreaded affections.

Diabetes and Bright's Disease,

while its cures of Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and unusual or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth, or to close application to business or work, may be restored and manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment well tried and proven ineffectual, though sometimes affecting apparent cures of one complaint, they sow the seeds of more troublesome and permanent disorders. The price of our Pad brings it within the reach of all, and it will annually save many times its cost in doctors bills, medicines and plasters, which at best give but temporary relief. It can be used without fear or harm, and with certainty of a permanent cure. For sale by druggists generally, or sent by mail (free of postage) on receipt of the price. Regular Pad, $1.00; Child's Pad (for incontinence of urine in children), $1.25. Special (extra size), $2.00. Our book, "How a Life was Saved," giving a history of this new discovery and a large record of great remarkable cures sent free. Write for it. Address

DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it due the afflicted to warn them. Ask for DAY'S KIDNEY PAD, and take no other.

KIDNEY-WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLES it has sailed like a charm. It has cured many very bad cases of PILES, and never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Constipation it completely cured me."

C. S. HOGADON, of Cheshire, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, and kindred symptoms; Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

THE New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Practice patent law in all its branches in the Patent Office, and in the Supreme and Circuit Courts of the United States. Pamphlet sent free on receipt of stamp for postage.

KNOW THYSELF.

The untold misery that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION, Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard, Patent Office work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. "Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail postpaid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to premature habits or inherited. He is a Nervous specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. F. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. dm&th & tfnov30

CANTERBURY SHAKERS' LIFE-INVIGORATING BLOOD-PURIFYING

Prescribed by Physicians and Druggists for nearly Fifty Years.

THE SHAKER'S SARSAPARILLA is just what it purports to be.—*Dyd Crosby, M. D.* I have long prescribed it, and I think it a most valuable medicine.—*Jeremiah Blake, M. D., Gilmanton, N. H.* Have known it for nearly half a century. Our confidence in it is in no way impaired. —*Carlton & Hovey, Druggists, Lowell.* I speak with confidence of it, having prescribed it for eighteen years.—*S. M. Dinsmor, M. D., Francestown, N. H.* Give me the Shakers' Sarsaparilla in preference to all others.—*C. A. Gulmette, M. D., Boston.* I have the most unbounded confidence in its healing and renovating properties. —*Wm. B. Fry Ion, Druggist, Portsmouth, N. H.* I consider it the best preparation made.—*A. G. Wilber, Druggist, Boston.*

Do not fail to make a trial of this great Blood Purifier, Appetizer, and Tonic, the first and best of all medicines called Sarsaparilla, which is prepared from selected SHAKER ROOTS, HERBS AND BERRIES by the CANTERBURY SOCIETY OF SHAKERS, and is beyond all comparison the purest, safest, and most effective family medicine in the world. Ask for CORBETT'S SHAKERS' SARSAPARILLA. The genuine is signed by THOMAS CORBETT, its inventor, and sold by druggists generally.

A HARVEST HOME.

It is not long since we with happy feet
Stood ankle-deep in grasses fresh and green;
While in the apple blossoms, pink and sweet,
The singing birds, with flashing wings were seen.

It is not long ago—not long ago—
Since the glad winds ran through the tasseled corn;
This way and that way, swaying to and fro,
The golden wheat waited the harvest morn.

Now, all the silent fields are brown and bare,
And all the singing birds have gone away;
But peaceful calm is in the hazy air,
And we, content, can watch the sweet decay.

For so the hay is saved, the corn, the wheat,
The honey from a thousand scented bowers,
While russet apples, delicately sweet,
Hang where once hung the pink-white apple flowers.

So we in our life's autumn stilly muse
Upon the harvest of our gathered years,
Finding the hopes that once we cared to lose
Grown perfect through our toil and love and tears.

And saying, gratefully, "Although their flower
Was strangely fair and sweet, from cup to root,
'Twas best they changed with us from hour to hour,
For better than the blossom is—the fruit."

"Boston Inside Out."

Rev. Henry Morgan, the sensational lecturer on Boston's crookedness, has been sued by his secretary, Mr. Ward E. Smith. The latter claims a royalty on "Boston Inside Out," lately published by Morgan, and whose title page bears the imprint: "By Rev. Henry Morgan." This work Mr. Smith claims to have himself written, in conjunction with George Jepson, formerly Morgan's clerk for ten years, and George Russell Jackson, a well known Boston journalist, and editor of the *Daily News*, who wrote many chapters for the work, only one of which, however—"Frank at the Sybil's—was sused. The secretary alleges that he has also written many of Morgan's lectures, and what he didn't write were gotten up by said Jepson and others; that Morgan is too illiterate to write anything correctly himself, and relies entirely upon poor authors, to whom he pays a mere pittance, considering the income he gets from the same. Mr. Smith says he is determined to expose Morgan's humbuggery and dishonesty, and will press the suit to an end and test the point whether an author has any legal right to the profits on the productions of his brain.—*Post.*

Diabetes Cured.—Another Life Saved.

It is not claimed that Kidney-Wort will cure all diseases, and diabetes is generally regarded as incurable; but it appears from the following that there is hope for such sufferers:

NEW BEDFORD, MASS., Aug. 8th, 1872.

Gentlemen:—Grateful for the benefit I have derived from Kidney-Wort, recommended to me last winter by a lady friend, I wish to say a word for the encouragement of those who may be suffering as I have been.

I was troubled for about two years with a kidney complaint which assumed the form of diabetes, and although I consulted the best medical advice and tried several largely advertised remedies I found nothing to give me relief until I made use of your Kidney-Wort. I took two boxes before perceiving much benefit, and have taken in all eight boxes. In short, I can say that I am confident if I had not taken it I should not now be alive. I have recommended it to others, and they have taken it with like results.

Respectfully yours, BENJ. RYDER, Conductor New Bedford & Taunton Railroad.

The well-known billiardist, John H. Flack, a contestant in the Massachusetts tournaments a few years ago, and at one time a competitor for the championship cue of the state, died in Boston last week.

Liebig Co.'s Cocoa Beef Tonic.

Superior to any tonic I have used or prescribed, says Professor E. M. Hale, M. D., Chicago Medical College.

It is prescribed by the most eminent physicians for weak lungs, falling out of the hair, weak and irritable throats, asthma, shortness of breath, and chronic coughs.

It is invaluable in heart disease, spinal troubles, nervousness, St. Vitus dance, and nervous twitchings.

The Stellarton Horror.

Several explosions occurred in the Foord coal mine at Stellarton, N. S., Saturday night and Sunday, doing great damage, though no lives were lost. It is evident that the mine is extensively on fire, and men are digging a trench to the river to convey a flood to the mine. The number of lives lost by the first explosion is not definitely settled, the highest estimate being seventy and the lowest forty-seven. Five hundred persons are thrown out of employment by the disaster, and terrible distress must ensue unless they and those dependant on their labor are assisted by charity. Fears are entertained that the fire will extend from the Foord mine to the Cage pit, half a mile away, the two mines being connected by a tunnel.

Naval Affairs.

Naval Constructor S. H. Pook has been appointed senior member, and Naval Constructors T. C. Wilson, Philip Hichborn, Frank D. Fernald and G. R. Boush members of a board for the purpose of examining the American Wood Preserver apparatus. The board will meet at the Boston navy yard Nov. 25th.

The signal corps station at Delaware Breakwater reported to the chief signal officer at Washington, at two o'clock in the afternoon on Sunday, as follows: "The three-masted schooner W. B. Chester, 498 tons register, from Kennebec, Me., bound to Washington with a cargo of hay and ice, collided with the United States man-of-war Vandalia, at 8:20 last evening, off Winter Quarter shoal. The steamer was bound to New York from Hampton Roads, and arrived at the breakwater at one o'clock this afternoon, with the wrecked vessel in tow. The Chester was totally dismasted, and the Vandalia lost her fore and main top-masts, the sails being carried away. The hulls of both vessels received slight damage, the Chester receiving the most. The Vandalia was struck on the port bow by the Chester, while the latter was running under a brisk southwest wind and going about nine knots. The former was steaming at a speed of about seven and a half knots in the opposite direction, with her topgallant masts down. The weather was thick, with light rains, and squally. No lives were lost. The schooner is now in the harbor with the crew on board. A crew from the Vandalia are also on board fixing up the rigging."

News and Notes.

Gov. Davis of Maine has appointed Nov. 25th as Thanksgiving day.

The wives of M. E. Knights and Norman Marsh, both living in Rockland, Me., and near each other, on Tuesday, Nov. 2d—election day—bore each of them to their husbands twins, boys all, and their parents have named the four children Garfield and Arthur. On Monday, Nov. 1st, Mrs. Joseph Garceion of Lagrange, Me., took it into her head to give her husband triplets, and did so, and she has named the children Garfield, Chester and Davis, they being all boys. The republican party of Maine shows a healthy growth.

Col. Drake, the first man to sink an oil well in Pennsylvania, died at Bethlehem in that state on Monday, Nov. 7th. Like the majority of the early operators in oil, he made and lost a fortune, and during his later years was supported by a pension of $1,500 a year, granted to him by the state. His first well was sunk in 1859, about a mile below Titusville, and his efforts were ridiculed, but became a great success.

A tableau after Millais' familiar picture, "The Huguenots," was part of an entertainment in the Baptist church at Cantor, Kansas. Rev. Mr. Banker, the young and handsome pastor, was chosen to pose as the male figure, but the question who should tie the scarf and be hugged was not easily settled. The pretty wife of a leading member was finally accorded that felicity. The tableau is said to have been a success; but afterward some of the sisters said that there had been a needless amount of rehearsing, the husband got furiously jealous, and the pastor resigned.

Minnesota thieves hire the best horses they can find at the livery stables, with a driver, to take them a distance of fifty to a hundred miles. When the journey has been made they leave the driver securely bound in the woods, and go off with the horses, having gained the advantage of a long start in case of pursuit.

Why He Got Left.

Not far from this city resides an elderly widow lady, a stanch democrat, but whose knowledge of political affairs does not come down much farther than the reign of Martin Van Buren. During the campaign she received a call from a lady friend, whose knowledge of passing affairs is deeper, and she attempted to book up her aged friend on the great contest waging between Garfield and Hancock. She succeeded so well that a day or two afterwards, when a son-in-law called on the old lady, she immediately opened conversation with—"I'm so sorry Mr. Hancock was beaten, but then Miss S— was in and told me all about it, how they took up a plank, and he couldn't get across." The dutiful son-in-law neglected to point out the difference between planks abstract and planks concrete.—*Newburyport Herald.*

—Mathews, of Mowryville, Ia., rises early every morning, and rings a big bell at five o'clock to awaken his workmen. Pinney, who lives close by, likes to sleep late, and he begged Mathews in vain not to sound the bell. He never goes to bed until twelve o'clock, and now at midnight he fires a cannon to disturb the slumber of Mathews. Between the midnight gun and the five o'clock bell, the inhabitants of Mowryville curse both Pinuney and Mathews.

CHRISTOPHER GERBER, Wholesale Hardware, Toledo, Ohio, says: The Excelsior Kidney Pad has accomplished more for my wife in three weeks than all the medicine she has taken in three years. Refer all skeptics to me.—*See Adv.*

A bite from a rattlesnake is sometimes not more dangerous than a severe cough or cold. A well merited reputation has Dr. Bull's Cough Syrup, and this remedy is sold by all druggists. Price 25 cents.

—A soap eating match was a recent diversion at Springfield, Ohio. The quickest devourer of a bar of yellow soap got a prize of $5. The winner performed the feat in less than an hour, but was much longer in the hands of a physician in consequence thereof, and had besides to pay the doctor $20. He thinks he can't afford to win another match.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes.* Tu,th&f,&G

Political Notes.

The New York *Herald* editorially says that "Samuel S. Morey's confession makes damaging imputations against the Democratic National Committee. It alleges that he was paid for his perjury by an officer of that committee, whose name he mentions in the document, and that he held repeated conferences at the committee's rooms on the errand of perjury for which he was imported to New York. We earnestly hope that this terrible reproach may be disproved. It is incumbent on Mr. Abram Hewitt and other gentlemen responsible for the committee's conduct, who are defiled by association with such management as is alleged in this man Morey's testimony, instantly to refute it, or, if that cannot be done, to take the lead themselves in exposing and denouncing the villiany in which they have been innocent partners."

It is said that the governors of such southern states as Missouri, Tennessee, North and South Carolina, and Louisiana, have got word from Chairman Barnum to withhold certificates of election from republican congressmen in all close districts, so that the democratic clerk of the House can make up the roll without them, and secure the organization. This would be a fine country to live in, if it were as bad as it looks sometimes.

The Richmond, Va., *State*, a democratic paper, says: "The republicans unloaded some of their rottenest timber when they dumped Ben Butler, Dan Sickles and John Forney into our democratic lumberyard, and were as glad to get rid of them as we were sorry to receive; but what could we do?"

KIDNEY-WORT

PERMANENTLY CURES
KIDNEY DISEASES,
LIVER COMPLAINTS,
Constipation and Piles.

DR. E. H. CLARK, South Hero, Vt., says: "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to act effectually."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGADON, of Rockaway, says, "One package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

SCIENCE WINS!

A Splendid Surgical Operation--
Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weaknesses peculiar to females. This wonderful medicine is now for sale by all our druggists at $1.00 a bottle.

AROUND HOME.

First Lieut. C. W. Harrold, 3d U. S. Artillery, was detailed as a member of a general court-martial which convened at Fort Schuyler on the 4th inst.

The first snowstorm of the season came on Monday; the snow fell briskly all the afternoon, but the ground was so warm that it melted as fast as it fell, except in a few places. Lots more of rain is needed before the ground "shuts."

The Strafford Guards, Capt. Abbott, of Dover, are to give a masquerade and fancy dress ball in that city, Thanksgiving eve, Nov. 24th. No effort or expense will be spared to make it the most brilliant affair of its kind that has ever occurred in that section of the state.

This evening the lyceum entertainments open with the Park club, Miss Janie Savage, the celebrated reader and elocutionist, and other talent; and the prospect is for a brilliant audience. We hope the remaining seats will be all taken to-day, for the price of tickets is so cheap that everybody ought to improve the opportunity offered.

Frank Varney of Dover point reports that some parties have entered his cellar and stolen therefrom some pork, corned beef, etc. Several other people in the same vicinity miss food and clothing, and now it is believed that John H. Canney, the "Pirate of the Piscataqua," is at his old work again. Probably this same party is the identical "Locust street ghost" who has been frightening all the women and faint-hearted men who live in the vicinity of Sawyer's Mills.—*Dover Democrat.*

An item about a big pair of boots made in this city, which started in the Portsmouth *Weekly*, we believe, has been travelling the rounds for some time, and at last appears in the Exeter *Gazette* in the following shape: "A Portsmouth boat-builder has made a sizable pair of boots for a York, Me., man. He ranks them as sixteens. They were thirteen and one-half inches in length, and five inches across the ball. Each boot took four square feet of cowhide." We presume the "boat-builder" who launched them called them "gundalows."

Mr. Editor: In your notice of the greenback "passover" you interject the query, "were there sixteen straight greenback tickets cast in this city at the late election?" Of those who went out of this particular Egyptian brick-yard, who in the wilderness did not murmur for the flesh-pots of Egypt or set up in their journey a golden calf, *nineteen are numbered* who stood by their Moses and will follow him to the promised land, as will the whole host, increasing continually, though it takes a forty years' tramp; but my faith is strong that in just one fifth that time we will come in view of the promised land, and enter into it the following spring. GREENBACKER.

Rev. W. V. W. Davis, of Manchester, supplied the pulpit of the North church on Sunday, in the absence of the pastor. Mr. Davis is an excellent scholar and preacher, and though a young man is mighty in argument. The sermon Sunday evening was a strong argument in support of the "Oneness of the Scriptures." The preacher said that though there were many different authors, writing in three different languages through a space of four thousand years, yet there was apparent a perfect unity of design and purpose—a purpose to glorify God; and that every careful reader of the Bible must be impressed with the one thought, "A most wonderful book." * * *

SUPREME COURT--CLARK, J.

MONDAY, Nov. 15th.

The court was engaged throughout the day in calling the docket.

Case State vs. Elkins was called up in the afternoon, Elkins having retracted his plea of not guilty, and pleaded guilty of murder in the second degree. Elkins made a statement to the court, detailing the occurrence of meeting Dearborn, who enquired of Elkins if he had seen Mary, (Dearborn's wife) whom Dearborn wished to have go back and live with him, (Dearborn,) as Elkins knew her. Dearborn went to Elkins' house, and Elkins was advised by one Russell not to go with Dearborn; if he did he (Dearborn) would kill Elkins. Elkins wife said she would go if Elkins went. There was much talk. Dearborn went ahead, and Mr. and Mrs. Elkins started, and saw something lying beside the road, either a juniper bush or a man. Elkins took his revolver by his wife's advice. Dearborn waited for Elkins' wife to come up. Dearborn asked Elkins how much money he had about him, and went on, as he said they had not better be seen together. Elkins cut a stick to defend himself with, as he thought Dearborn would rob him. They again overtook him, and had more talk. On going to the place where Dearborn's wife was supposed to be, it turned out that she had gone to Methuen. Dearborn came along when they had proceeded a distance; he (Dearborn) said something about staying at Elkins' house that night, but Mrs. Elkins was afraid of Dearborn. At top of a hill Dearborn stopped Elkins, and said to Mrs. Elkins, "you go ahead;" and Dearborn then said, "damn you, you have got to die," and struck Elkins. Elkins struck back, and knocked Dearborn down, and then took his revolver from his pocket and fired it three times. I went along with my wife to Peter Dow's and told them there what I had done, and went home. Elkins' account was very vloumuous, and he said he had told many what he had done, and gave himself up to Deputy Sheriff Woodman as a prisoner. He claims that he was very much excited at the time. In answer to an enquiry by the court, Elkins said he took his revolver because his wife advised him. He had had no previous quarrel with Dearborn. He had received letters from Dearborn. Had $20 with him that night. It was pretty dark, and between nine and ten o'clock at night, in a wooded place. In replied to the enquiry whether he intended to kill, he said he did it under great excitement, in self defence. He had suspected Dearborn had burned his (Elkins') father's buildings a short time before this happened. [The solicitor had nothing to remark, save that the buildings were insured the Wednesday before being burned the same week, and Dearborn was killed Saturday night, and that Dearborn and Elkins were both suspected of being guilty of this burning.] Dearborn stuck at Elkins with his whip. There were no scars, but blood, on Elkins' face. After he had smashed the head of Dearborn he reached down, found Dearborn's hair, and then fired three shots at him. When previously passing the ruins of his father's house he remarked that Dearborn would never burn another house for him, and also that he thought Dearborn's brain wanted regulating and he would regulate it. Elkins admitted in answer to the court's enquiries that he did so fire three times. Other statements of Elkins were recited.

Mr. Frink said a few words in behalf of the respondent, alluding to the candor with which the prisoner had made his statement, and said there was no motive save self defence in Elkins' conduct. He denies that he participated in or was privy to the burning of his parent's] building. What was done was done under an excitement beyond the control of his passion or thoughts. He is of previous good character. Dearborn was a bad man, and this is why the respondent perhaps used more violence that was absolutely necessary; and he trusted that after the service of his term of imprisonment he would become a useful member of society.

The sentence of the court was, confinement at hard labor in the state prison for twenty years.

BUFFALO BILL.

Buffalo Bill arrived in town Monday forenoon, and rode through the principal streets with a band-wagon on the lead, and followed by a boy on a jackass and three terrible-looking Indians on horseback, the rear being brought up by another white man on a horse. Whether the Indians are the genuine article or not we cannot say; certainly they looked bad enough to be; but Buffalo Bill is a fine-looking man, and he and the other white rider in the procession know how to sit a saddle. The cavalcade was accompanied about the city by a throng of boys, every one of whom probably looked upon the noted scout and frontiersman as the greatest man on earth.

There was a large audience at Music hall in the evening, and the performance of the "Prairie Waif" seemed to please everybody, and to give the boys unalloyed delight. Mr. Cody has improved greatly as an actor since he last appeared here, and is well supported.

An old acquaintance, Mr. Josh. E. Ogden, the business manager of the combination, was here with the company, and found a hearty welcome from many friends of former days.

RYE CELEBRATES.

The campaign inaugurated by the National Republican Committee in Washington some months since, was virtually closed in Rye last Friday evening. Although Rye is a city of decided democratic proclivities, the old guard entertained the opinion that the recent victories were not of a character that would warrant a public display; they left the field therefore to the republicans, who proved themselves competent masters of ceremony. And this was the way they did it.

At eight o'clock Friday evening the shades of Breakfast hill were startled by a salute of one hundred guns fired by a detachment of Sides' Light Battery in charge of its commander, assisted by Col. T. E. O. Marvin. A sixty-mile gale carried the welcome racket to head quarters, two miles distant, where a line of battle was formed under the chief marshalship of Maj. Con. O. Philbrick. The first gun being the signal for starting, troops moved in the direction of Breakfast hill without delay, inspired by the music of the Rye cornet band, and the glare of gleaming torches. A vigorous fusilade from Capt. Taft's signal corps welcomed them as they approached the hill, and for a time the air was ablaze with rockets, Roman candles, and the blaze of artillery. As the last gun was fired the line of march was resumed, returning to the town hall, the troops escorting visiting friends who were provided with a four-horse ambulance.

The procession halted at the residence of Mrs. M. Parry Jones, whose hospitality was put to a severe test. The elevated position of Mrs. Jones' mansion, together with its elaborate adornment, made it a conspicuous object for miles around, being profusely decorated with colored papers and lights, candles and Chinese lanterns.

On arriving at the town hall, the guests, who had been promised a collation, were agreeably surprised to find a supper. Those who have before partaken of the bountiful hospitality of the people of Rye, and have been welcomed thereto by Hon. Emmons B. Philbrick, will readily comprehend the yet unfathomed depths of the one, and the hearty cordiality of the other; and if the statement is made that the banqueters ceased only from surfeit, and that the table yet presented no signs of depletion, the picture will still be familiar.

It *was* a savage attack. Why, those hungry fellows from Portsmouth—ah—but the injunction "Let him who is without sin cast the first stone," holds good here, and we forbear.

After supper came speech-making and dancing, grave dames and rosy maidens participating. "Toilets?" yes, of course; but what they were, or whose they were, this writer knows not. Everybody was happy and contented, and that is enough.

We were bidden to "come home early," which instruction we dutifully obeyed, somewhere about one or two o'clock.

The only thought which disturbs our otherwise unalloyed satisfaction is that our kind friends in Rye may view our appreciation of the banquet as a raid of lenten ascetics who were availing themselves of a plenary indulgence just bestowed, and momentarily in danger of being recalled, and will not invite us again. However the gentlemen of the cable staff were *particeps criminis*, and we will stand a fall with them. PILGRIM.

YORK COUNTY ITEMS.

The leather-board factory at Kennebunk recently sent a ton of shoe-counters to Strasbourg, Germany.

The Biddeford *Times* says: "Diptheria is raging not only in all parts of this county, but our exchanges speak of its prevalence all over the state."

Mr. John Drew of South Berwick has removed the debris of his old saw-mill, recently burned, and laid the foundations for a new one. He hopes to have it in running order soon.

Charles York of Biddeford, recently pardoned out of the State prison, was found dead in a tenement house in that city on Saturday. It is supposed that he was in some way suffocated while drunk.

The insolvency court for York county will hereafter be held on the Wednesday following the first Tuesday of each month, or on the day following the probate court, instead of on the first Wednesday of each month, as heretofore. Those interested will do well to remember this, as December commences on Wednesday.

The republicans of Kittery had a social celebration of the great national victory which Maine helped to gain, on Friday evening of last week, when Trefethen's and Hayes' halls were thronged with citizens of the town and their lady friends, a choice supper was partaken of by all comers, and the celebration wound up with a dance.

The way of the liquor dealer is hard, in Biddeford and Saco. On Wednesday of last week the officers seized thirteen gallons of liquor from a freight car at the Eastern depot in Biddeford, and nine gallons of whiskey and some lager at the Boston & Maine depot; and next day they captured twenty gallons of whiskey at the latter depot. Thursday morning, between three and four o'clock, a deputy sheriff who was on the watch saw a freight train stop at the Alfred road crossing, and deliver a number of kegs to two men in a team; the officer gave chase, and the fugitives threw several kegs out of their wagon to aid their escape, which they effected. One ten-gallon keg of whiskey was picked up by the sheriff, and another was found by a workman on his way to work in the morning, who confiscated it.

FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have known cases where a single dose has been effectual.

St. JACOB, M. D., St. John, N. B., writes:

"I had occasion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expedition and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

WHIPS! All qualities and prices; LARRABEE'S, 29 Congress

For diarrhœa, bloody-flux, cramps and colic, whether affecting adults, children or infants, Dr. Pierce's Compound Extract of Smart-Weed is a sovereign remedy. It is compounded from the best brandy, Jamaica ginger, smart-weed, and anodyne, soothing and healing gums. For colds, rheumatism, neuralgic affections, and to break up fevers and inflamatory attacks it is invaluable and should be kept in every household. Fifty cents by druggists.

Edward Haggerty of Brooklyn, N. Y., a wealthy glass manufacturer, died on Sunday from the results of a pistol shot wound received while examining a pistol.

Neuralgia.

It has been assertained that the most inveterate cases of neuralgia are cured by Fellows' Compound Syrup of Hypophosphites.

A girl named Grady, on a visit at Newport, R. I., from New York, was horribly mangled about the head Saturday morning, by a ferocious bull-dog. She went into a store to purchase a stick of candy, when the dog jumped upon her and would have torn her to pieces but for the bystanders. The dog was promptly killed. The child is now in a critical condition.

H. RICHARDSON, Sac and Fox Agency, Indian Territory, says: The "Only Lung Pad" has restored me to health, and I shall be glad to recommend it to any one. —*See Adv.*

The examination of Willie Sprague, son of Ex-Gov. Sprague, charged with shooting at Robert Thompson, was held at Wakefield, R. I., Saturday. The testimony of the prosecution was that young Sprague deliberately fired at Thompson, but the defence showed that the boy was merely discharging the pistol in the air and that it was not loaded with anything but powder, and Willie was discharged.

Excite the appetite, regulate the stomach and increase the flesh.—Malt Bitters.

Perfectly Ridiculous.

In an evangelical church in a prosperous eastern town, a young woman conceived a sudden desire to become a Sunday school teacher. She seemed to have no special fitness for the work, but it was "the thing" in that church to be connected with the Sunday school. So an obliging and amiable superintendent placed her at the head of a class of boys. She had been most emphatically a girl of the period, devoted to fashion and extreme social galieties and festivities, and it was a source of much wonderment and remark from what experience in life she could draw truths that would edify the lambs of the flock. One Sunday somebody overheard her talking to her class after this fashion: "Now, children, if you'll be good children—read your bible, say your prayers, go to church, and never say naughty words—you'll go to heaven, and that will be *perfectly splendid!* But if you are not good children—if you don't read your bible, and say your prayers, and go to church, and if you do say naughty words—you'll go to hell, and that will be *perfectly ridiculous.*"

A Skeptical Shareholder.

A speculator who has involved his faithful shareholders in no end of disasters summons them to a meeting at which he reveals to them his intention of letting them in—on the ground floor—to a scheme in which there are millions.

The lucrative speculation, he explains, is a silver mine of unexampled richness situated in an unexplored country.

A shareholder (timidly)—"But I say, we want to know if it really exists?"

Speculator (indignantly)—"What really exists? the mine, sir?"

Shareholder (apologetically)—"No, the country!"

An Elaborate Costume.

A Boston paper says: "There was considerable excitement behind the curtain recently at the Howard and for a time it was feared the play of 'Mazeppa' could not go on. The reason was the mysterious disappearance of the costume which the star wears in her wild ride over the steppes of Tartary. After a long search it was found hidden away in the toe of one of the lady's shoes, where it had been placed by some malicious member of the company."

An Echo.

Some years ago a very fine echo was discovered on an Englishman's estate. He was proud of it, of course, and excited considerable envy by its exhibition. A neighbor, who owned an adjoining estate, felt especially chagrined, but was greatly encouraged by an Irishman, who went over the lands with the hope of finding one elsewhere. He declared himself successful in finding the most wonderful echo ever head, and he stood ready to unfold his secret for a very large sum of money. The nobleman listened to the echo, and, although there was some thing peculiar about it, he paid his money. An afternoon was set for his friends to come and listen to the marvellous discovery.

"Hullo!" cried in stentorian tones the Hibernian who had promised to find an echo.

"Hullo!" came back from the hillside yonder.

"How are you?" yelled one of the company, and an echo answered; in a suspiciously different key:

"How are you?"

All went well, until just before retiring, one of the company, putting his hands to his mouth, cried:

"Will you have some whisky?"

Such a question would discover the character of any reasonable echo. It was certainly too much for the one which had been discovered on that estate. Judge of the surprise of the party when the answer came back in clear, affirmative tones:

"Thank you, surr, I will, if you please."

The poor fellow who had been stationed as an echo simply succumbed to too great a temptation.

—Hard pressed for money—Gold and silver bullion.

—Knowledge is better than wealth, yet how many people there are in this wicked world who prefer the inferior article.

TRADE MARK DAY'S Kidney PAD

A discovery which cures by the natural process.

ABSORPTION.

all diseases of the Kidneys, Bladder, Urinary Organs and Nervous System, when nothing else can. It is comfortable to the patient, positive in its effects, and free from all those painful and much dreaded affections.

Diabetes and Bright's Disease,

while its cures of Gravel, Dropsy, Catarrh of the Bladder, Pain in the Back, Loins and Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, violations of nature and mental or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth or to close application to business or work, may be restored and manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment well tried and proven ineffectual, though sometimes affecting apparent cures of one complaint, they sow the seeds of more troublesome and permanent disorders. The price of our Pad brings it within the reach of all, and it will annually save many times its cost in doctors bills, medicines and blasting, which at best give but temporary relief. It can be used without fear or fear, and with certainty of a speedy cure. For sale by druggists generally, or sent, by Mail (free of postage) on receipt of the price, Single Pad, $1.00; Child's Pad (for incontinence of urine in children), $1.50. Special circulars, sent free. Our book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures, sent free, by Mail, for 10c. Address

THE New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be relieved and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION; Exhausted Vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains 300 pages and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervous and all kinds and its affections, whether due to permicious habits or inherited. He is a Nervo-specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. dm&th &sinov80

A Potato Boom.

A California inventor has made a machine for pressing and drying potatoes so that they will keep for years, yet preserve their natural flavor. No chemicals are used in the operation of curing, everything being done by a simple machine capable of pressing 600 bushels of potatoes in one day. The machine not only presses the potatoes, but lays them on a tray in a concave form, with the hollow side down. After the pressure they are put into a drying apparatus, where they remain for two hours; then they are ground into coarse meal, resembling cracked rice. The first shipment of these preserved potatoes to Liverpool, last year, brought a large profit. The average price of potatoes in San Francisco is about twenty-five cents a bushel. Dried, they brought in England forty-five shillings a hundred weight, or at the rate of a dollar and a half a bushel for green potatoes. This year preparations are being made for drying and shipping large quantities. It is said that there are 300,000 acres of uncultivated land on the western slope of the Coast Range, near San Francisco, especially adapted to potato growing. The fogs and mists from the ocean supply sufficient moisture, and the soil yields bountifully. The only problem heretofore has been where to market the product.

A Basin Story.

Here is a story they are telling just now in London of a troop ship: In the ladies' cabin there were four wash-basins, one of which was much larger than the others. There were three ladies in the cabin whose husbands were about equal in rank. The women always think they have a right to presume on the rank of their husbands when taking choice of berths, etc., and there was a great discussion as to who was entitled to the big basin. It was referred to the paymaster of the ship, who could settle nothing, and eventually to the captain. He gave a decision worthy of Solomon. After first asking them if they would abide by his verdict, and not give any more trouble in the matter, which they readily agreed to do, he said he thought it was only fair that the oldest lady should have the biggest basin. That basin was never used during the whole voyage out.

A world of Good.

One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whisky drink. It is more like the old fashioned bone-set tea that has done a world of good. If you don't feel just right try Hop Bitters.—*Nunda News.*

James P. Flannigan of St. Louis shot T. Laughlin, an engineer on the Wabash railroad, dead, and fatally wounded D. Laughlin, his brother, alleging that they had not paid Flannigan for drinks in his saloon. Flannigan was arrested.

We clip the following from the Troy, N. Y., *Times*: "Letters pour in daily, sometimes by dozens, scores and hundreds, to Dr. David Kennedy of Rondout, N. Y., in grateful acknowledgement of the great benefits received from his "Favorite Remedy." These are all read with care and interest by him, as they frequently illustrate the power of the medicine in some new, and perhaps, hitherto untested phase of operation. But it is when a sufferer comes miles to tell the story of his deliverance in person, to grasp the doctor by the hand and greet him as a true and valued friend, that the interest in his case deepens and multiplies."

Daniel Troutman fired at a burglar at his bedside Sunday night in Uniontown, Penn. The burglar fired back, killing Troutman instantly, by the side of his wife. Henry Romberger was arrested as the murderer, being identified by Troutman as he died.

It gives me pleasure to say that Adamson's Botanic Balsam cured me of a serious cold to which I have been subject, especially during the winter months, and I have in many instances recommended it to my friends, and all have been benefited by its use. We think it has no equal as a cough mixture. U. L. PENNIGROTH, No. 10 State St., Boston.

A strange feature of the Boston produce market is that good straw brings a better price than the best hay, being now worth $24 a ton.

Truly wonderful in nervousness, general debility, emaciation and dropsy,—Malt Bitters.

In St Petersburg, Russia, ordinary rye bread has risen to double the original price. Great scarcity exists in various provinces, which the American competition in wheaten flour obviously fails to meet.

Many people suffer, and know not what ails them. Try D. R. V. G. If no benefit is received, your druggist will refund the money.

The withdrawal of one and two-dollar notes from circulation by the national banks, as required by law, has at last created a demand for silver dollars. It is understood that Secretary Sherman will recommend the permanent retirement of the greenbacks of these denominations, and the coining of 100 millions of silver dollars.

Delays are dangerous in diseases of the kidneys. Day's Kidney Pad is the sure cure.

Naval Affairs.

The United States steamer Galena, from Hampton Roads, arrived at Baltimore on Sunday, Nov. 14th.

The Vandalia, from Fortress Monroe via Delaware breakwater, arrived at New York on Monday.

Lieut. Comdr. A. G. Kellogg is ordered to examination for promotion.

News and Notes.

Adolph Main, a colored sailor on bark Annie Camp, has been held for the action of the grand jury by United States Commissioner Shields in New York. Main is charged with murdering John Smith, the boatswain of the vessel, in August last, on the high seas, during the passage of the vessel from New Orleans to Havre.

It is announced from South America that Chilian forces are ravaging the north of Peru. The towns and villages visited are laid under contribution, and refusal to comply with the terms of the invaders is followed with fagot and torch. The people are filled with alarm, and fly before the Chilians. Scarcely a shot is fired against them. Following the Chilian force are hundreds of Chinese who were lately employed on the haciendas recently visited by the Chilians. This horde completes the work of rapine and plunder begun by the invaders.

The Cuban minister of the interior has addressed a circular to the governors of provinces warning them that an agent had started from New Orleans for Spain to contract for Spanish emigrants to go to Louisiana to work on the plantations, at wages too low for living expenses.

Of a million tons of ice put up on the Kennebec and vicinity the past winter, there now remains about five thousand tons. All of this will probably be shipped before the river closes. Prices have ranged from $1 to $8. The price is now about $1. It is predicted that if there is another favorable winter, the amount of ice put up will largely exceed anything before known in the annals of the business.

The two hundreth anniversary of the establishment of a provincial government over New Hampshire by the king of England, occurs this year. Although English settlements began as early as 1623, under the auspices of Gorges and Mason, then joint proprietors of all the soil lying between the Merrimac and Kennebec rivers, no government was settled over the people in the limits of New Hampshire by royal authority, before 1680. In 1640 Massachusetts Bay seized upon the soil of New Hampshire, then solely belonging to Captain Mason, claiming it to be within her charter, and annexed it to the old county of Norfolk, under her jurisdiction, where it remained till 1680, when it and its inhabitants were detached and made a royal province. The people of the state have resolved to take proper notice of this bi-centennial anniversary. The New Hampshire Historical Society are making arrangements for a celebration to take place some time next month.

Political Notes.

"It will be a happy day for the democracy," says the Boston *Post*, "when both Tammany and Irving halls are blown to the four corners of the earth."

At the late election in Nevada the question of Chinese immigration was submitted to the voters, and from appearances those opposing the coming of the Mongolians predominate in about the same ratio as was made apparent by the vote of California on the same question two years ago. Official returns from Storey county foot up 5,114 against, and thirteen in favor.

It is probably well that the national committee decline to entertain "jurisdiction"—that's a good word—over frauds in New York and elsewhere. It is an easy way to shirk a bad job, and is substantially saying to the country that Garfield is fairly elected and must be inaugurated. Whether fairly elected or not, that he will be inaugurated there appears to be no doubt. The national committee so concede, and we don't know who can prevent it. Brethren, please stand back a little and not get in the way of the republican procession.—*Dover Democrat.*

Association of Old Maids.

The Old Maids' Association of Geauga county, Ohio, had a picnic on the lake recently, and mustered eighty-six souls. This society was an outgrowth of the war, and was organized in 1862 by a bevy of young ladies whose brothers and sweethearts were fighting for their country, and left them without the resources of male escort, except the laggards who remained at home. Unwilling to accept the gallantry of these young men, the young ladies preferred to depend upon themselves, and formed the association mentioned. Out of revenge the gallants dubbed these independent damsels "old maids," and they accepted the cognomen and made it their own. A humorous constitution and by-laws were drafted by Mrs. C. E. Henry, then a single young lady, and one of the founders of the institution. Man was declared the "common enemy," and one of the chief objects of the society was a continued war against his advances. He was religiously excluded from all meetings, and a special clause of the by-laws said that any member who should marry should be fined one hundred big copper cents, and should be branded with tar on the soles of her feet, "U. D. I.," meaning "up and done it." The beautiful consistency of woman's nature will be appreciated when it is known that every one of the charter members, and nearly all of eligible age since, are married.—*New York Tribune.*

A Large Meteor.

Persons in this city say that an unusually large and brilliant meteor was visible here last Tuesday night. It moved from the west toward the east and finally disappeared behind a bank of clouds. This was probably the same that fell to the eastward, near Winnemucca, the same night, and in regard to which the *Silver State* says the following: "Last Tuesday night about 11 o'clock, as John Seeley, a cattle man, was coming to Winnemucca, while in the vicinity of Rose creek, some twelve miles south of town, a ball of fire passed across his pathway with the seeming velocity of a cannon ball. It struck the ground at an angle of several degrees from the horizon, some two or three hundred yards ahead of him, and plowed a furrow for several hundred feet through the sagebrush, raising quite a dust. Mr. Seeley, when he recovered from the fright caused by this singular phenomenon, tied his horse to a sagebrush and followed up the track of the blazing ball, and found it to be an iron-colored ball as large as a wash-tub, and so hot that it set fire to the sagebrush. It now lies about a mile and a half from Rose creek station, and about half a mile eastward from the Italian's wood-pile.—*Virginia (Nev.) Enterprise.*

She Disgraced The Family.

A traveller in the state of Illinois came to a hut on the prairie, near Cairo, and there halted. He went into the house. It was a wretched affair, with an empty box for a table, while two or three old chairs and disabled stools disgraced the reception room, the dark walls of which were further ornamented by dirty tin ware and a broken shelf article or two. The woman was crying in one corner, and the man, with tears in his eyes and a pipe in his mouth, sat on a stool, with his dirty arms resting on his knees, and his sorrowful looking head supported by the palms of his hands. Not a word greeted the interloper.

"Well," he said, "you seem to be in awful trouble here; what's up?"

"Ah, we are almost crazed, neighbor," said the woman; "and we ain't got no patience to see folks, now."

"That's all right," said the visitor, not much taken aback by this polite rebuff; "but can I be of any service to you in all this trouble?"

"Well we've lost our gal; our Sal's gone off and left us," said the man in tones of despair.

"Ah, do you know what induced her to leave you?" remarked the new arrival.

"Well, we can't say stranger, as how she's so far lost as to be induced, but then she's gone and disgraced us," remarked the afflicted father.

"Yes, neighbor, and—not as I should say it as is her mother—but there wan't a pootier gal in the west than our Sal. She's gone and brought ruin on us and on her own head, now," followed the stricken mother.

"Who has she gone off with?" inquired the visitor.

"Well, there's the trouble. The gal could have done well and might have married Martin Kehoe, a capital shoemaker, who, although he has got but one eye, plays on the flute in a lively manner, and earns a good living. Then, look, she was surrounded by all the luxury in the country," said the father.

"Yes, who knows what poor Sal will have to eat, drink or wear, now?" groaned the old woman.

"And who is the fellow that has taken her into such misery?"

"Why, she gone off and got married to *a critter called an editor*, as lives in the village, and the Lord only knows how he aims a living!"

Her power was reduced by force of personal charms. She led the "lords" captive whenever she talked "pretty" to them and showed her teeth. History should tell us that she used SOZODONT, but it don't. The preparation she used might have had another name then.

Mrs. Winslow's Soothing Syrup.

REV. SYLVANUS COBB thus writes in the *Boston Christian Freeman*:—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural and the little cherub awakes as "bright as a button." And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething siege, on any considerations whatever. Sold by all druggists. 25 cents a bottle. 5

A Fortunate Man in Avoca.

In the peaceful town of Avoca, Pottawattomie County, Iowa, Mr. Stephen Jackson, attracted by the always reliable promises contained in the advertisement of the Louisiana State Lottery, forwarded by mail one dollar previous to the drawing of October 12th last, and was surprised when he found that ticket No. 32,198—of which he owned one-half—had drawn the fourth capital prize of $2,500, which he promptly collected through Messrs. J. & W. & E. W. Davis, Private Bankers of Avoca—and now rests in hope of doing so again. The next chance may be yours, if you remember that the Grand Extraordinary Semi-Annual Drawing with $522,500 in prizes takes place on Tuesday, December 14th, and of which M. A. Dauphin, No. 319 Broadway, New York City, or same person at New Orleans, La., will give full information.

SCIENCE WINS!

A Splendid Surgical Operation--
Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy, removal of stone from the bladder, one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY. Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures constipation of the bowels, and all those diseases and weakness peculiar to females. This wonderful medicine is now for sale by all our druggists at $1.00 a bottle.

AROUND HOME.

A Cape Ann firm have taken the old fish-yard at Newcastle, near the Great island end of the breakwater, to carry on the fish business.

Thomas Dalton, who is a voter in Exeter, showed his interest in the election by walking about a mile and a half to the depot in Boston, and coming to Exeter, where he deposited his ballot, though he was obliged to return the same afternoon. Mr. Dalton is ninety years of age, and his ride of one hundred miles and his walk of a mile and a half would have done honor to a much younger man. Mr. Dalton voted the straight republican ticket.

The railroad commissioners of Massachusetts have made a report in the matter of the recent accident on the Eastern railroad at Lynn. They find that the signal ball was down at the time, by its position indicating that the track was obstructed; that the engineer of the Portland train was guilty of gross negligence in not observing the position of the signal ball; that the signal man was guilty of gross negligence in hauling down the ball and blocking the track when the Portland train was due; that the engineer of the Saugus train was not as watchful as was required; and they recommend the discharge of the three employes. They also recommend suspension of the fireman of the Portland train, and the adoption of a system of interlocking switches and signals at the Lynn yard.

The managers of the Lyceum course have received a letter from Haines Bros. of New York, in which they offer to give an elegant Haines piano to the lyceum ticket-holders, to be disposed of in such manner as they may see proper. It was announced Tuesday evening (at the first entertainment,) that tickets with reserved seats would be sold at one dollar for the remainder of the course, and if five hundred more were purchased, they would give the piano to the lucky individual drawing it on the last evening of the course, when the managers would ask the appointment of a committee to be selected from the audience, to decide in what manner the piano shall be drawn. In case the five hundred tickets to the course are not sold, then an elegant gold watch will be given in place of the piano. The piano is one of Haines' seven hundred and fifty dollar ones.

Rev. Henry Ward Beecher in a recent sermon thus alluded to a gentleman's family well known in Portsmouth: "A noble old captain—Captain Knight, of the New World—with whom I crossed the Atlantic ocean, was one of a very large family of children. He and all of them were very high spirited. They were just such children as neighbors say will come to the gallows. He said that every one of them came to honor in manhood; and that it was owing to the faith of their father and their mother, who used to say in their hearing, again and again, 'My children cannot turn out badly; all of them are bound to turn out well. I *know* they will.' He said that in a hundred instances the hope of his father carried him over temptations; and every one of those children heard ringing in his ears, 'Father's children cannot turn out badly; they must turn out well.'"

BOYS IN BLUE

The Boys in Blue will have a business meeting at their armory to-night to close up the business of the campaign. A large delegation will go to Eliot to participate in the republican demonstration in that town. Transportation by steamer free. Comrades are ordered to appear in uniform with torches.

A LESSON IN POLITICS.

The defeat of T. Salter Tredick, Esq., the republican candidate for state senator in District No. 24, is a source of regret, because the majority in the district is republican. The result was brought about by a few men scratching their ballots. There certainly could have been no real, tangible objection to Mr. Tredick. He has well represented his ward in the house of representatives. He is an honorable gentleman, and an intelligent legislator. He had no selfish purposes to serve in being the candidate for the office, and he should have been chosen. His defeat, so much regretted by the republicans all over the state, was the result of a few voters taking his name from their ballots,—not in the belief, we must suppose, that thereby he would lose his election, but from sheer wantonness. Mr. Tredick, while working for the success of the general ticket, made no efforts to obtain votes for himself personally above other candidates on the same ticket. Regularly nominated by a convention comprising some of the best men in the district, he had no reason to suppose that any defection would appear at the polls. His opponent is one of the best men his party could have put in nomination, and he may have drawn some votes from our candidate; but it seems that on the occasion of the recent election, when every vote was of consequence, men should not have been so unmindful of the fealty they owed to their party as to erase a name from the ticket. It ought to be a lesson to every republican voter, on a point concerning which they might take a teaching from the democrats, to vote the entire ticket, for no republican in the district who omitted to vote for Mr. Tredick can feel that he performed his whole duty at the late election.

A PLEASANT OCCASION.

On Monday evening a delegation from Boston Commandry of Knights Templar (consisting of Sir John L. Stevenson, Gen.; Sir Eugene H. Richards, S. W.; Sir James M. Gleason, J. W.; Sir Z. H. Thomas, R.; Sir W. E. Bunton, Ward.; Sir Eugene A. Hutton, G.; Sir Edward Coggins, G.; and Sir A. A. Folsom and Sir W. J. Stevens, members,) visited De Witt Clinton Commandry for the purpose of presenting to them a testimonial of regard for the knightly courtesies shown the Boston Commandry during their visit to this city in June last. The testimonial consisted of a series of resolutions beautifully engrossed on parchment and surrounded with scroll work, the whole enclosed in an elegant ebony and gilt frame inlaid with Templar devices. The presentation speech was made by Gen. Stevenson of the Boston Commandry, and responded to in a feeling manner by the Eminent Commander of De Witt Clinton Commandry, after which there was a general interchange of sentiment by nearly all the members of both commandries. The committee from Boston Commandry were accompanied by Sir Andrew Bunton, E. C., and Sirs Olzendam, Varney, Runkin and Rowell of Trinity Commandry of Manchester. After the closing of the exercises at the Asylum, the visiting Sir Knights, with some of the members of De Witt Clinton Commandry, repaired to the Rockingham house, where they were royally entertained by Sir Chas. A. Sinclair. The visitors left by the early train on Tuesday morning.

SUPREME COURT--CLARK, J.

TUESDAY, Nov. 16th.

In cases number one and number two, Pickering and wife and Nutter and wife vs. DeRochemont, the report of the referee finds a sum due the plaintiffs. Upon this a law question is reserved, and the cases were continued.

Leander W. Coggswell, bank commissioner, vs. Rockingham Ten Cents Savings Bank. On petition of James F. Jenness, who claims to be a special depositor under the law and thus entitled to receive the amount of his deposit in full, and that he should not be classed with the general depositors, who are entitled to a dividend only. Petitioner offered evidence, and was heard. Wm. H. Hackett for petitioner; Calvin Page for bank. Decision reserved.

The court was occupied in disposing of cases upon the docket, and in hearing a case on the equity docket. The state docket was called, and several actions dismissed. Case State vs. Ingalls, the alleged defaulting town treasurer of Candia, which was expected to have been tried at this term, was dismissed.

After disposing of sundry motions, the court at four o'clock adjourned without day,—thus closing the shortest and least expensive term that has been held for many years. During its progress there has been no disagreement among the jury, a verdict having been obtained on every case submitted to them.

Judge Clark will be in town on Saturday next to hear the case of Portsmouth Trust & Guarantee Co. vs. City of Portsmouth, wherein a question of taxation is involved.

DEA. COTTON W. DRAKE.

Very seldom do we chronicle the death of a man so respected by every acquaintance, and so honored by his intimate friends, as the late Dea. Drake of Rye.

A plain farmer, holding no political office, unless his prominence in the church may be so called, he was not only known by leading men of this city, but many a governor and high official of past generations has taken him by the hand, and felt honored by the confiding respect of a man of such sterling character.

Born in the year 1801, he came in with the century, and with all the wonderful advancement of the age he kept full pace. Early having the care of a growing family and an aged father, he devoted himself to their comfort, and the improvement of the homestead; and evenings when most men would have yielded to nature's call for rest, he gave some time to the literature of the day, and there was never lacking an intelligent comprehension of all the important topics of discussion, as well as modern improvements in agriculture.

A quiet man, tender and true, he always held the pleasantest family relations, while all who knew him remarked the even temperament and the ever-ready, pleasant word. The young may find him an example in his delicate sense of honor, strict regard for justice, sterling honesty and truthfulness, to which was added a firm trust in God, as shown by his every act in life, and the patient waiting at its close. If we are sure of anything in the next world, we know he has gone where the just have their reward. COM.

YORK COUNTY ITEMS.

The schooner Grace Choate went on the marine railway at Kittery, Tuesday noon.

Samuel W. Jenkins of York has been appointed a notary public by the governor of Maine.

The navy yard ferry steamer Emerald is taken off for repairs, and the steam launch is temporarily running in her place.

Work on the U. S. S. Lancaster, on the ways at the navy yard, is progressing rapidly. A considerable force of calkers is at work upon her, and she now looks very much like a ship. She will be ready to take the water some time next spring, and will then be a better vessel than when she was first launched.

The sloop C. T. Denny, belonging to the contractors for the removal of Gangway rock, was on Tuesday towed to a berth near the rock, preparatory to putting in position next day another "bandstand" in place of the one carried away by the tide some days ago. Several heavy sticks of white oak timber for the band-stand were on Tuesday brought down from the steam saw-mill of G. McQuesten & Co. at East Boston, one of them being forty-three feet long and thirteen inches square.

Steamer Mystic, Capt. Rashe Trefethen, started from Kittery at noon on Monday to run to Boon island, to carry out some of the lighthouse people who had been on shore. She touched at Kittery point to take in her passengers, picked up the island in good shape notwithstanding the thick snow storm then prevailing, landed her passengers and their gear, and arrived back at her wharf at 4:15 o'clock P. M., in ample time to make her "workmen's trip" from the navy yard in the evening. While running in shore to make the land, after leaving Boon island, the wreck of a small vessel was sighted off York ledge, bottom up.

—The bridegroom of a Waukegan, Wis., wedding was a Baptist, and the bride a Methodist. They had agreed that, immediately after the ceremony, they should decide by chance which should embrace the other's religion. The officiating clergyman declined to toss up a cent, partly because he would not countenance such a proceeding, and partly because, being a Methodist, he might be accused of fraud if the bride won. The bride herself finally threw the coin, and lost. When she went to join the Baptists, however, they rejected her because she did not believe in close communion. That displeased the husband, and he went over with her to the Methodists.

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again, and I am glad I did, for in less than two months use of the Bitters my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

The wife of Samuel Davidson was found murdered in the porch of his residence at Wyanoke, N. J., Sunday morning. Her husband was in the house all night, but says he does not know who committed the crime.

Beware of Alcoholic Bitters,

Thousands have been ruined for life by drinking popular nostrums, the principal ingredient of which was alcohol. Such "bitters" are deceptive in their effects; they cause intoxication and temporary relief, while they foster the drunkard's appetite. Dr. Kennedy's "Favorite Remedy" contains no alcohol. It does not heat and inflame the blood; it cools and purifies it. Better than this even, it has cured a raving appetite for drink. It will do you good, not evil, all the days of your life. All druggists sell it. Dr. David Kennedy, Proprietor, Rondout, N. Y.

R. A. Osmer, of Jamestown, N. Y., supreme treasurer of the Knights of Honor for the past four years, and a leading and influential citizen, died at Atlanta, Ga., Nov. 15th, of consumption.

"Keep a reliable friend always at hand," such Dr. Bull's Cough Syrup has eminently proven itself to be. Thousands of testimonials. Try it. 25 cents.

Lieut. Col. Miller of Granby, Quebec, was thrown from his carriage and killed, and his wife badly hurt, last week.

D. R. V. G. is a purely vegetable compound; will do all is claimed for it. See other column.

A Mrs. Holson of Milford, Penn., is not easily depressed by defeat. She gave birth to twins the other night, and named them Hancock and English.

Cleansing, purifying, strengthening and nourishing beyond all others are Malt Bitters.

Hanlan Again Victorious.

The great boat race between Hanlan of Canada and Trickett of Australia was pulled on the Thames, Monday, and was easily won by Hanlan by three lengths. At the close Trickett appeared much distressed, while Hanlan was quite fresh. During the race Hanlan repeatedly stopped rowing, chatted with Elliott, who was rowing alongside, washed his face, and could have won by half a mile had he chosen. Hanlan started in the race at thirty-five strokes to the minute, Trickett pulling forty-one. The time of the race was twenty-nine minutes and nine seconds.

Books, Magazines, Etc.

"The American" is the title of a new national weekly journal of politics, literature, science, art and finance, recently commenced in Philadelphia. The managing editor is Mr. W. R. Balch, well known in New England as one of the most energetic and capable young men in the profession. The list of contributors embraces the names of many able writers; and the tone of the paper, the excellence of its make-up, and the evidence that it understands that of which it undertakes to inform the world, convinces us that it will be a favorite all over the land. It is published at 726 Chestnut street, and already has a large circulation. It is of convenient size and attractive in its mechanical appearance, and will prove a welcome weekly visitor; and it will discuss, we have no doubt, the topics of the day from an unbiased standpoint.

"The Folio" is certainly one of the cheapest musical publications in the country, each number containing from seventeen to twenty pages of music and ten or twelve pages of musical news, with a lithograph portrait of some musical celebrity. Now is the time to subscribe for 1881; price $1.60 per year. Published by White, Smith & Co., 516 Washington street, Boston.

"Appleton's Journal" for December contains a novelette from the German, entitled "A tree in Odenwald," that is eminently readable. There is a brilliant anecdotal paper on Alexandre Dumas the elder, which of itself is worth the price of the number. Then we have a long review of the concluding volumes of McCarthy's "History of our own times," and a review of "Sectional fiction," meaning "A fool's errand" and other novels of its class, that is notably searching and pungent. There is a graphic sketch of "Paris before the revolution," and an interesting article called "The roof of the world," describing the adventures of Lieutenant Wood in crossing the Hindoo Koosh, and exploring the hitherto unknown region of the upper Oxus. A. J. Faust writes entertainingly of "Memory." Grant Allen discusses "The dog's universe," in an article that is both scientific and popular; Mr. Connolly reveals to many readers an Irish poet, Clarence Mangan; and we have some anecdotes of English rural life. The editor defends the public schools against the assaults of Mr. Richard Grant White in the *N. Y. Times*, showing that the evils Mr. White deplores are common to all classes, and the age generally. The magazine is published monthly, at twenty-five cents per number, or $3.00 per annum, by D. Appleton & Co., New York city.

—Sergeant Childers, who was known to fame as "the best drilled man in the world," was recently killed while hunting near Koshkonong, Wis., and was buried with military honors at Janesville, Wis. Childers was the man whom Jim Fisk sent to Europe to drill against any man in the world, backing him with a $10,000 challenge.

PERRY DAVIS'

VEGETABLE

PAIN KILLER

A PURELY VEGETABLE REMEDY

For Internal and External Use,

Is a SURE CURE for all the Diseases for which it is recommended, and is ALWAYS PERFECTLY SAFE in the hands of even the most inexperienced persons.

It is a **sure and quick remedy** for **COUGHS, SORE THROAT, CHILLS,** and similar troubles; affords *instant relief* in the most *malignant forms* of **DIPHTHERIA,** and is the best known remedy for **RHEUMATISM** and **NEURALGIA.**

THE OLDEST, BEST, AND MOST WIDELY KNOWN FAMILY MEDICINE IN THE WORLD.

It has been used with such wonderful success in all parts of the world for **CRAMPS, CHOLERA, DIARRHŒA, DYSENTERY,** and all **BOWEL COMPLAINTS,** that it is considered an unfailing cure for these diseases.

HAS STOOD THE TEST OF 40 YEARS' CONSTANT USE IN ALL COUNTRIES AND CLIMATES.

It is RECOMMENDED by **Physicians, Missionaries, Ministers, Managers of Plantations, Work-Shops, and Factories, Nurses in Hospitals**—in short, by **Everybody** everywhere who has ever given it a trial.

IT IS WITHOUT A RIVAL AS A LINIMENT.

It should always be used for **Pain in the Back and Side,** and brings *speedy and permanent relief* in all cases of **Bruises, Cuts, Sprains, Severe Burns, Scalds,** etc.

NO FAMILY CAN SAFELY BE WITHOUT IT. It will annually save many times its cost in doctors' bills, and its price places it within reach of all. It is sold at 25c. 50c. and $1.00 a bottle, and can be obtained from all druggists.

TRADE MARK. DAY'S Kidney PAD

A discovery which cures by the natural process.

ABSORPTION,

all diseases of the **Kidneys, Bladder, Urinary Organs and Nervous System,** when nothing else can. It is comfortable to the patient, positive in its effects, and the first cure for those painful and much dreaded affections.

Diabetes and Bright's Disease,

while its cures of **Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back** seem more like miracles than natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, find the greatest relief from the use of DAY'S KIDNEY PAD, which strengthens and increases the layers and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth or to close application to business or work, may be restored and manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach, it is an old treatment well tried and proven inefficient, though sometimes effecting apparent cures of one complaint, they sow the seeds of more troublesome and permanent disorders. The price of our Pad brings it within the reach of all, and it will annually save many times its cost in doctors' bills, medicines and plasters, which at best give but temporary relief. It can be used without fear or harm, and will certainly of a permanent cure. For sale by druggists generally, or sent by mail (free of postage) on receipt of the price. Regular Pad, $2.00; Child's Pad (for incontinence of urine in children), $1.50; Special (extra size), $3.00. Our book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures, sent free. Write for it. Address

DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless Kidney Pads now offered, we deem it due to our reputation, we deem it due the afflicted to warn them. Ask for **DAY'S KIDNEY PAD,** and take no other.

KIDNEY-WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. E. H. CLARK, South Reve, Vt., says, "In cases of **KIDNEY TROUBLES** it has acted like a charm. It has cured many worst bad cases of PILES, and has never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGADON, of Berkshire, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable* and trustworthy practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them at early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR SELF-PRESERVATION; Enhanced vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or hereditary. He is a Nervous specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. F. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. HEAL THYSELF

TRADE MARK. **DAY'S Kidney PAD**

A discovery which cures by the natural process.

ABSORPTION.

all diseases of the Kidneys, Bladder, Urinary Organs and Nervous System, when nothing else can. It is comfortable to the patient, positive in its effects, and the first cure for those painful and much dreaded affections.

Diabetes and Bright's Disease,

while its cures of Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth or to close application to business or work, may be restored and manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment well tried and proven inefficient, though sometimes effecting apparent cures of one complaint, they sow the seeds of more troublesome and permanent disorders. The price of our Pad brings it within the reach of all, and it will usually, the many times its cost in doctors bills, medicines and plasters, which at best give but temporary relief. It can be used without fear of harm, and with certainty of a permanent cure. For sale by druggists generally, or sent, by mail (free of postage) on receipt of the price. Regular Pad, $2.00; Child's Pad (for incontinence of urine in children), $1.50; Special (extra size), $3.00. Our book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures sent free. Write for it. Address

DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Pads now seeking a sale on our reputation, it seems it due the afflicted to warn them. Ask for DAY'S KIDNEY PAD, and take no other.

Daily Chronicle.

Chronicle Correspondence.

CENTREVILLE, TENN., Nov. 13th.

Mr. Editor: As foreshadowed in my last letter, the election in this state has resulted in the choice of Alvin Hawkins, the republican candidate, for governor. Returns from nearly all the counties in the state give Hawkins, republican, 90,230; Wright, democrat, 71,628; Wilson, bolting democrat, 54,309. The remaining counties to be head from will swell Mr. Hawkins' vote to 96,000. Repudiation is badly beaten in the state. Up to the present date the complexion of the legislature is not fully determined. As a United States senator is to be chosen by this legislature to succeed James E. Bailey, whose term expires in 1881, both parties are extremely anxious to control the legislature. The matter is so close now that it is giving the democrats considerable uneasiness. As far as known the senate stands—republicans, 11, democrats, 14; official returns may be more in favor of the republicans. In the house there are republicans 37, democrats 37, greenbackers one. It is conceded by the democrats that the republicans will organize the house. Memphis and its county sends a solid republican delegation to the house.

In this county (Hickman) the vote stood for Hancock 1157, Garfield 392, Weaver 62; for governor, J. V. Wright, democrat, 551; Wilson, bolting democrat, 696; Hawkins, republican, 361; Edwards, greenbacker, 37. It this town Hancock received 178, Garfield 90, and Weaver 16. At the last presidential election the vote of this county was for Hayes 179 and Tilden 1273; making a gain for the republicans at this election of 213. At the last governor election, two years ago, the vote in this county was democratic 1115, republican 77, greenback 153; the republicans this year made a gain of 284 on the governor vote. More votes were cast in this town for the republican candidate for governor at this election than were cast in the whole county two years ago. Two of the districts in this county gave more votes for the republican candidate for governor than were given to any of the others. This is making a good show for one of the banner counties of the democracy in Tennessee. This is a county that sent more soldiers into the confederate army during the war than it had voters. Also in a voting population of over 2000, when a vote was taken upon whether Tennessee should secede or not, only two votes were recorded against secession.

In this legislative district of three counties a state-credit democrat has been sent to the legislature. In this senatorial district of six counties a low-tax democrat has been elected. The republicans have gained two congressmen in this state; one in the 1st district and the other in the 10th. The congressional delegation now stands seven democrats and three republicans.

We are in the 7th congressional district, composed of eight counties; these counties have a voting population of over 15,000, and it is overwhelmingly democratic. It is represented in the present congress by W. C. Whitthorne of Columbia, the chairman of the committee on naval affairs. Mr. Whitthorne has been re-elected by about 4000 majority to represent this district again. In the last race the republican candidate only received 28 votes, while in this election he received 474, a gain of 446. Mr. Whitthorne is not as popular here as he once was. He has opposed all plans to improve Hickman county, and voted against measures to benefit the people here. He ran 273 behind his ticket in this county,

The darkies almost to a man voted the republican ticket in this election. I had a good opportunity to judge, and I am satisfied they were allowed to vote as they pleased. Though in many instances they were tried to be influenced by friendly talk to vote with the democrats, still they did not forget that the republican party was the cause of their freedom, and regardless of consequences they voted for their principles. I am satisfied that a fair count was made, in this district at least, if not elsewhere. I saw the votes taken out of the box and counted, and know they were counted correctly.

The election laws and methods of voting are different from what they are in New Hampshire. To become a legal voter in this state one must have a resident in the state one year, in the county six months, and in the district where he votes, ten days. If a resident of the state a year and of the county six months, he can vote anywhere in the county, provided he has been in the district ten days. A candidate can vote anywhere he may happen to be on election day, provided that it is within the limits of the territory in which he is a candidate for office.

In the different precincts where the election is to be held the sheriff appoints a

deputy to hold the election. Three judges are appointed by the sheriff, whose office is similar to that of selectman in New Hampshire. On the day of the election the deputy sheriff receives the ballot from the person desiring to vote, and announces his name to two clerks, appointed by the deputy, who write the voter's name on a sheet of paper. After receiving the ballot from the voter he passes it in turn to the judges, and the last one deposits in the box prepared for the purpose.' The judge or receiver has no right to unfold the ballot presented, but simply to deposit it in the box as received. If on counting the ballots two appear folded together both must be rejected,. No one is allowed in the room where the election officers are. A. B.

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

The Chinese Letter Forgery.

Hon. Abram S. Hewitt, member of the Democratic National Committee from New York, is very indignant over the way in which his name has been used in connection with the forged Morey letter, and intimates that there is a conspiracy to damage his fair fame. No such conspiracy could do his fair fame one-half the damage done it by Hon. Abram S. Hewitt himself.

Hart, the publisher of the New York *Truth*, swears that before the forged letter was published it was submitted to the scrutiny of the Democratic National Committee, and he particularizes Hewitt's declaration as to its genuineness, without which, Hart says, the *fac simile* would not have been published at all. The public, who have for years regarded Hewitt as an honorable man despite his intense partisanship, would be glad to have some corroborative evidence that he was not as well assured the letter was a forgery when he first saw it, as he is now.

The public mind is pretty well settled in the belief that the forgery of the letter, and the base and dishonest means employed to sustain it until after the election, were directly instigated by the Democratic National Committee. Such fellows as Josh Hart, the low variety actor who owns the *Truth*, and Philp, the suspected writer of the letter, work for *pay*; and neither of them would have dared attempt such an atrocious piece of scoundrelism unless they had good "backing." Then the Chinese letter was made public just at the right time for it to have the best possible effect for the democrats in Nevada and California, and did help them there, beyond question. And it was an agent of the democratic committee, with his credentials counterseigned by Frederick O. Prince, who went to Lynn and procured an affidavit from Mrs. Morey, and then forged the letters "H. L." to a name in the affidavit. And it was another agent of the democratic committee who got possession of the Kirtland house register by false pretences, and then duly registered the name of H. L. Morey in three places.

The Democratic National Committee may be innocent of the crimes of instigating the forgery, and then supporting it by the procuring of perjured testimony; but their innocence is not yet particularly apparent. And Hewitt, the high-toned and honorable gentleman, may have really thought that the Morey letter, with its low slang, uncouth construction and blundering misspelling, was written by James A. Garfield, a man noted for his brilliant education and constant use of pure English; but something more than his mere word will be required to make people believe that he thought anything of the kind.

Philp Discharged.

It was rumored in New York on Tuesday, the 16th inst., that Kenward Philp, the suspected forger of the Morey letter, having been discharged from his position on the *Truth* newspaper, had determined to tell all he knew about the forgery, and had had a long interview with District Attorney Bell. Enquiry confirmed the story that Philp had been a long time closeted with Mr. Bell, but neither of them would give any information regarding the interview.

New Hampshire Legislature.

Returns from all the representative districts in the state which have elected, with estimates based on the governor vote of the two districts yet to elect, make the next house constituted politically as follows: Republicans, 178; democrats, 116; republican majority, 62. The whole number of representatives this year is 294, against 280 last year, the increase arising from the statutes allowing more to be chosen, and from fewer towns voting "not to send" than last year. The last legislature contained 168 republicans, 103 democrats, 8 greenbackers, and 1 independent; there are no greenbackers or independents elected this year. The republicans increase their representation ten and the democrats increase theirs thirteen, while the greenbackers and independents lose all of theirs. The state senate will stand sixteen republicans and eight democrats. The last senate contained twenty republicans and four democrats.

Shocking Disaster.

One wing of the State Insane Asylum of Minnesota, at St. Peters, was burned on the night of Nov. 15th. The whole structure, which was ten years in erection, was finished three years ago at a cost of $500,000; the pecuniary loss by the fire was $200,000. The scene during the fire was a frightful one, there being 656 patients in the institution, some of whom were burned or suffocated to death, and others perished from exposure to the weather, which was bitterly cold, the ground being covered with snow. How many of the poor creatures perished is not known, the estimates varying from twenty-five to seventy-five. Many of the patients disappeared after being rescued from the burning building, and it is feared most of them perished on the surrounding hills during the night, as they were in many instances almost naked.

William Salavah, of Des Moines, had both eyes shot out in the rebellion. He has just finished a house built entirely by himself. He has a patent also for a stair-carpet fastener, and a picture hanger. He receives a pension of fifty dollars a month. He is married, but has never seen his wife.

D. C. Iveson, of Connellsville, Penn., went to Scotland to look after an estate which he might have inherited; arrived there just in time to listen to positive testimony that he was dead; got $100,000 in cash as his inheritance; saw the perjurers sentenced to prison for twelve years, and returned home with the money.

It is said that Gen. Garfield never misses a game of base ball when one is within his reach. He gets right down in the front row of seats of the grand stand, keeps the score, and watches every play as intently as if he had thousand of dollars on the game. He cheers every neat play, and gets excited as anybody.

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

AROUND HOME.

A plank walk on Rockland street, from the Webster mansion on Broad street to Miller avenue, has recently been laid.

A musical convention similar to the one so successfully held held last winter, is proposed to be held in Music hall in February.

The schooner Anna M. Nash, Cahoon master, arrived from a mackereling trip on the 17th inst., with one hundred and fifty flarrels of nice fish.

The enterprising firm, W. J. Sampson & Co., house painters, have secured the contract to furnish curtains and fixtures for the new shoe factory.

The ladies should read D. F. Borthwick's advertisement, on the fourth page of this paper. He is offering some rare bargains in velvets, silks and other dry goods.

The first entertainment in the Lyceum course, given in Music hall on Tuesday evening of this week, was an excellent one. The opera "Martha," one of the most pleasing operas ever written, will come next in the course.

Steam yacht Louis Irving, owned by Mr. Jellison of Exeter, has recently been towed to this city to be laid up for the winter. The vessel has been under water, and her furniture was taken out for an airing on Wednesday.

In accordance with the recommendation of the railroad commissioners of Massachusetts, the Eastern railroad has dismissed from its service the engineers of the two trains which collided at Lynn recently, and the signal-tender at that station.

In our court report of Wednesday the case State vs. Ingalls was stated to have been dismissed. This is an error. Gen. Marston urged its dismissal on the ground that respondent had been ready to try the case and was entitled to a speedy trial under the constitution, etc. Judge Clark ordered the case to be continued.

Messrs. Sides, Stone & Co., are running the "American Dime Show" in Franklin building, in one of the Vaughan street stores. The attraction consist of one performing bear—two others have been added since we visited the show, and we do not know whether they are trained or not—a calf with seven legs, a turtle weighing forty pounds and another only about an inch long, and an "orguinette," the latter being a new-fangled sort of hand-organ, from which by aid of perforated sheets of paper they grind out music to suit.

On Wednesday morning last a flock of wild ducks, five in number, were seen to light in the north mill pond. Immediately there was a scrambling for guns, and a fusilade was opened on the birds by a half-score of gunners on both sides of the pond. Four of the birds stood the racket for about an hour, then apparently unharmed flew away to more congenial climes. The remaining bird, broken of wing, but sound of legs, still swiftly paddled around the pond, while the hunters in a wild "go-as-you-please" ran along the banks, reminding a looker-on of a brisk skirmish on the Rappahannock. The bird, weighted down with lead, finally succumbed. It is said that the amount of ammunition expended on this occasion, if turned into cash, would have bought all the participants a nice Thanksgiving dinner.

AMUSEMENTS.

We have an elegant "Music Hall" and a less pretentious though none the less inviting Theatre hall, both with appointments in which we can enjoy the average dramatic and operatic entertainment that goes up and down the land. In the vocabulary of the managers upon the road Portsmouth is denominated a "poor show town," and of late several of those entertainments have passed by without stopping in our city. The want of patronage is in no little degree owing to the fact that the metropolitan companies have frequently underated the capacity of our people for judging of dramatic representations, and presuming that a provincial audience was all they would find in Portsmouth, have not "acted well their parts" upon our boards. This in one or two notable instances of a Boston company, has induced many to wait until they should visit Boston or New York before patronizing the drama. The managers of travelling companies should not presume that a Portsmouth audience in point of cultivation, familiarity with leading dramas, and knowledge of what constitutes good acting, is one whit behind our friends in the metropolis, and any slipshod performance is not better endured in Portsmouth than in the Modern Athens. We ought to encourage all respectable, first-class entertainments, dramatic and musical; we need these amusements, and we think our people will incline to be liberal in their patronage, if they can be assured that when a company comes here they will do their best, and not shuffle through a play as if it was of no importance how it was done fifty miles from Boston. This conduct disgusts discriminating play-goers, who know when a piece is "cut" or badly rendered just as well as do those behind the scenes. The liberality of some of our citizens in providing attractive and commodious places of amusement deserves every encouragement, and we hope during the coming season our people will testify their appreciation of these efforts by patronizing deserving entertainments to the fullest extent.

Bill Nelson, *alias* Robert Wilson, who escaped from jail at Alfred on the 28th of October, was arrested in New York on the night of the 15th inst., and next morning was remanded by the justice until the Maine authorities could be heard from. The prisoner is charged with burglarly at Biddeford. An accomplice named O'Neil, who escaped at the same time, is still at large. These are the two men who committed so many burglaries on "circus day," and to aid in whose capture the Biddeford Light Infantry were called out.

New Hampshire Items.

The annual meeting of the Monadnock railroad was held at Petersboro' on the 15th inst., and the old board of directors re-elected. The surplus, after paying expenses, is $6765.

Hiram Judkins, a young man of Salmon Falls, while ugly drunk on the 15th inst. attempted to shoot his father, and on the gun being taken from him, stabbed the old gentlman in the abdomen, inflicting a serious and possibly fatal wound.

And now the Manchester *Union* is found to be mixed up with the Morey-Chinese letter forgery. Just before the election that paper telegraphed to the democratic national committee, saying there was a man in Manchester who knew H. L. Morey. It was afterwnrd shown that this party, by the name of Edgar P. Mann, knew one S. S. Morey, who he said was a nephew of the mythical H. L. Morey, and out of this false information grew the perjured testimony of S. S. Morey. So says Dickinson, the chief clerk of the democratic national committee.

Edwin Bowen, of Piermont, committed suicide by cutting his throat at the residence of his brother in Haverhill on the 13th inst. The deceased was about thirty-five years of age, a man of good reputation and some property. No cause is assigned for the act.

Frederick Burt, son of Randolph Burt, was accidently killed on the 16th inst. at Pelham. He was about starting out gunning, and in putting the gun into the wagon he somehow discharged it and the full charge of shot went through his head, killing him instantly. He was about twelve years old.

It is stated that the Land League in county Cork are counselling their followers to adopt a strong course of retaliation. They are reported as saying that the county farmers will do well to poison the game covers, and thus spread immense consternation among the landed gentry thereabouts.

The anxiety of the people of Erie, Pa., on account of the schooner Mobray, loaded with forty tons of nitro-glycerine, being a ground in the harbor, has been dispelled by the removal of the cargo to a scow which is anchored three miles from the city.

The anti-cruelty society is harvesting its annual crop of superanuated horses, dogs and cats; many poor, miserable creatures have already received their passports to a condition in which hunger, cold and pain will never torment them more.

Courtney's friends, it is said, will challenge Hanlan next season to a race for $10,000. Bosh probably.

Mrs. Bridget Doran, seventy-three years of age, residing in Saxonville, Mass., was fatally burned on the 15th inst. through a pan of lard taking fire.

An unmarried lady named Libby was instantly killed by the cars at Braintree, Mass., on the 16th inst. She was walking beside the track, slipped on a frosty plank, and fell directly in front of an express train.

Forty-one lives were lost by the Foord pit disaster at Stellarton, N. S. Twenty of them were married men.

In the court at Malden, Mass., on the 16th inst., two men named McCarty were held for trial in $500 each, for cruelty to a horse. Paul Moran was fined $15 and costs for driving a horse unfit for labor.

We defy any man, woman or child who has used Day's Kidney Pad to say that they have not been entirely cured or greatly benefitted.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to Alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and producing a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes.* Tu,Th&S,4w

SUPREME COURT,
October term, A. D. 1880.

IN THE ACTION, JOHN LAIGHTON of Portsmouth in said County, Trader, plaintiff, vs. ALBERT L. DODGE of the City, County and State of New York, Yeoman, defendant.

In a plea of the case, to recover of said defendant the amount of his promissory note for three hundred dollars, dated March 1, 1878, and payable to the order of the plaintiff, on demand, after date, for value received, on said note are the following indorsements: October 17th 1879, received the interest on the enclosed to March 1st 1879, eighteen dollars, ($18.00) and June 25th 1880, received the interest on the enclosed to March 1, 1880, eighteen dollars, ($18.00.)

Also, to recover of said defendant the sum of five hundred dollars for so much money received by the defendant of the plaintiff to the plaintiff's use, before August 16th 1880, the date of the plaintiff's writ.

It having been suggested to the Court that the property of the defendant in this State has been attached on the writ, and that no personal service has been made on him in this suit, he not being a resident of this State at the time of the service thereof:

It is ordered by the Court that the action be continued to the next term of said court, to be holden at Exeter within and for said County of Rockingham, on the third Tuesday of January next, and that the plaintiff give notice to the said defendant of the pendency thereof, by causing the substance of said declaration, with a copy of this order, to be published once a week for three weeks successively, in the PORTSMOUTH DAILY CHRONICLE, a newspaper printed at Portsmouth in our County of Rockingham, the last publication thereof to be at least thirty days prior to said Court, to which this action is continued.

—The ballad singer sighs because "there are no birds in last year's nests." It is a great pity. The poet will next cry because there are no clams in last year's shells, no woodchucks in old-time holes.

—The Galveston lawyers have got a good laugh on a brother attorney, who was defending a colored kleptomaniac on the plea of insanity. The attorney for the defendant made an eloquent speech on the irresponsible condition of his client's mind, and took his seat. His idiotic client reached over, touched his advocate's arm, and said, emphatically, 'You be de biggest fool on Galveston island." The opposing attorney instantly remarked, "There, I told you he had lucid intervals."

The Voting Register of Certificate-Holders is now making up at the Office of the Trustees, No. 23 Court Street, Boston, Mass. The names of parties to whom Certificates were originally delivered have been placed in the Register. Any subsequent purchaser or holder desiring to register may do so on presenting at said office to Mr. Joshua Crane a written statement of his name, address and the denomination and number of each certificate held by him, or, if so required by the Trustees, on producing the certificates held by him or a written order from the last-registered holder.

In accordance with regulations fixed by the Trustees the Voting Register will be closed on the thirtieth day of November, 1880, between which time and the Annual meeting on the second Wednesday of December, 1880, no registration will be made. Per order of the Directors.

Alexander the Great.

Wept because there were no more worlds to conquer, but the proprietors of Dr. Pierce's Family medicines, who have found it necessary to establish a World's Dispensary at London, England, in order to supply from that great commercial emporium these remedial blessings to foreign countries, where they are largely in demand, do not share the great conqueror's sentiments, as their conquests are of disease and have made happy not the conqueror, but the people who enjoy them. Dr. Pierce's Golden Medical Discovery cures all blood and skin diseases, scrofulous affections, swellings and internal soreness. Dr. Pierce's Pellets are the little giant cathartic; Dr. Pierce's Favorite Prescription—woman's tonic and nervine—Dr. Pierce's Extract of Smart-Weed, the great remedy for colds and all bowel affections, as diarrhœa, dysentery and flux. World's Dispensary Medical Association, proprietors, Buffalo and London.

Dr. Graham, of Louisville, who is in his ninety-seventh year, has started on his regular annual hunt in the mountains. He says that every autumn for fifty years he has eaten venison of his own killing and cooking.

WM. H. PULLEN, Fowlerville, Mich., says: I have not rested better for months than I did last night. The "Only Lung Pad" has helped me wonderfully.—*See Adv.*

Dennis Kearney, the agitator, has returned to his dray, in San Francisco. He says that he is out of pocket through politics, and is glad to work again in his old line.

D. R. V. G. is a purely vegetable compound; will do all is claimed for it. See other column.

The financial exhibit of the Boston and Maine road, recently published, is encouraging to stockholders, and shows that the road has been well managed. The earnings have increased about $290,000 over those of 1879.

Mothers never fail to recommend Malt Bitters as nourishing and strengthening.

Political Notes.

Full official returns of the California election have been received in San Francisco. Edgarton, republican candidate for elector, receives 507 votes more than Judge Terry, democrat, and is elected. The other democratic electors have majorities varying from 87 to 143.

The legislature of Georgia on the 15th inst. elected Joseph E. Brown to the United States senate.

The anxiety of the national democratic committee to throw the responsibility of the perjured testimony on the newspaper which printed the forged Chinese letter is not one whit greater than the paper's anxiety to shove it back upon the national committee. It has come to be a penitentiary question, men and brethren! To an impartial public the national committee seems to deserve much the larger share of the odium, not only because it lifted the letter out of its obscure place in a little newspaper and flung it broadcast over the continent, but because the committee seem, by Morey's confession at least, to have been first in hunting up the perjured evidence. It is a lively quarrel among a dirty crew and with the grand jury to act as umpires some of the rogues are likely to get their due.

The New Orleans *Times*, democratic, tells "the northern dough-faced democrats" that if they are scheming to organize the next House in the expectation that the governors of southern states will not issue certificates to republicans elected, they are making a mistake.

The Richmond *Whig*, democratic, says: "We have as warm an interest in the south as another can have, and we yield to no man in our devotion to Virginia; and exactly by reason thereof we have ever regarded the 'Solid south' as the greatest curse which could befall either. The array of one section inevitably must be followed by the counter array of the other section, and in the contest which would be the consequence, the weaker most certainly would go to the wall. Sooner than we expected, the 'Solid south' has begotten a 'Solid north,' and scattered to the winds all hopes of democratic ascendency through a 'Solid south' in all time to come."

John Kelley and his Tammany associates fail to find the evidence of election frauds in New York city that was promised. They should apply to the perjury bureau of Barnum, Hewitt & Co.

The selectmen of Brockton, Mass., are trying an interesting experiment in the liquor-selling line, which they declare already successful. They have issued but one license, which is of the fourth class, the liquors not to be drank on the premises, and not sold to minors, to drunken or irresponsible persons. The licensee is a member of the board, the business is conducted under the advice of his associates, and the profits are turned over to the town. Any quantity of liquor less than five gallons can be bought, and the purchaser, if an unjectionable person, is not obliged to state the use he wishes to put it to. The seller aims to keep only the very best quality of liquors.

Late advices from Fort Peck, Montana territory, announce that Sitting Bull and his band have taken a stand, ignoring the words of Gen. Miles, and refusing to surrender within thirty days as requested, preferring rather to fight. It is expected that Gen. Miles will soon take the field, and although the hostiles will undoubtedly be captured, it will not be without a bitter fight.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION; Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to peccadillos or inherited. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. dm&th &eotnov80

A Detective's Scheme.

Dr. Talbot was mysteriously murdered at Marysville, Mo. Some members of the family had a suspicion that his son Albert was the assassin, because he was known to have waited very impatiently to inherit the property; but, in the absence of proof, nobody dared make an accusation. So a detective was hired. He went to live in a house close by, pretending to be a farmer, and instructed his pretty wife, whom he introduced as a sister, to gain Albert's affections. This she was quickly successful in doing, and within a month she had promised to marry him. Then she set about inculpating him, and he eventually confessed his guilt to her. His arrest followed.

Improved Car Brake.

Messrs. Alonzo Johnson and J. B. Atwood, of this city, have just obtained a patent for a new and improved car brake, one which meets with the unanimous approval of all of the principal railroads of New England. This brake is operated by a lever and chain-winding drum, located on the roof of the car; is so constructed, according to the inventor's claim, as to take up all the wear of brake-shoes and stretch of chain or wear of parts, and the brakes can be instantly let off and the chain be perfectly freed. It so operates as to obviate the great and constant danger attendant on the use of the common wheel-brake, whereby brakemen are caused to fall from the cars by the giving away of the connecting parts or breakage of the wheel. It is probable that the manufacture of this brake in this city will cause the location here of a new industry, giving employment to many mechanics.—*Springfield Republican.*

—A little boy having heard a missionary tell how the natives of South Africa live, on going home, said: "Ma, I wish I was a little South African boy!" "Why, Georgie!" exclaimed the mother; "whatever put such an idea into your head?" "'Cause their mothers don't wear slippers," said little Georgie.

—There are mean men in this world. An Indiana man stopped his paper, and said in the presence of a crowd that he'd never read the sheet again, or circulate it, and the fiendish editor went the next day and printed an article speaking very highly of that man as a prominent citizen. And of course the man couldn't go back on his word and read the article, and he nearly went wild.

—An editor's business is to write editorials, grind out poetry, sort and re-write communications, listen to all kinds of complaints, offer advice of all kinds, from the baby with the colic to specie resumption, keep a waste-basket, steal matter, fight other people's battles, take beans, pumpkins and green wood, when he can get them, on for pay, work eighteen hours out of the twenty-four, always be in good humor and witty, be alike impervious to flattery and censure, and be criticised and damned by every nincompoop who "don't like his paper." Finally to wear out in the service, and at last to hear the pleasing; injunction, "'Tis enough; come up higher."

We clip the following from the Troy, N. Y., *Times*: "Letters pour in daily, sometimes by dozens, scores and hundreds, to Dr. David Kennedy of Rondout, N. Y., in grateful acknowledgement of the great benefits received from his "Favorite Remedy." These are all read with care and interest by him, as they frequently illustrate the power of the medicine in some new, and perhaps, hitherto untested phase of operation. But it is when a sufferer comes miles to tell the story of his deliverance in person, to grasp the doctor by the hand and greet him as a true and valued friend, that the interest in his case deepens and multiplies."

Dr. S. C. May, late superintendent of the insane asylum at Danvers, Mass., is to be prosecuted for gross immorality while connected with that institution. It is said the evidence as to his guilt is conclusive. Dr. May is supposed to be now in or near St. John, N. B., the former home of his wife.

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again, and I am glad I did, for in less than two months use of the Bitters my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. P., St. Paul.—*Pioneer Press.*

The Negro Exodus.

The negro exodus from the southern states will be of serious consequence to the labor of the south, and must convince every reflecting man that ill treatment of the freedmen is one of the follies whose effects come home to the whites with a terrible retribution. The colored men appear terribly in earnest this time, and seem to have thoroughly organized a plan to leave for new fields of labor.

Gen. Conway says that at the present time there are organizations of colored men in all the southern states that have for their ultimate object the removal to other parts of the country. Every member of these organizations has more or less money. At the present time they are known as benevolent associations, brotherhoods, etc., of one kind or another. No man can become a member unless he has some money, and no idle or shiftless person can get a place in them. "At present they number a hundred thousand persons, and at a signal," says Gen. Conway, "they will move." When the Vicksburg convention was held last year to consider the exodus movement a strong feeling was manifested among the blacks to keep up the movement and not place any reliance upon the promises of the southern people that they would treat colored men with more consideration in the future; but the advice of Gen. Conway and others was taken, and they determined to wait, though in the meantime to make such preparation that if they should be forced to leave they would go prepared to begin life in other scenes and under better auspices. Gen. Conway adds:

The election came on, and bulldozing began. They were treated as bad as ever; the crops were gathered and they were cheated right and left; the old scenes were re-enacted. Mr. Browne telegraphs that the blacks are leaving pell-mell. These are not members of the organizations I have referred to, for they won't move until the word is given, if it must be given. They are people made desperate by their wrongs and sufferings. Some of them, perhaps, have not more than money enough to take them to St. Louis, but they feel that no fate can be harder than theirs has been, and no change can hurt them. This is a new and dangerous feature of the exodus movement that is very serious for the south, for it shows that the blacks are determined to leave.

A company has been organized, with J. M. Woodward of New Rochelle at its head, and hereafter the exodus will be conducted on business principles. Seven hundred thousand acres of land have already been purchased in New Mexico, and more will be acquired as it is needed. The movement will be conducted by business men on business principles. The emigrants from the south will be treated just as any others from foreign countries. Large tracts of land will be bought, and regular colonies established.

The governor and council, accompanied by several distinguished citizens from various parts of the state, made their annual inspection of the State Reform school on the 17th inst., and expressed themselves highly pleased with the condition and management of the institution. After the usual ceremonies of inspection, the inmates, consisting of 103 boys and sixteen girls, were visited in the school room, where some interesting exercises were held, after which short addresses were made by Gov. Head, H. A. Tuttle, Chester Patterson, Hon. Daniel Clark and others.

The graduating exercises of the Dartmouth Medical college was held in the college church on Thursday evening, Nov. 18th. The annual address was delivered by Hon. J. W. Patterson.

A former citizen of Surry, now of New York, has paid off the town debt of several thousand dollars, and gives $4000 to establish a town library.

The New Hampshire Banking Company of Nashua, organized only six months since, now has deposits, guaranty fund and earnings amounting to over one hundred thousand dollars.

The Governor and Council were in session on Tuesday. Hon. Ossian Ray, A. R. Carpenter and others, urged the re-appointment of Mr. Bingham as Judge. Hon. A. F. Pike eloquently presented the fitness of I. N. Blodgett, and argued against the propriety of Bingham's re-appointment. Mr. Burrows' claims also were stated. The chances seem rather in favor of Blodgett.

Burning Coal Mines.

Accounts have been published from time to time of the fire in the Keeley Run colliery, near Shenandoah, Pa., for several months past. No one knows how it originated, but the general impression in that region is that it was caused by spontaneous combustion. How to extinguish it is a problem difficult to solve, owing to the mine being higher than communicating collieries, thereby making it impossible to drown it out. A Pittsburgh firm, Messrs. Campbell & Connelly, offered to smother the flames for about $25,000. They proposed to do the work with carbonic acid gas and nitrogen. Miners and mine superintendents advised the colliery owners to have nothing to do with so wild a scheme. The necessity of doing something, and the confident assurances of the Pittsburgh firm, who offered to forfeit $50 a day for all the time that the fire should burn after thirty days from the date of their contract, caused the mine owners to accept the proposition. The gas men built a large furnace and began operations. So far they have had no success. The part of the mine reached by the fire has been closed up. It is estimated that the space enclosed will hold 12,000,000 cubic feet of gas. The Pittsburgh firm declare that nearly half that quantity is forced into it every twenty-four hours, but it has had no effect upon the fire. The firm have already forfeited nearly $10,000 by the delay, and do not seem to know what now to do.

The failure to extinguish the fire in the Keeley Run colliery awakens new interest in other burning mines in Pennsylvania. A vein near Coal Castle, Schuylkill county, has been burning for forty-five years. A huge fire was kept in a grate at the mouth of this mine to prevent the water in the gutters from freezing. One night in 1835 the timbers of the drift caught fire, and when found the flames were beyond control, and the mine was abandoned. Many efforts have been made since to work the mine, as the coal was of remarkably good quality; but although it has been flooded many times the fire continues to rage, and the intense heat makes it impossible for miners to labor even in slopes which were opened some distance from the burning vein. No vegetation grows on the surface above this pit of fire, and it is dangerous to walk across it, as places have caved in, and there seems to be but a thin shell of earth over it. Near Mauch Chunk there is Summit Hill mine, which has been burning for about twenty-five years, and vast sums of money have been expended in fruitless efforts to extinguish the flames.

It was reported in New York on the 17th inst., from despatches to private parties, that the Liberian emigrant ship Abraham Lincoln, engaged in carrying colored people from the United States to Liberia, has been wrecked on the coast of Africa, and that over thirty lives were lost. Among the lost were two prominent citizens of the Liberian republic.

Arrangements have been perfected between P. T. Barnum and the owners of the London circus and menagerie for consolidating the two shows. Each show will retain its present identity, and rival entertainments will be given under the same pavilion, all for one price of admission.

The demand for common laborers is so good in Houlton, Me., that boys command and get $1 a day. There are very few towns with such a boom for business.

HOSTETTER'S CELEBRATED STOMACH BITTERS

Meets the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and revives the feeble stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

For sale by all Druggists and Dealers generally.

KIDNEY-WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. E. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to act effectually."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGADON, of Pittsfield, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY? BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

State of New Hampshire, Rockingham ss.

SUPREME COURT, October term, A. D. 1880.

IN THE ACTION, JOHN LAIGHTON of Portsmouth in said County, Trader, plaintiff, vs. ALBERT L. DODGE of the City, County and State of New York, Yeoman, defendant.

In a plea of the case, to recover of said defendant the amount of his promissory note for three hundred dollars, dated March 1, 1878, and payable to the order of the plaintiff, on demand, after date for value received, on said note are the following endorsements: October 1st 1878, received the interest on the enclosed to March 1st 1879, eighteen dollars, ($18.00) and June 25th 1880, received the interest on the enclosed to March 1, 1880, eighteen dollars, ($18.00).

Also, to recover of said defendant the sum of five hundred dollars for so much money received by the defendant of the plaintiff to the plaintiff's use, before August 19th 1880, the date of the plaintiff's writ.

It having been suggested to the Court that the property of the defendant is of the value of less than the amount of the plaintiff's claim, and has been attached on the writ, and that no personal service has been made on him in this suit, the defendant being a resident of the State at the time of the service thereof;

It is ordered by the Court that the action be continued to the next term of said court to be holden at Exeter within and for said County of Rockingham, on the third Tuesday of January next, and that the plaintiff give notice to the said defendant of the pendency thereof, by causing the substance of said declaration, with a copy of this order, to be published once a week for three weeks successively, in the PORTSMOUTH DAILY CHRONICLE, a newspaper printed at Portsmouth in our County of Rockingham, the last publication whereof to be at least thirty days prior to said Court, to which this action is continued.

Attest, C. G. CONNER, Clerk.

AROUND HOME.

Mr. John Durgin is building a house upon his lot on Salem street.

The master carpenter of the Concord railroad was in this city on the 18th inst., to measure for the gates to be placed at the Market street railroad crossing.

The schooner Hattie Lewis, Garland master, left Portsmouth bridge at noon on Sunday, the 14th inst., with a cargo of brick; arrived at Boston, hauled through seven bridges, discharged her cargo, and arrived back at Portsmouth bridge on Wednesday morning, the 17th.

N. C. Goodwin, who gave some time since one of the most enjoyable entertainments ever witnessed in Music hall, commences an engagement at the Globe theatre in Boston on the 22d inst., when he will appear in "Hobbies." We hope he will be induced to give us an evening during the season, in Portsmouth.

This (Friday) evening, at Franklin theatre, the New York Miniature Opera Company, consisting of twenty-five talented and highly-trained children, will present the always popular comic opera "Pinafore." This company is meeting with excellent success on the New England circuit, playing to a crowded house at Andover, Mass., on Wednesday evening, and being most cordially received. Popular prices; see ad'vt.

Hon. Ezra A. Stevens, formerly of this city, representative-elect to the Massachusetts legislature from Malden, Mass., made a forcible speech at a town meeting held in that town on the 16th inst., to discuss the propriety of making an application for a city charter for Malden. Mr. Stevens took strong grounds in favor of a city government, and spoke eloquently of the favorable effects of the adoption of a city charter by his native place.

Duprez and Benedict's Minstrels, under the management of Chas. Duprez, are booked for Music hall next Tuesday evening. This troupe has an established reputation all over the country, and is second to none, as their many patrons here are well aware. They advertise nothing they do not perform, and are very particular to treat their patrons in such a manner as will reflect credit upon themselves and warrant their continued patronage on their yearly rounds.

The schooner Clara E. Simpson, of this port, Talpey master, arrived at Washington, D. C., on the 14th inst., from Windsor, N. S., with a cargo of plaster and seventy-five barrels of potatoes, the latter being subject to a duty of fifteen cents on a bushel. These potatoes were discharged by the captain with the duty unpaid, upon which the collector seized the potatoes and assessed a fine of $1500 against the vessel; but believing Capt. Talpey did not intend to violate the law, the collector subsequently called at the treasury department and requested that the fine might be remitted.

It is wicked and cruel enough for a young man to be hit by a brick from the hand of a democratic ruffian, as was John Emery of this city during the republican torchlight procession in Portsmouth on Monday night, the 8th inst., but it is not half so wicked or cruel as it is for a newspaper editor to slander the injured young man, as did the editor of the Portsmouth *Times*, in stating that young Emery was "suffering from a terrible fit of drunkenness," and "had been hit with a brick sidewalk," at the time of the injury. A man knocked senseless with a brick may recover, but a stain upon his character is not so easily removed. Young Emery never uses intoxicating liquors of any kind, and regrets exceedingly that any such lying slander should have been circulated among his friends and relatives, where he is not so well known as here.—*Dover Republican.*

YORK COUNTY ITEMS.

Mr. John Lewis of Kittery has assumed the duties of assistant light-keeper at Whale's-back, succeeding Mr. Chauncey recently resigned.

The schooner Anna H. Mason, of 36.64 tons register, hailing from York, Me., has been sold to parties in Gloucester, Mass. She has been employed as a fishing vessel ever since she was built, and will continue in that business.

Mr. Patch of Kittery point is building a cottage for Admiral Craven upon the land purchased by the Admiral at the point, of the late Capt Daniel Frisbee.

Schooner Grace Choate, Capt. Robinson, owned by C. Morris Tredick and others of this city, came off the Piscataqua railway at high tide on Thursday.

John W. Johnson of North Berwick, at work in the mill at Oxford village, has been arrested and bound over to the supreme court for illegal voting, he being a minor.

Charles Treadwell, Esq., an old citizen of Belfast, has recently presented to the Maine Historical society a rifle formerly owned by Sir William Pepperell of Kittery, the renowned hero of Louisburg.

Blood's bobbin factory in Berwick, opposite Great Falls, was discovered to be on fire at three o'clock in the morning on the 17th inst., and the entire fire department of Great Falls was called out. A large quantity of lumber which was being dried was destroyed, and the damage done by the fire was considerable. Cause of fire not stated.

Hon. Charles W. Tapley of Farmington, N. H., elected senator from the Somersworth district, is a native of York county, and is the leading merchant of Farmington. He formerly sailed from this port in command of some of our largest coasting schooners, and is well known in our city as an excellent business man, and just the man to become an able senator.

Schooner Little Katie, of Cape Porpoise, was run into off Portland harbor on the night of the 17th inst., by the steamer John Brooks, bound out. The schooner tried to cross the steamer's bow, although warned by the captain of the steamer. The schooner lost her mainsail and part of her jibboom, and had a hole stove in her side. The steamer was slightly damaged in her bow, and returned to Portland to go into the dry dock. The schooner got into the harbor safely.

Steam ferry boat Fearless, Capt. Toby, makes three daily trips each way between this city and Kittery point for the remainder of this month, leaving Portsmouth at eleven o'clock A. M., and two and 4:30 P. M. It is proposed to have next season a landing at the wharf near the site of the Frisbee hotel (formerly Gunnison's hall) which can be reached at all stages of the tide. The boat has done a good business, and is of great convenience to residents at the point as well as to masters of vessels in the lower harbor.

The republicans of Eliot on Wednesday evening of this week celebrated the great national victory of the republican party, by a torchlight procession of the Eliot Garfield and Arthur Battalion, with detachments of the Kittery Battalion and Portsmouth Boys in Blue, the American band of Kittery and the Metcalf Fife and Drum band of this city furnishing the music. The procession started from the South Eliot postoffice at seven o'clock, and after a march of nearly four hours' duration repaired to the town hall, where an abundant collation was served. The illuminations along the line of march were profuse and elegant. One double tenement, occupied by a democrat and a republican, was brilliantly lighted throughout the republican half, while the democrat displayed a transparency of Hancock on the fence of his part, probably under the impression that Gen. Hancock is still running for the presidency. The Boys in Blue and Metcalf drum corps were transported from this city to Eliot and back by the steamer James Sampson, free of charge.

Mr. Andrew Laighton is the oldest man in the town of Eliot, being eighty-eight years of age; he has voted at sixteen presidential elections; he was the first "Free Soiler" elected to the senate of his native state, has always taken a very active part in politics, and as yet has never voted the democratic ticket. Strange to say, the old gentleman was not allowed to illuminate during the procession on Wednesday, the 17th inst. Mr. Laighton owns a house and farm in Eliot, which he rents, reserving two rooms for his own use, which he proposed to illuminate, but was not allowed so to do by his tenant, who is a democrat. A friend of Mr. Laighton, learning how matters stood, called on the old gentleman, and while in the house was ordered out by the tenant, who brought into requisition a large club, which however he failed to use; the visitor and his wife carried the day, and the old gentleman, though not allowed the use of his own rooms, stood on the door-steps as the procession passed, waving his hat, flanked on either side by the republican and his wife, one holding a torch and the other a lantern. The meanest thing of all was that even the little kerosene light that Mr. Laighton always keeps burning from dark till daylight in his room, was extinguished while the old gentleman was viewing the procession.

—A fine figure—Ten dollars and costs.

"Self Culture,—physical, intellectual, moral and spiritual: a course of lectures by James Freeman Clarke." Boston; James R. Osgood & Co. Too much cannot be said concerning the value of these lectures of Dr. Clarke, which are at once eminently practical in their purpose, interesting in their structure, and entertaining throughout every page. They comprise twenty-one lectures upon the training and care of the body, the use of time, education by various modes, culture by reading and books, etc., etc. This is a book which will not only be worth a careful reading upon its acquisition, but one which can be read with profit every year. The lectures seem to have been written in a style which will commend itself to persons of both sexes, old and young, rich and poor. The pages of the book are full of wisdom. It abounds in practical truths and sound suggestions, and fully sustains the reputation of the celebrated Boston minister. It can be found at all the bookstores, and ought to find a place with all who seek to improve the talents given them, or at least to know how so to do.

"We and the World," a book for the boys, by Juliana Horatia Ewing, author of "Jane of the windmill" and other stories, with illustrations by W. L. Jones. Boston; Roberts Brothers. We sometimes wonder if the boys of the present day can be sufficiently grateful to the authors who write, to the Messrs. Roberts who publish, and to the indulgent parents who purchase, so many books written for their amusement. The boys of the olden time were compelled to endure much severer literature, with an occasional treat like Robinson Crusoe, Sinbad the Sailor, or other well-known books of the early part of the century. To-day, the young readers have every opportunity for reading new and attractive books, which cannot fail in many respects to be appreciated when perused. The boys will enjoy this book, with the account of the stowaways on shipboard, which is full of graphic interest and lively nautical episodes. The book has three hundred pages, is exceedingly well written, and cannot fail to interest the young reader throughout its entire contents. Price $1.25; for sale by M. Goodrich, No. 1 Market street.

—The *Baptist Weekly* remarks with considerable subtlety that the brethren who have been able to attend political meetings, gaze at torchlight processions and do considerable shouting besides, can not consistently plead the risks of night air as an excuse for absence from prayer meetings.

—There is living at the house of Capt. Means of Millbridge, Me., a girl about nine years of age, whose history is remarkable. Within the present year an American vessel called at a small island in the Pacific ocean to procure water. The island was inhabited by cannibals. They brought this little girl to sell for the captain's dinner, offering to prepare her for cooking if he would buy. The captain told them he would buy her, but he chose to kill his own meat. She was bought, and the captain afterward meeting Capt. Means, gave her to him. Her complexion is not unlike the North American Indian, but the shape of her face is different, being quite round, forehead broad, eyes large, mouth large, with large teeth pointing somewhat outward, which has a tendency to cause her lips to appear thick. Chin very small and retreating. She is of good form, with very small hands and feet. She still believes she will be killed and eaten, and when strangers enter the house she clings to Mrs. Means, and begs of her not to let them have her.

Cleopatra!

Her power was retained by force of personal charms. She led the old "boys" captive whenever she talked "pretty" to them and showed her teeth. History should tell us that she used SOZODONT, but it don't. The preparation she used might have had another name then.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold only in boxes. Tu,th&f,&o

Beware of Alcoholic Bitters.

Thousands have been ruined for life by drinking popular nostrums, the principal ingredient of which was alcohol. Such "bitters" are deceptive in their effects; they cause intoxication and temporary relief, while they foster the drunkard's appetite. Dr. Kennedy's "Favorite Remedy" contains no alcohol. It does not heat and inflame the blood; it cools and purifies it. Better than this even, it has cured a raving appetite for drink. It will do you good, not evil, all the days of your life. All druggists sell it. Dr. David Kennedy, Proprietor, Rondout, N. Y.

A full-sized human skeleton has been dug up by Mr. George Babson at Riverdale, Mass., in his garden. The skeleton is supposed to be that of an Indian, as a settlement of them lived in that section in days gone by.

A world of Good.

One of the most popular medicines now before the American public, is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whisky drink. It is more like the old fashioned bone-set tea that has done a world of good. If you don't feel just right try Hop Bitters.—*Nunda News.*

The Boston & Albany railroad give notice that hereafter semi-annual dividends are to be discontinued. On the 31st of December, 1880, a quarterly dividend will be payable. Hereafter dividends will be payable December 31st, March 31st, June 30th and September 30th.

Many people suffer, and know not what ails them. Try D. R. V. G. If no benefit is received, your druggist will refund the money.

Thirty of the patients of the burned insane asylum at St. Peters, Minn., were reported missing on the 17th inst., but only six were known to be dead.

Malt Bitters build up the nervous and muscular system as so overcome disease.

Captain Kidd's Vessel.

The employes of the wrecking company which has been at work for five or six weeks at Round island, near Peekskill, New York, searching for the vessel which Captain Kidd commanded during one of his piratical cruises, have made a discovery. They began dredging thirty feet from the shore, and scooped out a hole one hundred feet long and forty feet deep. Here they found the bow of a vessel whose timbers had all rotted away. It lay apparently at an angle of forty degrees. By removing about forty feet more of mud, and going down twenty feet further, they reached nearly the centre of the wreck. Pieces of spar, ship timbers and pieces of live oak plank have been brought to the surface by the dredge. The company have two divers on the spot, and they report that the wreck of a vessel at least 100 feet long lies buried in the mud at a slope from forty to sixty feet under water. Last Friday the dredge became fastened to something, and in trying to raise it, the chain was broken. A diver was sent down and remained under water an hour and a half. When he came up he reported that the dredge had become fastened to what appeared to him to be a large gun, the point of which was fast in the stiff mud. In proof of what he said he brought up iron scales which he prodded off with his sounding rod. Mr. Tasker, the engineer, says that the mud is all a deposit, and he thinks the amount found would readily accumulate in the time which has elapsed since Kidd was captured. Mud to the amount of 6500 cubic yards has been removed.

Value of Fish as Food.

During the last twenty years chemists and physiologists have been studying the value of various foods. They have advanced so far as to compute the relative values of the common articles of diet. These have been so arranged in tables that the bread-winner of the household may see at a glance what food will give the most nourishment to his family.

A prominent subject of these studies has been the common food fishes. At the recent meeting of the American Association of Science, Professor Atwater, a chemist, gave some of the results of these experimental studies.

In 100 pounds of the flesh of fresh cod there are eighty-three pounds of water, and only seventeen pounds of solids. In the same weight of salmon there are sixty-six and one-half pounds of water, and thirty-three and one-half pounds of solids. The meaning of these figures is that a family eating 100 pounds of cod would be nourished by one-sixth of it, while if they fed on the same weight of salmon, they would find one-third nutritious.

Next in nutritive value to salmon come fat halibut, shad and white fish. Then follow mackerel, blue-fish, lean halibut, striped bass, flounder and lake trout. The order in which they are placed indicates their relative value as food. Lean beef is less nutritious than salmon, as it contains seventy-five per cent of water and twenty-five per cent of solids.

While fish is highly nutritious and healthy, there is somewhat exaggerated notion that it is particularly valuable for brain food on account of the large amount of phosphorus which it contains. The notion owes some of its popularity to a remark, alleged to have been made by the late Prof. Agissiz: "When I wish to be very brilliant," he is reported as saying, "I eat fish for dinner."

But Professor Atwater says the notion is not founded upon fact. While fish is excellent, there is no evidence to prove that the flesh of fish is richer in phosphorus than are other meats—*Youth's Companion.*

—"What is the chief end of man?" asked the Sunday school teacher. "Extend," wearily replied a gray-haired man in the Bible class. He was a bank cashier.

—Prof. Huxley, with Mr. Ruskin in his mind's eye, says that ninety-nine men out of every hundred become simply obstructive after they are sixty years old, and that they should be removed. Mr. Ruskin keeps up his end of the discussion by calling Prof. Huxley an unutterable fool. When it comes down to logic, the English are the most metaphysical people on the face of the earth.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office."

EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir*—You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervo-specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. dn&th & eotnov80

DAY'S Kidney PAD

TRADE MARK

A discovery which cures by the natural process.

ABSORPTION.

all diseases of the **Kidneys, Bladder, Urinary organs and Nervous System,** when nothing else can. It is comfortable to the patient, positive in its effects, and the first cure for those painful and much dreaded affections.

Diabetes and Bright's Disease,

while its cures of **Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back** seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth or so close application to business or work, may be restored and manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment well sifted and proven inefficient, though sometimes effecting apparent cures of one complaint, they sow the seeds of more troublesome and permanent disorders. The price of our Pad brings it within the reach of all, and it will annoint seven many times its cost in doctors bills, medicines and plasters, which at best give but temporary relief. It can be used without fear or harm, and will certainly cure of a permanent cure. For sale by druggists generally, or sent by mail (free of postage) on receipt of the price. Regular Pad, $2.00. Child's Pad (for incontinence of urine in children), $1.50. Special (extra size), $3.00. Our book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures sent free. Write for it. Address

DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it necessary to caution the public against them. Ask for **DAY'S KIDNEY PAD,** and take no other.

Political Notes.

When Mr. Barnum stoops to folly, and finds too late he is an ass, what charm can soothe his melancholy, what art can hide his face of brass? The only art his guilt to cover, and make his prospects any better, is just to own up, fair and square, that he got up the Morey letter. —*Albany Journal.*

Official returns from the sixth Mississippi—the shoe-string—congressional district give Chalmers, democrat, 9172 votes, and Lynch, republican, 5873. The Vicksburg *Herald*, an independent democratic paper, has obtained the official counts of the votes thrown out in six counties, which amount to 716 for Chalmers and 4642 for Lynch. These votes, thrown out on the most frivolous pretexts, would elect Lynch without the Jefferson county box, which was surrendered by the officials at the muzzle of the shot-gun, the vote there being almost solidly republican. The republican majority in the district, on a fair vote, is at least 15,000.

In California six or seven hundred democrats on the day of the late election remembered that one of the party candidates for presidential electors, Ex-Judge Terry, murdered one of the ablest men and democrats that ever represented the state in the United States senate—Senator Broderick—in a duel. That crime against freedom was committed twenty-one years ago, and yet enough men resented the restoration of the murderer to party honors to scratch his name, so that he not only ran behind his own ticket but behind the lowest name on the republican ticket. This insured his defeat, and the election of the highest candidate on the republican electoral ticket. California will give five votes to Hancock and one to Garfield, because the democratic managers asked democratic voters to vote for a man who murdered a senator because he would not be the tool of the Buchanan administration.

New points about the rascality of the Morey letter conspiracy continue to come out. The man sent to Lynn, and who passed under the name of "O. B. Wilson," while he was securing the Kirtland hotel register, turns out to be "Colonel" H. H. Hadley, the secretary of Leonard Jerome's democratic organization called the "Independent republican club." After this book reached New York, there was found the name of "H. L. Morey" entered twice, on different dates. In each case the name was the last on the list for the day, and an examination by experts showed that the ink was fresh.

Books, Magazines, Etc.

"My Marriage." Roberts Brothers, publishers, Boston. This is a story anonymously given to us by a girl who marries a man twenty years her senior, who comes into a fortune of ten thousand a year. The family of the young bride, whose father is a poor curate, rich only in the number of his marriageable daughters, regard this as a good match. The young wife begins her story at a period of honeymoon home-sickness, discerning that she has married before she was in love with her new husband, while the latter has to renew his courtship after marriage; after the usual episodes of such wedded existence the love comes, and the story happily terminates upon a perfect sea of bliss, over which the loving couple sail out of the story. All this happiness may be found within the covers at $1.00, at Goodrich's bookstore. The story is well written and full of interest, and will of course have many readers.

—A New York man was challenged to fight a duel the other day, and being at liberty to choose weapons, proposed a trip to Boston on a Sound steamer. The challenger backed out.

—The latest stories told of the king of Bavaria do not indicate that he is no longer eccentric. His present idea is to resemble Louis XIV., and he is having a palace built, copied after that of Versailles, and which will cost 75,000,000 marks. Some time since he caused a certain general of his suite to be aroused at two o'clock in the morning to play a game of billiards. The general was sleepy, and was unable to keep from yawning during the game. The king said nothing, but the next day the general was placed upon the retired list, "for having been wanting in respect to His Majesty."

WM. H. PULLEN, Fowlerville, Mich., says: I have not rested better for months than I did last night. The "Only Lung Pad" has helped me wonderfully.—*See Adv.*

—A St. Louis journal speaks of a man who got into a row and was "freckled with buckshot."

D. R. V. G. is a purely vegetable compound; will do all is claimed for it. See other column.

—A poor rider has always an eye on the mane chance.

New Hampshire Items.

The Stark mills at Manchester contemplate an increase of machinery, which will give them an increased production of about thirty per cent.

Mr. Thomas A. Pillsbury, late deputy warden of the New Hampshire state prison, has left Concord for St. Paul, Minnesota, where he is to settle and engage in the clothing business. Mr. Pillsbury takes with him the best wishes of a host of friends who sincerely regret his departure from Concord.

The second annual meeting of the officers of the New Hampshire National Guard will be held at Concord on Thursday, Jan. 13th. A business meeting will be held in the morning, followed by a banquet. In the evening a concert and levee will be held. Gov. Head and staff and Ex-Gov. Prescott and staff will be present, besides other distinguished guests, and it is expected that the occasion will be one of the most notable military gatherings ever held in the state.

The new senate of New Hampshire of twenty-four members contains not one lawyer. The fact may be regretted before the end of the first session.

The 150th anniversary of the organization of the North Congregational church of Concord was celebrated Thursday, the 19th inst., with appropriate exercises. Interesting historical addresses were made, and a poem read by George Kent of New York.

Another Bogus "Butter."

It is announced from Chicago that large quantities of a material sold as butter is really made of lard by a process known only to a few. One establishment in that city has been doing a prosperous business for more than a year, and has a trade so extensive that shipments are made to England. There is no effort at concealment. The manufacturer claims that the compound is no more injurious than pork. A large number of restaurants are said to be using it. It is reported that other manufactories will be opened shortly.

News and Notes.

The *Cape Ann Bulletin* of Nov. 17th says: "The mackerel season of 1880 is practically at a close. Most of the fleet having been driven home by the late storm, will haul up for the winter, and but one vessel is to arrive from the Bay St. Lawrence. The off-shore catch the past season has been good, and the prices received have been generally satisfactory. The bay fleet, however, was practically a complete failure, many of the fleet leaving the grounds without taking a fish, and the fleet would have been largely the gainers had this branch of the industry been dropped. It is estimated that the total value of all mackerel and fish taken in British waters the present season will not exceed $50,000, which will go but a small way toward paying the interest on five and a half millions."

A despatch from Shanghai announces that a treaty was on the 18th inst. concluded between the United States commissioners and the Chinese authorities, regulating the matter of Chinese immigration to this country.

John Murray, the actor, is under arrest at Auburn, Me., for a debt contracted at Lewiston during his last visit there. He is allowed to appear on the stage, but the sheriff "dogs" his every footstep. There are several anxious creditors interested.

The coroner's jury in the case of the Chinamen killed at Denver, Col., October 31st, by a mob of drunken ruffians who were excited to madness by the forged Morey letter circulated by the democratic national committee, censure the city government for incompetency, and state that the mob could have been suppressed by the regular police force, had they fearlessly arrested the ringleaders.

Martin Gilbert was a drunken bully at Sturgeon Bay, Wis. After a riotous day in the barrooms of the place, he went home and pounded his little brothers and sisters. The neighbors borrowed two dozen whips at a store, and with them Gilbert was lashed to a distance of several miles out of town.

John Galvin served in the war, and recently died at the Soldiers' Home at Dayton, O. His body arrived by express at Thompsonville, Conn., on the 17th inst., and was met by the widow and children, who had prepared a hearse for its reception, but the express charge of $40 the widow was unable to pay, and the body was locked up and the hearse sent away empty. The widow with her three little children haunted the depot all the afternoon, but took the evening train for Hartford, her present home, leaving the body among the unpaid-for baggage.

Nearly two years ago John Shufelt was arrested at Great Barrington, Mass., on suspicion of having murdered his wife, who had disappeared, and Prospect lake was dragged to find the body, which however was not found. Shufelt, who insisted that his wife had eloped with a fellow named Burton Church, was at length released from custody; and since then the officers have secured conclusive evidence that the woman did elope with Church.

The mystery concerning the death of young Newcomb at Newbury, Me., on the 11th inst., has been cleared away, and proven to have been a case of accidental shooting or suicide. All suspicions of murder are disposed of.

Wednesday night, the 17th inst., in a drunken row at Springvale, Me., Owen J. Reed was shot by Melville A. Bodwell, at whose house he had been drinking, and now lies in a dangerous condition. Bodwell, who is under arrest, claims that he did the deed in self defence.

Among the recent marriages at Augusta, Me., was that of a Mr. Day of Winthrop and a Miss Day of Augusta. The clergyman who performed the ceremony remarked that he had officiated on nearly four hundred similar occasions, but could not recall an instance where the bride and groom had the same cognomen. The young man then informed the minister that his father and mother were each named Day before they were married.

C. C. Campbell, who obtained judgment against the postmaster of New York for infringing his cancelling stamp, has begun suits against the postmasters of the following named cities: Trenton, Camden, New Haven, Norwich, Norwalk, Hartford, Patterson, Newark, Elizabeth, Lowell, Worcester, Boston, Pittsfield, Springfield and Jersey City. In the suit against the postmaster of New York the United States circuit court awarded $63,000 damages and the case has been carried to the United States supreme court. So confident of the result, however, is the plaintiff, that the above suits have been begun, and the intention is to bring action against the postmaster of every office in the United States in which the patent has been infringed.

The Castle Garden officials say that the greater portion of the immigrants who have arrived in New York during the past year have had sufficient money with them to buy land and homes for themselves at the west. The immigration as a whole is far better than it has been for many years.

Gov. Pillsbury of Minnesota offers to advance the sum of $35,000 necessary to rebuild the burnt wing of the state insane asylum, and the state will be asked to reimburse him.

A man employed as a watchman at Cleveland, Ohio, returned home on Wednesday, the 17th inst., and found one of his children dead, and his wife and three other children and two visitors in a comatose condition, from the effects of coal gas, which had escaped from a base-burner stove. It is believed that all but one will die.

The wheat crop of Ohio, after a careful investigation, is estimated at 52,522,794 bushels, an average per acre of 18 3-10 bushels. This exceeds the crop of 1879 by 11,000,000 bushels, and the crop of '79 was 6,000,000 bushels larger than any previous crop in that state.

The Santo Domingo congress has appropriated $10,000 for the erection of a monument over the remains found in the cathedral in 1877, the belief being that they are those of Christopher Columbus. American governments are solicited to make contributions.

William J. Martin, a murderer under sentence of death, confined in jail at Lebanon, Mo., has been released by the sheriff's neice, aged fifteen, with whom he has eloped. She had been his principal custodian of late. Their flight, which took place early in the day, was not discovered until night. The guilty pair have been traced to a point a few miles distant. It is not thought probable Martin will be captured alive, as he is desperate, and armed with a Spencer rifle which he took from the jail.

The railway suspension bridge below Niagara Falls has recently been transformed from a wooden to an iron and steel structure. Piece by piece the immense beams, the ponderous sleepers and other huge timbers, have been removed, and their places supplied with iron and steel. And while this has been going on systematically, the use of the bridge has not for a moment been suspended. The old suspension is now one of the strongest bridges in the world.

It is announced that Jay Gould has bought a controlling interest in the New York *World*, and will at once endeavor to improve its present condition. An entire new building is projected, to be located on the corner opposite its present quarters. It will have a frontage on Park row of one hundred and fifty feet, and will extend back to Theater alley, and will take in the whole block on Beekman street. This building will not only be occupied by the *World*, but also by telegraph and other companies. The property for this new structure is secured.

The census of the Massachusetts cities puts Boston at the head, with a population of 362,535, and Fitchburg at the foot, with 12,405 inhabitants. Lowell, with 59,485, leads Worcester by a trifle both in population and valuation. Lawrence and Lynn are also neck and neck almost, Lawrence, with 39,178, leading less than a thousand. The same may be said also of Salem (27,598,) and New Bedford (26,875.) Holyoke, Chelsea and Taunton score 21,000 each, or thereabouts. There are nineteen cities in the state, with an aggregate population of 917,911, and an aggregate valuation of $1,058,960,155. More than half the population of the state is in the nineteen cities.

The following story is told by a gentleman who is intimate with President Hayes and President-elect Garfield, and whose personal truthfulness is vouched for by the Cleveland (Ohio) *Herald*: "In the little village of Bedford, only twelve miles distant from Cleveland, there lived, some thirty years ago, two charming and attractive girls. To one of these President Hayes had become an ardent suitor, but the parents of the young lady had vigorously opposed their courtship on the ground that young Hayes was poor, and gave evidence of hardly sufficient ability to warrant risking their daughter's future. The match was broken off, and the lady is to-day married and well-known to Cleveland people. The other young lady had received some attentions from young Garfield, and was well disposed to reciprocate them. Her parents, however, objected to their intimacy, giving as the reason of their opposition the poverty of Garfield and the anything but bright prospects of his future. The most remarkable coincidences of the courtship were that both young ladies lived in a village of not more than five hundred inhabitants, and both refused two future Presidents of the United States because of their poverty."

—A light affair—a lamp.

—At a recent dinner party in Newport, R. I., a lady guest was so unfortunate as to break a plate belonging to a rare set of French china. She insisted upon either mending or replacing it, but finding both impossible she sent to Europe and duplicated the entire set of about two hundred pieces.

—We ought to be a happy people now. The election must have satisfied everybody. The anti-Masonic ticket got one more vote than its own canvass showed it entitled to, the prohibition ticket got twice as many as it knows what to do with, the greenback got more than it deserved, the republicans got all they wanted, and the democrats got a great deal more than they wanted; and I can't see why anybody should grumble or feel disappointed.—*Hawkeye.*

—Tom Marshall was using quite abusive language in a Kentucky court at one time, and the judge, after one or two reprimands, fined him ten dollars for contempt. Mr. Marshall looked at the judge with a smile, and asked where he was to get the money, as he "had not a red." "Borrow it of a friend," said the court. "Well, sir," answered Mr. Marshall, "you are the best friend I have; will you lend me the money?" "Mr. Clerk," said the judge, "you may remit the fine. The state is as able to lose it as I am."

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it unmistakably yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The peristaltic action becomes copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have known cases where a single dose has been effectual.

S. JACOB, M. D., St. John, N. B., writes:

"I had occasion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expedition and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease. "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

Parties living at a distance, (except in surgical cases,) by sending a statement of their case can be treated at home.

FRANK W. MILLER.

The death of Hon. Frank W. Miller, which we announced yesterday morning, took place at his residence on Lincoln Hill in this city at ten minutes past two o'clock on the morning of Nov. 19th. His sickness, though of several months' duration, had confined him to his house for only a short time, and his decline was very rapid. The seat of his disease was the brain, caused mainly by long-continued over-exertion in the editorial duties connected with the *Portsmouth Weekly*. His first attack occurred in the early autumn, from which he so far recuperated as to be able to give some attention to his business for several weeks, but he was very seriously ill, and about election time was again compelled to take his bed, from which he was never again to rise.

Mr. Miller has been prominently before the public for many years. As a journalist he did much to direct public opinion; as a citizen he has accomplished more to improve, beautify and adorn his native city than any other man living or dead; as a public officer in many and various positions, he was prompt, vigilant and far-seeing.

Before he was twenty-three years old, in connection with Samuel Gray and Thomas W. Miller, he established this "DAILY CHRONICLE," the first number of which was issued August 21, 1852. The early death of his brother, and the retirement of Mr. Gray in a few years, left him sole owner of the paper, which he continued with the editorial assistance of his father for several years. He afterward sold an interest to Mr. George W. Marston, and finally retired from the concern in August, 1870. The paper was financially successful during all the time Mr. Miller was connected with it, and he left it with a moderate competency.

Several years previously he had bought the "Packer pasture" and adjoining land near what he patriotically called Lincoln Hill, had established his beautiful house on the highest point of the land, and had laid out its thirty acres into house lots. He opened and made streets through this land, and by draining and grading transformed a wet, barren pasture into desirable building lots. And now, where he found only a neglected, swampy pasture, a large number of comfortable houses stand, beautiful gardens are situated, and an intelligent population resides. To the development of this property Mr. Miller devoted himself when he retired from the CHRONICLE.

He took a lively interest in the scheme for a Public Park, and was we believe from the first one of the trustees who received from the late Mr. Elwyn, and held, the strip of land called Langdon Park. It was mainly through his instrumentality that the hundreds of forest and ornamental trees now growing there were set out. The time will come, we hope, when this Park, which he loved so much, will be the centre of an attractive common.

Mr. Miller held many public offices. He was elected Mayor by a larger vote than has ever been given to any other man for that office, but was legislated out of it at the time of the infamous gerrymander of this city in 1874. He had previously been a representative in the legislature for two terms, had served as assessor and alderman, and filled many minor offices. Three years he performed the duties of county commissioner. No man doubted his integrity or his capacity in these places. But his peculiar views of public economy and his outspoken honesty sometimes made him bitter opponents.

The leisure which followed his retirement from the CHRONICLE, and afterwards from public life, was distasteful to a man with his ceaseless energy, and in April, 1877, he commenced the publication of *Miller's Weekly*, a journal devoted to temperance, agriculture, science and literature. The paper soon acquired a large circulation, and was one of the most active advocates of the cause of temperance in the country. Mr. Miller continued its publication up to the time of his death.

Mr. Miller was born in this city, Nov. 19th, 1829. He was the third son of Tobias Ham and Mary (Moses) Miller. His education was received in the common schools of his native town. He commenced his career as a printer with Mr. C. W. Brewster, and afterwards worked in Newburyport, and for a short time in New York city. He married Miss Kate Weeks, who survives him; he leaves no children.

He was a man of forcible character, with well defined ideas and of superabundant energy. He was a lively and genial companion, a warm friend and an earnest opponent. He had a good word for every just cause, and hated corruption, duplicity and treachery. He had a strong love for his native city, and an equally strong affection for his profession. He magnified it, he devoted himself to it with his whole heart and soul. There were no times or seasons, but by day and by night, at all times and in all ways he was ready for its labors. He expected to die in the harness; he knew that he was sick, but he did not relax; he would not spare himself. The only rest which he has ever had, now comes in the final lot of all. His beautiful monuments are the improvements near Lincoln Hill and at Langdon Park. They survive him and witness to him. Peace to his ashes.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening, 18th inst., but little business was transacted. A petition for a gas-light on Middle street was granted. Several bills were ordered paid. The petition of the assessors for an increase of salary was postponed two weeks.

A special meeting was called by the Mayor on Friday evening, when the following preamble and resolutions offered by Alderman Sanborn were passed:

Whereas, Divine Providence has removed from among us one formerly identified with the chief executive office of our city, and one ever deeply interested in its prosperity and good government—

Resolved, That the death of Hon. Frank W. Miller deprives us of a citizen of many brilliant qualities, of unflagging zeal, untiring industry, and unswerving devotion to his principles.

Resolved, That his record is one worthy of emulation by each of us, as citizens, as municipal officers, and as men.

Resolved, That as a last token of respect these resolutions be entered on our records and a copy sent to the family of the deceased, and that this board will attend his funeral as a body.

NOTICES--I. O. G. T.

A special meeting of Rockingham Lodge, No. 37, will be held on Saturday evening, at 7:30 o'clock, to take action upon the death of Bro. Frank W. Miller.

AROUND HOME.

The newly-elected board of inspectors of checklists have organized by the choice of Richard H. Waldron as chairman, and Joseph H. Gardiner as clerk.

The headstones, fifty-seven in number, furnished by the war department for the unmarked soldiers' graves in this city and vicinity, arrived several weeks ago, but have not yet been put in position.

While Mr. Horace E. Frye, of Frye & Co 's express, was loading freight into a wagon at the Eastern depot on Friday morning, he was kicked by the horse, and had two bones of his left ankle broken.

George Baker, once a resident of Dover, and early in life engaged as trader in Rochester, but for the last twenty years residing in South Berwick, died there on the 18th of October, aged seventy-three years. Deceased was one of the builders of the Portsmouth, Great Falls & Conway branch of the Eastern railroad, and in many other ways was prominently identified with the public affairs of his time.

The fifth district school in the town of Brentwood, connected with the county farm, a few days ago closed its fall term of ten weeks, with twenty-two scholars. Miss Annabel Tucker, of this city, has taught the school for the last two terms, and we are informed is expected to teach during the spring term of fourteen weeks, beginning next March. All interested speak in the best terms of Miss Tucker's ability as an instructor, and it is a cause for gratification that the children have thus been favored with a teacher not only interested in their learning their simple lessons, but also in their moral and religious welfare.

It will be remembered that Judge C. C. Burt of Michigan, Grand Master of the Egyptian Masonic Rite of Memphis, visited this city in August last and delivered a lecture on the Egyptian mysteries, and also conferred a fabulous number of degrees on some of the local brethren. It now turns out that one Darius Wilson of Boston claims this eminent title, and declares "that C. C. Burt, Grand Master, is legally and masonically dead, although C. C. Burt as a man is still living," having been "expelled from the York rite of masonry," and cites the proceedings of the Grand Lodge of Michigan, January, 1880, and proceedings of the Sovereign Sanctuary, E. M. R. of M., of March, 1880. The most interesting part of this story is that Burt and Wilson were understood to be warm friends during the summer months, even though the former was "legally and masonically dead," and that when Burt was issuing his degrees in this city, there was a perfect and harmonious understanding between them. Very little money was secured by Grand Master Burt in this city, the prominent Masons looking askance at the "E. M. R. M."

Cleopatra!

Her power was retained by force of personal charms. She led the old "boys" captive whenever she talked "pretty" to them and showed her teeth. History should tell us that she used SOZODONT, but it don't. The preparation she used might have had another name then.

Mrs. Winslow's Soothing Syrup.

REV. SYLVANUS COBB thus writes in the *Boston Christian Freeman*:—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural and the little cherub awakes as "bright as a button." And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething siege, on any considerations whatever. Sold by all druggists. 25 cents a bottle.

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

To the Holders of Certificates of Indebtedness.

The Voting Register of Certificate-Holders is now making up at the Office of the Trustees, No. 23 Court Street, Boston, Mass. The names of parties to whom Certificates were originally delivered have been placed in the Register. Any subsequent purchaser or holder desiring to register may do so on presenting at said office to Mr. Joshua Crane a written statement of his name, address and the denomination and number of each certificate held by him, or, if so required by the Trustees, on producing the certificates held by him or a written order from the last-registered holder.

In accordance with regulations fixed by the Trustees the Voting Register will be closed on the thirtieth day of November, 1880, between which time and the Annual meeting on the second Wednesday of December, 1880, no registration will be made. Per Order of the Directors,

FRANCIS I. AMORY, Clerk.

Alexander the Great.

Wept because there were no more worlds to conquer, but the proprietors of Dr. Pierce's Family medicines, who have found it necessary to establish a World's Dispensary at London, England, in order to supply from that great commercial emporium these remedial blessings to foreign countries, where they are largely in demand, do not share the great conqueror's sentiments, as their conquests are of disease and have made happy not the conqueror, but the people who enjoy them. Dr. Pierce's Golden Medical Discovery cures all blood and skin diseases, scrofulous affections, swellings and internal soreness. Dr. Pierce's Pellets are the little giant cathartic; Dr. Pierce's Favorite Prescription—woman's tonic and nervine—Dr. Pierce's Extract of Smart-Weed, the great remedy for colds and all bowel affections, as diarrhœa, dysentery and flux. Kidney Disease of 30 Years Standing Cured.

ELK FLAT, OREGON, Jan. 12, 1880.

The second package of Kidney-Wort is nearly gone, and I enclose a dollar for another package. I am a woman fifty-six years of age and have been afflicted with kidney disease for more than thirty years. Kidney-Wort has done me more good than any other medicine I have ever taken, and I am sure will cure me.

St. Nicholas for 1881.

St. Nicholas, the charming magazine for boys and girls, edited by Mrs. Mary Mapes Dodge, has increased so much in size and number of pages during the year past that the publishers have been obliged to issue the yearly volume in two parts, instead of one as heretofore. As to its circulation, they report a gain of 10,000 in the average monthly editions of 1880 over 1879. The announcements for the coming year include a capital serial story for boys, full of exciting adventure, "In Nature's Wonderland," or, adventures in the American tropics; "Stories of Art and Artists," by Mrs. Clara Erkine Clement, a faithful outline of the history of European art, with many illustrations; "Pheton Rogers," a delightful and humorous serial by Rossiter Johnson; "Mystery in a mansion," a six mouths' serial; the Treasure-Box of Literature, directing and encouraging young people in the best reading; the Agassiz Association, fully explained in the November number; "Two English Queens," by Mrs. Oliphant; "The Land of Nod," a children's operetta, with music,—full of charming tableaux and effects; a series of beautifully illustrated ballads for young folks, beginning with the Christmas number; a special budget of fairy stories by Frank R. Stockton—the first of which is in the November number; an Indian story by "Bright Eyes," the Ponca Indian maiden; a splendid holiday story, "A Christmas with the Man in the Moon," by Washington Gladden. Open-air papers, stories of sports, and games, will be continued, with all the popular departments. Subscriptions beginning with the November issue will include "the wonderful Christmas number," of which the edition will be 5,000 in England and 100,000 in America. The price of this number, to be issued about November 30th, will be 30 cents. Regular price $3.00 a year; 25 cents a number. For sale, and subscriptions received, by all dealers, or the publishers, Scribner & Co., 743 Broadway, New York.

To Parents.—How often does a slight cough or cold lead to the most serious consequences. Keep Dr. Bull's Cough Syrup at home. Physicians prescribe it. Thousands take it. Price 25 cents.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience; to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. dm&th &cinov80

Professor J. M. Carnochan, M.D., *Professor of Surgery New York Medical College*, says: "My patients derive marked and decided benefit from it."

Professor H. Goullon, M.D., *Physician to the Grand Duke of Saxony; Knight of the Holy Cross*, etc., says: "It gives more tone than anything I have ever prescribed."

Sir Robert Christison, M.D., LL.D., F.R.S., *Physician to her Majesty the Queen; President Royal British Association*, etc., etc., says: "The properties of the Coca are the most remarkable of any known to the medical world. From repeated personal trials I am convinced that its use is highly beneficial and tonic."

Valuable in malaria; ague; malarial debility; dumb ague; low fever; marasmus; paralytic; spinal and nervous affections; female weakness; bilious and liver affections; weak throats; palpitation and other affections of the heart; epilepsy or falling sickness; weakness of the voice of actors, singers, public speakers and clergymen; colic; flatulency; sciaticness; falling out of the hair; asthma; shortness of breath; wasting diseases; etc., etc. It is gratefully refreshing and restorative after prolonged mental and physical strain. It is pleasant and agreeable, and is readily retained by the most delicate stomach. Dr. McBean (British Medical Journal) forbid it of great service in consumption. Baron von Humboldt says he has never known a case of consumption or asthma among those accustomed to its use, and that they live to a great age, retaining their mental and physical faculties to the last (Cosmos).

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

Parties living at a distance, (except in surgical cases,) by sending a statement of their case can be treated at home.

Daily Chronicle.

A Romantic Story.

Loring, the Boston bookseller, tells a very romantic story, as follows: At one time I had prepared boxes of fancy paper with a fancy initial or pet name embossed in it, and I put this up at $1 a box, and advertised it widely. One day I had an order from California, from a Miss Susie ——. The box was done up, addressed to her, and lay about here, when a young Englishman came in and wanted to write a letter. I gave him the materials and a place, when his eye caught the address on this box.

"Have you the order that came for that box of paper?" he asked.

"Yes," I replied, "'tis about here somewhere."

"Would you mind sending it up to my hotel? If it is what I think, I shall leave for California to-night."

I found it and sent it around, and heard no more about it for perhaps three months, when one day the young man, with a lady on his arm, walked in. "Mr. Loring, I want to present you to my wife," he said. "We could not leave this country, till we had thanked you for your part in bringing us together." The denouement was quite a romance. The young man was the son of an aristocratic family, and the girl the daughter of the gardener. But love levels all distinctions, and the young man felt this girl to be the chosen companion of his life. To break off the attachment his father had sent him to the Continent and dispatched the gardener and his pretty daughter to America, where the young man had followed them, ignorant of their address, and at last finding it through the chance of the box of paper.

Every-Day Recreation.

The French, and the continental people generally, understand this much better than we do. With a home-life less fine than ours in many respects, they still do manage to make of living a much more healthful, natural and enjoyable affair. Those who cannot ride may walk,—and a three-mile tramp in the clear air is a splendid tonic. If the opera is beyond or above you, concerts or the blessed music of the home-circle, need not be; and to some men we fear an evening at home, given up wholly to family enjoyments, would be a recreation as novel as any they can take! A good deal more real neighborliness would give the needed lucubration to many lives. A lively rubber of whist; a little reading-club,—even an informal call and visit with no special purpose except pleasant time-killing—is better than to drone away at the old occupations, and to turn alone the daily tread-mill. The lively winter sports are giving up too exclusively to the young people. It would do many of our young and middle-aged business and professional men good to put on their skates and learn over again the "lost art." Even the "old chaps" would get a tingle in their blood, and a zest at their hearts, which they have not known for years, if they should take a lively turn out-of-doors in the sparkling winter days. It is true, as Mr. Hale points out in his admirable book, that brain-workers and persons of sedentary habits have learned that they do not need to be able to lift a thousand pounds, or to walk eight miles in an hour, to enjoy high health. But it is also true, as he affirms, that the best physical condition—the full store of what we vaguely style vitality, or nerve force—cannot be maintained without exercise and recreation. A generation of steady workers will become an exhausted generation, and leave a progeny both few and feeble. Every-day rest and recreation is as natural and as necessary as every-day eating and activity. The secret of right living is to make each day complete. In this way we need take no thought for the morrow — nor for yesterday. — *Golden Rule.*

We clip the following from the Troy, N. Y., *Times*: "Letters pour in daily, sometimes by dozens, scores and hundreds, to Dr. David Kennedy of Rondout, N. Y., in grateful acknowledgement of the great benefits received from his "Favorite Remedy." These are all read with care and interest by him, as they frequently illustrate the power of the medicine in some new, and perhaps, hitherto untested phase of operation. But it is when a sufferer comes miles to tell the story of his deliverance in person, to grasp the doctor by the hand and greet him as a true and valued friend, that the interest in his case deepens and multiplies."

—Mr. Ruskin says: "The object of theatrical performances should be educational, and not money-making." It should be recollected that Mr. Ruskin isn't running a theatre himself.

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again, and I am glad I did, for in less than two months use of the Bitters my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

—Elephants swim better than any other land animal. In India they have been known to travel in the water for six hours without touching bottom.

D. R. V. G. is a purely vegetable compound; will do all is claimed for it. See other column.

—"I hate to be bald-headed," said he; "when a burlesque troop comes to town my wife watches me as a cat would a mouse, and every man I meet asks me how I liked the performance. It didn't use to be so."

Nervous debility, weakness and decline prevented by a timely use of Malt Bitters.

Portsmouth Chronicle.

MONDAY, NOVEMBER 22. 1880.

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

The New Judge.

Hon. Isaac Newton Blodgett was on Friday appointed to the vacant judgeship of the supreme court of New Hampshire. Mr. Bingham though highly eulogised by members of the bar from the northern section of the state, who perhaps would prefer to see him on the bench rather than to have him return to practice, had no sort of showing. Councillor Burrows seemed to fall by the hands of his friends. Mr. Pike's speech left but one course for the governer and council to pursue—to appoint Mr. Blodgett.

The new judge is a native of Canaan. He read law with Anson S. Marshall, Esq., of Concord, where he was a fellow student with Wm. N. Chase, Esq., of Concord, and commenced practice in Canaan; subsequently he removed to Franklin, and for ten years was in partnership with Hon. Austin F. Pike; of late years he has been in practice alone. He has represented his town in the legislature very creditably, and is now state senator from his district.

Mr. Blodgett, while familiar with the practice of all branches of his profession, belongs to that sound, substantial, well balanced kind of lawyers who are safe to have in a community, rather than to the combative and forward men at the bar. He is well read in his profession, and has elements which are essential to a man who aspires to be a successful judge. By this we mean that he is cool, deliberative, impartial and learned, and in the practice of his profession has ever shown amiable and gentlemanly traits. He has often been chosen as a referee, a duty which to some extent tended to develope his judicial qualifications. He stands well in his own county, and among his townsmen in Franklin no man more fully enjoys their confidence and esteem than does the new judge. The appointment is well spoken of by the profession, and the governor and council seem to have satisfied largely the expectations, in this regard, of the people of the state.

New Hampshire's Vote.

The governor and council counted and officially declared the result of the vote for presidential electors, last Friday afternoon. There were forty-one scattering votes, besides 183 cast for Henry A. Tilton and 152 cast for Henry C. Tilton, designed, probably, for Henry L. Tilton, one of the republican candidates, and 89 for Alfred L. Eastman, designed for Albert L. Eastman, another republican candidate. The highest names on each ticket are as follows:

Josiah M. Fletcher, temperance	180
Lafayette Moore, greenbacker	528
Daniel Marcy, democrat	40,794
Ezra H. Winchester, republican	44,852
Republican plurality	4,058
Republican majority	3,309

The five republican electors will meet in Concord on Tuesday, November 30th, and cast their ballots for Garfield and Arthur.

Naval Affairs.

Lieutenant-Commander Kellogg was on Friday promoted to be a commander in the navy.

Passed Assistant Engineer W. H. Simons has been ordered to temporary duty on board the U. S. S. Tallapoosa.

Passed Asst. Paymaster Deering has been granted leave of absence for one month.

The secretary of the navy on Friday issued a general order detailing an escort of marines to attend the funeral of Brigadier-General Jacob Zeilin, U. S. M. C., and providing for appropriate honors to be paid to the deceased at all the navy yards and on board all vessels in the service.

The U. S. S. Powhatan left the naval anchorage at Portsmouth, Va., for New York on the 18th inst. The Alliance sailed on the same day for Savannah, Ga.

New Hampshire Items.

At Great Falls, early Friday morning, a man named Knox, of Great Falls, accompanied by two others from Berwick, Me., named Butler and Hersom, went to the Somersworth house and demanded admittance. The bar-tender, Harvey Sanborn, refused to let them in, when Knox shot him through the lungs, inflicting a dangerous wound. Knox was arrested.

Norman P. Lovejoy, of Lyme, had his right hand caught in a corn-husking machine, Oct. 28th, crushing it so that amputation became necessary, which was performed Nov. 8th. He was doing well until the 10th inst., when lockjaw set in, and he died Nov. 16th, having suffered extremely for the last few days. He was twenty-five years of age.

Hon. Isaac N. Blodgett of Franklin has been nominated by the governor to be supreme court judge, vice George A. Bingham of Littleton, resigned.

The telephone man is busy in Great Falls once more. Four new instruments have already been ordered. An effort is being made to connect Great Falls, Dover and Portsmouth in one exchange. This will be done if sufficient encouragment is received from the citizens of Great Falls. If the wire is run to Portsmouth, telephonic connection between Boston will be complete, and those having the instruments here can do the business with Boston parties by word of mouth, without the trouble of going there.—*Great Falls Journal.*

News and Notes.

Senator Blaine and wife, Hon. William P. Frye and Hon. Wm. E. Chandler of New Hampshire, were in Brunswick, Me., on the 17th inst., and visited Bowdoin college library. They were the guests of President Chamberlain.

Siemens Brothers, cable contractors of London, have received an order from the American Union Telegraph company for the immediate construction of two new Atlantic cables.
